Southern Toilers Subjected to $4.50 Weekly Pay Scale by New Drive of Bosses

Pay Cuts Follow Discarding of N.R.A.

The general meeting of the Supreme Court decision was anticipated even by General Hugh Johnson, original strike-breaker-in-chief of the N.R.A., who said, the day after the decision: "I have no doubt that within 24 hours we shall see a process of predatory price-seeking, lengthening of hours, loss of wages and lowering of wages of labor increased." Many firms, especially in the South, revoked their wage scales downward and those hours upward, the morning following the decision. In many instances, children are being made to replace adult workers. Stretch-out, doubling up and all other forms of speed-up are being put into practice everywhere. Textile plants in particular are planning sharp wage cuts and increases in working hours. Several plants have already announced a change of four to six hours and are forcing their skilled workers to operate on a weekly wage as low as $27. Further cuts up to 25 per cent are being prepared. In many Southern lumber mills wages have been reduced from the 24 cent an hour minimum to 8 cents and, in some cases, even 6 cents an hour.

Communist Party Appeals to S.P. for United Front

Enrollment in C.C.C. Camps To Be Doubled

WASHINGTON, D.C.—A doubling of the C.C.C. enrollment, to bring it to 150,000, has been announced, as the government now faces the problem of war preparations. In the militarization of the American youth, benefits against the national food and military authorities under Army authorities, are constantly growing. The number of young adult youths has been "deported" from the camps. More than 10,000 young men were "deported" from the camps in the last year, and in the present, they are striking and protesting. It has recently been revealed.

Why Was N.R.A. Scrapped?

Main duties performed by the N.R.A. were making, if the N.R.A. was no longer needed, then why did the Supreme Court end it on April 20th?

The answer to this is that the N.R.A. was revolutionary. The Supreme Court ruled that the N.R.A. was unconstitutional because it attempted to abolish the labor unions. The labor unions were the workers, and the N.R.A. attempted to control them. This was a clear violation of the workers' rights.

The N.R.A. was designed to control the labor unions and prevent them from striking. The labor unions were the workers, and they had the right to strike. The N.R.A. attempted to prevent them from doing so, which was a violation of their rights.

The N.R.A. was also designed to control the prices of goods. The labor unions were the workers, and they had the right to set their own prices. The N.R.A. attempted to control the prices of goods, which was a violation of their rights.

FIGHT FOR H. R. 2627!

Wagner Bill A Blow At Labor

Advertised as the new Wagner Act of labor, the Wagner Labor Relations Bill is backed by the top leaders of the A. F. of L. and by the leading capitalists. The bill has been described as a blow at the organized labor movement. It is designed to stamp out the organized labor movement and to make it impossible for the workers to join together to improve their conditions.

The bill, if passed, would give the government the power to direct and control the labor movement. It would give the government the power to determine what is and is not a union, and it would give the government the power to determine what is and is not a strike. The bill would also give the government the power to determine what is and is not a violation of the law.
