#### MANY JOBLESS SIGN PETITION **FOR INSURANCE**

CHATTANOOGA, Tenn. - Close to 1,000 signatures to petitions de-manding Congress to enact an Unemployment Insurance Bill have alrea dy been collected by the Unemployed ouncil of the Trade Union Unity League in this city.

The petition blanks are being signed by white and colored workers, both employed and unemployed, as fast as they can be gotten to them. These workers have had their fill of the fake "registration and starve" relief of the Chamber of Commerce and found temporary work for a few hundred at greatly reduced wages. The Social Service Bureau of the city has also demonstrated its fake character and Negro workers are enraged at the discrimination against em even in the doling out of boss

fed by the City soup lines daily on slop and hundreds of workers find refuge every night in the basement of the City Hall where they sleep on the cement floor with newspapers as bed linen. The signature collection campaign of the Unemployed Coun-cil with headquarters at 16½ W.) Main Street, is rousing the workers to a concerted demand for unemployment insurance, and delegates will be sent from this city to the conference of the unemployed in Washing-ton which will precede the presenting of the unemployed demands to Cor gress in January. All workers wishing to sign these petitions for a minimum wage for unemployed workers can do so at the local headquarters of the Unemployed Council.

## FARMERS IN TAX REFUND TO Mill Workers FOR BREAD HOOVER RELIEF

The fight for bread and for life tself on the farms has already resulted in individual armed struggles between landowners and tenants in which two tenants and three landowners have been killed in various parts of the South in three days Sporadic, unorganized warfare smol-ders on the farms as hundreds of thousands of farm people face cer-tain starvation this winter.

At Summerville, Ga., Tom Carter, a large landowner, killed Hop Brown, Unemployment Committee, which a large landowner, killed Hop Brown, has registered thousands of workers a tenant on his farm in a dispute over advances for the winter which Brown had asked. Brown had asked for \$50 in furniture, according to Carter, who had refused to give it to him. Carter was freed by the landowners' court. This occurred on Dec.

Following a dispute between John Smith, landowner, and Colin McKee, tenant on his farm, over a division of the proceeds of the crops, Smith killed McKee and then shot himself. This took place at Dothan, Ala., on Dec. 23rd.

# GUN FIGHT RICH EXCEEDS

WASHINGTON, D. C. midst of mass starvation Andy Mellon's treasury department of the federal government refunded \$126.823, 333 in taxes to the wealthy bosses of this country during the past year.

Hoover's Lies

This sum is more than the paltry \$116,000,000 appropriated by Congress for fake unemployment relief after so much bickering, and Hoover's talk about "runs on the treas-ury." While millions of workers and farmers are starving the government not only does all in its power to prevent any increase in taxation of the rich, but actually returns them millions of dollars while talking of a treasury shortage.

At the same time, figures rele by the government show that in 1928 income tax returns revealed that there were 511 people in the country who had a yearly income of over \$1,000,000, an increase of 221 over the previous year. These exploiters the previous year. These exploiters to the fact that two weeks before made their millions out of the workers and farmers who are now starving to death.

## In Charlotte Win Victory

CHARLOTTE, N. C .- Workers of the Pinoca Mill here, organized in a Mill Committee of the National Textile Workers Union, succeeded in forcing the mill management to retreat from a proposed wage cut.

A new system docking the weavers

was started by the assistant superintendent, Mr. Thompson, a former Philadelphia efficiency man of the United Textile Workers. This cut was to range from 50 cents up to as much as the company saw fit to take from the workers. As soon as the workers were informed of this they held a meeting on the same after noon on the spare floor of the mill followed by another meeting next day. At this meeting a committee of workers was elected and sent to the general superintendent, Hanosack. This meeting lasted two hours and the workers came out victorious.

The success of the workers was due

ganized on the basis of a mill committeee consisting of representatives from every department. This reorgan-ization fooled the spies of Thompson. who thought the union was getting weak and the time was ripe to put the wage-cut across. Imagine the surprise of the superintendent when grievance committee workers not affected by the new dock workers not affected by the new dock-ing. Hanosack asked some of the committee what they were doing there since they were not affected. The answer was: "One's grievances are our grievances and we are behind the workers who are to suffer."

