

which took place yesterday. But that was only a portion, a violent outbreak of what has long been smouldering. In fact it is a veritable race war that has been raging, and its location in a large establishment of this character shows the real foundation of all race wars. After the assault Cahill fied. In the neighborhood it is said that he has had a bad reputation, and in saloons has fre-omently been heard to express his dislike

quently been heard to express his dislike for the Swede, and also express his deation to smash a Swede wherever

After the affair was over the foreman of the establishment demanded that the men keep silent on it, and he threatened with instant discharge anyone who dared to talk on the subject. The result was that at the office no information would be given and outside the detail was of ren, and outside the detail the most meagre kind. One man, how-yer, rather bitterly said: "It had to come. They have been pitting the Swede against the Irishman, and the hman against the Yankee, and the man against the the whole of them. s result is they all hate one another The result is they all hate one another and would pounce on one another at the drop of the hat if the dammed job did not stand in the way." Even this man, boiling over with indignation, and with a dim idea of what the basis of the le was, became mute when pressed Another man said: "This is an Irish eighborhood. It was an Irishman did neighborhood. It was an Irishman did it. Let's see yop get anything about it from anyone. The only thing about it is that it is a wonder that it did not happen before. And it will be a great deal more of a wonder if it don't happen again." The command of the bosses for the men to keep their mouths shut was absolutely observed and according to monie in the obeyed, and according to people in the vicinity it was remarkable how scarce men from the electrical department were. They had taken to their houses, and refused to come out. A reporter called at the houses of six men in this department, but they all refused to be seen They must have anticipated visitors, h cause in each case they had a guard ready to give the information that they were not at home. This, too, may have were not at home. This, too, may have been because of authoritative commands. Karl Maimberg was one of the most fearless and aggressive Socialists in the S. L. P. He came to this country about two years ago, and though only about 26 years of age has been interested in the movement both in his native and adopted countries. His brother is also Socialist, and his sister Olive Labour Socialist, and his sister, Olive Johnson Minneapolis, Minn., will be remem d as a frequent contributor of scien-

"There has been a tight coal market all winter. At no time in the last five mouths have the hard coal fields been sending to market as much of that kind of fuel as was needed. Not many of the big industrial plants have much of a supply on hand at this time. I know where two refineries have been compelied to change their furnaces so as to burn soft coal, because they could not depend upon securing supplies of anthracite. 1 At Port Richmon d, where usually thousands of

tons are in storage, you cannot now find much more than a few hundred tons.'

Velvet Weavers Strike.

South Manchester, Conn., March 25.-Fifty men employed in the velvet weaving department of the Cheney Silk Mills went out, on strike to-day because, of an announced change in the price paid for plece work. A notice posted by the management said that the price per yard for weaving, to men running two looms, would be twelve cents. Heretofore men running one loom each have received eighteen cents a yard. The plan of having a weaver run two looms, which has been tried experimentally of late, is made possible by recent improve-ments in the machines.

There was a prospect this morning that other velvet weavers in the mills would join the strikers unless the differences were soon adjusted. About 3,500 persons are employed in the plant.

Chicago Engravers on Strike.

Chicago Engravers on Strike. Chicago March 25.-Two hundred mem-bers of the Commercial Artists' Associa-tion, employed in fourteen of the principal engraving houses of the city, went on strike early today because their employers refused to sign an agreement regulating hours, wages and the employment of apprentices. The principal points of the proposed agree-ment are already recognized by many of the employers.

panies, fearing strikes which would affect the market, withdrew their quotations for paper.

Watched by British Spies.

Paterson, March 25 .- Thomas D. de Scalley, an Afrikander, who came to this city eight days ago, says that he is being watched by three British spies. He is boarding in a house at 74 Hamilton avenue, and three men have been hanging around that street near the

De Scalley says he fought against the British in the present Boer war. He is an expert telegraph operator. He says was sent to Europe as a representative of the Boer government. He made speeches and otherwise advocated the interests of the Boers. In Holland, he says, he had an interview with Presi-dent Kruger, and came directly from his presence to this country. He asserts that from the moment he left Mr. Kru-ger he has been shadowed by British spies. He says that they have not mo lested him yet.

For a Department of Commerce and

Washington, March 25.-The House Committee on Interstate and Foreign Commerce to-day began consideration of the proposition to create a department of commerce and labor, and heard argu-ments on the subject from a large number of representative business men. Among those who attended the hearing

Among those who attended the hearing were prominent representatives of the leading commercial bodies. No labor organizations were represented. The arguments were all in fayor of the Nelson bill, which has already passed the Senate, which incorporates into the new department the life saving service, light house service, marine hos-pital, bureaus of navigation, immigra-tion, statistics and foreign commerce tion, statistics and foreign commerce, fish commission and department of labor. Two new bureaus are created-those of mining and manufactures-

ders to return to work have been dis charged in the second criminal court, Jersey City, yesterday morning, as Sup-erintendent Clay, of the Pennsylvania Railroad, who was the camplainant against the men, decided not to press the regarded, and the union rules have been sel at naught.

There is no question of Mitchell's power to order a strike and the tempo-rary effect, were he to exercise it, would be to cripple the hard coal roads, because there is very little coal in storage. A standard argument offered by some of the dissatisfied miners why a strike should be ordered is that a strike now would completely cut off the supply, and as the miners are to be idle anyhow during a part of the summer, because of the partial stoppage of operations incident to the falling off in the demand, a strike on April 1 would not cause the physicians who are on the summer list men to lose many more wee, s of work. while it would seriously affect the operators.

anthracite coal, he can declare a national

strike and call out every union anthra-cite miner in the United States.

When the strike in September and October, 1900, was settled there was a tacit understanding, between Mitchell and the operators that when he showed

his ability to control absolutely the mine

workers which were in the union, the operators would consider the question of recognizing the union. Mitchell broke

the strike of stationary engineers last year, and refused to aid them in their

demands, and it is understood that one of his reasons for so doing was to show

NOT FELLOW-SERVANTS.

Decision of Federal Court of Appeals Sustaining Railway-Damage Verdict.

St. Louis, March 25.-The United States Court of Appeals, in a decision affirming the opinion of a lower court in the case of Warren G. Furry, a fifeman, who sued the St. Louis and San. Francisco Rainway and secured a verdict awarding him \$16,000 damages for injuries received in a collision caused by the failure of an operaor to deliver an order, held that the operator and fireman were not fellow-servants according to the Arkansas statutes. Judge Thayer, who gave the opinion, found they were not fellow-servants, as they were not working together for a common purpose, their work being of a different character and they were only brought together casually. This was agreed to by Jurge Caldwell, but Judge Sanborn gave a dissenting opinion.

WEEKLY PEOPLE, SATURDAY, MARCH 29, 1902.

SOCIALIST LABOR PARTY vs. SOCIAL DEMOCRATIC PARTY.

One often hears the question, What is | Social Democratic tickets, with the the difference between the Socialist La-knowledge, consent, and approval of his bor Party and the Social Democratic Social Democratic organization. Party? The frequency with which the question occurs is the crack compliment

2

In 1890, the Socialist Labor Party set up its standard in the State of New York. It did so because by that time it had become clear to a sufficient number of citizens that the Republican and the of citizens that the Republican and the Democratic Parties were the political light and left arm of the labor-fleecing capitalist class. Whether the govern-ment was Democratic or Republican, its Presidents, Governors, Legislatures, Ju-diciaries, down to Mayors and Aldermen, uniformally threw the weight of their offices on the scale of the idle capitalist class and against the scale of the working class. "The rifle diet," ad-ministered through the military, the militia, the policemen's clubs and the Judges' "Gatling guns on paper," at the order of Democratic and Republican officials, dyed the country red with the blood of the workers, and threw suffer-ing into their homes.

