NEW YORK, SATURDAY AUGUST 10, 1901.

FIGHTING THE FAKIRS.

SECTION ALLEGHENY CARRIES THE WAR INTO THEIR CAMP.

Forces Them Into Ridiculous Maneuvers, Which Redound to Their Discredit-Exposes Their Misstatements and Fallacies-Dodd, and Bellingham on the Run, With No Hope of Escape.

A report of the work being done by Section Allegheny County will prove interesting to comrades everywhere.

In Allegheny City where we recently had some trouble with the police, a corner has been assigned to us, and a good one at that; and Saturday night meetings are being held at Pittaburg. Alleghen and Braddock. Sunday meet-ings are being held wherever an oppor-tunity can be made. tunity can be made.

Three meeting have been held at Moon Run, a mining camp of the Pittsburg-Coal Company. The first of these meetings, held on June 23, was reported by one of the two comrades who live there and who paved the way for the successful agitation that is now being conducted ful agitation at that place.

The second meeting was held on Sun-day, July 7th, Comrades Brown and Root being chairman and speaker respec-tively. Comrade Root delivered a speech that carried weight with it, and so impressed the miners present that the local fakirs decided something would have to be done to offset the impression made by these statements of the S. L. P. Comrade Brown in closing the meeting amounced hat on Sunday the 21st of July, another neeting would be held, with other speak-

to address them.

One of the local fakirs was sent to taburg to represent the local of the lited Mine Workers at the conference

nited Mine Workers at the conference aid to arrange for a demonstration on the capitalist Labor Day.

He was instructed to mention that if the fakirs wanted any more dues from foon Run they had better get out and to be work, as the damned Socialists was out there raising H—II. When incomed that our next meeting was to be were out there raising H—II. When incomed that our next meeting was to be seed on the 21st, the fakirs at the concerence decided that it might be safe to cout on the 14th as the Socialists would hen be far away. So they called a fivelance be far away. So they called a fivelance of Lords-to-day finally sustained the judgment, declaring that another recent leading trade union appeal was a case of legitimate competition in the labor market. It was different in the case where the appealant and others

fakirs not to post notices of the meeting, but to send out runners on Sunday morning and call the miners to a mass-meeting on the buil grounds; but, as Burus says, "The best laid schemes of mice and the men gang aglee."

One of the miners tipped our Moon Run comrades into on Saturday, afternoon. They came into Pittsburg and secured Comrades Schulberg and Brown to go out and try to get the fakirs to discuss the questions of the difference between their impotent Capitalist miscalled "Labor Union" and the S. T. & L. A.

ngly, on Sunday morning Com ades Schulberg and Brown, accompan-ed by Comrades P. C. Tesson and James llingworth, went out to Moon Run. When the fakirs found that their scheme then the fakirs found that their scheme d been discovered they decided they and not hold a mass meeting but unid change their program and make a meeting of the U. M. W. members; d although the day was very warm by would hold the meeting in their lift. The comrades went up and tried gain admission but could not. Two diss were expected, Secretary of the strict, Dodds and Roustabout Dirty prk, Uriah Bellingham.

Dodds managed to find an excuse to tay away. Perhaps he thought that hose bad Socialists might turn up after ill and so Bellingham had to face it

ades arrived at the U. M. W. hall before Bellingham and as there was plenty of time. Comrades Brown and Foster went up to the Ball Grounds to see if there was any sign of the meeting announced to be held there. A number of miners were present and said they had been told that the meeting would be held as announced.

Finding no signs of a meeting there, and seeing a crowd assembling at the U. M. W. hall the comrades came down in time to see the Fakir Bellingham crawl. Just as Bellingham approached, Comrade Stamper spoke to him, asking him about the meeting and inquiring if he would not like to meet one of the comrades present in debate. No, he would not; and then he proceeded to tell the miners that this man, Stamper, had killed the U. proceeded to tell the miners that this man, Stamper, had killed the U. M. W. at Wickhaven, which is perhaps true and that he would do the same thing at Moon Run, if he could, which is true and that he would do the same thing at Moon Run, if he could, which is also true. And further, that Billie Thomes of Buena Vista, a staunch S. T. & L. A. and S.L.P. comtade, had scabbed it at that place (although on a former occasion when he had made a similar assertion he was compelled to take it back.) He made a lot of ridiculous assertions and was called down by Schulberg, whereupon Schulberg was denounced as being in the pay of Wall street. The fakir, seeing it getting too hot for him and thinking to incite the members of the Fakirated Union to use force to the comrades, drew back his fist and waited for someone to hold him. The trick did not work, and being too big a coward to follow up his demonstration he crawled into his hole, i. e., the Union Hall, refusing under any circumstances to debate, and informing us that only members of the the U.M.W. could

visited the camp and held a successful meeting; Comrade Brown acting as chairman and Schulberg as speaker. The speaker exposed it speaker and address the fallacies of he capitalist trade union. On Sunday, Aug. 4, another meeting will be held.

Comrades Wm. F. Thomas and D. E. Gilchrist will address these miners. Bellingham will have to come out into the open and get smashed, for Section Allegheny County is arranging a series of meetings at Banksville, the home of Dodds and Bellingham.

Further reports of uture meetings in the mining camps of the Pittsburg dis trict will be sent in, as we are at work in earnest. Up at the fakirs, comrades. G. A. B.

AGAINST THE TRADE UNION.

House of Lords Sustains Judgment for Butcher for His Loss of Trade.

LONDON, Aug. 5.-The House of Lords gave judgment through legal members to-day in an important and longstanding trade union appeal, known as the "Belfast Butcher' case," which raised the question of interference of a union with employers.

The parties to the case were Quinn, a butcher's assistant in Belfast, against Leatham, a butcher of Lisburn. Leatham had obtained damages against Quinu and other members of the Belfast Journeyman Butchers' Association, on the ground that they had maliciously and wrongfully procured certain butchers to cease trading with him because he refused the request of the trade union that he should dismiss the non-union workmen in his employment.

During the dispute Leatham offered to pay the expenses of his non-union assistant for joining the union, but when the union made it a condition that the latter should not be employed for a year, Leath-

am refused to comply.

The case was heard in Ireland, where the first court held that the union officers had wrongfully and maliciously induced the customers of Leatham to cease deal-

this case, where the appellant and others acted by conspiracy, not for any purpose of advancing their own interests as work men, but for the sole purpose of injuring the plaintiff in his trade.

A WOMAN'S RETORT

To a Cavalry Officer Who Ordered Her to Go to Work.

At Rome, Italy, the peasants that work in the vineyards near Bridge Molle are accustomed to assemble in the Square del Popolo to hire out. The managers of the vineyards hire the men for six cents a day in the winter, and the poor devilsdrudge from morning till night without a word. But in summer, it is the custom to increase the miserable wages somewhat.

The personts look forward to sum-

It was already late and the peasants that remained—not more than a hundred—were scattered about the square of Bridge Molle, when the cavalry marshal of the carbineers, who guards that section, heard of the little strike.

For the marshal to know there was a strike, meant to lose his head. He suddenly mounted his horse and with several ways of the said light and the said light and the said light and the said light.

strike, meant to lose his head. He suddenly mounted his horse and with several others of the soldiers also in the saddle, began to dash about the square at a mad gallop.

They went behind every peasant they saw and shouted "Go to work." Whoever did not obey was arrested. Thus they locked up fifteen.

An art student, who certainly was not dressed like a peasant, was taken for a striker, and ordered to "Go to work." He narrowly escaped being trampled under the hoofs of the horses.

For quite a while, the marshall kept up his mad gallop over the square. To everybody he shouted out his order, "Go to work." Finally a woman grew impatient and shouted to him: "Go to work yourself—you who are always loafing!"

For a "Custom-Made" Town.

ALTOONA, Pa., August 6.—The Lackawanna Coal & Coke Company has just let contracts aggregating \$500,000 for the building of the town of Waerhum, named in honor of the president of the company. Three hundred houses, four churches, two schools, a town hall, a fire house and a public park are provided for in the contracts. The Pennsylvania Italiroad Company is running a line into the field and Waerhum will be the terminal point. The company is opening several of the largest and begt years of goal in the hituminous field. for the building of the town of Waerhum,

INDIANAPOLIS CONVENTION.

NOMINATIONS MADE FOR THE COMING **ELECTION**.

Militants Who Have Buckled on Their Armor-All in Readiness for the Fray -Much Enthusiasm Displayed-The Ticket in Detail.

INDIANAPOLIS, July 22.-Section Indianapolis, one of the many divisions of that aghting organization, the S. L. P., in a rousing meeting yesterday afternoon manned its ticket for the approaching municipal campaign. T-e nominations for the leading offices, made at a meeting earlier in the year, were ratified, the party's general municipal program was endorsed, and candidates put up in all the wards of the city where there is any working class population at all.

At the head of the ticket, that is for the office of mayor, goes that old warhorse of the party, Philip H. More, who perhaps resembles William Morris in personal appearance more closely than any other member of the party in the country -a piano tuner by trade, who can build piano from the floor up and play-it too. For City Clerk was nominated Frank

Jordan, known to Colorado and Kansas lic speaker. On the stump he will have the valuable cooperation of two young college students, William Casten-holz and Theodore F. Vonnegut, both candidates on the ticket for council-atlarge. Castenholz is a Wisconsin univer-sity student who is developing considerable platform ability. Vonnegut was one of the party delegates to last year's International Congress at Paris, France. This year he attended the University of He is a sturdy chap with an abnormal quota of common sense.

Another distinguished member of the

ticket is W. H. Retterer, who leaped into prominence locally by jumping out of the traces of the International Association of Machinists and sending in a letter of resignation to that fakir-ridden organization telling why se no longer could remain a member and why in the future he would look to the S. L. P. and the S. T. & L. A. His letter later will be made public through the columns of the WEEKLY PEOPLE.

And so the ticket runs-all experienced and tried party members. The ticket complete is as follows: For Mayor, Philip H. More; City

Clerk, Frank Jordan; Police Judge, Paul Janke; Council-at-large, Edmund Lewis, Henry Kuerst, Hugh Richards, T. F. Vonnegut, William Castenholz, and Charles Haupt; Council from First Ward, J. T. L. Remley; Fifth Ward, Adolph Neff; Seventh Ward, John Burk-hard; Eighth Ward, W. H. Retterer; Niuth Ward, Charles Lagler; Tenth Ninth Wurd, Charles Lagler; Tenth Ward, Louis Meyer; Thirteenth Ward, Reinhold Stark; Fourteenth Ward, Carl Hoffmann; Fifteenth Ward, Alexander Burkhard.

convention came in conjunction with the semi-annual meeting and made a very busy afternoon's work. Reports were heard from the Organizer, the State Central, the City Central and various other committees, new officers were elected and much miscellaneous business transacted. In the last six months a dozen of the most intelligent and active of the trade unionists of the city have become enthusiastic party On the morning of June 3d, with a day's work of 17 hours and with the sun hot enough to split rocks, the peasants agreed to ask for forty cents a day. agreed to ask for forty cents a day.

But the employers on arriving at the Square del Popolo, with the usual haggling, refused to give the required wages.

The peasants refused to go to work and went into the country persuading those that had already begun work to join their strike.

It was already late and the peasants that remained—not more than a hunter of the country persuading those that remained—not more than a hunter of the country persuading those that remained—not more than a hunter of the country persuading those that remained—not more than a hunter of the country persuading those that remained—not more than a hunter of the country persuading those than the country persuading the country persuading those than the country persuading the count

the following members: Philip H. Moore, Hugh R. Richards, W. H. Retterer, W. E. Gahr, Ernest Viewegh, Louis Meyer, and Felix Vester. The first four are from the English-speaking branch, the remainder from the Germanspeaking branch.

speaking branch.

J. T. L. Remley and John Burkhard
were elected agents of THE PEOPLE;
Felix Vester for the "Arbeiter Zeitung,"
and Frank Pais for "Il Proletario."

Reading Strike Affects Business.

READING, Pa., Aug. 4.-The Philadelphia & Reading shop strike, now in The only hope of settlement on tetrms satisfactory to all parties interested lies in the attitude of the business men to bring about a conference between officials of the company and a committee of the men so that some conclusion may be reached. The Reading Iron Company reached. The Reading from Strike, lasting ten weeks, followed by the Philadelphia & Reading strike, already entering the third mouth, is having its effect upon the business community, and it is on this ground that business men believe they should interfere.

To-day a report came from Philadel-

phia that carpenters and machine hands are being hired in that city and will be brought here in time to be put to work Monday morning. They will be placed in the car shops, where 279 out of the Reading force of about 900 are still at work. Five additional new men whose time was up quit work to-day and left for their homes. The men who are out insist that none will return to work un-til all are taken back and some conces-sions granted.

SMASH-UP AT INDIANAPOLIS.

The Unity Convention Puts the Stamp of Disruption on Itself,

INDIANAPOLIS, August 1.-The principal event at the Unity Convention of the Social Democracy to-day was the establishing as fact what had been apparent all along, to wit, that the affair was rent from top to bottom, and hopelessly so. The matter came up on the question of organic unity. The Springfield, or Kangaroo wing, wanted unity from top to bottom, with a well central ized National Executive, issuing charters directly to the locals, collecting dues and otherwise exercising directive authority, unity in short. The Chicago wing opposed this with determination. The neutrals sided with Chicago, and the Chicago wing won out, thereby saving itself from extermination. The principle of autonomous State organization thus prevailed. In order to cover up the dislocation of the now thrice "united party," the Springfield wing got up a "national council" plan, which is but a veritable fig leaf to cover up the dislocation. This point thwarts all the Kangaroo plans. Unity was impossible whatever was Unity was impossible whatever was done here. Now disunity is patentized. The National Committee now provided for is but a thing of air, all control lies in the States. The debate on this subject was bitter. It was manifest to the disputants that however the vote went the smash

The next thing of interest was the renaming of the party. It has had not a few names in its short career. It now got a new name. Many new names were proposed. A level-headed delegate proproposed. A level-headed delegate proposed the name of the "Revolutionary Socialist Party," and other level-headed ones sided with him. They realized that, unless they declared themselves "revolutionists," they would not be known as such. But wisdom did not prevail. The barbs of the S. L. P. arrows, that so often and so justly referred to "the regular Democracy and the Social Democracy" galled the sides of many of the gentlemen. They were set upon dropocracy gained the sides of many of the gentlemen. They were set upon drop-ping the word "Democracy," and finally the name "Socialist Party" was adopt-ed in the hope of being able to be mis-taken for the "Socialist Labor Party."

The national headquarters, it is now practically certain, will be placed either in Chicago, St. Louis or Cleveland with the chances in favor of Chicago. The locating of the national headquarters west of the Alleghenys amounts to an-other defeat to therished Kangaroo

STRIKES ON THE LAKES.

Guerilla Tactics of the Pure-and Simple Trades Unions.

BUFFALO, N. Y., August 6.-Strike after strike has occurred at various ports, among the workers engaged in lake trans portation, ever since the opening of navigation this season. As was to be expected under the conduct of pure and simple trades unionism, the great majority of them were lost and the men returned to work thoroughly beaten and disheartened. These strikes once again illustrated the lack of solidarity that, if it may be so expressed, is the founda

tion stone of pure and simpledom. The Anchor Line which is a Pennsylvania Railroad property has had its share of the trouble. They began last spring with the strike of the firemen and have continued since with every branch of the service. At no time did all the men go out and thus tie up the line No matter how badly it was crippled, the company managed to pull through with the aid of the men at work.

The company has just won its fight

with the grain shovelers. A few of the firemen went out in sympathy with the shovelers, but the freight handlers who had been beaten in their strike remained work. Last Saturday the China of this line arrived at Detroit. The 'longhoremen refused to unload her out sympathy with the strikers here and at The crew were put to work, and with other men procured by the com-pany the boat was unloaded with but little delay. On the same day at Chicago two steam-

ers were unloaded by the 'longshoremen while the oilers and some others went out in sympathy with the Eastern strikers.

Instead of a united effort by all their forces against their common oppressor, workers have been pitted against

CHICAGO, Aug. 4.—Because the Pullman porters of St. Louis have organized a "uniou" the porters who live in Chic-

"Organizes" Because Tips Decrease.

a "mion" the porters who have in Chicago have decided to form an association of their own. They have decided to style themselves "The Railroad Men's Mercantile Union of Chicago." They assert their trouble lies in the fact that there has been a steady decline in the amount and frequency of tips. They say they must have more salary under present conditions.

Insulted When Called "Mark Hauna.

TERRE HAUTE, Ind., Aug. 5.-John Adams and Samuel L. Large, employees at the car works, were fined \$1 and costs each for calling Joseph Parish, a fellow workman, "Mark Hauna." Parish was so tormented and provoked by the men that he resigned his position and then preferred charges against them in a justice of the peace's court -

IN BRITISH COLUMBIA.

HOW THE CLASS STRUGGLE IS WAGED IN THE DOMINION PROVINCE.

The Salmon Fishermen's Strike-Capitalists Win By Pitting the Races Against One Another-Man-of-Warsmen Scab on Striking 'Longshoremen-The Roseland Miners' Difficulty-The C. P. R. Trackmen and the Pure and Simple Unions.

VANCOUVER, B. C., July 31.-The salmon fishermen's strike on the Fraser River has been lost and won. That is, the strikers lost and the canners won.

The union demanded fifteen cents per fish per entire season, but accepted twelve and one half cents per fish for one quarter of the pack and ten cents for three quarters of the pack.

As there are about 3,000 Japanese fishermen and probably as many more Indiaus and whites, the canners stirred up race feeling in order to win. The whites captured some of the Japanese and their boats and marooned them on an island. where they intended to keep them until the season closed. The leaders were arrested and tried before a Justice of Peace who was largely interested in the canneries. They were committed to jail, bail being refused.

The Socialist Labor party section, Vancouver, subscribed liberally to help the families of the imprisoned fishermen. The canners said they could not afford to pay 15 cents, yet the Alaska canners paid 25 cents last year and cleared 100 per cent on the capital invested.

