LYNCH PAPERS INCITE

BIRMINGHAM, Ala. — Another rape case which might have resulted in the lynching of a Negro woman or a victim, collapsed within a week after Birmingham newspapers were circulating leaflets inciting to lynching. The incident occurred on the night of October 27th, when a mob of white men gathered in front of the home of a Negro woman, Mrs. Mary Boy, 18-year-old resident of a rooming house in the red light district on North 20th street.

The mob, armed with clubs and lances, attacked the house and forced its occupants to leave. After a brief struggle, the Negro woman was seized and dragged away. She was then held for an hour and then released, unharmed.

The above headlines from a recent issue of the "Birmingham Age-Herald" indicate the prevalent atmosphere of violence and hatred in the city. The newspaper is notorious for its racist and inflammatory articles, which are often incendiary and encourage violence against Negroes.

The storm in Birmingham has been compounded by the recent lynching of a Negro man, who was beaten to death by a mob of white men in downtown Birmingham.

In conclusion, the situation in Birmingham is tense and volatile. The city needs immediate action to prevent further violence and to ensure the safety and rights of its citizens.
United Front Burning Need in Fight Against Hunger and Terror, Say Communists!

NEW DEAL HITS TOILETERS

It is now clear that the Roosevelt-Roosevelt policies are not strong enough to end the economic depression that has brought to the working classes' lives much suffering and discontent. The New Deal, with its efforts to stimulate consumer spending and increase industrial output, has failed to fulfill its promises. The unemployment rate remains high, and the living standards of the working class continue to decline.

The Southern Worker here quotes the report of the National Committee of District 17, (Alabama, Georgia, Tennessee) which indicates that the unemployment rate is still very high. The committee states that the government is not doing enough to alleviate the situation. The report emphasizes the need for a united front of workers to fight for their rights and to force the government to act.

The committee also calls for a general strike to protest against the government's failure to act. The strike would be a show of strength and determination, and would force the government to listen. The report concludes that the workers must be united and prepared to fight for their rights and their future.

SEAMEN WIN AID BY MASS ACTION IN NEW ORLEANS

(By a Marine Worker Correspondent)

NEW ORLEANS, La.—On October 23, over 1,250 seamen marched to the Canal Bank Building, where the office of Mr. Early, state administrator of the New Orleans Strike Relief Fund, is located, to present our demands to his secretary. Mr. Early took the back way out when we came after hours wait in the building, our elected committee of five seamen finally forced the “Monkeys” to set the coming Thursday (a definite appointment to consider our demand.)

 Didn’t Stop Organizing

During the interval we popularized and organized our fight and our committee and we have continued to do so. We have been at work seven hours a day, seven days a week, and we are determined to get what we want. We are not going to stop until we get our demand met.

Textile Workers Fight Misleader

Red Scare Raised

(By a Textile Worker Correspondent)

DANVILLE, Ky.—Richard Dixon, president of the Danville U.T.C. local 207, certainly is doing well with the “Red Scare” campaign. He has been exposing the “Communists” in our local and has helped in the fight against the “Communists” in other locals.

Just before the voting for the textile union the bosses and everyone should get 40 hours per week. Since then we have been getting only 12 to 24 hours per week. This has caused the workers to become disheartened and working short hours with the workers.

We are trying to build up an union of our own, not the company’s union, and we have a meeting every day where we talk about the company. We are not going to let the company get away with it. We are going to stand up for our rights and fight for our union.

To End Misleadership

She tried to get her expelled once but the workers voted for her. The meeting was held in the local hall and was well attended. The vote was six to four in favor of her and the workers all voted in favor of her. After the vote she suspected one of the workers because they were Communists, too. She wanted to get rid of any worker who was suspected of being a Communist and she did so.

Four Demands Won

Following are the demands we gained:

1. From 65c to 45c a day for food allowance.
2. From $1.00 to $2.50 a month clothes allowance.
3. From $2 to $3 a month allowance for tobacco, 2 extra rations.
4. Immediate issuance of tooth paste, tooth brushes, etc.

Then finally Miss Dixon, the executive secretary of relief, was forced to send our demands and complete data on relief to Washington, D.C., with a request that the present budget be raised to meet our demands.

At the open air meeting Thursday night, the workers and their families came to meet the demands and to see that their voices were heard.

one way of breaking the strike is by driving their big car up and down the street, but we held our open union meeting in Fairfield in spite of the police. A white woman talked and a colored man spoke.

We must not hang back on account of the T.C.I. President. We are not afraid of the police, and we are going to keep up the fight.

The falsifiers keep us from fighting the workers who are the ones that want us. The T.C.I. President leads the fight against the union and these workers won’t stop us for long.

The Kipchak and T.C.I. bosses control the Welfare so it is hard to get relief. Rainier is not a union man and he is not going to fight. The worst thing about it is that the leaders of the union won’t fight the discrimination. The unorganized workers are going to stand up. Instead, these falsifiers, join the bosses in fighting the union. This is why we need a union. The falsifiers keep us from fighting the workers who are the ones that want us. The T.C.I. President leads the fight against the union and these workers won’t stop us for long.

We are going to build the union and fight against the mills. We file cases and file cases as leaders so we can fight for better conditions at Rainier. The Communist Party will help us in this fight.
COMMUNISTS IN THE LABOR UNIONS

“We intend to go to bat with the Communist element which has worked its way into our organization,” Robert R. Moore, president of the Alabama State Federation of Labor, announced Saturday.

“We have an adequate base in Alabama to meet the constantly increasing Communist activity. We can easily control the few known Communist elements within the ranks of organized labor,” he declared.

A Communist “coup” already is under way in Alabama, Mr. Moore disclosed, with the vice president of each of the eight Alabama districts making personal surveys of his district in an effort to determine the extent of the infiltration and, when possible, to root out Communists already turned over to the authorities. (From the Birmingham News, October 22, 1934.)

If you don't have it, Mr. Moore, that the Communist Party is trying to build the union movement is in his own words, “but what work tirelessly to build the unions day by day?”

(1) Do you have been successful in the struggle against the Communists and the union movement and strikers that there is no more to do along these lines? Have you nothing better to do than to attack members of the labor movement, you are supposed to lead, who are carrying on the struggle on the strike front?

(2) Are you ignorant of the meaning of “trade union democracy”? Don't you know that the very foundation of good trade unionism is the principle of union democracy against any work for his race, color or political opinions, so long as he is willing to join with all other workers in the field of the mass work front against the bosses?

(3) Who gives you the right to “summarily cease” any union member if you don't know that the principle of union democracy against any work for his race, color or political opinions, so long as he is willing to join with all other workers in the field of the mass work front against the bosses?

(4) You are well aware, aren't you, Mr. Moore, that your announced purpose of turning over names of union members to the police, in violation of the law, is another example of your violent assault upon the very foundation of the trade unions?