The Socialist Labor Party perceived this fact; it also perceived the fact that, with slight reliefs now and then, the tendency was to aggravate the evil: the annual earnings of the workers declined and had to decline; finally, the Socialist Labor Party also perceived and stated the cause of the evil. It pointed out that the private ownership of the land, needed to work on, and of the machinery, needed to work with, enabled the holders of these to live in idle luxury, and compelled the workers to yield to these the wealth they need to live in idleness, while the workers themselves had to starve on a pittance. Grounded upon these facts, the Socialist Labor Party called upon the working class and all other decent citizens to join it at the ballot box so as to overthrow the capitalist system by overthrowing the capitalist politicians, and to set up the Socialist Republic by the election of men pledged to overthrow the wage system of slavery.

This stand was taken in the State of This stand was taken in the State 1800. New York first, in the campaign of 1800. The Socialist Labor Party spread stead-ily from State to State. The Party's vote increased everywhere. It increased notably in this State. So marked was the current in its favor that since 1897. the election of the S. L. P. candidate from the 16th Assembly District in New York county grew into more than a threatening possibility. In that year the S. L. P. candidate came out second best in the 16th A. D. The capitalist poliin the lota X. D. The capitality poli-ticians no longer sneered at the S. L. P_{-} —they saw that it meant business They then put their heads together to smash it. They understood that the smashing had to be done in the State of New York, and that it had to be begun in the 16th A. D. of New York

The coming event cast its shadows be fore it. During the campaign of 1898, several well known Democratic and Re-publican district leaders, late one night, grew reckless in their talk in one "Humpy Hannover's saloon in the 16th Assembly District, and turning to some S. L. P. men, known to be the worhard for the S. L. P. ticket, said: working

"If your candidate for the Assembly in this District polls a bigger vote than he did last year, we will take up some Socialist with a large following, and gather enough signatures to enable him to run as an opposition to your candidate.'

This conversation, appeared in print in THE PEOPLE on January 22, 1899, with no Social Democratic Party yet in sight. The S. L. P. poll in the 16th Assembly District of New York rose over 400 votes in that year (1898). The rising waters threatened to drown the rats of the capitalist politicians. And they hastened to work to save their The very next year, during the campaign, stands sprung up on the cor-ners of the streets in New York City, especially in the 16th Assembly District, from which speakers, styling themselves "Socialists," called upon the workingmen "in the name of Socialism" not to vote the Socialist Labor Party ticket. They had not yet a ticket of their, own to offer: their original plan was to capture oner; their original plan was to capture the S. L. P. organization by midnight assault, but they had some off with broken heads for their pains; it had become too late to gather signatures; and they satisfied themselves that year with simply raising dust by howling Their audiences were furnished by the Tammany heelers, together with that Tammany heelers, together with that corrupt element known as the "labor fakir," that has since been seen making common cause with Hanna and Schwab of the Steel Trust, and that periodically of the Steel Trust, and that periodically masquerades as Socialists. The next year they appeared with a ticket in this and other States, and their name was "Social Democratic Party." Kentucky stallions are not foaled by coyotes. Neither can Socialism be the offspring of capitalist corruption. The conduct of the Social Democracy been at all points in keeping with the purpose for which it was created, and, course, with the element that brought it forth and dominates it, and conse quently in sharp contrast with the So cialist Labor Party: In 1900, the Social Democrat John C. Smith ran in the Worcester, Mass., district on both the Democratic and the Social Democratic Party tickets, with the knowledge, consent, and approval of his Social Democratic organization. In that same year, the Social Demo-crat G. A. Hoshn of St. Louis, joined the deputy sheriffs of his city during the St. Louis street car strike. In the same year, the Social Democrats in the municipal government of Brockton, Mass., voted franchises to private corporations, free, gratis and for In the spring of 1901, the Social Demo-

In the fall of 1901, the Social Demo crat Edward Staub ran for office in Syra-cuse on the Social Democratic ticket, to the political end of the interests of the class that fleeces the workingmen, women and children in the factories, hops, mines and yards of the land. In 1890, the Socialist Labor Determined to the Democratic ward

In Peekskill, N. Y., Seth Tabor figures as a Social Democrat and is a political job-holder by the grace of the Republi-

In San Francisco, Cal., two Social Democrats, Everett and King, applied to the Democratic Mayor for political jobs in 1900, got them, and kept them with the approval of their Social Demo-cratic organization. alone is destined to triumph, and is entitled to the support of a serious, honorable and intelligent man.

cratic organization. In Troy, N. Y., John Foley, a notor-ious ward heeler for the Democratic ex-Senator Murphy, ran in 1901 on the Social Democratic ticket for President of Common Council, while openly declaring he would vote the Democratic ticket straight.

In 1901, a New York City Social Democrat, F. A. Holzer, appeared as Vice-President on an official call for a "German Tammany Hall" meeting on West Side, without even provoking the censure of his Social Democratic organigation.

In Haverhill, Mass., James F. Carey, In Havernii, Mass., James F. Carey, Social Democrat, voted a \$15,000 appro-priation for an Armory, declares he would do it again, and his conduct passes even unchallenged by his Social Democratic organization.

In New York City the "Volkszeitung," German organ of the Social Democracy, notoriously took money to advertise capitalist political candidates. These are but a few of the undeniable

facts in the official and unsavory record of the Social Democratic party on the political side. Its record on the industrial side of the Labor Movement cuts an equally broad swath of treason to the working class. No intelligent man has any longer any

doubts upon the nature of the work done in the Labor Movement by such "labor leaders" as the Gomperses, the Mitchells, the Lynches, etc., etc. The nature of their work has earned for them the title of "Organized Scabbery." Not only do they stand by the political representatives of the fleecers) and shooters of the workers-the Democratic and Republican parties-but they operate the Union that are unfortunate enough to be under their control against the best interests of the working class, often wholly in the interests of themselves or their dirty

Now, then, there is not act of infamy committed by the "Organized Scabbery" against the welfare of the working class ut the Social Democratic party either shuts its eyes to, or applauds. Whether it is the furnishing of deputy-marshals to the cigar manufacturers of Tampa, in order to lower the wages of the "Spanish workers"; or whether it is the helping of the employers of machinists to deceive these into believing that they have won a victory; or whether it is the bleeding of the workers for money under the false pretence of keeping up a strike, when the real reason is to support a lot of scamps as "pickets" and "strike committees" long after the strike is known to be hope lessly lost, as in the recent great cigarnekers' strike in New York City:--what-ever infamy it may be that the "Organ-ized Scabbery" has in hand, the Social Democratic party stands by them, praises their conduct as a "noble waging of the class struggle," and spawns its calumnies at the Socialist Labor Party for fear-lessly exposing that "Organized Scab-

berv. The "check-off system," for instance is one of the "Organized Scabbery" de is one of the Organized Scattery de-vices to pluck and tyrannize and muzzle the rank and file. By this system, the employer "checks-off" on pay-day the dues of his workmen to their Union. The employer thus becomes the Finan-cial Secretary of the Union. The Union is supposed to be organized to protect its members against the employer, but the employer becomes virtually an officer of the Union by the "check-off" system. He is thereby an ally of the 'Organized Scabbery." It is in his power to compel his workers to submit to the "Organized Scabbery." By that scheme the mineowners have held their miners down wherever they were not blown up. Now then, that infamous "check-off" system is in operation in New York City, in at least two shops controlled by Lynch's International Typographical Union. While the Socialist Labor Party has put its finger on that ulcer and denounced it, the Social Democratic party endorsed bad it, not only by lying low on the subject. but by nominating, as its candidate f for it. Governor in 1900 and its candidate for Mayor in 1901, Mr. Ben Hanford, a limb of the "Organized Scabbery" that runs that Union, one who profits by it through well-paid snap committee jobs, and who himself worked in one of those shops (Rogowski's, 440 Pearl street), was there "checked off," and by his silence encouraged the nefarious "check-off" system. Like a veritable criminal the Social Democratic party travels over the country under a number of aliases. In some States it calls itself "Socialist Party." In Massachusetts its official designation is "Democratic Social Party." In Pennsylvania its style is "Public Ownership party." In New York it sails as "Social Democratic party." Of course, every where it pretends to be a Socialist party. and, aided by the Republican-Democratic capitalist press, it raises confusion every where. True enough, nowhere can its defamations of the Socialist Labor Party gain credence. But it is equally tru that nowhere are the masses sufficiently posted to see through the fraud; the imsufficiently pression carried away by most people is the absurd one that "the Socialists are divided:" discouragement is thus created: and the masses, that would otherwis be moving towards and centering within the Socialist Labor Party, are scattered to the four winds ;- and that was th crst Morris Eichmann ran for office-in West Hoboken, N. J., on the Republican, is Democratic, the "Citizens" and the

an a far

"Organized Scabbery." breathes freer. The present condition of the public mind, created by this move of the Democratic-Republican politicians, proves their astuteness. But their astuteness can have play-room only so long as lack sound information continues to mark of sound information continues to the the public mind. This fact points to the Sound burning needs of the present. Sound information must be scattered so plentifully that none but the hopelessly stuff-able can be misled. Then, none need ask. What is the difference between the

Socialist Labor Party and the Social Democratic party? Whoever has brains to think for himself will then be able to pick his own way out of the chaos.

