BEING PREPARED FOR STRIKING NEW JERSEY MINERS.

Sheriff Ready to Give Strike—Men Are Quiet—Complaints of Thievery: Repeated visits to a Mine in the Land of the P. O. of L. Man Turns Out to Be a Hoax.

DOVER, N. J., July 17—There are hundreds abroad for the New Jersey miners. The strikers are all prepared, and their funds are in safety. Sheriff D. M. Brown has issued a bond for the safety of the miners who have left their mines. The miners are all ready for the strike, and the company has no means of stopping it.

THE SCHOOLS.

EXPLOITED INTELLIGENT TEACHERS.

Summer Vacation Instead of an Unpaid Leave.

The Teachers Association has been insisting on a full vacation instead of an unpaid leave. The general belief about teaching as a career is that it may or may not be worth it for the individual, but it is certainly worth it for the country, the schools of the country, and the pupils of the country. The present arrangement of salary and vacation is not fair, and it is desirable that something be done to remedy it.

The teachers association has been insisting on the demands of full vacation and an adequate salary. It is a fact that a well-paid teacher is a better teacher than a poorly paid one. The need for the demand for a full vacation has been emphasized in the last few years, and the demand is becoming stronger.

CASUAL OBSERVATIONS.

By Jay Denham, Baltimore.

I have been wondering. Recently, I have been thinking—thinking deeply. I have been thinking that Chicago is a wonderful city, and also that new social activities are needed to make the city even more wonderful. In the days of the 19th century, there were no such activities. But then, the world was different. Today, the world is different, and I think that new social activities are needed to make the city even more wonderful.

But, as I have been wondering, Chicago is a wonderful city, because it is the hub of the world. It is the center of the world, and it is also the center of the social world. Chicago is the city of the future, and it is the city of the present. It is the city of the past, as well. It is the city of the future, and it is the city of the past.

The scientific investigation as to the origins of this strange species has led to the discovery of a new species of organism, which is believed to be the ancestor of the human species. This organism, called Homo sapiens, lived before the emergence of the modern human species, Homo sapiens sapiens. The discovery of this organism has led to a new understanding of our own species, and to a better understanding of our own history.

The happiness of the workmen is due to the fact that they were not only able to work, but also to enjoy their work. The workmen were able to enjoy their work, and they were able to enjoy the fruits of their labor. The workmen were able to enjoy the fruits of their labor, and they were able to enjoy the happiness that they were able to experience.

Yet these are more than sufficient, and enough to make a man happy. For this reason, I think that the world can be made a happy place, and that the future can be made a happy place, too.

The construction of the great works of the future will be a very happy event. For the future will be a happy time, and the future will be a time of great works.

In a recent session of the International Congress of Social Science, I was privileged to attend a session in which a great number of papers were read. It was a session of great interest, and it was a session that I enjoyed very much.

The Charges of Burdett-Coutts Relative to the Bloemfontein Field Hospital.

How true it is that the capitalist class of all countries cares nothing for the suffering of the working class of any country in times of war. During the long war of the Americans and the Spanish, the capitalistic class of both countries cared nothing for the suffering of the workmen. They were carried off to the fighting front to be killed and maimed. The worst of it was, that the capitalists, instead of caring for the suffering of the workmen, they cared for the capital invested in the arms of the fighting men. They cared for the money invested in the arms, but they cared nothing for the suffering of the workmen.

The charges of Burdett-Coutts are quite startling. He states that the capitalist class of all countries cares nothing for the suffering of the working class of any country in times of war. He states that the capitalists are nothing but avaricious and callous men, who care nothing for the suffering of the workmen, but only for the capital invested in the arms of the fighting men. He states that the capitalists are nothing but avaricious and callous men, who care nothing for the suffering of the workmen, but only for the capital invested in the arms of the fighting men.

It is only natural that the capitalists should care little for the suffering of the workmen, as they are always thinking of their own accumulation of capital. They are always thinking of how they can make more money, and how they can invest it in the arms of the fighting men, and how they can get a profit out of it. They are always thinking of how they can get more money out of the working class, and how they can invest it in the arms of the fighting men, and how they can get a profit out of it.

The capitalists are nothing but avaricious and callous men, who care only for the capital invested in the arms of the fighting men, and nothing for the suffering of the workmen.