A trust of all Pacific coast canners is being organized. The fishermen may form unions but as the coast is overrun with Japanese, it is hard to see how they can keep up the price of fish.

The militia was called out on the Fras-

er last summer during the strike, but this year the capitalists had the better scheme of pitting Japanese against whites and Indians. Traps are not in use here for fishing,

but when they become necessary, no

doubt they will be used here, the same us on the American side. VICTORIA, B. C., July 31.—The longshoremen working on the vessel largo Law struck for an increase from 30 to 40 cents per hour. The stevedore refused to pay it, and the vessel's crew was put to work discharging cargo, assisted by the crews of the warships in harbor. No difficulty is expected in

harbor. No difficulty is expected in completing the work.

ROSSLAND, B. C., July 31.—The miners employed in the War Eagle and Le Roi nines are still out on strike to secure an increase of pay for muckers, from the present rate of \$2.50; to \$3.00 per day. The union is strong financially and owns a co-operative general store, so the miners intend to put up a strong fight. They are affiliated with the Western Federa-

are affiliated with the Western Federa-tion of Miners.

VANCOUVER, B. C., July 31.—The C. P. R. trackmen are still confident of winning their strike which has lasted four weeks. The trains are arriving from 12 to 24 hours late. The company has imported men from Seattle as "spec-ial constables" to scab on the strikers. paying them \$2.50 per day. The other railroad unions, true to their pure and cimple tactics, refused to act with the trackmen. Some of the "specials" referred to have been arrested for pulling guns on the "scabs" to intimidate them. They were found "not guilty" of course. to the capitalist press, asserting that the roadbed is O. K., and they have all the men they want. They do not explain why their train service is delayed, however. A concert was held in aid of the strikers, netting over \$200.

GOMPERS MORALIZES.

His Asinine Reflections on Steel Workers' Strike. Samuel Gompers, President of the American Federation of Labor, has is-

sued a statement regarding the steel workers and the trusts in which he says: "I have no hesitancy in believing that a notion previals among the privileged classes that trusts and monopolies aim at and will crush the life out of organ-ized labor. We oppose organized num-bers to their concerted power. That monopoly, as it is to-day, is more potent than trades unionism; since the attack on the latter is not to be on the front and all along the line, but by measures of detachment and defeating in detail, closing a mill here and a mill there where rades unionism is strong.
"Viewed from this standpoint alone

the situation may look formidable for trades unionism. The trust, however, specializes industry. It devotes the re spective plants to special work, and that work only so that one mill is set to one small part or division of the steel pro duct, another mill to another, and so "Labor tends to specialize under the

trust. In this way labor's productive power may be increased. But it also acquires another power against monopoly, since the withdrawal of these specialats would reduce the trusts to a mass of silent and inert machinery. If you are getting this paper with-

out having ordered it, do not refuse it. Someone has paid for your subscription. Renew when it expires.

THE ISSUE NOW

With the Amalgamated Association - Tis a Struggle for Existence.

PITTSBURG, Aug. 5.-The failure of the negotiations between the executive committee of the Amalgamated Association and J. Pierpont Morgan to end the steel strike is a severe blow to Shaffer's Organized Scabbery. Whatever the original purpose of the gang in calling the strike, it is now evident to any intelligent workingman that Morgan has called Shaffer's bluff and by so doing has forced the Amalgamated from the aggressive to the defensive.

The developments of the last few days have left but one point at issue to the Amalgamated and that point is the life of the organization.

With the manufacturers the vital point is the preservation of the balance of power that they hold in the "non-union" mills. With a certain number of their plants outside the organization, they can resist "unreasonable" demands of the men in "union" plants. Thus the real significance of the refusal of Morgan and Schwab to agree to sign for previous "non-union" mills is the precedent that it would set for "non-union" the scale were signed for McKeesport and Wellsville this year, next year the orporation would be confronted with organizations at Vandergrift, Homestead, or some of the other plants which are now the Trust's citadel against the strike.

On the other hand the Association feels that if it loses this struggle the Trust will slowly exterminate the association. The proposition of Morgan was to sign for all mills, signed for last year but Leechburg and Old steadow, at Scottdale. This would be a loss of two mills, even under favorable conditions for the Amalgamated. Next year the Trust might ask that some of the present "union" strongholds be omitted in signing the scale and so on each year. At the present stage of the crisis both

sides are looking to the future. Under the present laws of the Amalgamated Association "non-union" men cannot work in "union" mills. This applies only to skilled men. Plants in which it is permissible for both "union" and "non-union" men are classed as open mills, but in the concerns class as "non-union" Amalgamated members

are not permitted to be employed unless dispensations are obtained so that they may enter as organizers or for other pures. While seven men constitute a odge, and where such lodge exists the Association can call it a "union mill," the Association has abandoned any claim except that the scale be signed for the mills that have demonstrated that they are "union" by going out on strike. Us cally a majority of the men make a mill 'union." the seven rule being created for emergency purposes.

Under present rules, if the scale were signed for McKeesport, both and "non-union" men would remain employed, as that mill is entirely shut down at the present time, and has been classed

as an open mill. The signs of the times are that the association will have to modify in important details some of its rulings.

Shaffer is hoping that the strike will project itself into politics. His action in a public speech, invoking McKinley to se his influence with Morgan to settle the dispute, proves this. Mark Hauna, too, has been running about the country during the strike, evidently to give the impression that great issues depended upon its settlement. Mark doesn't want any impairment of his strength in the coming session of Congress when his ship-subsidy bill is to come up. The fak-irs realize that they cannot look for success from a mere contest of endurance. Their hopes are now pinned to may have an influence on politics, so that like Mitchell of the coal miner's union, they may yet claim a "glorious victory"-for themselves.

FIGURES ON POPULATION.

Massachusetts Has More Women Than

WASHINGTON, July 30.—The fe-male population of Massachusetts con-stitutes 51.3 per cent. of all the people of that state; in Maryland, 50.4 per cent.; in Maine, 49.5 per cent.; in Louisiana, 49.7 per cent,, and in Kentucky, 49.2 per cent.

These figures are given in a bulletin

issued by the Census Bureau to-day, showing the population by sex, nativity and color of group 4 of the States, including those mentioned. The results are given as follows:

Kentucky—Makes, 1,090,277; females, 1056;347; natives 2,096,925; foreign born,

Kentucky—Males, 1,090,277; females, 1,056,947; natives 2,096,925; foreign born, 50,249; white, 1,862,309; colored, 284,-805; the colored population including 57 Chinese and 102 Indians, and the remainder negroes.

Louisiana-Males, 694,733; females

686,892; native, 1,328,722; foreign, 52,-903; white, 729,612; colored 652,013, of whom 650,804 are negroes, 599 Chinese,

whom 60,804 are negroes, 50 Chinese, 17 Japanese and 593 Indians. Maine—Males, 350,995; females, 343, 571; native, 601,136; foreign, 93,385; white, 692,226; colored, 2,240, including 1,319 negroes, 119 Chinese, 4 Japanese

1,319 negroes, 119 Chinese, 4 Saparese and 798 Indians. Maryland—Males, 589,275; females, 598,769; native, 1,094,110; foreign born, 93,934; white, 952,424; colored 235,620, including 235,064 negroes, 534 Chinese,

Massachusetts—Males, 1,367,474; females, 1,487,872; natives, 1,959,022; forcign born, 846,324; white, 2,769,764; colored, 35,582, including 31,974 negroes, 2,968 Chinese 53 Japanese and 587 In-

PRICE TWO CENTS S. L. P. CONVENTIONS

MET LAST SATURDAY TO MAKE COUNTY AND BOROUGH NOMINATIONS.

Large Number of Delegates in Attend. ance-Business Expeditiously Transacted-Conventions Postponed Until City Convention Has Completed Its Work.

A County Convention of the Socialist Labor Party was held at the DAILY PEOPLE Building last evening, to nominate candidates for county offices.

The convention was called to order by Lazarus Abelson, organizer of Section New York, Socialist Labor Party, John J. Kinneally, of the Thirty-fourth-Thirtyfifth Assembly Districts, was elected temporary chairman. Julius Frankel, of the centh Assembly District, was elected temporary secretary.

A Credential Committee, composed of Christian Bahusen, Joseph S. Klein, and Paul Joseph, was then elected, after which the convention took a recess in order to enable the Credential Committee to perform its duties. Upon the resumption of the session the Credential Committee reported that-

t had received and examined the credentials of 68 delegates. All of them were commended that the delegates be scated. The recommendation was adopted. Thereupon the convention perfected a permanent organization by electing the temporary officers to be the permanent

Delegate Abelson spoke in favor of postponing the county convention until after the city convention had met and completed its work of drafting platform and making nominations for the head of the ticket. He believed it unwise to proceed until this had been done. A motion to that effect prevailed.

The convention then adjourned to meet again on the 21st of September.

A Borough Convention of the Socialist Labor Party was also held at the DAILY

PEOPLE Building last evening.
The temporary officers were: Chairman, Anton Gellerich, of the Twentyman, Anton Gellerich, of the Twenty-cath Assembly District; Secretary, Julius Frankel, of the Tenth Assembly District. The Credential Committee were Edmund Moonelis, Joseh Klein, and John Walsh. The customary recess was taken and at its conclusion the Credential Committee reported the presence of 59 properly accredited delegates, whose seating they (the Credential Committee) recommeded. A permanent orgalization was then perfected by the election of the temporary officers as premanent of-ficers. The convention thereupon adjourned to Saturday, September 21.

IRON-CLAD AGREEMENT.

The People of July 26 contained au

Iron Clad Co,'s Men Forced to Sign Ones

account of the attempt made to organize the workers in the Iron Clad M'f'g. Co. (Nellie Bly's concern), in Brooklyn, aud showed how, the bosses getting wind of the affair, six men were discharged. Since then high-handled attempts have been made by the firm to prevent all attempts to get at the workers from the outside. In keeping with their name they have also tried to force the men to sign an "iron clad" agreement, whereby the men "agree" not to affiliate with any The company sends out reports daily the expectation that public sympathy labor organization for three years. Quite a number of the unskilled laborer signed, but as yet the mechanics have not put down their names. The matter was presented to the men in a very bru-

was presented to the men in a very ord-tal manner and they were told they either had to sign or "git."

The "agreement" is part of a book. The men are not allowed to thoroughly read, or make a copy of it. They are simply required to attach their signature or after which they are given the prives es, after which they are given the prived lege of asserting their American Indepenby returning supinely to work.

What will be the outcome among the

mechanics cannot at the moment be foreseen, but the company is working might and main to get in a position to dictate. They have looked up the various employment bureaus, and furnishers of "strike breakers," as well as going over their long waiting list of men. Those who did sign the agreement only did so to hold their jobs and wait till they get a chance at the company. The DAILY PEOPLE is being distriduted among them and will continue to be, Already a number of the men have pro-Airendy a number of the men have pro-mised to join the Alliance and the field looks very promising.

Old Man Used to Foll Strikers.

PATERSON, N. J., Aug. 4.—Six striking ribbon weavers at Dexter & Lambert's mill were arraigned in the police court yesterday on charges of "disorderly conduct" preferred by James Harvey, an old man who works in the mill. Harvy, who is utilized by Dexter & Lambert much in the same way as Mary Jane McMahon was by Frank & Dugan, alleges that the six and others followed him home last Tuesday evening. calling him odious names. They all pleaded not guilty and their counsel demanded a trial by jury. Recorder Senior set down their trials for Aug. 13, but the demand for a trial by jury was not acted upon. The Recorder is not satisfied that the strikers can call for a jury trial under an ordinance of the city

IMPORTANT INTERVIEW BETWEEN A REPORTER AND A MILL WORKER-

Refutation of the Idea That Hunger Will Cause Failure of Strike-The A. F. of L's, "Cool \$10,000,000"-Shaffer's Brillant "Stock Toboggan Slide"-His Great Discovery, "The Political Sere Spot."

PITTSBURG, Pa., July 23.-Having noticed that occasionally the sensationmongering newspapers of Pittsburg and other large cities print column upon column of matter that would cause the uninformed to believe that we have no prosperity, and that the men now out on strike will be forced by that inexormon herd hunger, to throw up the sponge and return to work without the "Laurel wreath of victory," and the "white winged dove of peace" cavorting around on the gonfalon of their camp, the editor of the "B. B." deemed it his duty to send the undersigned to interview a striking mill worker.

strike. Will you kindly explain what this little affair is?"

"With pleasure. As Mr. Shaffer well put it in his Wellsville O. speech, Time was when we would tackle the single corporation with cobble stones and spikes. Get full of cheap fire water and raise h—l in general. But to-day Mr. Shaffer, our president, gets us to-gether in a hall or an opera house, gives

send the undersigned to interview a striking mill worker.

Upon arriving in Pittsburg, I inquired of that most eminent gentleman and reformer, who measures out reform to the dago peanut venders and the penny ice ball purveyors where I could find one of the striking mill workers. striking mill workers.

He told me to take a Fifth avenue car, get off at Schenley Park, and ask a certain unostentatious but dignified looking gentlemen who would take great pleasure in giving me further guidance. leasure in giving me further guidance. Boarding a car I rode to the park and begun my search for the unostentatious and dignified gentleman. I had strolled but scant one quarter of

I had strolled but scant one quarter of a mile into the park when there loomed up in my path a figure that I thought must be a statue of a giant long since gone to his reward.

Approaching it I fell to soliloquizing in an audible manner thusly:

"I wonder who you was, where you lived, what you did, how you did it, who built this statue, who —"
"Thou't set funny young man," came

"Don't get funny young man," came a voice, seemingly from the statue, "or

a voice, seemingly from the statue, "or I'll give you just what you need, some 57 varieties of reform."

"But I—I—I thought you were only a statue," I stammered.

"Well you get another think," said the figure very dexterously swiping at a fly that alighted on the end of his

"When did you die?" I asked. "I have never had that pleasure," he

"But how comes it you are cast in bronze before yourspirit is cast out of its clayey shell," I asked. "Great man, sir, very great. Why darn it, sir, need you be told who Jam.

I scorn you."
"I couldn't prevent it, sir. It was a "I couldn't prevent it, sir. It was a regular onbturst of popular confusion. a concatenation of ponderous circumstonces that finally culminated in what the "Leader" called "spontaneous combustion." Almost any ordinary being can have a monument built after they have got old Charon to paddle them over the Styx and Acheron, to the infernal regions. But when they honor you with a monument (as they have me) while you are yet in the fiesh, you are great, very great, greater than the greatest, good morning sir."

"One moment your greatness. Will you kindly direct me to the habitation

"One moment your greatness. Will you kindly direct me to the habitation of one of the striking mill workers?" Fonder hotel (pointing his finger at Schenley). It is plain to be seen that you are a stranger in a strange lend, else you would know where our mill workers abide."

Thanking his greatness for his kind-

ness I retracted my steps and entered the \$10 a day boarding house.

"Yes sir," said the clerk, "quite a number of the striking mill men are stopping with us. Which one did you deaire to interview?"

After consulting a list of names that had been furnished me, I selected John Fairman and said: "I will see this one."

After being warned to look after my After being warned to look after my little diversion."

"I see by the papers that some of your fellow strikers are enjoying themselves fellow strikers are enjoying themselves about in their steam yachts, is After being warned to look after my deportment with some care, I was ushered into the presence of John Fairman, atriking mill worker. John F. was scated, or I should say reclining in a Russian leather upholstered chair. His feet, encased in the finest pair of imported hob-nailed shoes my eyes ever beheld, rested with graceful ease upon a beautiful mahogany table.

beautiful mahogany table.

In his mouth was a rare and almost rolumes of sweet scented fire brothers tosacco smoke. On a silver tray, inlaid with fine gold was a tin dinner pail filled with extra dry stale beer, a col-ored attendant stood in the rear of his

"Glad to see you sir exceedingly glad.
I am always glad to be interviewed by the 'B. B.' Great paper that. Always after the truth. Take a chair, sir, take a chair."

Times, and poking fun at Bill the Freak of Germany. Then when 'Ponty, Swalby, et al.' get enough of this little controversy, I will return and resume my old position before the seething furnace in the mill. Good morning, sir."

And with a disnified morn of the seething furnace in the mill.

"Mr. Fairman," I began, "I have-"One moment, my dear sir." he inter-rupted, touching a push button. "I al-ways prefer to have my private secre-tary present when I am being inter-viewed. Tou see we men of affairs must ines. Follow us James (to the sten-stander who appeared). "Now, sir,

"Mr. Fairman, is it true, as reported, that you strikers cannot win this strike owing to the fact that you are financially unable to remain idle for a long period e. sir, that is a false report. We tion, Renew when it expires.

sufficient funds in the treasury to carry

are prepared to remain idle indefinitely."
"But you cannot mean that you have

sufficient funds in the treasury to carry you through a prolonged struggle."
"Well, no, not exactly in our strong box; but we are very resourceful. Here is one of our many financial tributaries: Mr. Flynn, National Organizer of the American Federation of Labor, talking to a reporter for the Pittsburgh "Chronicle Telegraph," on July 17th, 1901; said: said: "'In the A. F. of L. we have 2,000,-000 men. We can assess them for any sum we choose. We have about decid-ed to assess each and every mother's son of these 2,000,000 men a five spot each and ever week this would net us a cool \$10,000,000 every Saturday night. So you see we are not worried very much about the money side of this lit-

tle bout between Brother Capital and Brother Labor." "But will the men who are members of the A. F. of L. permit this?"
"The officers of the A. F. of L. do as they please. The men have nothing to say in these matters.'

"It has been said by your President, Mr. Shaffer, that he is not managing a strike. Will you kindly explain what

us a regular Francis Murphy temperanc lecture, advises us to be sure and go to church three times a day on Sunday, watch the stocks of the United States Steel Co. going down the toboggan slide, and when we have had all the fun with 'ponty' and 'swabby,' et al., we want, we might possibly consider a propos tion from them to return to work."