He will then clearly enough perceive the Social Democratic party to be a decoy duck of the capitalist parties. He will recognize the Socialist Labor Party as the sole political organization interpidly and unsmashable faces that the foe of the working class, and that

ATTENTION! W. S. & D. B. F.

To the Members of the Workmen's Sick and Death Benefit Fund.

Greeting:- 5 During the April meetings of our society, our members will be called upon to cast their votes for the candidates for National officers. The experience of the last few years, ever since the element now in control of the society has adopted the policy of dragging the society into the whirl of partisan posociety into the whirl of partisan po-litical strife, has shown conclusively whither the policy pursued by these National officers leads. From the time they adopted that shameful resolution in the year 1899, whereby they tried to set member against member, their career has been one of high-handed, in-solent, yet petty despotism. And this policy has borne its inevitable fruits. They have ridden rough shod over the rights of individual members and of brauches, with the result that the society has become tangled up in a variety of lawsuits some of which, those that have come up for trial, have been lost with heavy cost to the society, while others are still pending, all of them cost-ing heavily. Of course these so-called

leaders do not care, the pockets of the rank and file are there for the purpose of paying the piper, so think these lead-The case of August Gleiforst, Unger and Cook ought to be fresh on your minds. Expelled for no other reason than they had the audacity to agi-tate for the election of a set of officers

other than the ones in control, instead of guarding the interests of the society by correcting a hasty and ill-considered action of a local branch, instead of dis playing that degree of judgement and foresight which is one of the requirements of their office, they gave way to their petty malice so typical of the spirit in which they have all along conducted the affairs of our organization, sanctioned a most outrageous decree in the hope that the VICTIM COULD NOT RAISE MONEY ENOUGH TO PROTECT HIS RIGHTS-and led the

organization into disastrous defeat. The case of John B. Gross and An-drew Bahnsen, regularly elected as Trustees, but promptly deposed from office by the clique in control, the moment they endeavored to exercise the functions of their offices and determined that constitution and regulations of the or ganization be lived up to relative to the proper deposit of funds in bank, is another instance. Here too the matter had to be carried into court and it is safe to say, in view of the clearness of the case, that once again will the ociety lose and the members, have to foot the bill.

The case of Branch Evansville, Ind., vantonly dissolved because it dared to hold and express the opinion of its own relative to the merits of that precious National Executive Committee. And so on and so forth. The road along which that element has travelled is strewn with suspended Branches and expelled members; their career is marked with a succession of the most shameless attempts to bleed the members of the violent efforts to create more trouble is the most marked feature of their con-

A LESSON IN PROFITS.

S. D. P. THEORISTS GET TANGLED UP IN REALITIES.

The Eight-Hour Day and the Mistakes Made Concerning It-An Illustration Showing How Capitalism Turns All Things to Its Own Advantage-The Workers Share

James Carey, the Social Democratic Representative from Haverhill, Mass., has introduced a bill in the legislature to make a National 8-hour day, "by hav ing the legislature of the various states frame a measure to that effect. He says the reason of there not being an S-hour day is that one state wishes to have an advantage over another in trade, this therefore necessitates a National move-

ment. Is this 8-hour day a good thing for workmen? Apparently so, But let us see its arguments. One is that it will lighten toil. To do this does not neces-sarily mean to shorten hours, although many think that to be a fact. You can shorten hours of actual labor but if you lessen the earning power as well, you are not lightening toil to the advantage of workmen. But if you increase wages the purchasing power of wages, you then lighten toil, even though you do not shorten his hours below 10 a day. It is also claimed that this shorter work day will put idle men to work. If 100 men work 2 hours a day less, which is 200 hours, it gives 25 men more an S-hour day to make the balance of duct. This it may do, which would be

ome good. Now let us examine under the micro scopic eye of scientific Socialism and see if it will lighten toil and for whom. Some will say it will lighten the pressure on the labor market, and in that way in-crease wages. We can study this out with the following illustration, although the machine, that iron workman who toils all hours at'S cents a day, will attend to that part of reducing wages. Suppose, for instance, all men are oc-cupied in the manufacture of hats. Let this figuratively cover all commodities. Each man works 10 hours a day, making 10 hats in that time, and receiving in wages for 10 hours \$2 for himself and costing for machinery, raw material and profits for the employer 4 times that sum or \$8, and I believe this is about the statistical ratio between them. Now, then, these 10 hats will cost to produce the sum of \$2 in wages plus the \$8 for material, machine and profit, or \$10, and these hats will have a selling power of \$1 each. If then the hours of labor are reduced to eight hours a day, and the men receive the same wage as for a 10-hour day, the manufacturer will also expect the same profit, making the net amount the same, or \$10 for the output per man per day. While the quantity of he output must decrease, being done S hours, or at the ratio of a 10-hous day, which is one hat an hour, or S hats a day, then this S-hour-a-day hat will have selling price of \$1.25, in comparison the to \$1, which is the selling price of the 10-hour-a-day hat. This certainly is de-creasing the purchasing power of the workman's wages, as he can't buy as many articles at \$1.25 as at \$1, and as the workmen use the bulk of commodties, who is the lightening of toil on? Not on the workmen, surely. It would also cause overproduction in

the markets of the nation more rapidly than by the 10-hour plan. But if the manufacturer would reduce his profits, that is be willing to lose the output of 2 hours, which to the workman means

40 cents and to the manufacturer \$1.60. there would be an increase, and the worker would gain thereby. But you can see by this article, and turn it any way you like, the workman will be poorer under 8 hours than 10 hours, even at the same wages. But this is another sample of the S. D. P. foolish trickery. They are blind when the interests of the workers are concerned.

Yes, you may say, but perhaps the man can produce the same quantity in S hours as he did in 10 hours, or 10 hats in S ganization and its funds in support of hours. Well, who is the beneficiary partisan newspapers; discord, strife and then? This change is supposed to reduce Well, who is the beneficiary the output, so as to put to work "the idle workingmen" at making up the bal-

Well, you may say, what are you

crazy S. L. P. men talking about, when

ars, giving the rest of humanity a chance to make the other 6 hats, if the demand called for 10 hats. This is an illustration that can be applied to all products of the world, showing there is ut one way to get shorter hours that will benefit humanity in general, and that is through the honest principles of the Socialist Labor Party. This is also the Socialist Labor Party. This is also another apt picture of the thinness of the Social Democratic theory. And paradox ical as it may seem, yet, 8 hours work at 10 hours' pay, or 8 hours' work, at 8 hours' pay, is a loss to the workingman the, capitalist system, and a gain under to the manufacture

JOHN A. ANDERSON.

SKINNER'S "SHARE."

