Croppers' Unity Call Answered by Union
In Arkansas

FIGHT AAA TOGETHER

MONTGOMERY, Ala.—Accepting
all that has been done by the
American Federation of Labor
in the fight against the AAA,
the Great American Labor
Union has declared that the
members of the AAA are in the
right.

The S. F. P. A. decided not to join
the struggle against the AAA
but has decided to work with
the agricultural unions to
protect the farmers.

The resolution was adopted
by the S. F. P. A. meeting
in Montgomery, Ala., last
week.

The resolution was: "The S. F. P. A.
decided not to join the struggle
against the AAA but to work
with the agricultural unions to
protect the farmers."

The resolution was read and
approved by the S. F. P. A.

Demand Fascist Laws Against Workers' Party

WASHINGTON, D. C.—An open call to outlaw the Communist Party and the formation of a special national political committee to demand the reorganization of the revolution movement were recommended by the Chamber of Commerce of the United States, leading group of industrialists and employers.

This follows the recent demands for more drastic wage cutting and open shop conditions by the National Manufacturers' Association. In a specially prepared circular sent to all members of the Chamber of Commerce, warned that the government had "been too lenient in dealing with the propaganda intended to overthrow the government by the economic order."

The fascist threat against the Communist Party portends every working class political organization in the United States, and every trade union. Workers of all political beliefs, from the A. F. of L. unions and the Socialist party to the Wobblies, have been called upon to form a united front to defend civil rights against the menace of fascism.

Not Wanted in Ranks of Militant Workers

SAN ANTONIO, Tex.—Many of the Mexican pecan shellers in San Antonio are wintering while the Northern market is closed, and the new Southward is making a "study" of the industry before any efforts are made to industrialize the area. The new plan has been proposed to have gone into effect October 20, 1933.

The code had to reduce the working season of 16 weeks to 10 weeks, the price of the pounds to $1.25 per 100 pounds, and guarantee the workers $1.25 per 100 pounds. The workers are to have the right to vote for their union, and the new Southward is making a "study" of the industry before any efforts are made to industrialize the area. The new plan has been proposed to have gone into effect October 20, 1933.

Tarrant Relief League
To Join Unions
Oppose Labor Fakers
TARRANT, ALA.—About 35 white and 35 Negro workers attended the meeting of the Relief League of Tarrant City which has been conducted continuously by the Tarrant Council of the International Association of Electrical Workers, the union which was founded by A. A. Towns, who is leading the movement. They are planning to start a wage-striking plan in the southern states.

Set Conditions to Join

A representative of the Hod Carriers Union spoke and members of the white and Negro workers were told that if the Hod Carriers Union proved itself capable of organized labor, then they might be given a chance to organize. They are making sure that they can elect the officers they want and carry on a national strike for relief for others as well as for themselves.

The League recently was joined by one of its organizing committees, which is now working through organizations of a national labor committee.

TROOPS THREATEN HOSIERY STRIKERS

ROSEVILLE, Ga.—Lieut. J. C. Keene requested National Guard troops to protect the strike, now under way, at the International Hosiery Mill, describing the situation as a "serious" one, in which the troops should act as "mounted guards." By this he means that the troops should act as mounted guards to prevent the workers from dispersing and returning to their homes.

The guards were immediately mobilized in the vicinity of the mill but had not been sent in at the time of the strike. The mill is located near the border of Mississippi and Alabama. The workers have stopped work and are refusing to accept the terrible strike conditions.

The miners' strikers have shut down the plant and are determined to win their demands. They are asking for an increase in wages, better working conditions, and the abolition of the slave system.

MINERS WALK OUT

Jasper, Ala.—Miners in the Mine Branch of the Southern Federation of Hosiery Unions walked out practically 100 per cent in protest against the company's strike-breaking tactics.

The miners refused to be tricked out, and the company was forced to accept their demands.

The strikers have been able to obtain the necessary funds, as well as to purchase the necessary property, to start the strike. They have organized a strike committee, and have elected a strike leader.

The strike is expected to last for several weeks, and will involve a large number of miners.

Unity Only Hope For White and Negro, Southern Author Says In Letter

"Again and again in my own work and in the work of other workers, I have seen the importance of unity and cooperation among our ranks. When we are united, we are strong. We can overcome the obstacles that stand in our way. We can win our demands and place our society on a sound and prosperous footing.

"We must remember that we are not alone. We are part of a larger movement, a movement that is building a better world. We must work together, and with the support of our allies, we can succeed.

"The future belongs to those who believe in the power of unity and cooperation. Let us march forward together, and let us create a world that is just and equitable for all.

"Signed, Southern Author"
NEGREOS TREATED LIKE DOGS ON CWA

(By a CWA Worker)

FAIRFIELD, Ala.-On the C.W.A. Union's picket line here, a Negro who had been ordered to leave the yard by order of the company's white guards, was ordered to leave the yard again by order of the company's white guards. The Guardsman said: "We don't want no niggers around here."

Negroes have been treated with the utmost respect by the white guards, who have been known to call them "boys" and "men." The Guardsmen have been known to carry water for them, to help them carry their baskets, and to assist them in various ways.

The guardsmen also have been known to demand that Negroes leave the yard, and to prevent them from entering the yard. The guardsmen have been known to hit Negroes with clubs and fists, and to threaten them with guns and clubs.

The guardsmen have been known to keep Negroes from going to the union meetings, and to prevent them from entering the railroad yards. The guardsmen have been known to chase Negroes out of the railroad yards, and to beat them with clubs and fists.

