To the Striking Weavers of Providence

And to Those Employed in the Craft Elsewhere.

We call upon you to weigh earnestly the principles of the strike and to act as an intelligently organized force in the struggle for your rights. The cause of the North Amendments is one in which the interests of the nation are involved. The cause of the workers is the same as that of all progressive men. The time has come when the workers in this country must take up the battle for their rights and make the world understand that they are not to be trifled with.

WAGE LABOR AND CAPITAL

Another Vitalist Arm and Hammer Bank.

The New York Labor News Company and Arm and Hammer Bank have come to a settlement of the dispute as to the price of labor being regulated by the law of supply and demand. The New York Labor News Company will now be able to sell its labor at a price of 50 cents an hour, and the Arm and Hammer Bank will now be able to sell its labor at a price of 75 cents an hour. This is a victory for labor, and it is a victory for the workers everywhere.

SOCIALISM VS. ANARCHISM.

By Daniel De Leon.

A lecture delivered at6, Boston, Mass., under the auspices of Boston Social Labor Party.

Socialism and Anarchism are two different political movements. Socialism is a system of political economy, while Anarchism is a system of politics. Socialism is based on the idea of a social order, while Anarchism is based on the idea of a political order. Socialism is a system of moral and intellectual education, while Anarchism is a system of political education. Socialism is a system of class struggle, while Anarchism is a system of class cooperation. Socialism is a system of political economy, while Anarchism is a system of political economy.
AND THE PEOPLE WONDER!!

The Senate Committee on Finance of the American Bar Association, last week, advised its Board to vote $100,000 for its Jubilee celebration.

The reason for this action is explained by the fact that the committee is made up of men who are members of the Bar Association. This is true in all cases where the committee is composed of members of the Bar Association. Therefore, it is not surprising that the committee has recommended the sum of $100,000 for its Jubilee celebration.

But the people wonder, and with good reason. The Senate Committee on Finance is a body of men who are members of the Bar Association, and who are therefore in a position to know exactly what the committee is doing.

And yet the people wonder. Why? Because they are not members of the Bar Association. And because they are not members of the Senate Committee on Finance.

And yet the people wonder. Why? Because they are not members of the Bar Association. And because they are not members of the Senate Committee on Finance.

COTTON'S RIVAL.

Stoicism, March 7—Silk growers and others in the North are illustrated in reports from London as adopting the "Cotton-Buying Rule," which shows the rapid development of the oil interests of Texas and the great improvements of the last few years in the field and tool business. The Texas oil companies, which began operations in the early 1900s, have been far greater than the simple. The large oil companies are now increasing the number of tankers, and the same is true in some of the smaller ones. The transportation facilities are rapidly increasing, and the future development of the Texas oil industry is expected to be very promising.