Accumulated \$3,000,000 While He and His Family Lived in Luxury. Holyoke, Mass., March 20 .- The will of the late William Skinner, silk manufacturer[™]of Holyoke, Mass., has just been probated and discloses the fact that he as accumulated a fortune of about \$3 000,000 since he located in Holyoke twenty-five years ago. The Holyoke "Transcript," whose editor is one of those apologists of capitalism so well described by Comrade Austin, a few weeks ago in the DAILY PEOPLE, says that this vast fortune "was ac-quired by honest labor backed by good judgment." A little arithmetic will make the point clearer. Suppose Mr. Skinner had actually been at his office every day for 25 years and allowed himself only two weeks vacation in each year, he has allowed himself a sufficient wage to be able to save out of it \$2,400 every week. As Mr. Skinner has never been known to stifft himself and as his seven children have never done anything but amuse themselves in foreign countries it is reasonable to assume that Mr. Skinner's weekly wages must have averaged more than \$3,000 a week. Mr. Skinner was Lever considered an educated man but was always cracked up to be a plain everyday sort of a fellow, therefore it is always reasonable to assume that he was not a giant knowledge box of any kind it must be admitted that a wage of \$150,000 a year is rather a liberal allowance for an honest day's work, pecially when we consider that Mr. Skin ner allowed his fellow workers in his own mill no more than an average of \$8 per week. The truth is simply this: Mr. Skinner had 500 wage slaves in his factory, who did the brain and muscle work in the making of silk goods, for which they received on an average \$8 per week while Mr. Skinner made a PROFIT upon their labor averaging about \$7 per week per slave. That is the secret of wealth production all over the world, and the Skinners are the human leeches who absorb the wealth thus created, but who seek to hide the truth from the workers. This they do for fear the workers may rebel against the robbers and compel them to work for their own living, like any decent man or woman should and receive in compensation from society what their labor is justly worth. In addition it may be added that these Skinners and their flunky apologists know full well where the real wealth comes from. Mr. Skinner has provided in his will that \$1,000,000 be placed in charge of trust companies who shall pay each of his tive daughters the income from said money. In other words, the daughters may keep right on sponging it upon the sweat of the workers at the rate of \$200 a week each of them and they need not even ever go inside the mill where this blood money is coined but simply their checks whenever they need their pin money. Great indeed is capitalism and great indeed is the patience of the workers who stand this fleecing process. M. RUTHER.

General Committee, Section N York, Socialist Labor Party.

Regular meeting held Saturday, March 22, 1902; 8.30 p. m. in the Daily People Building, 2-6 New Reade street, Manbattan.

Chairman, H. Kuhn; Vice-Chairman, D. Ferguson. Six new delegates were seated. Twelve new members were admitted. One application for membership was referred to the City Executive Committee for investigation. Two resignations were accepted. An extended discussion was held on

PLATFORM OF THE SOCIALIST LABOR PARTY. overere overere overere over

The Socialist Labor Party of the United States, in Convention assembled, reasserts the inalienable right of all men to life, liberty, and the pursuit of hap-

With the founders of the American Republic, we hold that the purpose of With the founders of the American Republic, we hold that the purpose of this right; but in the With the founders of the American Republic, we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold, furthermore, that no such right can be cretrised under a system of economic inequality, essentially destructive of life, of likerty, and of happiness. With the founders of this Republic, we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, that the theory of economics is that the machinery of production must likewise

With the mechanics of government must be owned and continue of the second secon

Human power and natural forces are thus wasted, that the plutocracy may rule. Ignorance and misery, with all their concomitant evils, are perpetuated that the people may be kept in bondage. Belence and invention are diverted from their humans purpose to the enslays-ment of women and children. Against such a system the Socialist Labor Party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the matural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence. The time is fast coring, however, when in the natural course of social evolu-tion, this system, through the destructive action of its failures and crises on the one the other hand, shell have worked out its own downfall. We, therefore, call upon the wage workers of the United States, and upon all other honest citizens, to organize uncer the banner of the Socialist Labor Party into a class-conscious body, aware of its rights and determined to conquer them, by taking possession of the public powers; so that, held together by an indomitable spirit of solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substi-tution, industrial war and social disorder: a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

idly supporting the Socialist Labor Party.

the only party which stands squarely before

all citizens in the interest of pure govern-ment. "Of the people, for the people, by the

people." When we find in the public press of this city accounts of how Hyman, Grit,

and Beck, Tory, fraternized at Rideau Club

banquet in the city of Ottawa on the recent

occasion of the opening of Parliament, we

are prompted to exclaim : "Behold, how those people love one another." The proo

of their mutual love of one another, and

their mutual hostility to the interest of the propertyless electors of this city, cannot

be better illustrated than by the manner in

which they jointly assisted in depriving

that large class of voters from having any

representative voice in the Municipal Coun-

cils of this Province. The record of which

can be found in the proceedings of the Municipal Council of the City of London,

1900, led by Alderman Jolly. Tory, and finished in the acts of the Ontario Legisla-

ture, directed by F. B. Leys, M. P. P., Grit,

for the city of London. This act of gag-ging representatives of the propertyless

working class is a most high-handed and mediaeval plece of legislation, depriving

this great body of electors of a constitu-

tional privilege never questioned, and long

enjoyed. Fellow electors, those are the

parties who will seek your suffrages in the coming provincial elections. We have every

confidence that your manhood will resent giving such parties either vote or moral

support in the face of such treatment. The

Socialist Labor Party in appealing to the

electors of London for support, would re-

spectfully ask them to consider, whether those self-confessed corruptionists can merit

any support, for we fail to conceive how they

can expect it. The history of such elections

LONDON, ONT.

S. L. P. Address to the Electors and Citizens.

To the Electors of the City of London : In view of the approaching Provincial election, Section London of the Socialist Labor Party of Canada, wish to remind the electorate of this city of a few which will assist the honest elector in deciding which party in the coming contest should receive his moral support and get

his vote. The facts in this leaflet should appeal to every fair-minded citizen who considers the ballot a sacred means whereby he may ex-press his political desires; to decide that the Socialist Labor Party is the only political party whose principles and platform admit of no misconstruction, and savor only of hohest, open and intelligent methods. In proving the degraded proceedings of the Grit and Tory parties we experience no difficulty, as all citizens are, or should be, conversant with the facts which we intend to narrate.

To begin we may refresh the memory by recalling the Dominion election, run by Hyman and Beattle, representing Grit and Tory politics in London. The degrading measures practiced in the Attic with ham bones and beer by the Tory tools, and the equally degrading practices in McIntyre's barn by the upholders of Grit politics are matters of well known history in London.

Then' again, the municipal election 1900, ruh by Rumball, representing Grit and Tory parties, and Comrade F. J. Darch, representing the Socialist Labor Party, the working class and all other citizens who believe in justice and right. It was considered a recognized fact that Darch was elected by a fair majority, but the combination capitalist candidate was declared the winner by officials appointed by sup-porters of said candidate. Now, all citizens know, or should know, that shortly after the Leys-Darch election, which was for one session of the Legislature, that the Socialist Labor Party was enabled by affi-davits (at present in the Party's possesslon) to name eight so-called respectable citizens guilty of the heinou's crime plugging votes, one of those being a well known Conservative, working in the inter-est of the Grit candidate, to the detriment of the working class, thereby proving the bond of sympathy between the Grit Tory capitalist parties, and showing their solidarity against the working class, whose

cannot be stopped, its international char-acter is a guarantee of peace, its recognition of the rights of labor only is a sufficient guarantee of its permanence and final triumph. Class legislation as safesuccess at the polls would mean a majority guarded by the existing Grit and Tory political parties entails moral corruption, injustice and human degradation, are fruits which are daily seen on every hand. question is, shall it be continued? The Soialist Labor Party will welcome to its ranks all honest citizens who egree with its platform and principles, and are ready to co-operate in banishing this hydra-headed monster of capitalism and political corruption from the path of human progress. At headquarters, 256½ Dundas street, meetings are held every alternate Tuesday, beginning March 18th, also every Sunday afternoon, and the rooms are open for social intercourse every Saturday afternoon until further notice.

