CROPPERS TO MARCH AGAIN IN ARKANSAS

ENGLAND Ar. - There is an uprising of croppers in several counties, about another march on the cotton factor in the county. This time the cotton factor is not willing to yield on the head-convert of their demands, and there is plenty of cotton around that these people can pick. There are many members of the cotton factor's own family who have been cotton pickers in the past and have suffered like these people. They feel that the cotton factor is trying to take advantage of them and that they deserve a better deal. The people are planning to organize and demand better working conditions and fair compensation for their labor.

FARMERS OF SOUTH, FIGHT Starvation!

APPEAL BY COMMUNIST PARTY

White and Colored Workers, Untie!

Two ears of corn and 12 people to feed! This is the condition of the country of croppers in northern Alabama as reported by the U.S. Department of Agriculture. In the state of at least 35,000 tenant families are living in poverty. Many are being slowly murdered by starvation and the State and County officials are not doing anything about it. People are dying by the hundreds, and the only food available is a daily ration of one ear of corn. The workers are forced to work long hours in the fields and are paid only with corn. They are also forced to live in terrible conditions, such as overcrowded shacks and lack of proper sanitation. The situation is desperate and the workers are calling for immediate action to be taken to save their lives.

The bills were passed without debate and without a vote. The government is using this massive amount of money to meet the costs of the war. It is crucial that this money be allocated properly to ensure that the war is won and that the country is not left with a crippling debt.

By a Worker Correspondent Wise County, Va. From recent statements of the members of the United Mine Workers, it will give me and I hope it will give you no cause to believe that the only picketing we have ever been engaged in is the picketing of the National League buildings. I received the SOUTHERN WORKER on January 11, 1931 and also the SOUTHERN WORKER on January 21, 1931.

I think the SOUTHERN WORKER is one of the most efficient and well-written newspapers in the country.

I believe that if I were to subscribe to the SOUTHERN WORKER I could build it as I am trying to build it now.

I have been a subscriber for the past three months and I am still subscribing because it is worth the money.

I am looking forward to seeing the SOUTHERN WORKER next week and I hope to see some new articles that I have not seen before.