"Simply this: Ponty, Swabby, et al., have got so blamed much stock to lug around now that if this contest continues for some time to come the minor stockholder, the little cheap John affair, with his 25 or 30 thou, in the U. S. S. Co., will be unable to follow his holdings down the toboggan slide, and the result will be that the whole thing will land on the backs of the already overladen Ponty, Swabby et al., forcing them to accede to our demands."

"You speak of stocks on the toboggan

"What is meant by the expression, political sore spot'?" "Ah, my boy, there's the rub, there's the rub. Magnificent idea that. Shaffer's a gem. Political sore spot. Yes, res. Used it in that temperance lecture of his at Wellsville, O., didn't he? Long-headed fellow is Shaffer. Longer-headed than Weihe, Garland, or any of his predecessors. Political sore spot means just this: instead of capturing a Domine and taking it down to New York, as did John Mitchell of the United Mine Workers, to

intercede with Ponty, Swabby, et al., for those thick-headed coal miners, Shaffer just tells them plump and plain out, that, by the great horned spoon, and that's an awful oath for a man like Shaffer to use, if they don't be mighty careful of their conduct they will find themselves a few votes shy the morning after election day."

"But how is 'Ponty, Swabby, et al.' concerned in politics?

"Ah! that's it, my boy, that's it. Great discovery by Shaffer. 'Pouty, Swabby, et al.' are the political power, and if they don't come down handsomely, we won't do a thing to them when election time rolls round. You see, since Shaffer made this brilliant discounts we have made this brilliant discovery we have talked the matter over, and concluded that instead of taking the political power of government away from Ponty, Swab-by, et al., which same we could do at any time, as we have ten votes to their one, we will keep Shaffer's discovery hanging over their heads by a single thread, in imitation of that sword that belonged to Damocles, and have large proach us contrite repentant and filled to overflowing with meekness and mumility; they will prostrate themselves at our feet and say in a husky, emotional and subdued voice: 'Allah is great, but not greater than Shaffer's new discovery Behold us at thy feet awaiting thy bid ding."

cruising about in their steam yachts, is this true?"
"Undoubtedly, sir; undoubtedly, sir.

Some of them have taken their families and goue to the mountains, some have gone to the sea shore resorts, some are at the l'an-American Exposition, others

have started on an extended expansion

tour." ... "Would you kindly state your plans, if

"Would you kindly state your plans, if any, for the future?"
"I had my secretary prepare my itenerary for the summer this morning [stenogropher hands him a paper]. Ahl yes, this is it. I shall leave the beginning of the coming week for the Pan-American Exposition at Buffalo, traveling the entire distance in my \$5,000 automobile. ored attendant stood in the rear of his chair and fanned him vigorously. From the depths of a monster bank of floral green föllage came the strains of soul resting and heavenly music. Gay colored birds flitted about hither and thither blending their notes with those of the concealed orchestra. Struck almost dumb with amazement I said: "And this paradise is the home of John Fairman, striking mill worker?"

Recovering somewhat from my surprise and mindful of my mission. I approached John F., S. M., and handed him my card.

Of the coming week for the Pan-American Exposition at Buffalo, traveling the entire distance in my \$5,000 automobile. After seeing the sights I will take a short cruise along the Atlantic coast in my recently built yacht, which cost, as you know, almost a cool one million dollars. After that I will engage a suite of parlors ou the largest and most modern occan steamer extant and sail for Europe, where I expect to have a good time playing golf with Andy Carnegic, playing the races with Eddie the Seven Times, and poking fun at Bill the Freak of Germany. Then when Tonty, him my card.

And with a dignified wave of the hand I was given to understand that the inter-

view betweens reporter for the "B. B." and John Fairman, striking mill work-er, held in Hotel Schenley. City of Pittsburg, State of Pennsylvania, United States of America, was at an end. D. E. GILCHRIST, Reporter for the great and only "B. B."

If you are getting this paper with out having ordered it, do not refuse it.

SEAMEN IN TROUBLE

A Sailors' Round Robin to the People of the U. S. of America.

Following resolutions were passed at an open air meeting of destitute American seamen, held on July 4, 1901, on the Pulverthurm Brucke and in front of the nglish Shipping Office in the city of Hamburg, Germany, and ordered sent to America.

WHEREAS, We, everyone of us being either a native born or naturalized citizen of the United States of America, and as such have done service, some of us board of American warships during the Spanish-American war and all of us in United States merchant vessels, have been shamefully treated and left without help, support and useful advice by the representative of our country, by the United States consul in the city of Ham-

force of circumstances, in a helpless condition, there being no opportunity for any of us to get employment at our trade, since there are only few American vessels trading to this port, and other foreign ships, ESPECIALLY such from GREAT BRITAIN, positively refusing to ship or employ American seamen, for instance the British steamers "Sanda," "Oriel" and "Melbridge," the last two being at present in this port (New York), wish to help those who will be placed in the same condition after we have gone from Hamburg, and

WHEREAS, These conditions, concerning all American seamen who are left in Hamburg, prevail throughout the present year, have prevailed in years gone by, and will still do so in years to come, if there is no help coming from

RESOLVED By the undersigned American seamen, to condemn the action of the United States consul at the city of Hamburg, Germany, in not supporting his fellow citizens and for neglecting his duty as representative of the American people by leaving Americans to the tend er mercy of the German police officials, instead of following the examples of consuls of other countries who watch over the interest of their respective sailors and conutrymen; and be it

RESOLVED, To appeal for the benefit of all seamen and for the future, and through this Round Robin, TO THE OF AMERICA, to tind ways and means to change this shameful condition which does exist in almost all German seaports, by giving its representative strict orders and full power to make arrangements for sending such Ame. can senmen who are in need back to their country, as it is done by all consuls of other countries; be it further

RESOLVED, To send copies of these resolutions in form of a round robin to the leading Socialist newspapers of New York for publication. (Signed.)

Chas. Kleinsorge, W. V.; James Keating, N. Y. City; Douglas Mason, W. Va.; Wm. Bony, W. Va.; Rodney Smith, New Haven, Conn.; S. W. Peterson, Saco, Me.; William Kelley, Bristol, R. I.; Henry Schreck, Hoboken, N. J. Mehert, Horley, W. V.; Ed. N. J.; Robert Hoslew, W. Va.; Ed. Tsylor, Galveston, Tex.; A. Sawyer, Bangor, Me.: Thomas O'Neil, Savannah, Ga.; Al. Rodney, Charleston, S. C.; Fred Grundman, Baltimore, Md.; Henry Hartman, N. Y. City: Henry Williams, W. Va. (All able-bodied seamen.)

Lew Smith, N. Y. City (cook); John Felton, W. Va. (steward); James Cobb, W. Va. (carpenter); Hubert Jennings, San Francisco (oiler); James Sargent, Philadelphia (boswain).

To THE PEOPLE.-Allow me to explain the reason of sending this Round Robin. A good many American seamen are stranded almost every month in the city of Hamburg, Germany. Getting paid off, or laid off rather, these men generally fall into the clutches of some rascally boarding master, who, after skinning poor Jack of all his carnings gen-erally kicks him out in the street, they, the landsharks of course being practically under the protection of the German Government, whose officials do not in the least know a word of English and who have some kind of ill-feeling anyhow against the American. We in this case, being all in above stated condition appealed to our consul without getting the least satisfaction, assistance or advice.

advice. 'I can't do anything for you. You

have to get out the way you came in,"
was his eternal answer.

There being several British steamers
in port, ready to start for the United States, every one hoped to get a berth as all of them needed a full crew. Now watch these Anglo-Saxon brothers. The steamer "Sanda" bound for Port Royal, S. C., refused positively to ship American sailors or firemen. The noble cap tain picked Norwegians, Danes and Rus sians, even Frenchmen all of which had opportunity enough to ship in their own native vessels. This happened on July 2nd. On July 3rd the British steamer 2nd. On July 3rd the British steamer "Oriel" bound for New York shipped the same kind of aren. "No Americans wanted," was the answer which we received. At the same day the British steamer "The Melbridge" took a full crew of Scandinavians in spite of our pleading to be taken.

A sturdy American sailor, showing his

honorable discharge from the U. S. Navy and pleading to be taken as coalpasser received from the Anglo-Saxon engineer of the S. S. "Melbridge" the brutal answer: "To hell with your navy. I don't

These three steamers going to the U. S. had the opportunity to help at least 50 American seamen off the street, while a note from our consul would perhaps have been successful in getting at least some of us on board. A young American sailor amongst us, wearing the stars and stripes of his country on his coat label received the rough advice from some rum-smelling boarding house runsome rame sharp fool; take that damned flag off your coat if you want to get a chance," and the stars and stripes disapchance," and the stars and stripes disap-peared in some way.

About eight colored sailors, hailing

Someone has paid for your "coscrip- About eight colored samors, and frm West Virginia and being in a half then. Renew when it expires.

About eight colored samors, and the west virginia and being in a half starved condition appealed respectfully.

"Mr. Consul, we is hungry."

Mr. Consul advised them, after putting them out, to go to the police station, which advice they followed. They were locked up for the night and chased out again next morning at 4 a. m. I could state hundreds of such cases if allowed more room.—A Tar From the U. S. Auxiliary Cruiser "Yale."

TRUST COMPANIES.

Show a Startling Growth in the Past Six Months. ALBANY, July 24.-There was an

increase in the resources of the trust companies of the State of \$168,544,886 during the first six months of the current year, according to the reports of these companies, filed with State Superintendent of Banking Frederick D. Kilburn. The aggregate resources of the trust companies on January 1 were \$797,528,398 and on July 1 the figures were \$966,528,398. The surplus of the trust companis during the same period only increased \$619,230, the aggregate of such funds July being \$76,743,013. The new State law taxing the surplus fund may have may have operated to cause a shifting about of funds to prevent a greater increase in this item. The loan made on collaterals on July 1 last aggregated \$527,040,175, as against \$387,911,414 on January 1, an increase of \$139, 128,716.

The statement of the condition of the fifty-eight trust companies of the State at the close of business July 1 last follows:

Resources -Bonds and mortgages \$43,862,482, stock investments \$209,-624,054, loaned on collaterals \$527,-040,175, loaned on personal securities \$42 524 584

Overdrafts, \$74,234; due from banks and brokers, \$2,622,913; real estate \$10,667,196; cash on deposit, \$107, 368,854; cash on hand, \$8,814,223; other assets \$13,928,683; total \$966, 528.398.

Liabilities: Capital stock, \$47,450, 000; surplus fund, 76,743,013; undivided profits, \$21,648,715; deposits in trust, \$366,629,844; general deposits, \$435,888,252; other liabilities, \$18,168,574; total, \$966,528,398.

During the six months the total profits received by the trust com-panies was \$22,159,857, the interest paid and credited to the depositors was \$8,954,350, the expenses of the institutions \$2,709,521, and the taxes paid \$60,521. The amount of the dividends declared was \$3,068,000, and the aggregate of the deposits held July 1 on which interest was allowed was \$734,850,766. During the half year the funds invested in bonds and mort-gages aggregated \$29,828,352.

TRUE CAPITALISM.

The Standard Exploration Company Shows the Way.

LONDON, July 30 .- At the first meeting of the creditors to-day, and at a subsequent meeting of the shareholders of of the mining concerns known as the "Wittaker- Wright group," the official receiver made such astounding revelations that he drew from the excited shareholders demands for the lynching of the perpersous implicated.

The reciever said that the estimated assets were farcical. The fourteen mines, valued at £767,000, had earned nothing The company started with a cash capital of £500,000, but the directors took little interest in the company's mines and devoted themselves to Stock Ex-

change speculation.
"And that's where your money has gone," said a receiver; "£228,800 was lost in differences in Lake Erie speculations, and £255,000 was lost in differences in Caledonian Copper. The total profits from speculations are £38,000, and the loses are £536,000."

sharcholder said would "stagger humanity," another share holder asked the receiver to prevent the directors from mak ing away with the property, as it was reported they were doing.
"Are these men still at large?" shout-

ed another shareholder.
"Yes, they rre," came the answer, and

aimcdiately those present at the meet-ing rose to their feet, somebody shouting, 'Lynch him!"

It was an exciting moment for Lord Pelham-Clinton, General Gough-Calthorpe, and others who were attending the meeting. A sterm of angry cries and hisses b.oke cut but the receiver finally succeeded in calming the shareholders by promising them every "protection" pos

Steel Production for 1900.

WASHINGTON, D. C., August 4 .-The Geological Survey has issued a report on iron and steel at the close of the nineteenth century, prepared by James M. Swank, general manager of the American Iron and Steel Association. It shows that this country to-day leads all other countries in the production of these articles. It puts the total world's pro-duction of pig iron in 1900 at about 40,-000,000 long tons, of which the United States made 13,780,242 tons, or fully 34 per cent.

The total world's production of steel for 1900 was about 26,875,000 tons, of which the United States made 10,187,-322 tons, or nearly 38 per cent. The Bessemer pig iron production in 1900 was 7,943,452 tons. The maximum production of Bessemer steel rails by the producers of Bessener steel ingots was 2,361,921 long tons. The total produc-tion of all kinds of rails in this country probably was nearly 2,400,000 tons. The production in 1900 of open-hearth steel in the United States was 3,402,552 long tons; iron and steel wire rods, 846,291 kegs of 100 pounds.

READY FOR FIGHT.

MAYOR M'GUIRE AND HIS LABOR LIEUTENANTS MOVE AGAINST S. T. & L. A.

Charges Are Formulated Against Charles H. Corregan of the Int'l Typographical Union for His Advocacy of the S. T. & L. A. and His Condemnation of the Crooked Work of the Fakirs-Mayor McGuire Pulling the Strings Through His Labor Lieutenants.

SYRACUSE, N. Y., Aug 1 .- The fight is now on at last in this city between the Socialist Labor Parry and bona fide trade unionism, on the one hand, and the Organized Scabbery that runs the pure and simplers backed by its paymasters, the capitalist politicians. Charges are being prepared against

Charles H. Corregan by the executive committee of Typographical union Uo. 55 as a result of evidence produced at a meeting of the committee last night. Corregan is a member of the union and for many years has been active in labor circles. He is and has been for years one of the most active Socialist Labor Party men in this city. He was last year his party's nominee for Governor, and despite all the attacks upon him and his party, beat his Kangaroo Social Democratic opponent who was backed by the Organized Scabbery. He is also actively engaged in the interest of the Socialist Trade and Labor Alliance, a rival organization to the old trades union system, as it is exemplified by the American Federation of Labor, and the affiliated bodies.

The matter of preferring charges against Corregan has been under consideration by some members of the union for several months, but not until the meeting held the first Sunday in July was there any definite action taken. The matter was brought up at that time by two members and referred to the executive committee for action. The committee last night heard the evidence of several witness-es and notified Corregan that he will be granted a hearing to-morrow night. A report will then be prepared. These charges will be considered at a meeting of the union to be held Sunday afternoon. While the members of the committee

will not disclose the specific charges against Corregan, it is understood that the allegations are made that he has been attacking and belitting the trades union movement: that he has spoken in opposition and derided the officers of the international and local organization; that he has been active organiz-Socialist bodies, in opposition to the old trades union movement, and that his action has tended to hurt the movement not only in Syracuse, but in other sections of the country, where Corregan the Stangard Exploration Company, one has spoken. In other words, the charges are not that what he said was false, but they have "injured the Movement," the Organized Scabbery who traffics on the votes of the rank and file being the 'Movement."

Mr. Corrégan is one of the best known Socialists in the country and has been honored many times by his party in this State. He has been a candidate for local and State offi es. He has also at different times run for county offices and is now looked upon as the leader of the party in this city. And this is the reason of his being singled out, as both the Labor Fakirs and the capitalist politierans fear a.u. Thet rouble really dates back a little

over a year ago when the Democratic Mayor McGuire a tempt to capture or disrupt the Socialist Labor Party of this city suffered shipwreck. The Mayor appointed as Fire Marshall Erasmus Pellenz, choosing him under the impression that Pellenz carried the S. L. P. in his pocket. The immediate expulsion of Pel-lenz by the S. L. P. surprised McGuire, but he still hoped that this pur-pose would be accomplished. In this he was grievously disappointed. Pellenz, of course, aided by McGuire and his Labor Lieutenants, joined the Kangaroo Social Democracy in collecting signatures during last years campaign to put the Social Democratic ticket on the ballot. An analysis of the said signatures for this county was published in the DAILY PEOPLE shortly after election: they were a rabble-rout of signa-tures, made up mainly of politicians, those depending upon them and Labor Fakirs. This ticket, it was confidently expected by Mayor McGuire, would wipe out the S. L. P. in this county. It turned out otherwise. The S. L. P. ticket "didn't do a thing to the Social Dem-Corregan being at the head of the ticket that mopped the earth with the ticket of McGuire's nasty pets in this county, and that came out ahead in the whole State, it was like "rubbing it in" on Mayor McGuire; and so Corregan was pointed out by the events as the object of attack. Thos. M. Gaffney, President of the Trades Assembly is back of the prosecution of Corregan, back of Gaffney is Mayor McGuire of whom this Gaffney is a heeler. The fight is along clear-drawn lines.

Corregan, the S. L. P., the S. T. & L.

A., and the healthy labor element in the county are cool and resting on their

A NEW LABOR SAVER. Device for Loading and Unloading Ves-

sels to be Exhibited. The rapid loading or discharging of a vessel's cargo is always a matter of

much importance and interest to shippers and ship owners. In the course of a few weeks a barge equipped with a patent device will be exhibited in this harbor. It is known as an automatic vessel discharging and conveying apparatus, and, according to the promoters of the enterprise, it will revolutionize the handling of grain, coal, ore, etc. The two main advantages claimed for this coverover present systems are

the saving, both in cost and time. This new delivery barge is devised to overcome difficulties experienced in coaling warships and vessels of all kinds in dock and in harbor, and especially in coaling them away from land. Its ap-plication, however, will extend, it is claimed, to the cheap and rapid handling of all kinds of materials now moved in vessels and barges and unloaded by the comparatively slow and costly means of buckets, shovels, barrows and the like.

