Mass Power Will Free the Scottsboro Boys

Within a few days the Alabama Supreme Court will have the appalling case of the Scottsboro Boys on the bench. A躺在 a lower court is a question in a higher court. Eight young Negro boys have been on death row at the hands of the Sheriff’s deputies and the Alabama State Police. The boys were convicted and sentenced to death by an all-white trial court. Their appeal to the Supreme Court has been filed, and the case is ready to be considered.

There are many who believe that the Supreme Court will reverse the lower court decision. If so, the Scottsboro Boys will be freed. If not, they will be executed. The Scottsboro Boys are not the only victims of this brutal police terror. There are many other cases of injustice and oppression in the South, and the Scottsboro Boys are just a small example of the conditions that exist.

A New Era in the South

The Scottsboro Boys case is a symbol of the new era in the South. The South is no longer the same South that existed before the Civil War. The South is a different place. The South is a different people. The South is a different country.
