# INDEPENDENTS PLAN WAR ON ICE TRUST

### Will Call on Board of Aldermen to Ask for Docking Privilege.

About 200 independent ice dealers gathered at 545 West 48th street, yesterday afternoon, to discuss plans for resisting the attempt of the Ice Trust to increase the price of ice and to outline ways and means of preventing a repetition of last year's ice famine. The meeting was held behind closed doors, but it was stated later that the fight would be carried to the Board of Aldermen and if necessary

to court to prevent the Ice Trust from raising the prices.

A committee of six was appointed to call on the Board of Aldermen tomorrow. call on the Board of Aldermen tomorrow, and ask the board to provide them with docking privileges. They assert they can get ice cheaper than the Ice Trust is soutemplating charging, but the block in the way of getting ice is that the independents have not got the docking privilege which the Ice Trust freely enjoys.

It was stated that practically all those present at the meeting were of the unin imous opinion that

The ice crop this year is heavier than in the last ten or more years, and there is plenty of it available, the dealers say; but the trust is going to raise the price just the same as they have done in the years when the ice crop was very poors While the ice magnates said last year that should the ice crop be good they would surely reduce the price of ice in order to relieve the suffering that was created by the high cost of ice, yet it is the Fourth precinct police station going to raise the price over last year, and instead of preventing suffering of the Gorski said Appelbauer was showpoor it is going to make the suffering

At any rate the independent ice men are philanthropically determined to fight the trust and make it bring the price of ice down and try to get docking privileges so they can bring in ice of their own and sell it at a cheaper rate.

The independents will hold another meeting at 545 West 48th street next Sunday to hear the report from the committee that is to call on the Board of Aldermen tomorrow. At any rate the independent ice

"This Bayne-Phillips amendment we consider superior to others now pending, in that it omits insurance pending, in that it omits insurance for 'sickness, invalidity and old age,' matters so remote as to merely con-fuse the present issue of compensa-tion for accidents. We also believe, that in permitting the Legislature at a future time to provide against ac-cidents, through 'some State or other system of insurance or otherwise,' but necessary latitude has been given to

future Legislatures,

"It is our opinion that it would be particularly unfortunate at the present time to limit by constitutional enactiment the method by which the Legislature for years to come shall provide for compensation for indus-tital accidents. Experience from Burope and American States is piling up rapidly and the wisdom of today, which would exclude State insurance, for example, may prove the folly of tomorrow. It is the fundamental law which is to be amended, not a statute, and the necessity seems plain for com-prehensive amendment."

In the opinion of other members of

the Labor Legislation Association, it is very likely to happen that with im-provements in the machinery of the agvernment, the sound judgment of the people of this State may at some future time favor much more radical egislation than would be supporte

The association is appealing to the public to support the Bayne-Phillips amendment and is pointing out the necessity of compromising on unim-portant details for the sake of unanon the general principle of permitting future Legislatures to do what the people then want to have done. Attention is also called to the fact that an amountment to the constitution must be agreed to by two successive and separately elected Senates before it can be submitted to the people for ratification and that disagreement be-tween the present Senate and As-sembly as to the form of amendment would result in the postponement of any legislation requiring a constitu-tional amendment until the year 1916 at the very earliest.

Says Percy Hammond in the Chi-cago Tribune: "The charm of the Irish players is to me their unfalter-ing presentation of unreal speech and Carnegie Lyceum was crowded last night by guests and friends of the pupils of Harry Lester Nettler, who appeared in a planoforte and song recital. Gautier's "Le Secret," witten for twelve hands, and "The Poet and Peasant," by Suppe, for eight hands, were the main offerings. The "Kammenoi Ostrow," by Rubinstein, played by Miss Kate Feinberg, evoked much applause. The concerto of Mendelssohn, played by Miss Wilhelmina Schneider and Mr. Nettler pleased greatly. "Angel's Serenade," sung by the Misses Annette Daniell and Christina Herrlich, with violin obligate by Salo Flisler, was warmly received, It was followed by an encore in the intermezzo from "Cavaliera Rusticana," Mr. Nettler gave as a vocal solo, Weidt's "Wie schon bist du." Le Socialiste publishes the annual report of the Party Committee, issued by the secretary, Dubreuilh. Unfortu-nately, the increase during the past year is not so great as it ought to be-only about 300. In some districts, indeed, a diminution is recorded. Dubreuilh attributes it to the fact that during the election year 1910, and have not remained in it. The Parliamentary Report is specially interesting, as it shows the degree of unity of Socialist deputies in their votes in the Chamber. During 1911, 157 divisions were taken, 89 times the Socialists voted unanimous limes the Socialists voted unanimously, 54 times 1 to 9 deputies diverged, and 14 times these was a real split in the vote. This would be very good, compared to the bourgeois parties, were it not for the fact that the latter category contained specially important votes, such as that upon the Old Age Pensions and the German-French Agreement. On the other hand, the rejection of the budget was voted unanimously, by the Socialists, with the exception of one deputy, who abstained.

Col. Leroy D. Sweetser, commanding the militia in Lawrence, has had his fine feelings shocked to the center by the transportation of the children out of the strike prostrated city to places where they will be well housed and clothed and fed. One would think from such eloquent, ringing words that the exploitation of children "for the purpose of obtaining money" was a "pon us. thing about which the people of this country never before heard. As far as the children themselves are concerned they will have an enjoyable time; they will go through an experience that will be both pleasant and educational. But through the demonstration of sending them to New York and other cities much money undoubtedly will go to the strikers in Lawrence, to the parents of these children and to others. Herein lies the crime of which Col. Sweetser so bitterly

How much better to permit the children to be exploited in the old familiar way, to drive them back into the mills and there grind out their lives.

There is many a New England fortune that is based on the suffering, the degradation and the murder of New England Children under 14 years of age was passed. Whenever employers in this country who look upon Socialing.

Thereby the mill workers were forced to strike.

While there are not now as many gaunt, helpless, tired little children in the mills as there formerly were, there is another aspect ever oppose Socialism. of this exploiting the children that is worth consideration. The number of women, relatively, is increasing in the mills. Many of those women are mothers. They have to work in order to feed the that we have 7,000,000 farmers owning crats own. children. ### WHY NOT A GOVERNMENT BY SPIES?

According to press reports a nifty little instrument known as a "dictagraph" was installed by the Federal authorities in the offices of the International Association of Bridge and Structural Iron Workers, and through it the conversations of President Ryan with various union workers were overheard and stenographically reported by spies in a room below.

ivote, while offers know enough to use their own vote and the votes of those who are too lazy and too stupid to look out for their own welfare—and that of their family and friends.

Because you are too lazy and stupid!
You canont excuse yourself on the ground of ignorance because your ignorance is due to laziness. There are many men and women devoting their lives to trying to remove poverty and increase. There is here an idea of tremendous importance and one that should be pushed to the very limit. Just now union labor is hemmed in with spies. There are spies in the ranks. There are spies hovering buzzard-like all around. There are spies waiting for employment, and willing to work the dictagraph against any labor organi-

gation. But why use it only against labor organizations?

One might be installed, for instance, in the offices of the malefactors of great wealth. Or one might be placed in the Outlook office so that the Contributing Editor's changes of attitude could be recorded. One might be in every committee room of every bank and financial concern. One might be placed in Republican and the backs of a few—nor do they do vantage, in Tammany Hall, and the secret orders of Mr. Murphy

It would be a much better method than scouring wastepaper baskets to get a glimpse of his private correspondence. Men will say things they are too wise to place on paper:
