BAD TREATMENT.

His name was Furness, and his employer was a manufacturer somewhere in the city who had made a reputation for treating his servants well. The girl, whose name was Margaret, was employed as a seamstress in the factory. She had been with the firm for two years and had always been paid fairly well. But recently she had noticed that her hours were being increased and her pay was being reduced. She spoke to her employer about this, but he only laughed and said that he knew best what was good for her. She tried to find another job, but all the other factories in the city were closed because of the bad economy.

Margaret's father was a lawyer and he was able to get her released from the contract. He brought the matter to the attention of the city council, who stepped in and made sure that the employer was held accountable for his actions. The girl was able to continue working in the factory with fair treatment.

UNCLE SAM AND BROTHER JONATHAN

BROTHER JONATHAN—I have been doing some thinking today. I have been trying to figure out how I can possibly help you. I think I have a good idea.

C.-Yes.

B.-I think it would be better for me to stay in this country and fight for your liberty, rather than to go back to my home and help them.

C.-That may be true, but I can't get along without you. I need you to help me in my work. You have been my closest friend, and I don't want to lose you.

B.-I know, but I believe it's the right thing to do. You are doing such wonderful work, and I want to be a part of it.

C.-But what about you? What about your family?

B.-I think we can make it work. We can send money to help them, and we can write letters and keep in touch.

C.-That's true. I suppose we can make it work.

B.-I think we should do it. It's the right thing to do.

C.-Alright, I agree. Let's do it.

B.-I'm glad you agree. I think we can make it work.

C.-I think so too. Thank you for your support, brother.

B.-Anytime. I'm always here for you.
