50,000 WHITE, NEGRO WORKERS AT THOUSANDS DEMONSTRATE AGAINST COP BRUTALITY

Workers Stop All Evictions In Chicago, Fight For Relief

CHICAGO—A mass funeral procession of tens of thousands of white and colored workers bore the bodies of the three Negro workers murdered by the Chicago police, to the railroad station, where they were put on a train and shipped to their places of birth in Mississippi and Arkansas.

The United Fronts of the Fronts trade unions united thousands of white and Negro workers and turned the huge mob in the Pullman Strike Hall, where the bodies of the workers were laid out, to pay tribute to the dead workers of the class struggle.

On Thursday night more than 7,000 white and Negro workers were demonstrated in Washington Park following a demonstration of 5,000 workers on Wednesday night. The demonstration of 5,000 workers on Monday, immediately following the brutal massacre carried out by the police against workers protesting an eviction.

An eye-witness of the massacre told how the police jumped out of40-ton boxcars and fired point blank with guns and machine guns into the demonstrators, killing three of the number. The workers were defending themselves, and three of their number fell dead after the first volley and a number of white and black workers were taken to hospitals, in which they are about to defend themselves.

Mayor Cermak was forced to order all witnesses stopped. The workers are continuing their mass movement, directed at the local and state government and black bosses, for relief for unemployed workers.

Mass Protest Forces Release of 22 Croppers

BAMBERG, Ala.—The protests of thousands of workers throughout the country and the outspoken fight of the workers against the police, especially the International Labor Defense, have forced the Alabama ruling class to release 22 of the 23 croppers arrested here when the landowners tried to use the terror of the police and the croppers were subsequently released on bond.

The releasing the 22 croppers from jail the court gave as its reason that there was "insufficient evidence." The workers are not fooled by this, for they know any "evidence" is sufficient in a Southern court is considered a Negro when it is so considered. This is the reason they were released.

The police are now on the lookout for the next move of the workers, who are still fighting against the terror of the landowners.

(Covering an anticlimate event, this tawdry melodrama was wounded in a shoot-out by a white man in an auto when they met in a picnic gathering of Negro near city limits. Red Headmen.

Three young Negro workers—Bill Braxton, 21, John James, 26, and David James, 27, were killed by the police and armed race-patriots in an atrocity during the community war. The dead men were identified as headquarters for the labor movement.

The local Negro newspaper is appealing to the community to raise $500 to cover the costs of the investigation into the murder, charging that the Negro workers were shot by a group of vigilantes.

**Canned Fakery For Unemployed**

By a Worker Correspondent

I have been observing the canned goods industry in my area. The companies are producing milk for the market, but the quality of the product is questionable. The workers are being paid low wages and the conditions are substandard. This is a clear example of how the capitalist system exploits the working class.

**Black Judases in the Lynch Mob**

In the realm of terror unleashed by the white ruling class and fed by the racist newspaper of the Negro workers of Birmingham, using the shooting of three society women as an excuse, local Negro business men are taking sides with the white bosses. Together with C. 1. Allen of Alabama, the local police departments and local white bosses, the Negro business owners of the city and the Negro "welfare" organization have offered rewards for the capture of the "Negro." 

Rewards now total $2,700. This is one of the methods used to get up a lynch mob. These rewards keep alive the massacre, each member and every aspect of the white ruling class bearing in to show that "some damn Negro" is the guilty one. This attitude which has contradictory stories told by the white society women who were supposed to have been held captive by a Negro in the woods for four hours at the point of a gun after he had raped them—is being used as an excuse to rob Negro homes in Birmingham, the upstart unity movement to counteract the "welfare" group.

The lynched rape heap the city. Two Negro workers have already been killed in cold blood, and three others wounded. 

In Chicago, leaders of the M.A.A.C. P. and Negro business men and physicians held a meeting on the eve of the order of three unemployed workers by police gunmen for fighting violence. At this meeting they called upon the police to stop the white unemploying against violence and starvation. The blood of the three working men is on their hands as well as on the hands of the white ruling class.

In the same way these black Judases are trying to sell the lies of the six Scottsboro boys to the state of Alabama and the lives of the Camp Hill peasants for money and "peace." 

**Oppressors Wiping Out Native African Peoples**

The International Conference on African Children, recently held in Geneva, was held not in the interests of the unwisely persecuted children but to extend imperialist exploitation and oppression in Africa.

All the official delegates, white imperialist settlers, professional men, priests and government officials, all rich members of the imperialist peoples, only 7 Negroes were present and one from the Gold Coast was forced to stand behind the door and listen to the discussion of the African Children.

He joined in that Conference in order to conceal the fact that the demand of the African children was due to the imperialist policies.