All textile workers must follow this example and set to work organizing mill committees to resist the wave of wage-cuts and lay-offs.

# CHARLOTTE GIVES BATS FOR BREAD

CHARLOTTE, N. C. — Carrying signs "Tax the Rich and Feed the Poor," "We Demand Work or Bread" "Give us Milk for the Babies." other similar slogans more than 1000 white and colored workers marched to the City Hall to demand immedi-

ate unemployment relief.

In answer to the cry for bread, the whole city police force, which had been mobilized for the purpose, used baseball bats and clubs to disperse the demonstration. They were not successful, for speakers of the Un-employed Council of the Trade Union Unity League addressed the crowd of workers near the City Hall.

Bats For Bread The demonstration had been called by the Unemployed Council for 2:30 p.m., Tuesday, December 23. At about 2:15 p.m., two lines of marchers started towards the City Hall. When they were within a block of the meeting place they were met by squads of police armed with baseball bats, guns and tear bombs.
When the unemployed workers refused to disperse on orders from the police lackeys of the Charlotte bosses the police began to swing the baseball bats right and left, shouting "Keep moving.

One unemployed Negro worker was severely beaten over the head by two bully policemen with their baseball bats. He was then arrested but was later released when the International Defense lawyer appeared to defend him.

Try to Divide Worker

Employing the age-old tactic of the Southern ruling class, the police attempted to keep the Negro workers divided from the whites and brutally maltreated the colored in an effort to stir up a race riot and thus prevent the demonstration against star-vation. But black and white stomachs alike feel hunger and no boss race prejudice succeeded in dividing these workers and turning them away from a united struggle.

As the police were attempting to disperse the crowd, W. G. Binkley, of the Trade Union Unity League, began to speak from the steps on a cor-ner lot. He denounced he brutality of the police and showed how the blue coats were the bosses' tools trying to divide the colored and white workers against each other. "The unemployed workers come here demanding bread,' he said, "and the boss bovernment gives us baseball bats. If the cham-

# Needs Help To Keep On

Now never as much as before do we need the Southern Worker. Unemployment grows every day. While the government returns millions in refunded taxes to the bloated bosses, bits of paltry charity are handed out to the workers.

We have to organize and fight to keep from starving. Big struggles are coming. We must have the Southern Worker to lead the way.

### MILL BOSSES TRY TO ROUSE LYNCH SPIRIT

CHARLOTTE, N. C .- A campaign of terrorism is being waged against the Communist Party and the Trade Union Unity League by the Charlotte newspapers and the city government

Last Tuesday the Charlotte News Last Tuesday the Chartockers, in an editorial entitled "Whispering people.

Other speakers were Russell Knight, one of the original defendants in the Gastona case and Dewey Martin, organizer of the National Textile Workers Union. The speakers exposed Mayor Wilson's fake unemployment relief committee, his plan of "register and starve" and called upon the workers to fight for unemployment insurance. Martin spoke for the unity of white and Negro workers, pointing out the necessity of organizing together.

Notwithstanding the brutality of the police thugs about 1,000 persons stood around the street corners and nearby lots listening to the speakers. It is estimated that about 2,000 were kept from attending by the police.

Demand Immediate Relief
The unemployed council of the T. U. U. L. is continuing to organize the unemployed workers and announces that it will call for even greater demonstrations. The council is preparing to send a large delegation to Raleigh, the state capitol, when the legislature meets on January 6, to demand a state unemploy-ment relief bill. The Council is also collecting signatures for the National Unemployment Insurance Bill and will send a delegation to Washington in January which will participate the nation-wide unemployed confer-ence to be followed by the presentation of the unemployed demands to Congress.

In the meantime the Unemployed Council is demanding the following immediate relief measures from the City government of Charlotte: \$5.00 per person a week and \$10.00 per family a week; no evictions of the unemployed; free gas, light and water; free meals and free carfare for the school children of the unemploy-

## FAKERS SEEK TO STOP ANTI-LYNCH FIGHT

A further blind to prevent a real effective struggle against lynch law is now being perfected by the Southern Inter-Racial Commission, participated in by such upper-class Negro in an effort to stop the rising mass, as Moton of Tuskege, the leaders of movement of the unemployed for the National Association for the Advancement of Colored People and other similar misleaders of the Negro

system on the farms.