Of the malodorous nature of the revelations made in connecion with the recent municipal elections in London, it may be stated that it is nothing uncommon where Grits and Tories are concerned, the same offensive corruption has been exposed before, and will continue until the honest electorate shall rise in their indignation and demand that the whole criminal combination be debarred from any longer directing the conduct of elections in this city. fact, the moral degradation to which municipal and parliamentary elections and electoral matters have sunk in this city under the capitalist system, has become byword in Canada, and such matters as ballot-switching, ballot box stuffing, ballot

burning, and general electoral corruption is considered a necessary accompaniment to up-to-date election of any importance in London.

As a specimen of the Tory pots' opinion of the blackness of the Grit kettle, the following, to be found in the Free Press of February 20th, is a good illustration. Referring to the recent municipal elections it states: "In the municipal history of Canada there is nothing to equal the rascality that was practiced in London. There has never been such a carnival of corruption in any civic election." The plugger, the personator, the ballot switcher, the crocked poll clerk, the dishonest deputy-returning officer, the ballot forger, all have free course and are glorified and rewarded." Also in the Globe of February 24th. In a leading article referring to the same matter, as well as the Dominion bye-elections in St. James Division, City of Montreal, where machine

politics were concerned, it states that the Conservative journals have said nothing too severe about those practices. We, the Socialist Labor Party, say this

whole abomination comes not from the hon-est electors, but from the capitalist leaders of Grit and Tory political parties, and we call upon the horest electorate to rise to and once for all east the whole corruption subscr ist gang into well-earned oblivion, by sol-pires.

Prosperity for Doctors. Holyoke, Mass., March 24.-Holyoke has been attacked by a big wave of prosperity. This time it has benefitted the

doctors and drug stores. Up to date there have been twenty-four cases of smallpox (so-called) and the people have been so frightened as to permit themselves to become victims of the scare. The corporations have compelled their employes to be vaccinated or lose their work and some have deducted the doctor fees, ranging all the way from 50 cents to \$1.50 per victim, from the wages of their employes. This was especially hard upon the Merrick Mills employes, who are only working four days a week and carn about \$4 a week.

The school chillren and teachers have also been compelled to be vaccinated at their own cost, and it is reported in cai papers that some of the doctors have ed as much as \$400 a day Perhaps the next wave will benefit the undertakers.

If you are getting this paper withcall upon the hoyst electorate to rise to out having ordered it, do not re-the dignity of their privilege and position, fuse it. Someone has paid for your subscription. Renew when it ex-

BUT STILL IT TELLS

The Question of Open or Shut Doors to the Houses of Ill Repute-The Commercial Necessity of Vice-Kangaroos and the Part They Played-Holding the Vote for An Increase-Ready for the Next Battle

Seattle, Wash., March 9 .- The municipal election is over, the voice of the "people" (Weekly) has been heard, the majesty of the law has been upheld, and the citizens of Seattle have again settled down to the task of upbuilding and furthering the interests of the city.

There was a great "landslide" last Tuesday, a slide in which a great majority of the working class again slid into the shambles of capitalism.

Section Seattle emerges from the fight trouger, cleaner, more determined and better equipped than ever to carry on the struggle against the capitalist class, e struggle which will ouly cease when the banner of the working class floats in triumph from the dome of the capital at Washington. The result of the campaign just closed

is most gratifying to the members of Section Seattle, our efforts have not been in vain, the onslaught which we have carried on against the almost im-pregnable wall of capitalism is beginning to have the desired effects and the days in which the capitalist politicians, pulpiteers, journalists and labor fakirs are able to hoodwink the members of working class are drawing to a

In so far as the labor fakirs in this city are concerned their power and influence is already a thing of the past, three years of continued opposition and public exposure of their nefarious schemes by the fighting S. L. P. has sufficient to put the quietus on local labor fakirs for all time to

The fake issue of the capitalist parties was whether Seattle should be a "wide-open" town in which all kinds of vice in its most hideons forms would be al-lowed to go unchecked and flauth it-self unreservingly before the eyes of "decent" people or whether we should have a strict enforcement of "law" and compel the vile and vicious, the skin stme and prostitutes to obtain the skin should same and prostitutes to ply their trade behind closed doors in the back yard of any other place, just so the "re-spectable" citizens the innocent and the blind could not see it unless they looked

Republican Party with "Honest' The Republican Party with "Honest" Tom Humes as their canditdate de-clared that they were doing all that could or ought to be done slong this line. They pointed out in the first place that the evils were necessary and being necessary it was idle to talk about stop-ping them and in the second place the commercial weifare of the city demanded that rice abould be "wide-poen"

commercial weifare of the city demanded that vice should be "wide-open." The demograts with Goodwin as their standard bearer representing the "moral element" also declared that while the evils were necessary they should be regulated and if elected he promised to control vice, make it, have some regard for respectable people and he especially promised to protect the working class by placing gambling deus in such a place the dinner pail brigade could not at them.

The immoral element won, vice goes achecked and the commercial supremacy

of Seattle still lives. The S. L. P. exposed these false issues and continually pointed out the cause of the "necessary evils" and that the only "issue was whether the capitalist states with its poverty and degradation

ticket, but the gain of 24 votes recorded in this election does not in any way tell the story or convey any idea of the work accomplished by Section Seattle during that time.

*

At the time of the last election the S. L. P. was practically the only party having the name of socialist in the field. The S. D. P. was then in its embroionic stage in this city, its vote was small and the S. L. P. of course received many votes which did not belong to it, but which logically belonged

to the S. D. P. Since that time the S. D. P. has somed forth in all its "power and glory," with a weekly paper which they freely distributed among the trade unionists, with all their catering to the pure and simplers, with hobnobbing with the labor fakirs in order to "swing" the union vote, with their compromising, catch more flies with molasses than you can with vinegar tactics, they succeeded in this election in polling 312 votes which number included many former S. L. P. votes which as I said never belonged to

One year ago the section was almost rent in twain on account of the Kings-ley-Kuight affair, both of these men had many followers and both swore ven-gence against the S. L. P: and predicted that the scalp of Section Seattle would in a few months hang from their belts. The opposition of this Kangaroo outfit was very troublesome for a time, but the Buzz-Saw at last cleaned our path of the debris and most of their followers have found their place in the garbage box, the Multi-Coca "Socialist Party." The principal cause however of our

apparently small vote is on account of the peculiar make up of the population of Seattle and the nature of our propganda

In the article published in THE PEO-PLE several weeks ago, mention is made of the fact that Seattle is the headquarters of the Washington lumber industry and it is here that the working men employed in those industries are continually coming and going. The transient population of this city

is very large among the working class and the work of section Seattle has been for the most part among these transien workingmen. Our aim has been to spread clear working class doctrine and not to roll up a large vote. The fruit of our labors is seen not only in this city but throughout all parts of the state and in fact all parts of the United States where the workingmen have gone We have held on the average of three street meetings a week the year around our sales of papers and literature has been large, sometimes as much as \$20 worth per week, and it is doubtful if there is another place in the United

States where the speakers of the S. L. P. in a given number of meetings address so many different workingmen. The vote is most gratifying and en couraging to the members of section Seattle and the result has infused new life and vigor into the stalwarts, we have already opened the fall campaign and with the present corps of speakers

and workers our vote next fall will greatly exceed the present one. Another thing which I have neglected to mention is the fact that section Seattle is composed for the most part of tran sient workingmen who generally work out of the city and are only here at uncertain intervals. Many times has the section been left with only one speaker and at such times the work accomplished could not of course be very great.

Section Seattle is proud of its record, the future looks bright and cheerful, let the watchword of the comrades everywhere be, "down with the labor fakir, death to capitalism, up with the S. L. P. and S. T. & L. A., onward to the co-operative commonwealth the workers remblie.

Our progress is necessarily slow but nevertheless sure, the days of capitalism and wage slavery are numbered and the emancipation of the working class by the working class is at hand. JNO. W. MONITTE.

