ON TOP, AGAIN!

Socialist Trade and Labor Alliance Meeting in Hartford, Conn.

Fellow Worker and Labor Friend:

The time has come when the working class must take the offensive and assert their independence.

The history of the world is the history of the working class. The working class has always been the creator of the world. The working class has always been its master. The working class has always been its master. The working class has always been its master.

The working class must take possession of the means of production and distribution. The working class must abolish the existing social order and establish a new one.

We, the working class, stand united.

Yours truly,