The system, which is soon to be given a practical test here, consists of a barge other vessel, a conveyor running substantially the length of the vessel on a line with the keel, and with a com-partment underneath the entire load carried; a feed controlling the flow of ma terial upon the conveyor or conveyor belt; an elevator receiving the material as it is discharged by the conveyor, and elevating same to a point above the deck of the barge, and an outboard conveyor to receive the material from the delivery end of the elevator and to discharge it at the point desired. All of the cargo may be elevated and unloaded at varying heights and angles.

The estimated cost of delivering material out of this patent barge is from 1 to 3 cents per ton, varying with the character of materials and the conditions of handling. The rates for unloading from banges now in use run from 15 cents to 40 cents and over. As to the saving in time, coal, for instance, cannot now be unloaded from barges and placed in steamships faster than forty tons au hour, taking ten hours to unload the average barge of 400 tons. By the new system, it is asserted, coal can be delivered on steamer at the rate of from 300 to 600 tons an hour, according to the size of the coaling barge and conveyor belt used.

Immense Transportation Scheme-

ST. PAUL, August 4.-The Pioneer ress to-day said:

"Mr. Robert Barbier, Manager of the Russo-China Bank of Pekin, representative of the Russian Government and Manager of the Manchurian Railway, who is at present in St. Paul, is said to be connected with a tremendous scheme of railway construction, designed to unite Alaska and Siberia and furnish rail and vater connection between Circle City and Vladivostock, the eastern terminus of the trans-Siberia Railway, at a cost of \$200,000,000.

"The enterprise, it is stated, has the backing of the Bank of France, and powerful money interests in the United States. It is to be essentially a French-American undertaking, for which cap-ital is already in sight, should it prove feasible, and in which, it was talked in railroad circles, yesterday, James J. Hill is to become interested.
"The length of the proposed railroad

from Circle City to Bering Sea will be about 2,000 miles, and from the coast Siberia to Vladivostock, 1,800 miles. If the concession shall be secured from he United States and the protection afforded the property of the company shall be adequate, the preliminary survey will

be commenced soon.
"M. Barbier, it is stated, is in the United States for the purpose of obtaining information as to the probable atti-TPublished at 208 Bleecker Street, N.Y. I tude of this government toward the pro-

AGITATION IN OHIO.

Report of the Work of Philip Veal, District Organizer for the Middle West Circuit.

On July 17th, just as we were about to open our meeting, a severe thunder storm broke loose upon us; whereupon the members of the Section present and a few others adjourned to our hall. There we held an informal discussion of the principles and tactics of the Socialist

Labor Party.
On July 18th, we held a meeting in our hall and organized a Mixe. Alliance of the S. T. & L. A. with 17 signing the role and the death warrant of fakirism in this city. (The fakirs will soon be obliged to go to work now.)

The occasion for the launching of this, the bona fide labor union, in this city is peculiarly propitious; the pure and simple trades unions have been smitten hip and thigh by the organized forces physical perfection, but the reverse is contempt everywhere. In the cour's contempt true, over development of they have been hit with sweeping in junctions, our largest manufactories and that they will have nother they have the same they will have nother they have been all they have nother they have been all they have nother they have nother they have been all they have nother they have declared that they will have nothsuch parts are necessarily weaker than run their shops to suit themselves and ing on in helpless impotence; and the Employers' Association is feeling the public pulse to see if it will stand have it institute proceedings for \$25,000 damages against the Metal Polishers Union for the loss sustained by the Day and subsequent legal proceedings result the depression of defeat, have an in- to defiantly tell the workingman that he is nothing but a slave with all of the forces of society against him, the Employers' Association is having 50,000 copies of the record in the above injunction suit printed for distribution throughout

On July 19th we held a small but close ly attentive meeting at the Wayne Avenue Market House, there being about 50

Among the questions asked at this meeting was this beauty: "Of what use is it kicking up all this turmoil and strife ng aggravated by intense and sud-changes of temperature, especially have an eternal future of bliss promised us beyond the skies?"

The speaker answered this by asking

that future of any kind for you after you are through with this life?" which forced the questioner to admit that he

The speaker then took up the point raised and showed his audience that this so-called revealed religion, with its promises and threats, was merely a de-vice on the part of the ruling class to stupify and benumb the intellect of the working class in order to render them tractable and submissive under the robbery and extortion that was constantly being practiced on them by that ruling

The next question was: "What is the The speaker went quite fully into this question and showed his questioner that the trust was in the natural order of the development of the tool of production; that it was more efficient than anything that had preceded it and could only be displaced by something that would be still more efficient i. e., that is the union of all of the forces engaged in the production of wealth into one grand trust That this grand trust will be formed is a fore-rone expelusion, is inevitable; but the question before the working class is,

WHO SHALL OWN THAT TR ST? the working class or the capitalist class? And the speaker stated that the Social-ist Labor party was organized for the purpose of answering that question in favor of the working class and of en-

forcing the answer.

ing on the Court House steps whe about 500 or 600 assembled to hear Cou rade Veal denounce and expose the mal-ign forces of the present capitalistic era. He soundly trounced the capitalist class, the laber fakirs and the fake labor parties. He opened his call for questions by stating that the Social Democratic party constantly complained that their deser to colds and their sequence, esmeetings were broken up by S. L. P.

SMALL STOCKHOLDERS.

THEIR PART IN THE OWNERSHIP OF CONCENTRATED CAPITAL

The Argument of the Defenders of the Capitalist System-Admit Concentration of Capital, With Qualifications-How Corporations are Formed in the Interests of a Few-Decrease of Shareholders-The Sugar Trust and Presi dent Havemeyer.

The defenders of the capitalist system are often pushed for plausible arguments in its behalf.

On of their peculiar methods is to admit certain contentions and then attempt to destroy their force with qualifications, In the matter of the concentration of capital in industry, for instance, it is not denied that such concentration is go-ing on, but it is denied that such concentration is taking place within fewer and fewer hands.

In proof of such denial it is shown that concentration takes place through the medium of corporations which are composed of an ever-increasing number of small stockholders; thus, instead of the capital of the country getting into fewer and fewer hands it is getting into more

The value of this argument consists curacy of statement: it deceives itself with bald numbers and ignores the essen tial amount of wealth or power actually

Every man at all familiar with the formation of corporations knows that their promoters and incorporators retain for themselves the majority of the preferred and common stock; that is, they preserve for themselves the divi-dend bearing and control-giving portion of the stocks issued.

In this way they concentrate the cap ital of the corporation within a few Lands. And these few hands, as a rule control not only one, but many corpora Note, for instance, the widespread con-

trol in corporation affairs invested in J. Pierpont Morgan, by virtue of his ownership of stock in numerous corporations. With the power thus conferred, these few hands render their own stock of value while depreciating that of the small stockholders to such an extent as

to make it almost worthless.

By these and other means—primarily those of stock juggling—the holdings of stock in corporations are so unevenly distributed that the wealth and power of one man will outwelch that of thousands of other men.

stockholders interested in the American Sugar Refining Co. (the Trust)
Yet, despite this preponderance
of numbers over him, one in
dividual, President Havemeyer, owns and controls the majority of the stock of the company so effectually as to become absolute dictator and owner, practically, of all its affairs and properties.

In the Standard Oil Company there are three thousand five hundred stockholders. Thre thousand four hundred and ninety nine of them do not possess as much interest and control in that company as does a certain one of them named John that company as

It is said that John D. Rockefeller owns more than fifty per cent of the stock of the various companies of which the with the requirements of the anti-trust

The Steel Trust is said to have about 25,000 shareholders and bondholders. These shareholders and bondholders are of varying nationalities, as the shares and bonds of the trust have been sold in various European countries. Yet de spite the varying nationalities of these shareholders and bondholders there is among them one who equals at least six thousand of them, admitting, for the stke

Again, it is worth while observing, if the truth is to be arrived at, that stock-holders in corporations are made large in numbers by duplication, that is, a man who is a stockholder in one company is often counted again in a second, third,

fourth, or any number of companies.

In this way, while there is only one man, as in the case of J. Pierpont Morgan, for instance, there is any number of "stockholders." It is like the small number of men who constitute the stage "army." They are trotted around behind the scenes, only to be marched before the audience again, in that way creating the impression of large numbers.

In many corporations there is a notice able decrease in the number of stockholders. In railroads the consolidations that are going on are placing larger and larger masses of capital into fewer and fewer hands. This is sometimes done by purchase, sometimes by "squeezing" the small stockholder, a method of confiscation with little and often no renumera-tion. The recent gamble in Northern Pacific Stocks, which almost precipitated a panic, is an illustration to the point.

The decrease in the number of stock-holders of the Penusylvania Railroad from 28,000 to 25,000, despite its enorm-ous expansion is another illustration of the tendency toward concentration referred to.

Stocks may have a large number of "holders," but capital is concentrating into fewer and fewer hands.

Adams, Mass.

Headquarters, 832 Howard street, and distribution can be had of the underset your subscriptions renewed.

CHARLES STOEBER, 19 N. Summer street.

TO MONOPOLIZE BREAD.

Trust of Large Proportions Formed-Will Exploit New Machine.

What promises to be a bread trust of large proportions had its beginning vesterday by the incorporation in Trenton, N. J., of the National Bread Company. The capital stock of the corporation, fixed at \$3,000,000, it is stated, has been fully paid in. The immediate ambition of the company, if reports from a source seemingly authentic, are accurate, it to control the bread output of New York City, Jersey City and Newark. Eventually the corporation expects through a beginning in Chicago and St. Louis to acquire a similar control over the bread industry in all of the more important cities of the United States. If this be true, the company is aiming at control in its line similar that of the other great corporations regulating other products. Several of the larger bakeries of New York already have been absorbed on a division of stock basis by the new company and it is said that in the resulting fight for control, the other bakeries will be forced into the new concern or suffer from the usual methods of competition.

The certificate of incorporation for the company shows that ex-Judge Augustus Van Wyck acted as attorney for the new company. The incorporators, who, it is believed, are acting in that capacity for prominent financial interests are: Joseph H. Strange of Orange, N. J.; Paul F. Lorder and John Joseph Roach of Jersey City. Those supposedly having direct con-

nection with the company were disinclined to give much information about its objects. A person known to be interested in and connected with the scheme, when seen yesterday, refused to divulge who was back of the com pany or to name any of its probable directors. He admitted, however, that the following facts, divulged by other who is acquainted with the deal. are substantially correct:

The National Bread Company, cording to this informant, was organized for a double purpose, first, to consolidate all the large baking firms under a parent company, which should divide territory among its members and with inter-company competition in all districts, and, secondly to exploit a patent bread-making me chine which, it is stated, kneads bread without any handling and at the same time increases the baked loaf thirty per cent in weight over the present one with a given quantity of flour.

The scheme of consolidation will be for the various baking companies to give the National Company a portion of their stock, said to be large, in reurn for which they will gain the use of the patented machine, which, it is asserted, does away with about 50 per cent of the labor, and will also be given an exclusive territory for the sale of their variety of bread by which they will save the cost of competition in other districts both in andling and delivering their product and in the waste in the various shops. The member companies will run under this plan as subsidiary companies to the parent concern, which will get the profits of its portion of the stock. This, how-ever, may be but a step to a system of absolute control of the baking companies by the general corporation which with a start of a heavy percentage ownership would be in an excellent position to ac puire a majority holding.

Were the small bakeries to be frozen out by the usual trust methods? He believe so. He thought this was for the big companies who employ hundreds of men, but it might affect some 50,000 men by reducing the number of laborers required. He had been given to understand that the United States Bread Company, which is erecting a plant in 362-364 West Broadway, was controlled by the people who were Whether this would of the National. be used to kill off competition or not he could not say. He thought it would not would be a weapon with which to fight the member companies if they broke used against the si from their agreements, did not maintain their plants properly and the like. In this even a big bakery under the control of the central office would be useful. He admitted, however, that the general outlook was very much like an attempted bread trust and he thought it might spread, as he had heard rumors of dickering in Chicago and St. Louis, From what he knew of the people in it, and those said to be back of these people and by trustworthy persons at that, however, he said, he was very confident that the new company means business and was to be a big corporation.

SHAFFER WAVERS.

GIVES THE STEEL TRUST AN EXTEN-SION OF TIME.

He Hopes for Something to Turn Up and Extricate Him from Present Fix-Workers Getting Restless at Delays-Shaffer Between the Devil and the Sea.

PITTSBURG, Aug. 6.—It was reported all over the city this afternon that the order for a general strike had gone to the unclosed mills of the United States Steel Corporation and that the men were expected to quit at midnight. But so far as can be ascertained the Steel Trust is to have until Saturday to consider the time the members of the Amalgamated Association of Iron and Steel Workers will continue at work.

This decision was reached to-night by Shaffer, in opposition to the wishes of ost of the members of the Executive Board, who wanted action straightway, and to whose influence the original order to strike at midnight must be attributed. At the Newcastle (Pa.) mills, however, the order takes effect to-night. This

is because the Newcastle mills were piling up raw material for the other plants of Shaffer still cherishes hopes that the Trust managers will make concessions which he will be able to induce his fol-

owers to accept.

Shaffer was less mouthy to-day than at any time since the strike began. He and the National officers of the Amalgamated held a secret session this after noon, to consider the proclamation and of the manufacturers of the in tendd general strike.

Shaffer continues to maintain that there are sufficient reasons for the delay of his general strike order, but the only apparent cause is the hope entertained that the officers of the big steel corpor ation may soon realize the serious re-sults that will follow a general closing of the union plants and make overtures for peace. The Amalgamated Associa-tion, it is asserted, does not desire to take hasty action, and proposes to rest quietly

From the meagre reports from the officials of the steel companies, they are not worrying over the delay. They seem to be confident as ever that they will win. They believe the wait is due to the fact that the officers of the men's organiza-tion are not certain of their ability to bring out the "union" labor desired.

SHAFFER'S EXCUSE FOR DELAY. PITTSBURG, August 6 .- While the United States Steel Corporation is, here and there, resuming or increasing operations in mills that had been closed front a fortnight to six months, although not attempting on an extensive scale to break the strike in some of its plants, and the thousands of men been idle since the middle of July because of Shaffer's order against the Steel Hoop, Sheet Steel and Tin companies in the corporation are watching with desparation the days slip by and wages lost, eodore Shaffer, the so-called strike leader, continues to play for time before issuing the threatened general ste ke crder. It has to en learned that although Shaf-

fer gave it out on Sunday night that he had been empowered by the Executive Board of the Amalganiated Association of Iron, Steel and Tin Workers, of which he is president, to call out on strike the union men in the Federal Steel, National Steel and National Tube companies within this week, the date of the order vas not made such a discretionary matter with him. It was decided by the board that the order should be issued on Friday night next. To-day Shaffer comes forward and shows that he has found a new excuse for procrastination. He avers that the companies to be affected ought to receive at least ten days' notice before a strike order is made effective, and he says that he thinks he will give this

There is no wonder that the impres sion is gained ground here that Shaffe is hoping for something to turn up which will extricate him and his associates of the "union's" affairs by their shilly under a Socialist Legislature. "Better shallying. On all sides it is said that improve the condition of the workers Shaffer has been well trounced up to than endure this." \(\)
date, and that he is beaten before he Such is the manner that the Socialist

the Hoop, Sheet Steel and Tin companies brought about the Hotel Lincoln conference, which ended in nothing but the rejected offer of more favorable terms to Does Shaffer hope that the new notice of strike will result in another conference?

would seem that the damage he could in the hopeless compaign which has ostensibly begun, he would be in a far greater hurry than he seems to be. There are those who say that if there ever was an operabular to the seems to be the course of the fight this fall. Twenty-five weekly bouffe strike leader this ex-preacher is mination to win, assurances of hearty intelligent workingmen.

GOOD MUSIC.

support that may go as far as a sympathetic strike have been received from the American Federation of Labor, and the strike cannot fail.

The fact is, Shaffer fears to reveal the weakness of the organization. He has boasted that a general strike would tie up about 75 per cent. of the corporation plants, but one Pittsburg man said to-

"Why, there are more men working in the Carnegie mills at the Carnegie mills at Duquesne and Homestead and the mills at Braddock non-union plants all of them, than there are on the Amalgamated Association's Gompers, who was expected to come

here to-day and make the regulation "we'll support you," "hurrah," statement, is said to be at Atlantic City enjoying the ocean breezes. Shaffer is anxious for Sammy to come and make the big bluff. Apparently all that Shaffer is fighting for is time to devise some way of doub-

ling back on his tracks, keeping agreement, saving a part of the Amal gamated Association and his own job, or else preacher-like hoping that some else will work a miracle to bring him well out of his difficulties and spare him the necessity of doubling back. He is between the devil and the deep sea. The rank and file are beginning to

strike. They may yet make it plain to him that he had better take some determined action or get out. If a general strike is not ordered he of course will be stultified. If the strike is ordered and the "union" fails it will be destroyed. The hoped for interference of politic-

ians has not yet materialized. It is up to Shaffer.

BUFFALO AGITATION.

The Campades There Doing Effective Work. BUFFALO, Aug. 5 .- Section Buffalo

stormed the breastworks of capitalism treets. The gunners were O'Toole of New York and Reinstein of Buffalo. O'Toole showed how machinery had leveloped during the last fifty years. He called the attention of the audience to the exhibition of the machines of fifty years ago, and the machines of to-day, at the Pan American Exposition and how those machines are used to dis-place the working class, and that the number of unemployed, so displaced at the present day, reaches nearly five mil-lions in the United States. The audience was asked what the Re-publican or Democratic parties have ev-

er done to end the suffering of the work ing class. It was shown that instead of improving the worker's condition, that the elected officials of both partie have done all in their power to degrade and sink the workers deeper into slav-ery. For proof the murders of worknamen at Hazleton by a Republican theriff and deputies, also at Idaho by a Bryanite Governor and other instance too numerous to mention, where men were striking for an existence shows the so shown that a worker who votes for either of these parties or their offspring is worse than a scab, and that it is plain all (even to a child) that these paries are the deadly enemies of the ing class. The time is not far distant when we will shun workers who give their votes or aid to these parties or factions thereof.

