White and Negro, Fight Starvation on Farms!

A bloody, racial battle by the Negro tenants and their families at Tallapoosa and Lee counties, Alabama, against the Negro cropper has been carried out in an effort to smash the cropper system. With the accuracy of a bomb, Negro tenant families have been thrown out of their homes in large numbers, with their crop destroyed. The croppers have seized the landowner's cattle and horses to sell, or to enslave or starve the Negro tenant. A Negro tenant named James H. was shot and killed by the cropper, and his family was thrown out of their home. The croppers have seized the landowner's cattle and horses to sell, or to enslave or starve the Negro tenant.

This was their answer to the demands of the stirring croppers. For food. These farmers, among Negroes, are a number of white crops and poor, and they have been told that they must either become croppers or go hungry. The croppers have seized the landowner's cattle and horses to sell, or to enslave or starve the Negro tenant. A Negro tenant named James H. was shot and killed by the cropper, and his family was thrown out of their home. The croppers have seized the landowner's cattle and horses to sell, or to enslave or starve the Negro tenant.

The croppers used all their threats. They told the farmers they were not going to say anything against the selling of the crops. They threatened the farmers with violence if they did not do what they were told. They threatened to burn down the farmers' homes if they did not agree to become croppers. The landowners also foreclosed their mortgages. They threatened the farmers with violence if they did not do what they were told.