A German "Invasion" of England.

in Paris. It seems almost incredible that the Sheffield scissors industry is approaching extinction through the superior excellence and lower prices of German aristocratic women's literary and po-litical club. At the very beginning he goods. That assertion appears, neverthe-less, in a local journal which is not given to expressing alarmist views. It is alleged that German scissors are ousting those of Sheffield make from the home market generally, being better finished, of equal quality, and far cheaper, thus providing the retailer with a larger mar-gin for profit. When local cutlery manufacturers are questioned as to the reason of this rapid displacement of British goods by foreign, they do not deny the fact, but attribute the loss of business to the evil operation of trade union interference in the trade. That may be, and probably is, one potent cause, but there are some authorities who attribute no small share of the blame to the manufacturers themselves. Their machinery has not kept pace, it is affirmed, with modern improvements, whereas German makers are quick to adopt any novel ap pliance which gives promise either of it is not wicked. cheapening production or of bringing the finished article into closer harmony with popular requirements. It is not for us to judge what degree of truth lies in this indictment. But it is undoubtedly a grave matter of almost national concern if what used to be one of the most prosperous industries in the cutlery me-tropolis is threatened with early ruin by foreign imports.—London Globe. 54 Sozialistische politics? DRED VOTES WERE CAST FOR

THE FIELD OF LABOR

Wages in the Shoe-Industry.

......NEW& FROM

Not very long ago, the National Indusrial Commission issued a final report on Labor, in which it was shown that wages are relatively and absolutely declining, while labor is being intensified, resulting in a shortened period of trade life to the worker. During the past week the Census Bureau has issued some figures on the shoe industry of this country which give point to these facts, bringing them more forcibly and clearly

According to these figures, the number of establishments making shoes de-creased, between 1890 and 1900, from 2.082 to 1.600 in number, or 23.2 per cent. This decrease of establishments was accompanied by an increase in the number of workers, from 133,690 in 1890, to 144,922 in 1900, or 6.9 per cent.

The wages of the shoeworkers amounted to \$60,607,145 in 1890, and \$59,173,883 in 1900, an absolute loss of 2.5 per cent. When, however, it is recollected that the number of workers has increased were handlcapped; hated by the govern 6.9 per cent. the relative loss is still greater; especially is this the case when in the political life of Ireland. the increased value of the product for the two periods is considered. In 1890, this value amounted to \$220,619,358; in to their work manfully, and despite all 1900, to \$261,028,580, or an increase of 18.3 per cent. From the figures showing the seeds of Socialist working class re volt in the furrows of discontent ploughed ing the increase of workers and the inrease of product values, it is casy by the capitalist system of society. see that the relative loss in wages is far day they can look back on their work with 2.5 per cent. It would be nearer the truth to place the loss at about 15 per pride. Nowhere, it is true, have they yet succeeded in getting on their side that majority necessary to place the nomine of their party, the S. R. P., on the seats of

cent. It would be nearer the truth to place the loss at about 15 per cent. in As to the intensity of labor, the census figures show that in 1890, 89,123,318 pairs of men's, youths' and boys' shoes This is an increase were produced. both in number of pairs and value of about 33 per cent. There was also a slight increase in the number of pairs and value of women's shoes, of which 107,415,855 pairs were made. Thus, there was an increase in production al most five times as great as the increase in the number of workers. This in-crease, it may be argued, was due to better machinery, methods and manage-ment; but, as every worker knows from experience, backed by the capitalist

findings of the National Industrial Commission, better machinery, methods and management are simply so many means of increasing speed and intensifying exploitation. It will now be in order for those moralists who contend that the poverty of the worker is due to his indolent and unproductive habits to tell us how it comes that, as the shoeworkers labor more in tensely and produce more abundantly, they grow absolutely and relatively poorer? It will now be in order for those who contend that industry is the

high road to success (which in their minds is synonymous with wealth) to tell us how, in spite of their superb showing the shoeworkers are going down the steep of failure to increased poverty? Finally it would be in order for the working class to apply such facts to the claims of all capitalist defenders; and they will find that their wages are grow-ing relatively and absolutely less, while their toil is increasing in intensity, de-spite the unions of the Tobin and Eaton brand, because of the private ownership of capital, which enables a small class, named the capitalist class, to rob them the workers, of the greater part of their products in the form of profit. The remedy for this condition of af-

fairs lies in the inauguration of Social ism, in which capital will become social property and labor will receive the full product of its toil.

Socialist Republican Party, was founded in Dublin in May, 1896. The founders were poor, like the remainder of their class, and be a sorry one for many fallacious ecohad arrayed against them all those things nomic theories and the middle class bethat are supposed to be esential to sucfore it is settled. It will drive one more cess. They were without a press of any sail into the coffin of the comforting kind, their propaganda was generally suptheories that combination increases composed to be hostile to the religious views of petition (meaning thereby the competithe majority of the people, no great or tion of small and not concentrated industry), and that industry is consequently well known name allied itself to them, decentralizing locally and nationally. It will be recollected that this "merry" they had to count on the bitter opposition

of all the organized parties which defend war was first precipitated in this country, when the American Tobacco the interests of the propertied class, their opponents had more sovereigns to spare pany (the parent company of the Tobacco Trust), decided to undertake the manufacture of plug tobacco, snuff, for political work than they had coppers, they were in a country undeveloped induscigars and cheroots, and the control of obacco cultivation in this country and trially, and a country in which political Cuba. Previous to this decision, the freedom was not fully realized, and where, various companies composing the Amertherefore, the political mission of Liberal ican Tobacco Company, were mainly ensm or middle class reformers was not yet exhausted-in short they were handicapped gaged in the making of cigarettes; also, but not to the same extent, in the manuas no other party in this country ever yet facture of loose chewing and smoking tobaccoes. ment, held in distrust by the people, and in short generally regarded as Ishmaels

In order to make this decision profit-able and effective the American Tobacable co Company organized the Continental. the American Snuff, the Havana American, and the American Cigar Companies. each of which is specialized, manufacturing only a certain line of tobacco products. All of the companies, including the parent company were finally bound together through the Consolidated Topacco Company, a sort of holding company, said to possess a capital estimated it \$120,000,000. The extent of the operations of these

the elected ones-that triumph is indeed companies may be best judged by the fact that two of them-the American not yet vouchsafed to them-but he would ndeed be a very ignorant or a very preand the Continental-have shown net 'earnings,' view the possibilities of the political situa-tion in Dublin, and would leae this little or profits, for the past year of \$14,000,000; while another companythe American Cigar Company-has just opened its fortieth factory for the manu-facture of cigars. This factory, which is located at Camden, New Jersey, emthe elections just ended EIGHT HUN CIALISM in the only two wards of this ploys 1,000 "bands" and has a capacity of 1,000,000 cigars weekly, is indicative These votes were cast for no milk-andof the gigantic scale upon which this water, ratepaying, ambiguous "Labor" can-didates, but for the candidates of a party company does business.

When the above companies were or-ganized the Tobacco Trust next paid atfight instructed its standard bearers to tention to the organization and control of the wholesale tobacco jobbing trade. ing Labor Electoral body, and to stand or It formed companies for this purpose or purchased controlling interests in firms and corporations already in existence. enlarging and extending their business in all directions. Where these methods failed it forced agreements threats of annihilation, by refusal to sell their products to the offenders, and through the establishment of competing concerns. In this way the Tobacc Trust secured domination over the retail-

could appear as a recognized force in political life; no other party could have in the various branches of the tobacco industry, above mentioned, there sprang lifted such a weight so gallantly and so well. What is the secret of the wonderful up considerable opposition to it in those branches. As a result, the Universal progress of this party? The secret lies not Tobacco Company, a corporation whose the personality of leaders, nor in the capital has been variously estimated at ability of propagandists; it lies in the from \$10,000,000 to \$75,000,000, was orfact that all the propaganda and teachganized. This company absorbed the D. H. McAlpin Company, among others. ing of this party was, from the outset. Then there followed the organization of other corporations by the Doerhoeffers and Weissingers, out West, for the manufacture of plugs and other tobaccoes. These corporations were mainly formed of concerns already in existence and en joying a comparitively profitable career. In New York, the Hirsh-Mack Cigar Company, with \$10,000,000, and having huge factories in New York, New Jersey and Pennsylvania, was formed. In Cuba, the Havana Commercial Company and Bock & Company, two rich powerful cigar companies, consolidated as a result of the trust's "invasion" and ompetition there. So it went all along