Then unionism was discussed and the

pure and simple unions, who say "no politics in unions" were shown to be a detriment to the working class; that the leaders of such unions call strikes, when there is no chance of winning them, but simply to push themselves into publicity so that they (the mislead will get a political job from some politician.

The workers were appealed to to smash such unions and organize in their place seal working class union, that calls a strike until there is some chance to win, and carries on a strike under the protecting guns of the S. L. P., which carries on a deadly fight in the strike ocality. It scares the lives out of th politicians so that they will run to the apitalist and ask him to give fear that if the strike and agitation goe on that the S, L. P. would land in office at the following election. If such should harpon they point out to the capitalist that his mills, factories, etc., the proper

date, and that he is beaten before he begins if he starts to extend the strike.

There is, perhaps, just a hint as to Shaffer's state of mind these days in his in the shop and at the ballot box under further explanation that the notice in Reinstein cited in an able manner the

BOCIALIST VOTE IN THE UNITED STATES. 21,157

The sentiment of the ideal life is none other han man's normal life, as we shall one day GECRGE SAND.

THE "CONSTITUTION" FOLLOW. ING THE "FLAG."

The paper signed "Americus," and embodied in the Philippine Commission's report of 1899, a passage from which was ed in our vesterday's issue, should set at rest all uneasiness on the part of all these who feared the "Constitution" was to lag behind the flag. Once before if was argued in these columns that, so far from playing the traunt in the rear of the "Flag," the "Constitution" is keeping pace with tongue hanging out of its mouth. The "Americus" paper furnishes proof, striking and convincing.

The "Constitution" being in the hands of the capitalist class, requires cheap labor, and none too cheap. That is to say, it requires a working class that is thoroughly fleeced, the more the better. The American capitalist class carried this to what would seem perfection: American labor only keeps 17 per cent. of the product of its own efforts, in other words, it is fleeced of 83 per cent, of its wool,-a larger clip than is yielded by the workers of any European country. When, accordingly, the "Flag" reached the Philippine Islands and found there, intead of the still lower earnings that were expected, that wages in Manils were a good deal higher than across the pond in China, the "Constitution" took a spurt, and "Americus" quickly nseled the importation of Chinese by millions "to make the natives come to

With a larger exploitation of Labor here than in Europe, and with Chinese wages "in petto," the "Flag" reached the Philippine Islands, and the "Constitution" did its best to lay the pipes to land abreast of the "Flag."

Let none who is satisfied with the present Constitution, that is to say, with a capitalist class in control of the power to interpret and enforce Law, feel the slightest apprehension. The breasts of the Bryanistic silvermine owners, who are ever ready to Bull Pen their workingmen sinto low wages, need have no appresion on the score that the "Constitution" may not follow the "Flag":--it is following it fast. The Labor Fakir brigade, who act as train-bearers for the longer about the "dangers that beset our the "Evening Post" speaks for. Nay, should cease to follow the Flag";-the "Constitution" has no such intentions. Neither need the Mugwump reformer, who habitually insults American Labor, sit up at night to draft resolutions in stonese English on "a perfidious, Mc-Kinley who would dislocate the Constitution from the Flag";-the two are well set together.

And so will they ever be: Flag and Constitution never will sunder. Held by the robber Capitalist Class, the forwill ever lead the latter in its train and establish slave conditions, Chinese conditions, for the workers; some day, seized by the Working Class, the Flag will, over the prostrate body of Capitalism, lead the Constitution to the conditions of freedom.

The choice lies with the people in whose hands they propose to trust the Figg, and to whose sense of justice will they entrust the interpretation of the Constitution.

CAUGHT IN A CLEFT STICK.

, It is a cruel blow that the Vienna makers have planted on the smeller of the "statistics" and orations that the publican and Denrocratic politicians are in the habit of reeling off before working men constituencies on the higher earnings of "American Labor" and the low wage scale of the "pauper Labor of Europe." An enterprising American capitalis sed to set up shoe-shops in Austria and he announced that he could sell Amcan shoes there "30 per cent cheaper" they could be produced on the spot acity to do so was not question

for a moment by the Vienna trade; it above from the "Evening Post" denotes is held under, where it has not yet FRESH TARIFF WEANGLES IN 'rose en masse." and declared that it would wreck the establishment the incment he started to float his "cheap labor" stuff, claiming that his success meant their ruination. Matters are now at that pass. The contestants may be left to themselves for the present, while we turn the telescope upon this tell-tale incident.

Goods produced in one place, 30 per

cent cheaper than in another, whatever

tensification of labor. The almost

miracle-performing shoe making ma-

chines are instances in point. Incompar-

ably intenser is the labor that goes with

them; proportionally greater is the ex-

ploitation of the operative. An idea of

the greater quantity of life-tissue con-

may be formed by coupling the dreams

of wealth indulged in by the American

tors. The whole may be well gauged by

the statement "30 per cent cheaper."

And there goes staggering and reeling

the Goliath falsehood regarding the su-

perior economic condition of American

Labor when compared with the "pauper

Labor of Europe." The giant falsehood

staggers and reels, hit between the eyes

UNLOADED. The great Steel Strike bids fair to a sumed by the modern machine-made shoe down into history as the most fertile of any one incident in producing marifestations, that, provided they are taken to shoe capitalist in question with the heart, cast innumerable sidelights on volume of opposition that his scheme the possibilities of Labor economically has provoked among the Vienna operaorganized.

On July 31, the stock of the United States Steel Corporation suddenly broke down several points; a day or two thereafter it stendied up again, and that gradually re-rose. The Steel Strike was on before, and during, and continued subsequent to the said break-down in the stock market. That strike could, ac cordingly, not have been the cause, although its existence had somewhat conhim is knocked both under and above belt tributory force. What was the cause?

An employee named Patrick Frev. rougher, at the Twenty-ninth street mil of the Carnegie Steel Company in Pitte burg-a mill not involved in the Stee Strike-, had been active in organizing the men in the mill, and when the officials discovered Frey's work he was discharged. Immediately, thirty men out of about fifteen hundred employed by the mill, and whom Frey had just organized guit work. This happened on the 30th the tumble down in stocks followed the next day, swiftly upon the announcement of the occurrence; Frey was quickly refustated, the thirty men returned to cipal campaign is given in the following work, and the stock market recovered composure.

The capialist social system is the Srs system builded on a carpeting of banana peels. The capitalist is the first social ruler, the law of whose existence is Insecurity. However centralized his economic power, it is riddled with economic blow-holes. This fact, when known and thoroughly grasped, can be turned into a loaded gun with which capitalist inroads orrible in violation of law, their upon the workers can be resisted, and their health endangered by uninspected food and epidemics unchecked by an in-efficient Health Board, and the police, with the aid of which even positive relief the exploiters; when, however, the fact is not known or its significance eis not grasped, it turns to an unloaded gun, that, for a moment, may scare him whom it covers, but that, in the long run, breeds contempt for its holder, and increased assurance against him. The pure Not one of the ills mentioned above but and simple Union is such an unloaded gun; the class-conscious Union, to wit, the Socialist Trade and Labor Alliance, is the loaded gun. pest-holes? Is it that they like it? Or

Here,on the one hand, the spectacle has been seen of thousands of men frequently estimated at over 50,000 standing out for weeks in the Steel auti-expansion capitalists, need weep no State laws, the product of the very class Strike; surely this is a gun of no contemptible calibre; but it is not loaded. Like birds of the field, who become familiar by experience with the scarecrow set up againt them, and who finish by hopping gaily upon it, are perching upon the very stick, stuck in the sawdust of its hands for a make-believe gun, and dropping their drippings upon it, so is the capitalist exploiter now seen dallying with the Union engaged in this Steel Strike, his Hannas fingering it confidently, and his Morgans standing up defiantly before its silent, harmless muzzle. On the other hand, a paltry thirty men have been seen on strike less than 24 hours against a giant body; within that time the exploiter's pulse "rattled." as indicated by the stock quotations: and the grievance complained of was redressed. This gun was loaded

of the fact constitutes a flat denial of In what consisted the ball?-In a sense of solidarity. Left to itself, the Working Class' instinct of its class bonds ever and anon kindles into life. The spirit that attends the birth and domicile accessible to the working class keeps up the life of the class-conscious Union, i. c., the Socialist Trade and evitable? Is it a municipal regulation Labor Alliance,-the class-bond of Labor that strips the workers of the means to against the class-bond of Capital-, at-"provide for themselves the comforts and tended the birth of the organization of safeguards of life," and places such these "Pittsburg Thirty," as it ever attends and hovers over the cradle of magnates and the gentlemen who would most Trade Unions. In the instance of "harpoon the Tiger"? Evidently not. these "Thirty," that spirit had not yet The cause lies not in the municipality, time either to be smothered by the weeds that grow from the absence of conscious sense of class, or to be perversely extinguished by the malevolent activity of the Labor Fakir, the Labor Lieutenant of the capitalist class; on the contrary, in the instance of the body held in hand by a Shaffer that spirit

Keen is the capitalist's instinct. It quickly scented danger in the gun held up to it by the "Pittsburg Thirty": it smelled the ball: it had not yet time to extract the missile, and it ducked, From Shaffer's gun of mightiest calilong extracted the ball thereout: Labor Lieutenants, from Weihe and Garland down to the present Shaffer, have attended to this and made mani- of a "protected orange." Quoting from fest the perfection of their work through their public political solidarity with the capitalist class.

The pure and simple Union is a gun and Labor Alliance is the loaded gun, alone serviceable on the economic field of the Class Struggle.

The Socialist Labor Party has recently been forced to go through two hard fought battles, the one in De-Meiko Meyer was mobbed, arrested for being mobbed, and fined the sum of \$45 and \$5 costs for being mobbed and arrested. In the second instance Charles Mullein was arrested three times. but as there was no case aginst him. the judge reluctantly allowed him to go free. There is a striking likeness in so were fighting for the working class. The error they committed was in fightin the right way. They kept their guns trained on something, and that something was a stronghold of the capitalist class—the pure and simple un-ion. Every shot told. They also ruthlessly exposed the corruption of cap-italism, and showed to the working class that the interests of the wag worker were bound up in the Social ist Labor Party. A man might talk for hours against abstractions. He might make the air blue with his elo quent denunciation, but he would not only be tolerated, but he would actual-When, how e commended for it. ever, he gets down to earth, and the things of earth, he is guilty of a grave crime. Hence the persecution of these two men, and the futile attempts to silence them. They can no more be silenced than fate itself can be held in check. They have received additional strength, because the party of which they are members draws not only inspiration but power from the efforts of the capitalist class to free itself. Every struggle makes the bonds sink deeper, and every show of force weakens and shatters it.

The American Woolen Company, the Wool Trust, has entered upon its campaign of killing off the independent prolucers. It was with this object in view that it made a slashing reduction of from 7 to 25 per cent in the price of its goods for winter and spring trade. move has thrown the whole trade into confusion. There is loud walling from the little producers, who rave about cut-throat competition, "agressions of the Trust," etc. Both the A. W. C. and the minor producers have ground their workingmen down to the very marrow. They have not hesitated to extract from them every ounce of life and strength that they possessed. can be from time to time wrested from The Trust, when it was inaugurated, made it necessary for the smaller companies to produce on a cheaper scale This new move will make it necessary to produce on a still lower scale. 'Dur ing the coming season it is more than probable that the workers in the mills will make up for this slashing reduction that has so pleased the jobbers, and thrown the mill owners into such a state of fright.

> The company that operates the troley cars at Yonkers does not believe in fenders. As a result three persons have been murdered in the past few days. There are several railroads that do not believe in automatic couplers, and the rate of killed and injured on these roads is larger than on the others. The Yon-kers road has no right to practice any barbarous belief. is not a matter of faith with the com pany, but a matter of economy. Fenders cost money, Lives are worth but little. So for the sake of putting a fev dollars extra dividend into the pockets of the stockholders the life of every who uses the streets is endan

> Mr. Winston Churchill has been given a medal in recognition of his bravery. This bravery consisted in telling a dramatic story of how he was captured by the Boers, and then escaped. The only flaw in the narrative is that the Boer allowed him to escape, and that they have several pictures of him doing it. But as Churchill is a useful man to ex-plain things, the English government thought it could not do better than to give him a medal.

The "Cleveland Citizen" savagely snaps its teeth on its tongue and an nounces that the "Socialist Labor Party is now in the throes of disso .The "Citizen" has said that lution. so often that the only possible con-clusion is that the Socialist Labor Party is indulging in the longes 'throe' on record.

The "Workers' Call" is very glad that the "Appeal to Reason" is "coming their way." The "Appeal" has gone so many ways that it is not surprising to know that it is going the "Call's" way. As the "Call's" way is downward, it is probable that the two have embraced to take the plunge into

Over 100,000 persons took place in the parade to King Humbert's tomb. A parade twice that size could be formed from the peasants and workers who died from starvation during the King's

THE WIND.

The declaration of free trade between Puerto Rico and continental United States territory is about as severe a blow as could have been administered both to the political free traders in this bre, however, it scents no danger: it has country and to the free trade theory in general.

Among the many matchless dialectical

witticisms of the French economist

Bastiat against protection, is the story

memory the reasoning was to this effect:

Oranges grow naturally in Cuba; they are imported and placed on a fruit-stand in Paris for, say, I cent a piece. The price represents the cost of raising, transrendered harmless; the Socialist Trade portation and distribution, and is as low as 1 cent owing to the orange being raised where nature is propitious. An enterprising Parisian thereupon scheme to produce oranges in Paris. But the climate is unpropitious. Hot-bouses, with extensive appurtenances and proportional expensiveness become neces-sary. The result is that when the Parishard fought battles, the one in De-ian orange-manufacturer is ready to troit, the other in Denver. In the first place his products on the Parisian market, the individual orange has cost him con-siderably more than 1 cent. To sell for that price would bankrupt him. He turns to the Government; pulls the required wires, and lubricates the requi-site wheels; whereupon a tariff law is passed placing on each orange imported ence in the cost of production, say 2 cents. Thereupon, at the same fruitthe two outrages. Both men were fight- stand of yore, two oranges stand, side ing for the Socialist Labor Party, and by side, for sale: the manufactured or "artificial" product and the natural one, both marked 3 cents. Bastiat then argues that, as a means of raising revenue, the process of collecting 2 cents on imported oranges is clumsy and wasteful: he then turns his brilliant shafts of satire upon the protectionist idea of "promoting industry" by such artificial methods as producing artificial fruit; let oranges grow where nature will raise them genuine, and let the efforts put forth in doing hot-house violage to

nature be turned into legitimate channels. The point is excellent and covers a certain ground well; but it does not cover the whole ground that free trade claims to cover. Large areas are left bare. The sophistry, or be it quibble, Large areas are left or be it the defective reasoning underlying free trade as a practical theory, capable of application, is emphasized by the experience with which Puerto Rico is bound to enrich future tariff discus-

sions in this country.

The flaw in Bastiat's free trade reasoning lies in that he seeks to expand into a general principle a theory that is applicable only to restricted areas. Starting from this error, the error of not taking all the facts into consideration, he tumbled into a preposterous political blunder, and the free trade theorizers of America, quoting him, tumbled after him into the same blunder. That the latter have not yet discovered the fact and the reason thereof is the strongest gvidence of their mental incapacity.

Bastiat's illustration applies to a country of restricted climatic productivity. In a country essentially manufac-turing, "artificial" farm products can be laughed out of prount, and free trade, in them, will win the day. In the measure in which a country is agricul-tural, besides being manufacturing, the satire against "artificial farm products" is weakened because its application becomes restricted. Finally in a country whose area is so large that vegetation of different climates thrives within its borders, the satire loses all force except for the whimsical. Common sense dismisses and material interests spurn it. This has been the experience in this country; is is what has given vote-collecting back-Lone to prejection here; and it explains much of the tariff wrangle: Puerto Rico will now add grist to the mill.

Sugar, oranges, tobacço and other vegetal products of the torrid zone are raised within the same American bonndary lines where manufactures, otherwise the "product" of temperate climates exclusively, are seen to flourish. reason that eventually induces industrial concerns to throw off the crutches of protection and set up the colors of free trade can or is likely to come into play with the agriculturist. His product can not be railed down as "artificial." And moving under a social system, of which Bastiat himself was an enraptured Pindar, the capitalist system, the agriculturist insists upon making his living off his fellows, demands governmental protecton, and, swaying his own and his wage slaves votes, assents himself in the halls of legislation. Thus it has been seen that while certain industries demanded free trade so that they may buy cheaply the raw products that they need, the domestic raisers-not in hothouses, but in the open fields-of such raw materials, lock horns with the forces free trade; compel them first to shift their ground, and abandon free trade as "cardinal principle"; and materially interfere with their plans. The placing of new territory within the boundaries of this nation necessarily leads to free trade between the old territory and its acquired domain. The new territory being tropical, it throws into the anti-free trade scale a new set of products, besides strengthening in the same direction the attitude of kindred interests previously within our boundaries. This is one of the practical politico-economic effects of, first, the annexation of Puerto Rico, and the inevitable sequence, the declaration of free trade between the island and the United States mainland. The flames of tariff wrangles may be

expected to flare up afresh, fed by the fresh fuei of Puerto Rican products.

Agents of the United States Secret Ser-

vice say that they have captured "one of the most accomplished woman criminals in the country in Annie Doughety, the counterfeiter." When have these moles. these noxious products of a noxious systhe Secret Service agents, or de tectives, been known to capture anything that was not tone of the most accom-plished criminals"? The capture has to planed criminals. The capture has to be an "accomplished criminal," or the detectives' merit would be slight; and the capture must also be only "one of the most ac-complished criminals," or the detectives would no longer be needed.

CALUMNY NAILED.

