Cause Arrest

Low Farm Prices — More Starvation

Cotton and tobacco prices have followed the low price of cotton in a century, as was to be expected with the growth of cotton in the South. The price of cotton is at its lowest point in history, and it is expected to remain low for some time to come. The low prices of cotton and tobacco have resulted in a decline in the value of farm products, and have caused many farmers to suffer financial difficulties.

In many sections of the South the farmers have already cut off the negros' food allowance. There will be no more food for the croppers and tenant farmers, and the only way to keep from starving is to start going and fight for their rights. The workers at Camp Hill, by organizing and putting up a struggle against the owners of the crops, have shown the strength of the workers and their determination to stand up for their rights.

Black Worker

NEW ORLEANS — Oscar

22-year-old Negro worker, apparently taken from jail at Pointe-des-Chenes and then taken to a remote spot on the Mississippi flood plain, was charged with lynching the Negro lawman of Pointe-des-Chenes. The Negro was taken to the spot where the lynching occurred, and was found with the lawman's body. The Negro is expected to be tried at an early date.
Cal. Cannery Workers Strike Against Cuts

Wage State of California have launched a well-organized drive to get Bakersfield workers to refuse to work. The drive has been roundly supported by the Southern and Camellia Hill employees and fighting for a wage increase.

The Southern and Camellia Hill employees have been working for a long time without a wage increase. The company has been refusing to negotiate with them. The workers have decided to strike in order to get a wage increase.

Northwest Farmers Put Up Stiff Relief Fight

HINZELTINE, Minn. — Farmers in the Minnesota and Montana areas are putting up a stiff fight against the new forms of poverty. They are refusing to sell their crops at the low prices being offered by the United Farmers Wholesale Co. The farmers are demanding a better price for their crops.

The United Farmers Wholesale Co. is trying to force the farmers to sell their crops at low prices. The farmers are refusing to cooperate with the company.

Communists In China Give Land To Poor Farmers

Communists in China are now helping the poor farmers to take land from the rich. This is called the "Communist Land Reform." The Communists believe that land should be owned by the people who work on it.

The Communists are also helping the poor farmers to improve their living conditions. They are providing medical care and education for the poor farmers.

FLA. BOSSES TRY TO STOP ORGANIZING

Tampa, Fla. — The Florida State Federation of Labor is trying to keep the workers in the state from forming unions. The federation is trying to stop the workers from organizing.

The Florida State Federation of Labor is trying to stop the workers from organizing. The federation is trying to keep the workers from joining unions.

Similar "investigations" are being carried on in other states. In St. Petersburg, however, the workers have been more successful. They have established a union and are fighting for better working conditions.

Chui Police Murder Three Negro Workers

GREENVILLE, S.C. — The Chui police have murdered three Negro workers. The police were trying to arrest them for some supposed crime.

The police have been murdering Negro workers for years. The police have been given a free rein by the authorities.

Illiteracy Highest, Wages Lowest in S. C.

GREENVILLE, S.C. — South Carolina is the state with the highest illiteracy rate and the lowest wages. The state is trying to improve its schools and wages.

The state is trying to improve its schools and wages. The state is trying to make education available to all children.

No attempt is made to reconcile America's economic system to the needs of the workers. The workers are left to fend for themselves. There is no government relief.
FROM THE MILLS, MINES AND THE FARMS

Begged For 8 1-2¢ Hour Job—Nothing Doing, Kills Himself

By a Worker
Daviesville, Vt.

Today Wm. E. Lynch was buried. He was 28 years old and had been a mill hand for three months. Lynch had been working in the mill for five years, but for the past three months he had been out of work. The last three months he had been living from hand to mouth, and he died a hungry man.

Lynch was a member of the local union, and had been very active in the labor movement. He had been a supporter of the labor movement and had been a member of the local union. He had been active in the local union's efforts to improve working conditions and to organize new factories.

In his last interview, Lynch had expressed his determination to continue his struggle for better working conditions. He had said, "I'm not going to give up until I see real change in the way we are treated in this mill. I'm not going to let them push me around any longer."

Lynch's death has been met with a great deal of sympathy. His family and friends have been expressing their grief and have been holding a memorial service for him.

The local union is planning to hold a mass meeting in his honor and to organize a march in his memory.

Spy Snitches On Chatta. Workers Fighting Eviction

By the Southern Worker

Mr. Brown, one of our superintendents, who is known to be a spy, has been found in possession of information that will be used against the workers. He is known to have been involved in espionage activities before, and this is not the first time he has been caught.

We are calling on the workers to be vigilant and to report any suspicious activity to the local union. We are also calling on the management to take action against Mr. Brown.

We demand that all workers be allowed to work in peace, and that there be no interference with their rights.

Keep Eyes On Supers and U.T.W.

If it's War, Let It Be Our Own

By a Worker
Birmingham, Ala.

Here are some of my views on the present situation:

We are at war, and we have to be ready for any eventuality. We are not in a position to fight against our enemies, but we can prepare ourselves for any possible contingencies. We should be ready to fight for our rights, and to defend our homes and families.

The Southern Worker is calling on all workers to be prepared for any eventuality. We are calling on the workers to be vigilant and to report any suspicious activity to the local union. We are also calling on the management to take action against anyone who is found to be involved in espionage activities.

We demand that all workers be allowed to work in peace, and that there be no interference with their rights.

Warms Farmers Against Fakes

By a Worker Correspondent
Charleston, W. Va.

Dear farmers, please be on the lookout for any false claims that may be made by our enemies. They are trying to deceive you into believing that there is a better future for you in the Soviet Union. They are trying to make you believe that you can have a better life if you join their ranks.

But the truth is that there is no better life for anyone in the Soviet Union. The only thing that is better is the fact that you will be able to live in freedom and to enjoy the rights that are guaranteed to you by the U.S. Constitution.

We demand that all workers be allowed to work in peace, and that there be no interference with their rights.

Mill Pioneer Helps Dad Organize Union

By a Worker
Manchester, N. H.

A woman who lives near the mill says she is the one who organized the Leesville Woolen Mill and tells everyone near the mill not to play with it as we are. She is a member of the Communist Party, and she tells the workers to fight against the bosses.

She says that the bosses will never let the workers have any say in the matter, but that they will have to fight against them.

We demand that all workers be allowed to work in peace, and that there be no interference with their rights.

Deadly Disease Grips Ky. Striking Miners

(Ky. Striking Miners (Continued from Front Page))

A woman who lives near the mill says she is the one who organized the Leesville Woolen Mill and tells everyone near the mill not to play with it as we are. She is a member of the Communist Party, and she tells the workers to fight against the bosses.

She says that the bosses will never let the workers have any say in the matter, but that they will have to fight against them.

We demand that all workers be allowed to work in peace, and that there be no interference with their rights.
Will We Permit Third Winter of Starvation?

A record width of mass unemployment and destitution has caused many workers and poor farmers and their families. From the low price of the A. F. of L. workers are forced to realize that unemployment is greater now than at any time in the history of this country. The Great Depression of the early 1930s and the recent depression of the 1950s are nothing compared to the present situation. The situation is far worse today than it was at any time in the past. Unemployed workers are out of work for a long time and are forced to live on government relief, which is not enough to sustain a family. The cost of living is also rising, making it harder for people to survive. The government has done little to help the unemployed. They are not being given enough money to live on, and they are not being given enough job opportunities. The unemployment rate is still high, and there is no end in sight. If we do not do something soon, we will see a third winter of starvation.