the line, combination being met by coun-ter-combination and competition by concentration. Just how many small concerns this process has crushed is not exactly known, but it may be inferred from the statement of Harry Fisher, of the Tobacco Workers' National Union, who claims that the trust has caused the discharge of 25,000 tobacco workers

points to the solution: there must be greater concentration; a counter-combination to meet the American combination. In so far as the Imperial Company is concerned; this is said to be already decided upon as the only way out. According to the latest rumors, it is contemplating "a community of interests" with the Universal Company, the Ha-

vana-Commercial, Bock & Companay, the Weissinger and other tobacco com panles of this country, for offensive and defensive purposes. What the outcome of such a move

will be is not hard to foretell. It can end in one of three results, any of which will mean a still greater concentration than exists at present. It may (first) result in the triumph of "the community of interests," which will be equivalent to the death and absorption of the Tobacco Trust; or it may (second) result in the defeat of "the community of interests," which will, in turn, be lent to its death and absorption by the Tobacco Trust: or it may (third) result in an amicable consolidation of both "the community of interest" and the

Tobacco Trust. Thus we see that the death of the Tobacco Trust can only be encompassed by a greater trust of national and international dimensions. Its transformation can only come not through its dissolution, but through its consolidation with other national and international trusts. No matter which way this occurs, concentration triumphs, to the detriment of middle class competition and the economic fallacies born of its decline.

When the competition of trust with trust will have ceased, when the great struggle 'for national and international supremacy now raging between the colaggregations of modern capitalism shall have resulted in complete concen-tration, then we shall have Socialism.

HARTFORD'S MUNICIPAL CAMPAIGN

The Part Played in It by the Labor Fakirs. Hartford, Ct., March 19 .- Only a few weeks more and our city election be-longs to the past. But the nearer the day draws the more lively things are getting among our politicians. This is especially true with our "famous" especially true with our "famous" Economic League, a conglomeration founded and led by the fakirs of our C. L. U.

Originally it was planned by said fakirs that the "League" should partici-pate independently in the coming city election, but as it happened that each fakir is also a ward heeler for one or the other of the definition of the de the other of the old parties, this plan had to be abandoned. The fakirs could not agree as to who should be nominated

for the respective offices. Therefore a new plan had to be con cocted, and so it was agreed that each "union-man" should be registered for the caucuses of the old parties and then set to work to nominate "good" men who would pledge theniselves upon the pro gram of the "League."

This is being done just now, but things don't run quite as smooth as expected Naturally each fakir who is a ward heel er for one of the old parties, tries to get a man of his own party to be nominated. but the other side is up to the same scheme. The one who can manage to bring the most adherers to such meet ings will of course succeed, no matter how much the other side protests. If the minority gets too turbulant they are simply ousted, as in reality it has al

ready happened in several wards. It is a lucky thing for these fakirs that election day is only a few weeks off, if it was as many months we would have the chance of witnessing the burst ing of this nefarious fraud, before it had come into action for the purpose it wa supposed to achieve.

Already the fakirs are falling qui among themselves, they accuse each other of fraud and corruption, and call each other names which are vainly sought

in any unabridged dictionary. As a matter of fact money is plenty n hand, but only a very few of the main fakirs know the source it comes from, the other fakirs are just as much groping in the dark as the public in general But this is just the bone of contention. the small fakirs cry fraud and corrup tion, which means, that they don't get enough of the boodle. In order to keep the source a secret as long as possible the main fakirs try all means to post-

pone the nominations to the last momen

formerly employed by small men. Having organized its constituent comlest it may leak out before time who the parties are that supply the boodle. panies and specialized them, to the extent and with the results above described, the Tobacco Trust, like Alexander of old, sighed for more worlds to conquer, and turned its gaze abroad. It may be said that the sigh was necessitated by modern economic conditions, for no industry is safe in modern times from foreign competition, which must in turn be con-trolled to ensure complete domestic domination.

Well, as a result, the well-known "invasion of Englanad" followed; while Russia, Germany and Canada were also But every dog has his day. The Kang-Social Democracy fraud is dead and gone, for nothing is seen and heard of it in this campaign. Apparently partly attacked; while an assault upon he governmental tobacco monopolies of France, Austria-Hungary, Servia, Rou-mania, Italy, Spain and Portugal, is con-templated. Talk about " the decentralization of industry!" But this is antici-pating a little, so let's go back to "the invasion of Euglanad."

The "invasion of England" resulted in the formation of the Imperial Toba Company, a consolidation whose capital ization is given as ranging from \$65. 000,000 to \$75,000,000. This company immediately set to work to repel "the invaders" by creating a monopoly of the dealers, though the offer of a bonus and a binding agreement preventing the re tailers from dealing with other comvanies, American or English, The "in vaders" went the Imperial Company one better: it offered to give the dealers not only a bonus, but their entire profits for four years, while leaving them free to deal with whom they may. As it is not likely that any English company can meet these terms, and insure the deal-ers more profits, the dealers have accordingly, unanimously denounced the "un-English" attempt of the Imperial Company, to act "in restraint of trade" and accepted the terms of the "invaders. Now it will be readily seen that the triumph of the Tobacco Trust leaves En

his duty. The same will happen to the present "League" fraud. Undismayed in the face of all these fraudulent obstacles stands the old staunch S. L. P. The artisan who is demanding at this time an eight hours day in the building trades is simply striving to recover what his ancestor worked by four or five centuries ago. THUROLD ROGERS.

A COMICAL DISTRESS.

The San Francisco, Cal., "Advance," a Kangaroo Social Democratic organ; living in a section of the country where a good deal of Spanish still pervades the atmosphere, must be appreciating the fuliness of the homely truth and truthful homeliness of the Spanish adage regarding the troubles of the man who tries to extricate himself from the tangle of a shirt eleven yards long that he has got himself into. The "eleven-yard shirt" in this instance is the Kangaroo "Trades Union attitude," to which fully as many more yards are added by the recent San Francisco Trades Union independent political party, that left the Kangaroo brigade of San Francisco "borers from within" beached like a clam at-low tide, after its committee of five had been contemptuously allowed to "warm the chairs in the gallery." The squirmings of the "Advance" in its attempt to disentangle liself are odd to witness; it is the man in the "eleven-yard shirt" over again. getting his legs caught, tumbling, trying to rise, tumbling again and finally presenting the picture of a bundle of anatomy and dry goods all of a heap.

The "Advance" argues that the San Francisco independent Trades Union Party movement was "a class struggle manifestation" and "brought out in sharpest lines the antagonism of interests between the capitalists and the workingmen." It then proceeds to admit that all this "class struggle manifestation," together with the "sharp lines autagon-

ism," etc., etc., was captured by and tecame a catspaw for the Republican Party. And it finally philosophises that such a mischance was simply the result of the Kangaroos not having "bored from within" for a sufficient length of time and with sufficient intensity: If, it declares, the Kangs had only started in early and kept it up long enough, then, oh, then, "despite all conservative leaders" in the pure and simple unions the issue would have been a great "Socialist

sictory."--What a succession of bum- terics: "Un-Americanism!" "Paternal- feature that renders them permanently

tical betrayers, such applause being the condition precedent and the condition subsequent for the tolerance of the Kangaroo by the "conservative leaders" in the Hanna-Gompers Trades Union Movement!

Really, in the act of lashing the OWN HANDS: Let the Working Class crooked Kangaroo, alias "Multi-Coca," hustle, bounce the Capitalist Class and alias "Social Democratic," alias "Pandemonium Socialist," alias "Public Ownership," alias "Socialist" Party man, one often feels like staying his striking arm: It is so hard to tell where Kangaroo imbecility ends, and Kangaroo crookeduess begins.