At present university professors and ministers are meeting in Atlanta to work out a national anti-lynching law. How any government law can prevent lynching is behind a work-er's understanding, since it is government officials themselves who ther participate in lynching or help cover up the lynchers.

The only method to prevent lynch ing is that proposed by the League of Struggle for Negro Rights at its St. Louis convention. The organization of white and Negro workers together and the formation of armed defense groups will do more than anything else to break down the lynch law spir it of the bosses. In the Black Belt the Negro farmers must fight for the right of self-determination—the right for them to build their own state and government as a nation in the Black Belt where they are in the majority. It is only by such a militant fight that lynching can be done away with

The fight was probably over wages and conditions of work, which are unbelievably terrible in the turpentine swamps, where the camps are noted for the brutality of bosses. Fulwood is certain to be sentenced to death.

#### Freezes to Death

Further evidence of the extreme privation and misery on the farm-lands suffered by the poor farmers and tenant farmers is the discovery of the body of Isham Stover, a Negro tenant farmer, in his hut in North Carolina. He was frozen to death, on the farm lands of Will H. Johnson, absentee owner and county commissioner.

The farm tenants are urged to any drastic action to keep from starv-ing and freezing to death as winter approaches. But nothing will be gain-ed by these individual fights. Like the workers in the cities, the farm tenants and poor farmers must or-ganize into Tenant Leagues and com-mitteess of action, refuse to pay in-ties and landowners.

On top of this the company has also announced that beginning January they will put in meters and charge us for lights.

Since last November the working day has been lengthened from 8 to 10 hours. The looms have been increased from 2 to 3. And it is now pretty sure that when the mill reop-ens in January, if they open up at all, they will surely announce a new wage-cut or some new scheme of

## **CAUSE BEHIND** LYNCH JUSTICE

By a Worker Correspondent Chattanooga, Tenn.

There are many excuses used to start a lynching party and this is one. After a Negro has worked as a tenant farmer and made a good crop of corn, or cotton or rye, or potatoes, and other things, just a word is needed to start off a mob. The farm boss will send his wife or his daughter in the way of this Negro. He may or he may not speak to the woman, but the boss will say that the "Nigger" insult-ed his wife or his daughter and that starts the fuss. A fight takes place, the Negro is shot to death, his family is driven away from his crop. That leaves the tenant's family to suffer and the crop with the boss.

That has been the case many times. Now the bosses say that lynching upholds white womanhood. Such a false statement is not so. If it were true they should have lynched some of the farm bosses.

Say, readers, let us join the Com munist Party and be the people that will die for its great cause. Let us all say: "Down with lynching, jim-crowism, segregation, and separation of the white and Negro workers in any

I am a worker in the Louise Cotton Mill, a branch of the Chadwick week. I have statements before me Hoskins Co. I have been making about \$10 per week. Today when I entered the mill I was confronted with a notice notifying all employees that over the plant would curtail to four days per week.

With these conditions prevailing in the plants, we workers find it practically impossible to live. There is only one way that we can remedy such conditions and that is thru organization into revolutionary unions, such as the National Textile Workers Union.

I am a worker in the U. S. Caswiron and Pipe Co., and have been employed there over 5 years. I began to work there when I was only 14 years old. A colored man has to stand back on every hand and he don't have any right to do by one thing and that is

work and plenty of work.

We work 10 hours a day and for all overtime below 45 minutes we don't get any pay. The bosses do not stand dresses and the necessary clothes to down. It always lasts from 6 a.m. to keep warm with. 4 p.m. But we all know he gets a wonderful salary for working ten

#### Bloated Parasites and Starving Millions

The tax refund of over 24 million dollars engineered by Andy Mellon of the treasury department exposes as clear as day the lying, and hypocritical gestures of the Hoover administration in its farcical unemployment relief measures, and writes on the wall so plainly that this government belongs to the bosses that anyone can read it.

When Hoover proposed his \$116,000,000 unemployment relief bill and certain Congressmen, playing for political support, asked for more, you will remember Hoover's rage at what he called the "run on the treas-

"According to him the treasury department was almost bankrupt.

