GERMAN SOCIAL DEMOCRACY

If France Resolves Against Germany, It Minimizes the Success of Our Revolution Against Socialism.

CHICAGO, Sept. 20—C. W. Paterson, Socialist delegate to the World Peace Conference at The Hague, today returned to the United States after a visit to Europe, where he was able to report the latest developments in the cause of world peace.

"The movement for world peace is making steady progress," Mr. Paterson said today. "The recent resolution of France against Germany is a significant step forward. It shows that the sentiment for peace is strengthening day by day."
