Rumbling Gompers and His Pure and Simple Attempt to Lie Out of a Difference of Opinion

Some Mr.,

Rumbling Gompers is to be congratulated on the fact that the American Federation of Labor is an organ of the socialist congress. The development of the labor movement in America has been marked by a steady increase in the number of labor organizations which are committed to the principles of socialism. The American Federation of Labor (AFL), founded in 1902, is one of the largest labor unions in the United States, representing millions of workers across various industries. The AFL is committed to advancing the interests of working people and promoting social justice. The organization has played a significant role in shaping labor law and policy in the United States, and its influence extends far beyond the scope of its membership. The AFL's commitment to socialism is evident in its support for workers' rights, fair wages, and improved working conditions. It is an organization that stands for the principles of equality, justice, and solidarity among workers. The AFL's dedication to these values is reflected in its efforts to organize workers, negotiate contracts, and advocate for policies that benefit the working class. Its role in the labor movement has been crucial, and it continues to be a powerful force for change. The AFL's commitment to socialism is a testament to its unwavering support for workers' rights and the fight against inequality. It is an organization that is at the forefront of the struggle for a more just and equitable society.
WELL FOR FRANCE!

If there is a thing in the world, it is a question of the personal rights of especially his own side, but for his country. And there is a constituent element of the class struggle which can be affected in no way.

The problem of the class struggle in France is not to be solved by any government, by any governmental body, by any political party, by any labor organization.

The problem of the class struggle in France is to be solved by the workers themselves, by the working class, by the proletariat, by the common man.

The problem of the class struggle in France is to be solved by the working class, by the proletariat, by the common man, by the people who work.
