NEW STRETCH-OUT COMING IN ELIZABETHTON

5,000 White and Negro Workers In B’ham Protest Unemployment

By a Worker Correspondent, Elizabethton.

The strike among the textile workers in Tennessee has spread to Elizabethton, and a strike committee has been formed to organize the workers in that town.

The workers have been demanding an increase in wages and shorter hours. The strike has gained a lot of support from other workers in the area.

Reds Polled 3,392 Votes in Tennessee

The final count in the Nov. 4 elections in Tennessee gives the Communist candidate for elector, Negro worker, 3,392 votes. The Communist candidate for Governor running against the polled 1,202 votes.

The Communist candidates were both selected by the state Board of Elections, when they were unpledged to the party. In both cases they have a small but growing showing in the state, and in the Tennessee farmers' community.

Workers Invited

GALLISTON, Tex.—All workers are invited to attend the educational meeting held every Tuesday at the offices of the Southern Textile Workers' Union and get ready for the big struggle.

BRUTAL MURDER ON CHAIN GANG

ATLANTA, Ga.—A month after the brutal murder of Hoke Carter, a white chain gang prisoner at Latta, the body of Walker county, has the state prison comissioner to demand its investigation.

Past other chain gang prisoners at Latta, it is reported that Carter was first black-jacketed over the head a few times during the day because he had spoken of the death of the King. That Carter, the court wardens, killed the prisoner around the neck, and after that Carter was thrown into cold blood.

These facts forced the prison comissioner to demand the investigation.

Money For War, But None For The Unemployed

WASHINGTON, D. C.—While Hoover sings his policy fake relief, Admiral William V. Pratt announces that $7,000,000,000,000 be spent by the government for building new fighting ships and cruisers.

No money is given to the farmers or the starving farmers—false promises and ready money equals comfort for them—but over a billion dollars will be spent preparing for the next war.

Workers will not stand for this. A million farmers are in debt, the farmers' share of the wealth, must force them many farmers be turned over to workers' committees, and not to money banks. Workers must demand unemployment insurance payments.

DIE FIGHTING!

GALVESTON, Texas, October 31st.

Hawkness, seated, committed suicide in his room here, when he could not find a job.

LANDLORD KILLS FARM WORKER

ASHLAND, Mass.—The most brutal murder of a 26-year old farm worker by his landlord was revealed here on the arrest of Josie Brant, a landlord.

The body of Charles Parry, the boy-farmer laborer, was found near a pike road where he was shot in the head. At first Brant said that the boy had shot himself, but after a surgeon examined his head and discovered that the boy had a broken skull, the slave-driving landlord confessed his guilt. Brant was found guilty of a misdemeanor and sentenced to ten years in a state prison.

Farm workers and farmers in the area were shocked by the news. The murder took place on the night of October 30th.
Evict Strikers From Danville Homes on X-mas

DANVILLE, Va. - The 900 striking workers of the Dan River Mills continued their fight against a 16 percent wage reduction and other job cuts, under the threat of eviction on Christmas Day.

Under the provisions of the strike, workers with 12 months of seniority have been evicted. If the strike continues, the entire plant may be affected. The workers have been instructed to remain at the plant, and the union has arranged for temporary transportation to the plant.

Will Elizabethon Fighters Accept New Stretch-Out?

By JIM ALLEN

The State of Alabama is making an effort to organize its workers. At least it is trying. This is a difficult task, for most of the workers are Negro. But the organizers are not giving up. They are continuing their efforts to organize the workers in Elizabethon, and the results are beginning to show. The workers are beginning to understand the importance of their work, and they are beginning to see the benefits that can be derived from union membership. The organizers are working hard to make sure that the workers understand the benefits of union membership. They are teaching the workers about their rights and their responsibilities, and they are helping them to organize their own union. The organizers are also working to make sure that the workers are treated fairly and equitably. They are trying to make sure that the workers are not exploited by their employers. The organizers are working hard to make sure that the workers are able to improve their lives, and they are doing this by helping them to organize their own union. The organizers are doing a great job, and they are making a real difference in the lives of the workers. The workers are beginning to see the benefits of union membership, and they are beginning to understand the importance of their work. The organizers are doing a great job, and they are making a real difference in the lives of the workers.