An Old "Volkszeitung" German Workingman Raises His Voice and is Suppressed.

The below is a translation of a letter which, though couched in polite terms, lashes the infamous calumny which the "Volkszeitung" and its scab accomplices recently concocted in the matter of the recent Sprague strike. It was sent by its writer to the "Volkszeitung" and there suppressed,-an evidence that this latest falsehood was as deliberate as the numerous others for which that "business" sheet has so of ten been nailed in these columns, and for which it has so completely forfeited the regard of the German workingmen that its circulation has now dwindled down to barely 2,500.

In giving Gust. Spindler's letter to the readers of THE PEOPLE, we know that, in a measure, it is carrying coals to Newcastle. Last week the statement signed by scores of the Sprague strikers themselves covered the ground fully. Spindler's letter has, however the additional significance of its being the spontaneous act of a "Volkszeitung" himself, and that by its suppres sion it places that paper in the disgraced ducked position that it was placed in when it got its lashing on its "Leader" meeting article.

Here is Spindler's letter: "To the Editor of the 'Volkszeitung:'

"In answer or correction of your re port on the Sprague factory, the under signed wishes first to make a few ob servations, lest he be misunderstood.

"I am, since I arrived in this country 21 years a reader of the Volkszeitung, and never yet have I done violence to the principle of solidarity, as I am firmly convinced that the working class can reach victory only by internationally holding together. And also I am of the opinion that groups or parties, that differ from one another, but aim alike at the emancipation of the working class, should at least be treated de cently, especially when, as in this in stance, one has to deal with intelligent workingmen.

But now to the point.
The furnisher of the article of July

18-who seems to be either a bought-up spy for a certain side (bought up to the injury of the 'Volkszeitung'), or a regulation constitutional liar, says in the first place that the De Leonites started strike, but were now seen through by the electric workers here. There can be no truth whatever in that, seeing that the strike was of a wholly local nature, and we are not the simpletons to allow us to be sold.

"In the second place, the nameless furnisher of the report writes about the difference between the De Leonwho demanded 54 hours work and 60 hours pay, and the electrical workers, who, not having time to report to their own Union, forfeited even their strike support. As a matter of fact, the De Leonites and other parties are not considered in the shop. The Company does not inquire after the color of parties. It inquires only after the power to work Moreover, there is no distinction in the kind of work with slight exception, it is all piece work.
Furthermore, the unknown writes

that among the electrical workers some have found temporary work elsewhere, but that the majority remained out of work, whereby also the De Leonites are said to have showed their claws. To that I can only say that, while it is true that some found work elsewhere, the last part of the statement is notoriously

"That monies and groceries were collected is true. But it is not true that someone, who demanded support, was

"I would not touch upon the nex point were it not in the interest of truth and of the 'Volkszeitung' itself to do so. "In the fifth week, due to several rum ors, the matter was discussed whether a committee should call upon the firm. As the men were growing restless, was decided to send the committee, and the committee settled the strike in hon-orable manner. There were no De Leonites here either. Possibly there may have been stance; the furnisher of that tissue of

"As to the next sentence to the effect that "the Strike Committee, to which the notorious Hickey and an individual named Jack Goordman belonged announced that the Alliance men were to remain out on strike, but the next day these fellows dealt secretly with the firm and immediately declared the strike off and everything settled.'
Mr. Editor! More than one row

have I fought out in my life, but that one set of workingmen should resort to such mean methods against another, I have never seen before. If the furnish er of the report means to be an honorable man he should at least give his name, so that he may be taken to ac-Mr. Hickey may have his faolts:

which of us have none? But also his op-ponents should respect him. And as to Jack Goordman, who for some time is a member of the party and who takes great pains to learn the principles of Socialism, he is spoken of simply as "an individual!" "Mr. Editor! As I know you a long

time, and I know your honorable character [! !] I must express my wonderment that you are so casy to be led by the nose by a liar. That the strike was not settled secret-

ly every striker knows.
"If you desire further information I am willing to furnish it to you.

"GUST. SPINDLER, "14 Charles st., Bloomfield, N. J.

Cuba's new electoral bill provides that the President need not be a native Cu-ban. This will allow some enterprising company from this country to ele own man. There is no doubt but that the intention of the bill is to provide fices in such a way that the United States business interests can have full and complete control.

Uncle Sam and Brother Jonathan

BROTHER JONATHAN-Damu those workingmen. They are always striking, Always up to some miscief. UNCLE SAM-Do you imagine they

strike for the fun of it? B. J.-It does look that way some-

times to me; although I know that they ion't do it for the fun of it. The fools imagine they can gain by it.

U. S .- I admit they are often-

B. J .- Often? Usually, aiways in er-U. S .- Even if they were so, the blame

s not theirs. B. J.-Whose is the blame? Mine, I

suppose? U. S .- Yours sometimes. Others' other

times. The blame, in short, lies primarily with you capitalists; if anybody is the fool it is you people; and if anybody is to be damned it should be you, the capital-

B. J.-Why, we do everything we can

b. d.—Why, we do everything we can to prevent strikes.

U. S.—Sometimes you do, but sometimes you don't. You knew well that when you want to break a contract, or when you want to stop work because supply of goods is too large you simply instigate a strike. You get the labor fakir whom you keep in your pay Whose is the blance?

B. J.—Well, that is an exceptional case. As a rule, it don't come that way.

U. S.—If it don't come that way exactly it comes virtually that way.

B. J.—All the other strikes proceed

from the stupidity of the men. U. S .- I have shown you, in the intance quoted that the strike from you in fact. Now take this other instance. You keep the lagor fakir in your pay to prevent Socialist agitation from entering the union. Socialist agitation would teach the workers how attle there is in strikes, "pure and simple." Being kept away from informa-

tion, and by your doing, whose is the if your workers act ignorantly (U. S. turns B. J. around, grabs him by the collar and the seat of the pants, and gives him a kick that sends him flying.)

Comrade Charles Wheeler's Death,

To THE PEOPLE-The following clipping from the "Dallas News" of the 20th inst. tells an awful tale of the risk of the workingmen under our beautiful capitalist system:

"Charles Wheeler, a lineman in the imploy of the Standard Light and Power Company, was killed while at work at the top of a thirty foot pole at the junction of Elm street and Scollard Court yesterday afternoon at 5 o'clock. He was with a companion on the pole and was standing on the transformer when his hand came in contact with a wire overhead, carrying a current of 2,200 or 2,300 volts. Death was practically instantaneous."

eler, a man of powerful physique and a splendid workman, was a member of Section Houston, S. L. P. Anyone of Section Houston, S. L. P. Anyone As Comrade Courtney describes him: "Meek as a lamb and brave as a lion."

Comrades! another one of our class has been electrocuted by the capitalist class, without committing any other crime than being a wage-slave. Let us redouble our efforts to sweep off the earth a system that mufders our brothers every day with impunity. Especially carry the lesson home to the electrical workers of Texas, who are still being led to the slaughter by their "impure and not too simple" to make money lead-ers, who are upholding with their vote voice this infernal system because themselves are out of harm's way.

The Texas State Committee, S. L. P. FRANK LEITNER, Sec'y. San Antonio, Texas, July 27.

Pan Sketches from the Indianapolis Convention To THE PEOPLE.—Doubtless before this reaches you, despatches from this city for the DAILY PEOPLE will have been coming in and published in your columns. Nevertheless, I shall endeavor from to-day to send you a sketch of the successive incidents of the convention. they will serve at least as supplemental to the despatches.

Seventy to forty-seven "delegates," and "4/706" to "1,402" votes tell more plainly in figures than it could be told in words the complete capture of the Social Democratic party by the Kan-

of the two factions in the "unity" conven-tion which opened in this city to-day. Thus the Kangaroos dominate the con-vention with a majority of approximately four to one. The Social Demcratic del egates are at the utter mercy of the Kaugaroos and as Victor Berger sig-nificantly said on the convention floor, "can be drowned in this convention."

At the close of this first day it is plain that Debs is beached higher and drier than a mackerel, and largely with the consent of Ads Told supporters who have allowed him to quietly drop from view. A brief telegram of congratulation, and regret for absence, without explanation, was the way Debs acknowledged his final exclusion from the mark from which he xclusion from the party from which he

which is the party from which he had hoped so much.

Whether the Social Democratic delegates will supinely consent to be manoeuvered out of existence by the infamous methods practiced by the Kangarous from the beginning of the "unity" movement, remains to be seen.

ovement, remains to be seen. At ten o'clock this morning Kelly of he Committee on Arrangements called the convention to order, and the preach-er, Geo. D Herron, was unanimously chosen temporary chairman, and he dwelt upon the possibilities of the "human soul" under Socialism. The factions feared to clash and the proceedings dragged perceptably. The morning was consumed in the selection of the credential committee and a committee on rules and organization, whose membership was finally divided among the representatives of the contending factions.

The convention reconvened at 3 p. m. nittee's report with little modifica-

The first animated discussion of the convention arose over that paragraph of the report of the committee on rules de-

ermining the method of voting.

The bitter feeling known to exist be tween the factions cropped out at various points in the debate, such as when Hochn of St. Louis expressed the hope that "the methods of lawyers and poli-ticians" would not be introduced into this convention, and when Seidel of Wisconsin, trembling with passion and shak-ing his fist in the faces of Harriman and Hillquit, said: "You of the Springfield committee are just a ssuspicious of us

The afternoon session closed with the election of standing committees. WATCHER. Indianapolis, Ind., July 29.

The Second Day's Session at Indianapoli S. L. P. Fiattered With Imitation,

To THE PEOPLE-At the close the second day's proceedings of the "Unity" convention the real work of the convention remains to be done. The National Secretaries of the two factions, William Butcher of the Kangaroos and Theodore Dees of the Social Democrats, read their reports; the Committee on

Resolutious reported several additional resolutions, and a report of the Committee on Platform occupied the afternoon and a special night session.

mediate demands repeated here although somewhat twisted awry. A striking il-lustration of the S. T. & L. A. spirit is furnished in a communication submitted by Organizer Baird for 25 members of the St. Louis branch, S. D. P. This nunication submitted communication has been drafted into resolution form and will come before the convention as a substitute for the inevitable reaffirmation of the inane titude toward trade unionism, asumed in last year's convention of the S. D. P. mmunication reads as follows:

"We, the undersigned, members Local St. Louis, S. D. P., are oppos to the instructions given to the re-lar delegates to the Indianapolis U Convention, regarding the re-adoption of the resolutions of the last Indianapolis convention defining the attitude of D. P. towards trade unions, for the following reasons:

the following reasons:

"First. The proposed convention was called for the ostensible purpose of uniting all the Socialist forces of the United States, the invitation being extended to all factions of the S. D. P., Independent State Organizations and all sections of the S. L. P., and inasmuch as the chief question in dispute, between the S. L. P. and the S. D. P. and the only grounds for maintaining separate party organiza-tion, is the question of tactics toward trade unions, we regard the invitation extended to the S. L. P. as an admission that this matter is, at least, an open question; and we further believe that the mere fact that the S. L. P. refused to participate in the convention es not close the issue.
"Second. We are opposed to the re-

adoption of the resolutions referred to on the ground that such action will bind the party as an organization and seeks to impose it as a duty upon the members as individuals, to unqualifiedly indorse and assist in building up the present trade union movement, commonly known as 'Pure and Simple Trade-Unionism,' regardless of the Trade-Unionism,' regardless of the fact that, almost without exception, the said unions accept the present italist system as a finality, and only seek to make the best terms possible with the Capitalist Class, either by agreement, economic warfare (strikes and boycotts) or compromise, leaving the same brutal and unjust system in existence and compelling the constant recurrence of the demoralizing and deconflict between the Capitalist and the Working Class, in which conflict the whole working class is con-stantly meeting with defeat and sinking ever deeper and deeper into the condi-tion of abject economic servitude and dependence, as is shown, not alone by the nditions which we see on every hand, but is conclusively proven by the Government report on strikes and lockouts. and the census reports, which latter show that the working class is receiving a constantly diminishing proportion of the wealth which they create, the percentage having fallen from 62½ per cent in 1850 to 17 per cent in 1890, and will undoubtedly show a less percentage in the last decade, proving conclusively that the trade unions are and must necessarily be impotent in their efforts to better the condition of the working class. for the simple reason that they are attempting to accomplish an impossibility, that is, they attempt to harmonize in-terests which are fundamentally auterests which are fundamentally an-tagonistic, or they fight blindly against

revolutionary movement. "Third. We understand the S. D. P. to be a revolutionary party, unalterably opposed to reform or palliative measures, demanding the complete overthrow of the present capitalist system through united political action of the working class organized into a political party of their own. Hence, we regard it as il-logical and inconsistent for such a party to unqualifiedly indorse and pledge itself as an organization or require its mem-bers as individuals to assist in building up any organization of workers which does not recognize the necessity of destroying the present capitalist system and replacing it with the co-operative commonwealth, based on the collective ownership, operation and control of all the means of production, transportation and distribution by the working class, and we cannot approve of any such organiza-tion which forbids within its portals even the discussion of partisan political plance of unity. Under the head of "Orquestions and action, the only means blance of unity. Under the head of "Orquestions and action, the only means blance of unity. Under the head of "Orquestions and action, the only means blance of unity. Under the head of "Orquestions and action, the only means that document in the following simple but on the contrary indulges in the next and innocent-looking terms, gives practically active to the States." indorsement of candidates for office on capitalist party tickets, and the begging and lobbying policy for securing favor-able legislation, which leads to corrup

the inevitable results of the very system which they accept as an eternal in-stitution, thus showing themselves to be

tion, disappointment and disaster.

Fourth. We hold that while it may not have been possible for the founders of "Pure and Simple Unions" to see the of "Pure and Simple Unions" to see the necessity for independent political action on the part of the working class, there is no excuse for ignoring this necessity in view of the standing example given us by the class-conscious action of the capitalist class in safeguarding their class interests at the ballot box and its constant use of the machinery of government, National, State and Municipal, in all its branches—legislative, executive and indicipl—to mainlative, executive and judicial—to main-tain to seek to perpetuate their mastery over the consequent exploitation of the

"We therefore, believe that the proper "We therefore, believe that the proper ettitude for a revolutionary party to assume toward any existing institution which does not accord with its principles is the attitude of uncompromising exposure, regardless of whether the existing institution opposes our principles from

ignorance, preversity or corruption.
"While holding these views we do not wish to be understood as being opposed to the principle of organization among the workers in the factory or elsewhere, but, on the contrary, we recognize the right and the necessity of such organization, in order to promote the spirit of solidarity among the working class and to enable them to resist in all pracmittee on Platform occupied the afternoon and a special night session.

The effect on the delegates of the ten year's example and training of the Socialist Labor Party is amusing. Apparently what the S. L. P. will think and say of their proceedings is uppermost in their minds. The Socialist Trade & Labor Alliance sentiment is cropping out to a surprising extent, and in the discussives of the report of the Committee on Platform we find our own arguments on the striking out of im-

sult in the future as it has in the past ers in front of the guns instead of behind them.

"We, therefore, hold that a true So

cialist party should point out to the present trade unions the necessity of organizing along the class-conscious lines independent political action, and say to them that while we sympathize with you in your oppression and desire to the emancipation of the whole working class, we cannot approve of or assist in building up any organization of workers, which in the light of past experiences prove to be but little else than suicide But we will indorse and assist in building up any organization which shows an intelligent appreciation of actual conditions and the necessity of the abolition of wage slavery, by voting the working class into power through agency of a proletarian political party.' In the discussion of the report of Committee on Platform Simons of Chiago referred to the contradiction be tween a "class-conscious, revolutionary platform and a series of reactionary pal his argument followed the lines thought upon which the immediate de mands were removed from the Socialist abor party platform he was parroting. The Rev. Herron in speaking on this subject, followed suit by cribbing almost literally from the S. L. P. He said:

"The capitalist class proposes to capture Socialism by going into partnership with it. It might give Socialists nine tenths of these palliatives and yet retain all its power. Wendell Philips Garrison and other abolitionists did not ask what palliatives they could secure the negro Strobell of New Jersey, while uphold-ing the demands asserted that: "The

delegates seem to be animated by fear think about the decisions convention. We might just as well admit it. We all know that this has swerv-We might just as well aded us at several important junctures

Indianapolis, Ind., July 31.

The Smash-Up at Indianpolis--- All Hall the S. L.P. To THE PEOPLE.-If it be an honor, the Kangaroos have completed the capture of the moribund Debs Social Democratic party, and in this Jonah and whale manner achieved the aim of this 'Unity" convention, which means that "unity" spells "smash-up." To-day the final clauses of the constitution were adopted, St. Louis was selected as the seat of the National Executive Board and to-night the delegates scattered to their homes. Much dissatisfaction is felt especially among the delegates of the Chicago, one of that element, Gobell, of New Jersey, on the floor of the convention, even going so far as to say "everything is gone, name and all. We have been sold out, bought out, cheated out." When Harriman, who had the floor and whom Gobell had been trying to question, finally gave im permission to put his question, Gobell told him he did not want to put any more questions to lawyers, that the convention was beign run by lawyers anyhow. At the conclusion of the business before the convention to-night Berger of Wisconsin arose he said: "to bury the hatchet ten feet deep." Heydrick of Pennsyl-vania said: "You haven't any hatchet.

The other fellows took it." Yesterday it was the platform that suffered for the sake of unity, an appendix of weak palliative measures and immediate demands being incorporated to appease a stubborn opposition. constitution contributed its sacrifice. As a local capitalist sheet expresses it: "The form of organization is bractically identical with that of the old parties." The three factions—the Chient-have "united," and the result is as many factions as there are states represented in the party, for by the provisions of the constitution, adopted to-day each state organization is sovereign and the national direction and control has been compelled to make way for a semtically complete autonomy to the States:

in such way or manner, and under such rules and regulations as it may deter-mine, but not in conflict with the provis-ions of this constitution." A quotation of the clauses of the constitution cover-ing the functions of the National Executive Committee shows the complete predominance of the States and the only limitations placed upon the power and authority of the latter. These clauses rend as follows: [Some slight changes were made in

these clauses, but none which affected the power of the State.]