And here comes a tax refund of over 24 million dollars to the lead-And here comes a tax refund of over 24 million dollars to the lead-ing exploiters of the country, who are the very ones who have laid off weskers by the hundreds of thousands, put them on part time, cut wages. THE TAX REFUND AMOUNTS TO MORE THAN THE APPROPRIA-TION FOR UNEMPLOYMENT RELIEF!

The government, made up for the most part of leading industrialists and millionaires, is concerned chiefly with piling up the fortunes of the employers. Fake promises of relief for the unemployed workers—so faked that a 6-year-old can see thru them—a few bushels of seed for the starying farmers to which has been added Secretary Hyde's remark that the farmers need no food-that is the concern the government feels for millions of starving people struggling thru the worst crisis this country has seen

Add to this the revelation of the department of revenues that there are 511 people in the country who receive a yearly income of \$1,000,000, and you have a clear picture of how things stand. For handful of big employers and financiers millions of dollars that can thrown away in million-dollar debut parties, for the wide masses of the papulation, extended and murder. Deaths from diseases of poverty, starvation and cold, intense suffering of millions, can be laid directly at the door of these parasites, who uphold and are in turn upheld by the capitalist system

Against such atrocious brutality there can be only one answer from the working-class—an undying fight to the end against such a system. In its place there must be set up a Communist society, a Soviet system like that in the Soviet Union where there are no millionaire parasites, no unemployment, where wages and standards of living of the wide masses are

Right now, with added force and vigor, the working class must push on its fight for unemployment insurance. From these stores of capitalist riches, from the millions spent on debut parties and pleasures by the parare demand cash funds for the starving unemployed workers and cash relief for the farmers. The demand contained in the Workers' Unemployment Insurance Bill, to be presented by delegations of unemployed from all over the country to Congress, for minimum wages for unemployed workers and families, can be filled out of the millions swilled by the parasites. Just like you must lead a horse to water, these brutes must be led roused workingclass to dig their hands into their coin boxes and fork across with what will mean a decent existence for the unemployed.

Away with the soup kitchens, charity crumbs, and degrading handouts of a bloated parasitic class! We want our due, our wages, in the cash which these parasites have so plentifully. Forward in a militant fight for unemployment insurance!

#### Warfare On The Countryside

Armed warfare for very existence smolders on the countryside. It has already flared up in scattered spots thruout the South in gun fights between individual tenant farmers and big landowners, taking a toll of two tenants dead and three landlords killed. These deaths resulted from a fight for bread. The rock bottom prices of cotton and tobacco, the taking of the whole proceeds of the crops by the landowners, the refusal of the landlords and merchants to advance any more credit for food and other necessities of life, any other means of making a living being closed to the tenants due to the severe unemployment—is resulting in widespread starvation and misery The drought has eaten up what little corn and other food stuffs the tenant may have raised to help see him thru the winter.

Winter is here. One bank after another in the farm country closes doors. For the first eleven months of this year there have been 981 bank failures in the country, more than at any other time in history. In November alone there were 236 bank failures. Most of these banks were located in the cotton and tobacco country of the south. It means the loss of deposits and cutting off of credit to the mass of farmers. It makes starvation a reality.

That is why warfare smoulders on the countryside. People do not starve peacefully, no matter how much the bosses would like it to be so. The individual fights for existence that have already taken place are only forerun-ners of what is coming. At the height of the winter there will be more widespread warfare, sporadic attacks on the landlords storehouses, on town food supplies. It will be a more intensive fight for bread itself.

But the tenant and poor farmers must learn, and learn quickly, that they can only make gains by an ORGANIZED fight. They must band them selves together in Tenant Leagues, township committees and local commit-tees of action, which will lead the farmers in their struggle. They must for-mulate definite demands from the county authorities, such as cash relief mulate definite demands from the county authorities, such as cash relief from the landowners and merchants, cancellation of debts, food and cash Only by an organized mass fight can the farmers win the

Amendments to them up as puppet law officers and even governors to carry out the will the Constitution later were supposed guarantee the freedmen all the rights of a white American citizen.