Florida Citrus Workers Strike Against Pay Cut
In Spite of Misleaders

(By a Farm Worker Correspondent)
WINTERHAVEN, Fla.—The Florida Citrus Exchange was shuttered down on Dec. 17 by a strike. The pickers struck because they are not getting their pay cut from 12 cents to 10 cents a box.
A F. L. Leaders Try to Stem Strike
The strike was the first of its kind this season in the fruit belt. There is an A. F. L. local here and its leaders have been trying to keep the pickers from simply walking out of their jobs.
No, they are not getting all of the packing houses down without any protest or getting any relief. They are many people that cannot get anything to eat all.
What will be the fate of the packed boxes?
We will have to see how the strike develops.

Blacklisted Textile Worker Calls To Learn Lessons of Strike Betrayal

(BY A UNION OFFICIAL)
BERSEEMER, Ala.— The T. C. I. is trying every way possible to force every company union, at the Rockford, Ohio mine. Jack Brown and Will Jones are the main company union officials in the mine. Jack Brown is the chief official in the company union. Will Jones is the company's first-stringer, a Negro.
Try to Starve Union
Many of the miners worked a small mine in this community, where some win some pretty long hours. They were trying to do this so that they could be stranded, for their families to eat this winter. Will Jones, gone around over the campus, watching the boys. He has been very busy, trying to find out how much they have. If they have any $200 worth of vegetables or more in a few dozen chickens, he will report back to Jack Brown and several days later the union man will receive a card from the company, telling him that he has been cut off. This was, the company officials are trying to starve the union man up in the company union.

Promises Made By T. C. I. Bosses To Prevent Strike
Now Forgotten As Workers Throw Out To Starve

(By a Steel Worker Correspondent)
BIRMINGHAM, Ala.—I cannot see every worker in the T. C. I. I would like to see each of my fellow workers and have a face to face talk about our conditions and what we can do to help ourselves.
We should not be satisfied with the resolutions we have in the T. C. I. and the resolutions of the company union.
At a meeting of the workers in the company union, resolutions were passed that the company union has a letter to all the managers and stewards that will cut the 10 cents an hour.
When did you say to fire this way? All those who had been working two years or less and all undesirable workmen, will be cut out.

YOU HOLD THE ANSWER
PLAN OF INDUSTRIAL RELATIONS
"PEACE AND HARMONY"
"FAIR DISCERNMENT"
"STRIKES DISCARDED"
"GOVERNMENT ENVELOPES"
"STRIKING DISCOURSED"
"SEND MONEY ENVELOPES"
"BE SURE TO VOTE"

Company Union Fail
But the company union's creeping hình is passing away. The workers, after a long fight, have forced the company union to admit that they cannot use the company union's name for the workers. They have cast themselves to the company union and they have opened the company union union to the public. It is the only way to win.
THE SOUTHERN WORKER

THE COMMUNISTS AND THE FIGHT FOR UNEMPLOYMENT INSURANCE

15,000,000 Jobless Workers in the United States! Jobless through no fault of their own!

 Millions of hungry, cold, miserable men, women and children, starving because there is too much food produced. Homeless because too many buildings have been built. Cold because too much coal has been mined, and too much cotton and wool grown.

Employed As Well As Unemployed

Not only do we speak of the jobless. The number is growing every day of the New World, as long as men live, and it is growing. There is no employed worker who is not threatened by this—wage cut, layoff, strike, closing the mines, the mines, the mines—slaughter. Under the NRA plan for solving big corporations increased 800% in nine months last year—and the misery and exploitation of the mass of workers increased just about the same.

Roosevelt Promised a New Deal

In 1929, the Communist Party saw this—and launched a struggle for unemployment and social insurance. Tirelessly the Communists have carried on this struggle, patiently explained to the workers across the country that the workers should be able to live with both feet on the ground—without having to choose between the two.

United Front of Workers

Workers have been tired and sick from noise for demands insurance. Newspapers and radio networks have been filled with propaganda against us. The Workers' Unemployment and Social Insurance Bill had been written, a half dozen times, “bi-color” bills have been pressed forward to black and white-minded, and the movement for real unemployment insurance.

In the last years growing support for this with the nation, New Deal government, and the employers. It is the workers, the labor leaders and industrialists who will be forced to give a place, a place for the bills to pay for this insurance when the Workers' Bill is passed. They have been, and will continue to fight it. The Workers' Bill.

The Red Scare

As in every case where the workers are caught in a political struggle, real issues are being raised from the bottom—the cry, “Reds” are at work. And we want to speak to the workers directly to this non-Communist workers on this question.

The Communists were the first ones to bring forward the demand for real unemployment insurance, the first ones to demand the right to organize and strike for this cause. The Communists are not only the only ones who have ever organized the unemployed, but they are the only ones who have given them an example of how to do it, and how to do it successfully.

The Communists have been among the most active workers who have participated in the fight for the unemployed. The Communist Party has been actively involved in the various labor struggles throughout the country. The party has been a part of the movement for a new deal in the United States.

The party has been involved in the struggle for unemployment insurance, in the struggle for universal health care, in the struggle for the right to organize and strike for a better life.

In conclusion, the Communist Party is a political party that is dedicated to the struggle for the rights of the working class. The party is committed to the fight for a better life for all workers, and has been involved in the struggle for a new deal in the United States.