"Your Committee on Constitution begs leave to report as follows: "CONSTITUTION."

"The name of this organization shall be The Socialist Party, except in States where a different name has or may be come a legal requirement.

"NATIONAL COMMITTEE.

"There shall be a National Committee, composed of one member from each organized State or Territory.
"This committee shall be elected in

such manner and for such period as the States may respectively decide upon, each State to have the power to remove its National Committeeman at any time "This committee shall meet at least once a year. Special meetings shall be

"DUTIES AND POWERS.

"The duties of this committee shall be to supervise the work of the National Secretary; to represent the party in all international affairs; to organize unorganized States and Territories; to call national nominating conventions and special conventions, and to submit ques-tions to referendum.

"The National Committee shall elect

a committee of five from the party membership of the locality, selected for the party headquarters, to supervise and assist the Secretary as the National Com-

mittee shall require and direct. ommittee of five shall form part of and e a quorum of the National Committee, but shall be subject to removal at any time by the National Committee. On the mestion of removal the said local quor-

um shall have no vote. "The National Secretary shall be elby the National Committee, and shall be subject to removal at its dis-

"THE NATIONAL COMMITTEE SHALL HAVE NO RIGHT OR POW-ER TO INTERFERE WITH OR TAKE PART IN ANY WAY IN THE NOR IN ITS PROPAGANDA OR OR-GANIZATION, EXCEPT BY RE-QUEST OF THE STATE OR TERRI-TORIAL ORGANIZATION.

"Expenses of the National Committee-men in attending meetings shall be paid rom the National Treasury.

During the day several important resolutions and the odds and ends of the report of the Committee on Resolutions were disposed of.

The unclass-conscious attitude of the S. D. P. toward the small farm-owning class is preserved by the "united" party in the following resolution: "WHEREAS, The introduction of

new and complex instruments of producion in certain phases of agriculture, paricularly in transportation and storage and the growth of mortgage indebtedness landlordism has rendered the ownership of land alone by the farmer little more han the premanent position as a wage slave, therefore be it

"RESOLVED. That the interest of the farmer in the abolition of capitalism is he same as that of the wage-worker

be it further "RESOLVED, That we urge upon the attention of the farmers the fact that Socialism would secure for them together with all other workers the full product of their labor."

W. H. Baird, of St. Louis, whose nunication to the convention along S. T. & L. A. lines was quoted in this corre pondence several days ago was cut off n the debate on the trade union question o-day and a fulsome reaffirmation of ast year's trade union attitude was put

through under the whip.
Delegate Heydrick of Pennsylvania, after a talk with President Lynch of the International Typographical Union today, quoted Lynch as saying: "I was in hopes this convention would at least get some semblance of the Socialist position but after following its proceedings close ly, both its platform and form of organ ization only show to me that the SO-CIALIST LABOR PARTY will Whatever gainer. cialists there are material that will develop into Socialists among the rank and file will become disgusted with the work of this convention and finally drift into the S. L. P.

WATCHER. Indianapolis, August 1.

Certainly, Smoke Out the Bogus English Socialists To THE PEOPLE.-I shall be much indebted to you if you can publish the enclosed letter in THE PEOPLE. Its raison d'etre was an article in the London "Justice" of July 13th entitled "Pro-Boer," which was simply an expression of humanitarian sentimental radicalism. and which invited the English Socialist Movement to adopt the title Pro-Boer, a title which includes the most motley congerie of freaks, fatheads and political jeremydiddlers. I received the following reply from Mr. Quelch, the editor of "Justice," on the day after forwarding my letter for publication:

"Dear Comrade:-As you wish this be inserted in its entirety or returned, I

"Yours fraternally."

"H. QUELCH." If this lack of space were bona fide l should be content, but it is only used when it is necessary to exclude (or mutilate) some letter or article which is opposed to Mr. Quelch's personal views, such as anti-Millerand, anti-Kautsky, anti-Keir Hardie or anti-S. D. P. communications. While making this excuse Mr. Quelch is able to devote column after column to anti-Popery articles worthy of the Protestant Alliance written by an Anarchist of the name of Sketchley, and to allow a couple of piti-ful and utterly obscure Trade Unions to wash their dirty linen for weeks in the so-called Official Organ of the S. D. F. Only last week "Justice" contained a column and a half of the most disgusted literary dishwater in the form of a poetical (?) effusion writen by a miserable creature in the I. L. P. who is notorious as a calumniator and vilifier of the S. D. F.

I take this step of asking you to publish my protest with considerable reluctance as I believe that these difference should be settled at home. But we Scot-tish Social Democrats (and, I believe, a considerable section of English Social Democrats) are in the anomalous posi-tion of being almost to a man anti-Millerand and anti-compromise and at the same time unable to have our views ventilated in the paper which styles itself the organ of the S. D. F., and which we have always loyally supported. I am certain that this state of affairs will be brought to a close at our annual con-ference in August but in the meantime shall have to depend upon your paper (which is highly esteemed in Scotland), for the expression of my protest against "the vomit of toleration" (to adopt the pleasant parlance of the Covenanters) in the S. D. F., and radicalism in "Jus-Fraternal greetings to the Fight-

CARSTAIRS MATHESON. Falkirk, Scotland, July 17.

ing S. L. P.

(Enclosure.)

16 Alma street, FALKIRK, July 13, 1901. Dear Comrade:—The article in last week's issue of "Justice" entitled "Pro-Boer," and written by Dora B. Montefiore, is typical of a certain tendency which has always existed to some extent in the working class movement, and which, at the present time, seems to have taken complete possession of it. When a section of the capitalist class or its class-unconscious proletarian satellites display in any particular case the slightest degree of common sense, humanity

or natural human sympathy towards suffering, and indignation against oppression and wrong, there are always to into their arms and throw themselves into raptures of enthusiasm.

currence and one calculated to engender surprise that members of this whose consistent, conscious, and devilish cruelty, brutality and oppression have earned the guerdon of our undying hatred, should in any instance take up, or seem to take up, an attitude indicative of sentiments other than those of the WORK OR AFFAIRS OF ANY OR tiger and the vulture of which they are GANIZED STATE OR TERRITORY; the human incarnations. But because some than the "cimex lectularis," we do not on that account take it to our bosoms (if we can help it); neither do we welcome the fox's whelp to our couches pecause it is rather less malodorous than the badger's litter.
The miserable pusillanimity displayed

by these "Pro-Boer" leaders in the House of Commons a week ago, where man after man tearfully protested his oyalty to the Empire, and repudiated the Independence Resolution of the Queen's Hall meeting together with the harge of encouraging the Boers in their struggle for freedom ought to bring home to us clearly the character of the people we have been consorting with, and make us re-echo the heartfelt ejaculation of Willie Redmond. God I am not a Liberal." fered ourselves to be made tools of time and again in this anti-war agitation. We have not only acted as policemen and travestied our principles and ignored the class war by returning them to parliament by our votes, and the perception is beginning to dawn upon us that in so doing we have stultified ourselves. the working class movement and prepared rods for our own backs. At the very outset certain politicians had the shrewdness to perceive what the war would esult in. They foresaw prolonged hostilties, disgrace to the national arms, and increased taxation. They saw that by taking up an attitude of opposition to the war, they would, in the long run, when the public had returned to its senses, be able to pose as sagacious and farseeing statesmen, and so atttain to degree of prominence and political influence unattainable under ordinary circumstances. Of course, these "incordid not oppose the war at the ruptibles" outset and expose the designs of the Government. Such an action might coneivably have had the effect of prevent ing war; and the aim of these men was nor to pervent war, but to use the way as a usans for the realization of their ambitions aspirations, just like Chamberlain, tho' after a different fashion.

If, within a short time and as a result of the failure of the war policy, radicalism experiences a renascence while Socialism remains in statu quo ante or worse, it will be comforting to reflect that we have ourselves to thank for it. Even where the Pro-Boer is absolutely

disinterested his opposition to the war is of fatuous stupidity to oppose a war while maintaining and defending (as do the Pro-Boer leaders without exception, together with the majority of their folowers) a social and economic system under which wars are as inevitable and unavoidable as the advent of "the flowers

that bloom in the spring."
In any case whether they be scheming ponticians "on the make" or merely muddleheaded ignoramuses, the intelligent Socialist has no place "dans cette calere"; neither will such a one relinquish the honorable title of Social Democrat or an appellation like "Pro-Boer" which is applied to a heterogeneous mass of ming anti-Socialist politicians, muddlehended radicals, and rose-water sentimentalists who, while weeping copiously (in public) over the wrongs of Boer women and children are utterly cerned for the even more sordid, consistent and commonplace oppression and misery of women and children here at home. We are not (as has been said) specifically Pro-Boer any more than we are Pro-Indian, Pro-English, or Pro-Irish. We are primarily anti-capitalist and our sympathies are on the side of the Boers because their enemies are our enemies; those who seek to oppress them ARE oppressing us. Our defence of Boer independence was no arbitrary choice on our part, as many of the public have been led to think through our not making our position sufficiently clear and dis-sociating ourselves from the radicals.

Our defence of the Boers was simply logical deduction from the principles on which our movement is based

May I be allowed to suggest in conclusion that this ever recurring adulation of Belgian Socialism is becoming a little bit nauseating It is not from the Belgian Socialists, Co-operative Shop-keepers and allies of the Czar decorated strike-smasher Millerand and the Bour-goois Proletarian Kautsky that the more advanced section of the British Working Class Movement seek inspiration and guidance, but from the fearless and faltering libertads of the French Parti Ouvrier and the American S. L. P.

Yours fraternally, J. CARSTAIRS MATHESON.

Interesting Documents for Future History.

asking for "an early settlement" of a claim of the L. Goldman Co. in the

Executive Committee, S. L. P.", has been duly received and was read at be found certain Socialists ready to rush regular session of the N. E. C. held last

The undersigned was instructed to reply to your communication and inform you as follows:

1. The .. ational Executive Committee does not owe the I. Goldmann Co. anything and the indebtedness in question was contracted, as is well known to Mr. I. Goldmann, by a concern which, from the middle of 1899 to some time in 1900, fraudulently used the name of the tional Executive Committee, S. L. P., despite the fact that the Courts of the State had decided they were not the

2. That this concern was at one time located at 184 William street, this city, and it was then, presumably, that the debt was contracted and it was afterwards removed to Springfield, Mass., both of which locations are indicated on the statement of the I. Goldmann Co. enclosed with your letter.

3. That Mr. I. Goldmann, the head of the firm at one time came to the undersigned and asked his ndvice as to how to proceed to collect the amount due from this bogus N. E. C. and that the undersigned advised him Wm. Butscher, Room 12, Theater Springfield, Building, Court Square, Mass., which, even if it did not help him to collect the bill, would at least connect him with the party responsible

for its payment. 4. That the undersigned has been personally known to several if not all the members of the firm of the I. Goldmann Co. for a long time prior to the date of that bill and that, therefore, the firm itself cannot be in doubt as to the fact that the Naional Executive Committee strengthened radicalism at the cost of S. L. P., does not owe that bill; moreover, that the firm, at the time the goods were ordered, was fully aware of the character of the people who gave the order and knew full well that they were in no wise identified with the Socialist Labor Party, nor that they were officers of said party and authorized to con tract obligations in its name.

5. That if you desire to collect the bill, you had better be as expeditious as you know how, because the "Butscher hop" at Springfield will soon be shut up too, and the concern be moved to St. louis, Mo., to an address as yet unknown, and under another firm-name.

Respectfully yours, HENRY KUHN, National Secretary.

To THE PEOPLE-I wish to give to the comrades some understanding as to how the cigar trade is in the city of Detroit. Let me take the reader back to seven or eight years ago. The cigarmakers local union boasted of what they had done for their fellow craftsmen, with that great Cigarmakers' International Union. The bill of prices was at that time seven dollars low for scrap work, with five moulds. Then the pure and simplers roped in the class-unconscious workingmen, and all you could hear them talk about was that great C. M. I. U.

If you tried to show that it was not labor union, they would not listen to you, and would put you down for a crank. As the evolution of the cigar trade went merrily along and undermined the pure and simple C. M. I. U., the scales fell from the eyes of some of the men, after they had suffered several defeats, and were compelled to make cigars at the following prices: four and a half inch break off, for which they were then getting about twelve dollars per thousand, they are now getting seven or eight, and about the same reduction took place in all their other jobs.

Then they had the majority cigarmakers organized under C. M. I. U. As a result of the seven years of war with the capitalist class, in tant classunconscious manner, we find that, al-though these poor honest dupes have spent much of their hard earned wages in dues, they are worse off by fifty per cent than when they started.

Now it is for the Socialist Trade & Labor Alliance union men to be up and doing, and to save these honest working-men and women from being misled into any more such fake unions as they have in the past. There are now working at the cigar

business about twenty-three hundred cigarmakers, with about three hundred fifty organized in that rotten pure and simple union, the remainder un-organized. So you see with a little hard work we may form a local of the S. T. & L. A. cigarmakers here. I would say o the comrades, if any are cigarmakers, not to touch Detroit, as they cannot nake a decent living as things are at present. S. T. & L. A. CIGARMAKER.

Detroit, July 26.

LETTER BOX.

Off-Hand Answers to Corre spondents. [No questions will be considered that come

in anonymous letters. All letters must carry a bona fide signature and address.]

"JOE," CLEVELAND, O.—The anti-expansion attitude of the Democratic party is but one more instance of its assinity, 1; poses as a party of theoretical free trade; but free trade in the absolute is predicated upon expansion of territory, in a universal nation there could be no tariff. "Free trade" and "Anti-Expansion" are, accordingly contradictory terms.

R. W., WEST SUPERIOR, WIS.—Nay!
No! They are not all wrong-headed. Many an honest Unionist to-day is nonestly hostite to the S. L. P. Trade Union policy. They are in the same boat as many an honest workingman who to-day is honestly against Socialism. As the capitalists have an interest in misrepresenting Socialism to the workers at large, so has the "Organized Scabbery" that runs the Unions a decided interest in lying about the S. L. P. Trade Union policy. Both sets take in many of the unwary. This is a fact that has to be reckoned with. As Socialism has to beat its way across the capitalist lies, so must the S. L. P. beat its way across the "Organized Scabbery" lies, and bring light to the dupes. Honesty is more extensive than you

imagine. But for that the S. L. P. would lose. It is, as you know, winning.

J. D. TAMPA, FLA.—The "Seidenberg Spectre" is stalking abroad among the Or-ganized Scabbery that runs the Interna-tional Cigarmakers' Union. Did you notice that recently lke Bennett and Rosenstein were defeated in their own Union, No 1447

T. B. B., SOUTH NORWALK, CT.—The term "Fighting S. L. P." is a designation that arose soon after July 10, 1890. A crew of Timbooctooers claimed for a while to be the S. L. P. and they set up their principles. A according to their own declaration of principles it was evident that they were running away from the class struggle and the real fight. Hence the name was given to their parry as the "Run-Away S. L. P.," while the genuine S. L. P. took the name of the "Fighting S. L. P.." Since then the false pretence of there being any other than the S. L. P. in existence was knocked into splinters, and the Run-Aways true to their names, ran away into the Social Democracy.

"CURIOUS." SAN FRANCISCO, CAL.—
The estimated membership of the S. T.
L. A. is from 10,000 to 15,000.
The estimated membership (paid up)
f the S. L. P. is between 3,000 and 4,000.
Can bue man commit so many crimes?

R.L., LOUISVILLE, KY-None but droll people, facetiously inclined would fall books on the single tax "political economy."

F. C. D., HOBOKEN, N. J.A bad mind has been justly termed "the nastiest of all places." A Labor Fakir is such a place. J. L. L., PHILADELPHIA, PA.-Don't

you know what happened to their brother when he tried to bray in the ilon's skin? His hide was beaten raw with staves. When bogus "Labor parties" try to hold the language of Labor, that is the fate they uniformally meet. L. J., NEW YORK.—The Republican attitude, towards Cuba is essentially a political move against the Southern wing of the Democratic party. Cuban products are extensively raised in the South; in Cuba these are now raised and will be raised mainly with aid of Republican money. Under a Republican administration, these goods will pay, if at all a tariff that will affect the Southern Democrats. Protection is not a "principle" with the Republican party; it is only a material necessity of its principal men. Hence the party will be ready to remove tariffs that do not aid its leaders, especially so if such tariffs injure its opponents.

"STRANGER," NEW YORK.—You must be a stranger around these diggings if you expected anything but "marks of annoyance" in the face of Edward King at the information that the DAILY PEOPLE is an established fact. The DAILY PEOPLE is a standing rebuke to freakdom of all shades, and a corresponding thorn in its flank. H. I. W., RIVERSIDE, CAL.-Pamphlet

T. F. C., INDIANAPOLIS, IND.—When children are doing nothing they are doing mischief. Look out for Hanna when he tries to make you believe he is doing nothing.

F. H., BROOKLYN, N. Y.—We did try our best in years gone by to put some sense into the "Volkszeitung" editors and report-ers. It was "no go." They daily improved in Ignorance.

D. H. G., NEW YORK.—Such questions should be addressed to the N. E. C. T. M. J., NEWARK, N. J.—1. The best way is to write to Gust. Spindler himself, and inquire. His addressis attached to his letter.

Lt depends upon the ground of the expulsion. If, for instance, a member of expulsion because the state of th

expulsion. If, for instance, a member of the S. L. P. were expelled for trying to sell out, he certainly should and would be ex-pelled from the S. T. & L. A. also.

E. M. W., POLK, PA.—Shall try to get ou a list of such books.

T. G. H., SAN FRANCISCO CAL.—Are you sure you did not misunderstand the speaker? For the rest, your position is correct. The S. L. P. position is to tax the eye-balls out of the capitalist class: no bonds. The giving of bonds is a ratification by the robbed of the robbery perpetrated upon him by the robber.