To this day, the Republican Party still uses the Emancipation Proclamation as a means of gaining Negro support, and those making most use of this are the Negro Republican po ticians. The idea that the Civil War was fought purely and simply by golden-hearted Northern capitalists to free the slaves of the South, is still accepted in many quarters by the Negro workers. Still more harmful to the workingclass is the idea that the amendments to the Constitu-Northern Republican 1 only nullified by ion were passed in al' be nullified by the wicked Southern democrats, who to this day no not give the Southern Negroes the right to vote, and other rights supposed to in power in the South, say these demagogues to the Negro masses, and everything will be hotsy-totsy.

In the first place, it was not out

of any humanitarian horror at evils of slavery that the North declared war on the South. In the North, where industry was developing at a fast pace, the bosses saw their control of the government threatened by he Southern landed aristocracy. The North was a growing industrial coun ountry based on an old outworn feu dal plantation system of slave labor. Cotton served as a powerful weapon tion owners against the Northern manufacturers and in carrying on dealings in back of the Washington government with foreign powers. was impossible for these two totally different systems of society to exis side by side under the same whitehouse roof. But once the victory of the North was completely assured, the kind-hearted Republicans smugly turned their backs and allowed the Southern ruling class, which was now harmless to Northern capitalist profits, to re-instate itself as the supreme rulers er slaves. The amendments and the Proclamation were safely tucked away in the White House files. In the South it is as if no Emancipation of the Negroes was ever declared. The tenant system on the farms is only another form of slavery to a white ruling class. In the factories, the Negro workers are subjected to an even more vicious form of slavery-wage slavery. Today, when there is no food there is starvation.

Instead of the old plantation whip -which was used with care, for an is the whole lynch law system used by the boss class to "keep the Negro in his place" at starvation, or low wages, or farm peonage. In the chattel slave days a dead Negro slave was so much money lost to the owners. Today a dead Negro worker is no one's loss but his family's.

And into this new slave system has also been dragged the white worker of the South. He too, is a wage-slave, subject to the same unemployment and starvation, to the same wage-cuts and lay-offs. The white wage slave and the Negro wage-slave - the only difference is the color.

These so-called leaders of the colored race, the ministers, and the up-per-class, have the colossal nerve to celebrate the "Emancipation." They are celebrating a piece of paper.

There is a real emancipation that the white and colored workers must look forward to today. We poor Communists have to be blamed for everything. When the Federal Farm Board didn't do anything for the farmers, it blamed the Soviet Union because it sold a few million bushels of wheat using a credit operation known as "hedging" the Chicago wheat market. The howl went up that the wicked Communists were directly responsible for the low the farmers. Hamilton Fish flopped a few more flops in his stale water, and pointed his war finger at the Soviet

Fish doesn't set up a howl this time.

Just now Fish is busy howling about something else, and he's got a whole bunch of alley rabbits joining in the concert. Lo and Behold! The Communists are responsible for the bank failures! Fish has made the discovery and he is going to have Congress adopt it in the form of a law providing for the arrest of Communists who say that the banks are failing, some-thing any blind man can see for himself, even Fish. The New York banksent, even rish. The New Tork Dank-ers picked up his cry and said they would arrest and prosecute Commun-ists who said banks were failing and that the depositors should try to save their hard-earned savings from the crash. They are doing it in Charlotte, too. We repeat, the banks are failing, and are continuing to do so in creasing numbers. The workers and farmers are suffering most from it. Who will call me a liar? No one except Fish and the whole set of financial scoundrels who would stoop to the lowest depths, of lying to hide their own corruption and robbery of the worker and farmer depositors in the banks which are closing down Another case of using the anti-Red gag to hide the boss robbery.

President Hoover is very much "concerned", we learn, about the million dollar party given by the Oil King Doherty for his daughter to celebrate her debutante. A debutante fellow-workers, is a sort of auction block used by rich society to palm off their daughters in marriage to some millionaire's son. While Doherty's picked prospective sons-in-law and their Ma's and Pa's rolled into the garage at the back of the hotel where the party was given in their limousines, unemployed workers were being fed at a bread line in that very garage. Among the guests of this famous oil briber, were many of his cronies in the government who helped him pull that famous corrupt deal across by which he made his millions. It turns out that Secretary of War Hurley was among the guests as token that the guns and army would be at the service of the oil king when needed. No wonder Hoover was "con-cerned."
