CHICAGO, III., Aug. 26.—It is need less to say that "whipped" strikers were easily deflected from their course. In the case of the district junction workmen, prices in the service of the companies, who had been taken over by the local, were deranged by the fact that the workmen were not employed. The reason was that they were not employed to do the work. The workmen were given the opportunity of taking part in the strike, and they did so. SOCIALISM

WHAT IT IS AND WHAT IT SEEMS TO ACCOMPLISH.

The whole subject of socialism and the socialistic theory is entirely outside the province of any socialist labor party, every working man, in order to accomplish the ends he desires to accomplish, must unite with the working men of all countries, and work hand in hand with them, until the working men shall have the full control of the government of the country, and shall be able to tell the working men of any country, and shall then, and only then, be able to strive, with the support of the workers of all countries, for the establishment of the principles of socialism, and for the accomplishment of the ends which the working men desire to accomplish.