D. W., RUFFALO, N. Y.—Certainly the task is stupendous. All the material interests that Socialism assails and all the perverse dispositions that capitalist oppression breeds are bound to array themselves against the S. L. P. But he who has no stomach for the fray had better not join the S. L. P.

D. J., NEW YORK.—It may be yet too early to take that stand. The refutation of the Sprague strike calumny has not yet had a chance to reach all parts. Wait untill it has. If then no voice of protest is raised in the camp of the Social Democracy against the use of such infamous weapons, it will then be time enough for that. Don't let us decide yet that there is not a single deceut man in that body and proceed accordingly.

cordingly.

R. J. T., ST. PAUL. MINN.—Last week's etter Box answer to you brought forth the ollowing trustworthy information to this

The Kangaroo Social Democrat George B. Leonard of Minneapolis has answered to three other names before his present one. He took the name of George B. Leonard in 1805, the night before he left New York for Minneapolis. Up to that day, and for a year previous he went by the name of Mich. W. Horn: he then lived in Brooklyn: that was in '94. Before that he sojourned in Hoboken: his name there was Henry Abramson: that was in '93. Before that his name was Henjamin Abramowitz. This is supposed to be his original name.

W. H. M. DALLAS, TEXAS.—Every lie, however slilly or however belinous, manufactured at the Kangaroo headquarters in this city against the S. L. P., has promptly been taken up and circulated by the Cleveland "Citizen." From the silly lie that the plcture published in the WEEKLY PEOPLE over a year ago of the Hoe Perfecting press for the DALLY, was not the picture of a new purchase but of the old "Abend Blatt" Press, and the silly lie that, in the late suit (which the Party won, and in which the "Volkszeltung" was PLAINT-IFF.) the Party(the DEFENDANT) dragged the "Volkszeltung" into court.—from such silly lies up to the basest gotten up, the "Citizen." as the obscene thing that. It is, eagerly wallowed in. Of course it had to circulate this latest slander along the Sprague factory also:—and of course it again shares the disgrace, as you will have noticed by this time. Surely not a single one of its readers can any longer trust a single thing it utters. It is impossible II. B. HAMPTON, VA.—It is impossible. W. H. M. DALLAS, TEXAS .- Every lie,

H. B., HAMPTON, VA .- It is impossible to return your manuscript, because none was received. Are you not the same party that some time ago had similar trouble, and finally placed it on your P. O.?

N. V. K., SLOAN, N. Y.—Don't apprehend; the comrade was not and could not be at the Indianapolis convention. The report in the Buffalo "Courier" was a newspaper canard.

TO THE SEVERAL WHOM THIS MAY CONCERN.—The subjects you raise on the Indianapolis convention will either appear treated editorially, or will be answered later per Letter Box. In the mean time we join in the spirit you manifest, and which one of you well expresses: "The S. L. P. is the sait of the earth; the beacon on the hill: the hope of the Nation; every move of the enemy, every event that happens attests to its sturdy qualities." So say we all.

C. A. L. ROCESTER, N. Y.—That Press Committee Report never came.

If you are getting this paper without having ordered it, do not refuse it. Someone has paid for your subscrip-

tion. Renew when it expires.

C. has fixed as the date for the National Conon September 2, 1901, The ani Secretary instructed to send out call to all sections to nominate place for the convention and elect delegates. Ad-journed. J. P. COURTENAY, Recording Secretary.

Report of the General Executive Board.

The regular meeting of the Gen. Ex. Board of the S. T. & L. A. was held on Thursday evening, July 25th, in the Daily People Building.

Members present: Gilhaus, O'Rourke, Murphy, Wallberg and Brower. Ebert excused.

mrade O'Rourke elected chairman.

Minutes of July 8th read. Comrade lurphy objected to that part of the restution in relation to the Sprague strike, thich read: "That the article which was anded in to the DAILY PEOPLE by an officer of the National Trade Alliance and published on June 16th was an in-

an officer of the National Trade Alliance and published on June 16th was an intended misrepresentation of facts in the Eprague strike, and was handed in to THE PEOPLE without the knowledge of sanction of this Board."

Upon a full discussion that brought out the fact that on the one hand the said paragraph was unintentionally offensive to the officer of the N. T. A., who handed in the report to the DAILY PEOPLE, and on the other, that the said officer of the N. T. A. had, on his part, unintentionally incurred a mistake in the said report, and that he would write a letter to the DAILY PEOPLE making the correction, the follow-PLE making the correction, the follow-ing resolution, offered by Murphy, was

adopted:
RESOLVED, That that part of the
resolution of the minutes of July 8th
wherein it is stated that a National
Trade officer of this Alliance intentionade officer of this Allian arace omeer of this Athance intentionally misrepresented facts in the Srague strike in an article which appeared in the DAILY PEOPLE of June 16th is hereby corrected, as the same did not emanate from this board.

Communications—One from N. T. A.

Iron and Metal Workers requesting the Board to define the authorty of a National Trade Alliance. Action—Laid over until next meeting. One from Chas. Zolot of Peekskill, N. Y., applying for membership at large, Granted. One from G. H. Campbell, of Winona, Minn., applying for membership at large, Granted. One from L. A. 345, San Prancisco, Cal., inquiring under what conditions the printers label was issued. Answered by the secretary.

Communications were also received

Communications were also received from Olneyville, R. I., Schenectady, N. Y., Boston, Mass.; Detroit, Mich., Louis-Y., Boston, Mass.; Detroit, Mich., Louis-ville, Ky., Everett, Mass., Rankin, Penn., Holyoke, Mass., Yonkers, N. Y., Lon-don, Ont., Tacoma. Secretary reported that on request of the Leather Workers' Alliance of Lynn., Lass., he had gone to Wilmington, Del., and spoke before the leather workers of that place on the aims and objects of the S. T. & L. A. Nearly all present were in favor of the Alliance, but owing to a resolution adopted at a previous meeting to remain independent for one month, no action was taken.

There being no further business, the meeting adourned.

W. L. BROWER, Gen'l Sec'y.

The below is the letter referred to i

To the DAILY PEOPLE.—On June

To the DAILY PEOPLE.—On June 16 an article appeared in THE PEO-PLE stating that the strike at the Sprague Electric Works in Bloomfield, was run on class-conscious lines by the Socialist Trade and Labor Alliance.

This statement was technically incorrect. As the affair was purely a shop atrike the Alliance had no hand in it whatsoever, as such. In taking down the report the undersigned made that technical mistake, which has caused a good deal of inquiry from different sources. Still it was not the intention of the writer to try to deceive the readers of THE PEOPLE on the real situation at Sprague's but it was merely a Grievance Committee, Michael Brohan,
John Reavey, W. Tibbetts.
Literary Agent, Chas, H. Dana.
Section Fawtucket held a moonlight
excursion down the river on the 20th
inst., which was a success socially and
inancially, and considering that this is
the first excursion the Farty has ever
run from Pawtucket, we feel greatly encouraged.
W. TIBBETTS,
Organizer. stion at Sprague's but it was merely a distake on his part. As I was the writ-of that unintentional mistake I have seen ordered by the G. E. B. of the

M NEWS FROM M

THE FIELD OF CAPITAL.

Capitalism in its many diversified as pects was well ilustrated in the otherwise neager News from the Field of Capital, for the week ending August 4th. The "earning power" of invested mor

ey, in other words, the exploiting capac ity of capital, was shown in the enor-mous dividend approximating 1900 per cent, resulting from the recent disburse ments of profits by the First Nationa Bank of New York. This bank, as was shown in last week's review, is the largest in point of capital and surplus in the United States.

This dividend is the largest on record

and follows quite appropriately upon the largest semi-annual payment of dividends (amounting to \$125,000,000 and due July 1st) that American capitalism has so far received.

The futility of competition as a remedy

for concentration was shown in the formation of an oil combine in California, and of a sardine combine in Maine. The oil combine, which is being organized by W. S. Porter, of Los Angeles, will include companies controlling ninety per cent out of the output of Kern River field. Its object is to furnish a remedy for the UNPROFITABLE PRICES RESULTING FROM COMPETITION to sell. The sardine combine is being organized at Eastport, for the protection of sardine canning factories that are outside of the sardine trust. This course is found necessary despite the fact that the number of sardine factories on the Eastern coast of Maine that are outside of the trust, is nearly as large as the number that are in it. The proposed capital of the new combine is not

The growth of concentration was shown in the record of incorporation in the Eastern States during July. The aggregate capital of the companies filing incorporation papers was \$146,000,000. many of these companies are undoubt-edly "strikers" and "feeders" against and for trusts, and fraudulent in character, existing only on paper, a large percentage of them are new incorpora-tions due to consolidations. One quarter of the above aggregate capital, for instance, was due to the two principal companies organized, viz., the Pacific Packing and Navigation Company and the Standard Table Oil Cloth Co a capital of \$25,000,000 and \$10,000,000 respectively. These corporations are con-solidations in the true sense of the word.

The growth of concentration was also in the formation of new consolidations during the week. Besides the oil and the sardine combines already mentioned, they were as follows: A steel casting combination, composed of the principal plants, six or eight in number, engaged in the manufacture of steel castings in the States of Pennsylvania and Illinois, capital \$15,000,000. This combine will "standardize" steel casting patterns; that is, they will reduce the hundred or more varying patterns of steel car castings to three or four standard patterns. This is one of the technical patterns. means of executing large orders quickly that has made American capitalism triumphant in foreign markets. Next comes the rumored consolidation of the leading photographic dry-plate factories in the United States, with a capital of \$30,000,-000. Glouster, Mass., sends information of the formation of a salt fish trust. The idea is to consolidate dealers at this place and thus control the product. What becomes of the poor fellow who Henry George said could go and fish, if he could not get the necessary machinery, after having secured the land, with which to complete successfully? Evidently, the poor fellow "isn't in it," to quote the

classics.
Following the proposed fish trust came a consolidation of eleven phosphate rock companies in Tennessee. The purchase of these companies to be consolidated will involve millions. The Manhattan Min-ing and Smelting Company, with a capital of \$12,500,000, is being formed to take over sixty-seven properties owned by the Pioche Consolidated Company in Lincoln. Nevada, and enough others to run the total up above 100 different groups of claims, together with hoisting works, smelters, pumping plants, and electric lights and water systems of Pioche.

All of the coke properties of the constituent companies of the United States Steel Corporation were consolidated. This consolidation controls practically all of the production and acreage in the Con-nellsville, Pa., region. There were other ninor consolidations and absorptions al-

The legislative power of the capitalist class was shown in the new corporation law of Connecticut. This law is the most liberal enacted, its requirements being such as to make incorporation un-der it very desirable. The annual re-ports to be filed with the Secretary of State, for instance, do not require any public disclosure of the company's busness, while corporation taxes are exceedingly low.

But this bit of legislative enactment

s trivial compared to the movement set afoot to have the treaty with Grea Britain preventing the building or maintenance of warships on the Great Lakes abrogated, a movement in which the Ship Building Trust is the prime mover, backed by the great steel and iron and railrond and steamship companies of the Great Lakes. All the shipbuilding interests from the Atlantic to the Pacific will oppose the abrogation, because it is detrimental to their interests, so a merry fight is promised. As the Standard Oil Co. has been known to have influenced the making of

de construction de la constructi

The Socialist Labor Party of the United States, in Convention assembled, asserts the inalicuable right of all men to life, liberty, and the pursuit of happiness.

With the founders of the American Republic, we hold that the purpose With the founders of the American Republic, we hold that the purpose

with the founders of the American Republic, we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold, furthermore, that no such right can be exercised under a system of economic inequality, essentially destructive of life, of liberty, and of happiness.

With the founders of this Republic, we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, that the true theory of economics is that the machinery of production must likewise belong to the people in common.

the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the obvious fact that our despotic system of economics is the direct opposite of our democratic system of politics, can plainly be traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class, and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessaries of life.

Human power and natural forces are thus wasted, that the plutocracy may rule.

rule.

Ignorance and misery, with all their concomitant evils, are perpetuated that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system the Socialist Labor Party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the antural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence.

The time is fast covern however, when in the natural course of social evolu-

of all economic servitude and political dependence.

The time is fast cording, however, when in the natural course of social evolution, this system through the destructive action of its failures and crises on the one hand, and the constructive tendencies of its trusts and other capitalist combinations on the other hand, shell have worked out its own downfall.

We, therefore, call upon the wage workers of the United States, and upon all other honest citizens, to organize under the banner of the Socialist Labor Party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers; so that, held together by an indomitable spirit of solidarity under the most trying cenditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the Co-operative Commonwealth for the present state of planless production, industrial war and social disorder: a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

MEWS FROM A THE FIELD OF LABOR.

Again has the Organized Scabbery proven its fidelity to the interests of the apitalist class and its traitorous regard for the interests of the working class. Again has it shown itself to be the subservient tool wherewith the oppressors of labor stifle the desires of the working class for improvement and emancipation. And it has done this in such an unmistakably manner that the workingman who houestly reads and is not convinced of the treacherous character of the Organized Scabbery must be dull of comprehension, indeed.

In the news from the Field of Labor for the week ending August 3d, accounts are given of the efforts of the National officiers of the Molders' Union to break the molders' strike at Chicage, Ill.

This strike was inaugurated on the 15th of July, after a mass-meeting at which second vice-president Keogh inofficers had decided not to sanction a strike. The men, 800 in number, wer determined that their demands upon the 60 or 80 machine manufacturers of city, should be conceded; and so they voted to go out to enforce them, despite the stand of the international officers. And what were those demands?

was there in them that aroused the opposition of the national officers to such an extent as to cause them to refuse to sanction a strike for their enforcement? Were the demands of a character against which the policy of the organization had resolutely set its stamp of disapproval? On the contrary, the reverse was the case: the demands were of a character for which the policy of the organization had made it its first aim to strive. The demands were for the payment of THE ers to become subscribers to the DAILY MINIMUM SCALE OF \$3 A DAY, or WEEKLY PEOPLE. MINIMUM SCALE OF \$3 A DAY, the strikers having received \$2.50 a day for bench molders and \$2.75 a day for floor molders. In other words, the na-tional officials of the Molders' Union refused sanction to a strike which would prevent the strikers from working below the lowest union wage, from scabbing it on their own organization, in fact.

rifid by the awful lack of official sauc-tion, but persisted in their refusal to tions thus obtained. scab it against their own organization any longer, these same national officers resorted to actions of a most despicable

Last week they sent their National President, Martin Fox, to urge and per- PEOPLE. suade the strikers to return to their place upon the terms offered by the employers, which are in the nature of a very unprofitable compromise. It is rumored that Fox has threatened to fill the strikers' places with union men if they do not return to work, a trick that he played once before in Chicago at the works of Fraser and Chalmers, in January, 1901, and again in Belleville, Ill., in the Pump and Skein Works, in March, 1901. But, be it said to the credit of the

strikers, they refused to call a meeting to listen to Fox. They turned the per-flidious fakir down, saying that the strike was practically wen and that they did not intend to yield its fruits at this late date. hink of it, you defenders of the Or-junized Scabbery, this labor fakir had the audacity to appear before members of his organization to urge and persuade them to turn a victory into a defeat! Heretofore it has erroneously been believed that the duty of a labor leader was to develop resources that would ensure triumph, that would sustain and ncourage the members of his organization to such an extent that defeat would e turned into victory! But, alas, for the working class, it is a peculiarity of the Organized Scabbery that it perverts verything it touche It is to be hoped that this lesson will

open the eyes of the molders to such an extent that they will not rest content with turning their own fakirs down, but they will join with the Socialist Labor l'arty and the Socialist Trade & Labor Alilance in turning all the fakirs down. It is to be hoped that they will join in destroying and burying the Organized Scabbery so effectually and deeply that all that will remain of them in the future

will be the unpleasant memories which they have created.

As for the class-conscious working-men already enrolled in the S. L. P. and the S. T. & L. A., this latest act of treachery against their class and its interests should embolden them to renewed efforts against the Organized Scabbery all along the line. The recent attacks upon Socialism in the "Machinist's Journal" and the reports from Cleveland, Los Angeles, Allegheny and elsewhere, which have appeared in THE PEOPLE, prove conclusively that the S. L. P. and the S. T. & L. tors of growing importance in the labor movement and that the Organized Scabbery fear them with a hostility that shows too plainly the correctness of S. L. P. and S. T. & L. A. tactics concerning them In the words of the So-cialists of Pittsburg, "Up at the fakirs

Resolutions Adopted by L. A. 845, S. T. & L. A. at Its Regular Meeting of July 30.

WHEREAS, In order to make our general propaganda work most effective, and thus assist the Socialist Trade & Labor Alliance in accomplishing its mission, that of the razing to the ground of Organized Scabbery, it is incumbent upon this Local not only itself to support but also to cause the members of our class to rally to the support of our official

organ; and WHEREAS, In order to attain the above end, systematic methods and organized efforts are absolutely necessary:

therefore be it RESOLVED, By L. A. 345 in regular session assembled on this the 30th day of July, 1901, that it is the sense of this body that all members thereof shall constitute themselves into a committee of one, and each individual shall do all in his power to persuade his fellow-work;

RESOLVED, That all subscriptions thus obtained shall, with the subscription price, be turned over to the Literary

Agent for transmission. RESOLVED, That it shall be the special duty of the Literary Agent to keep a record of the names and addresses of all such subscribers in a book to be Finding that the strikers were not ter-

RESOLVED, That a copy of these resolutions be posted in a conspicuous place in our headquarters for the space of one year; and that another copy be sent to the management of the WEEKLY

Dalton's Itinerary for New Jersey.

The following is the itineary of Comade Dalton, National Organizer for New, Jersey, from August 1 to Sept 15. The local organizer, or comrades will arrange for meetings and publish the same in the DAILY PEOPLE, covering the

time allotted them.

Aug. 8 to 11, inclusive, Mercer county.

Trenton the base.

Aug. 12 to 18, inclusive, Union county. Elizabeth the base.

Aug. 10 to 25, inclusive, Passaic county.

Paterson the base.