LET THE WORKERS HUSTLE!

The Ship Subsidy bill passed the Senate with a safe majority. This is one long step towards its becoming a law, and thus registering one more stupendous steal, practised upon the National Treasury. Indeed, in passing, one of the arguments brazenly made in its favor was that it was "no worse than so many others." As far as this feature of the affair is concerned, the matter would hardly merit much attention: whether the millions to be appropriated are left in the Federal Treasury, or whether they be invested in more Gatling-gunson-paper-dispensing Judges, or in larger military establishments, or whether they be plumped into the pockets of a select coterie of ship-owning capitalists,what's the odds? The condition of the Working Class remains the same. After, as before, the earnings of the workingman decline, because, after, as before, their earnings are determined by the supply and the demand for Labor in the Labor market, and, consequently, after as before, the bulk of their product is plundered from them by the Capitalist Class. Whatever disposition is made of the millions to be appropriated, the root of the system of wage slavery remains unaffected one way or the other. The disposition of the aforenamed millions in the treasury is determined mere-

ly by the preponderance, this way or that way, of this, that, or the other plundering capitalist concern. That the not in the workingman's pocket is in "Plunder." The fight was among the plunderers for the share of this portion of the workers' hide. In so far what's

that in the "Ship Subsidy" that takes it out of the usual run of steals. When moneys are appropriated for the River and Harbor, the Public Buildings. the Canals, and so many other pretences for steals the moneys do not go directly into the robbers' private pockets; they travel thither safely and surely enough, but they travel thither circuitously. In this instance, however, the steal goes thither on a bee-line. In doing so it damages not a little the anti-Socialist speeches that the Capitalist Class seeks to head off Socialism with; and it knocks into a heap of ruins all capitalist pretences to sincerity and honesty.

there new, odd or surprising in the "Ship

Subsidy"? Nothing. And yet there is

The Working Class maintains and proves that, stripped of the wherewithal to work with (Capital), it can not hold its own in the competitive struggle for existence, and goes down, a wage slave class, fleeced by its fellow competitors for life, the Capital-holding or Capitalist Class. The Working Class programme, accordingly, is the demand that the Capital needed to work with be legislated into the hands of the Working Class. The very mention of such a programme throws the Ship Subsidy Class into hys-

the Senate is the claim that, stripped of

a Subsidy, these ship-owning capitalists

could not hold their own in the competi-

tion with foreign ship-owners, and have

to go down defeated by their fellow

competitors. In other words, the identi-

cal class, with Hanna as its fugleman,

tivize and judicialize the requisite Capital into his own hands-in other words. who has placed himself on the right side of the guns-, has any show: To-day only the Capitalist Class is there, con sequently it legislates, etc., INTO ITS

get there itself. THEY NOW CALL IT "WIN.

NETKA." A few years ago every freak in the and was shouting "Initiative and Referendum." The "Initiative and Referen dum" was to be the panacea for all so-

cial ills. Indeed, it was huckstered about n regular patent medicine style: warranted to cure after one or two applications. The craze lulled, and finally was heard of but little. It is now up again. Like all crazes, this one now turns up under a new name: the "Winnetka System." At all points it is the same old corpse, only re-rigged in fresh furbellows. It may seem tiresome, it is in structive all the same to re-submit such crazes to the scalpel, every time they reappear. Being plausible absurdities their exposure serves the purpose of rectifying thought: being vicious conceits the squelching of them serves the purpose of clearing the path of rubbish.

The germ of truth that makes the 'Initiative and Referendum," alias "Winnetka System," plausible is the truism that the people should rule themselves; the germ of falsehood that makes the thing vicious is the suggestion of mystical powers in the suffrage and the form in which it is exercised. Plausibility and mysticism shaken up together pro duce a fetid compound. So in this case. The ballot is a form of civilized discussion among masses. It is all that, but it is not more. There is, accordingly, in the ballot no more intelligence than in the person who casts it. The "Initiative," etc., alias "Winnetka System," implies a denial of this cardinal truth It attributes to the ballot, cast in a cer tain way, occult powers; starting upon such foundation, the "Winnetka Syssaid millions-exclusively the product of tem," alias "Initiative," etc., reaches a Labor-are found in the Treasury and series of preposterous conclusions, which schemers, always acting upon an unerritself evidence of their representing ing instinct, quickly seize upon, and seek to turn to the Capitalist use of turning

> the Labor Movement awry. Whatever is true and useful in the 'Winnetka System." alias "Initiative and Referendum" is now in full opera tion. The annual, in many cases semiannual elections in the land, are, in that respect, essential "Winnetkas." What does the "Winnetka" propose? That laws shall not be passed without the consent of the citizens: a proposed law is submitted to the voters: if approved it passes, if disapproved it is rejected. What essential difference is there between that and our present elections? He who has ears to hear, or eyes to see can, at every election, hear and see the question: "Citizens are you satisfied with the laws that have been passed? If you

are, vote back into power the parties that have passed such laws; if you are not satisfied, vote them down and out." It is mysticism of the most vicious nature to imagine that people, the ears and eyes of whose intellects are so stopped that they will regularly answer the above question in the affirmative by voting back into power the parties who have uniformly legislated bad laws, will suddenly have cars and eyes clear enough to vote with greater intelligence upon the

laws themselves. It is this vicious mysticism that brands all "Winnetkas" as mischievous: it is this their mischievous available for sense. What new name will the lure take next?

Mr. Ho Yow, in pleading for entrance for the Chinese to this country, spoke with Oriental simplicity and directness, but thereby made a grave mistake. He said that Chinese labor was of the utmost advantage to employers, at whose

instigation laws are passed. He can see all right, but he has much to learn in keeping control of his thoughts. It is evident to all but scholars, pure and simplers, experts, capitalist writers, and Digger Indians editoria Digger Indians that al laws are passed by and for the employ ing class, but it is the rankest kind of Socialism to say so and then act in accordance to the saying.

de singer tar and

Bishop Potter deplores the tendency to criticise city officials, either for what to criticise city officials, efficient for what they have done in the past three months, or for what they are doing or not doing. Three months are long enough to form an estimate in, and as the present administration has done nothing, and appar ently is doing nothing, the Bishop's plea was simply so much protection for them. He was one of those who chorused loud est in the great Tammany hunt, and he did not hesitate to drag game from out the City Hall, or to criticise departments in which game might lurk. So to beg immunity for the present administration is proof that the former zeal was promptsomething other wan a spirit of civic righteousness.

The subject of food adulteration shows the tottering and often helpless condition of modern science in dealing with mportant questions, and the same sub jects show the ability of the business nan in taking advantage either of skill or ignorance. Dr. Wiley, who was called before the House Committee on Comnerce made some startling statements. He said that the glucose used in the adulteration of food products is wholesome He said that while his statement to this ffect had at first been ridiculed, his contention was now admitted by food experts. Dr. Wiley showed the committee several kinds of jellies made from the peclings and cores of apples, chemically colored and flavored to represent different fruit jellies. Dr. Wiley added that the by-products of the apples from which the jellies were made are shipped to Europe and used in the making of cham pagne. An "Ohio wine," made from coal tar dye, sugar and alcohol, and contain-ing absolutely none of the products of the vine, was next shown. Dr. Wiley gave instances where manufacturers were themselves deceived by coal tar dyes. which were represented as pure vege table dyes. That is business.

English papers are aroused to the fact that Ireland is really not so content as Englishmen persistent in telling Irish-Agitation has been going men she is. on for some time, and has done much to arouse the Irish people. As the agi-tation is the same old kind, and as the objects are the same old objects, it is impossible that anything good come of it Irish leaders have run Irish revolt into the ground with monotonous regularity. The only thing ever accomplished was to give more work to that great pacifier, the hangman.

The Tobacco Trust has fleeced it: workers to such an extent that it is able go to England with \$30,000,000 with which to take from the English firms their tobacco trade. This enormous sum represents the life blood of thousands of men, women and children. It repre-sents the systematic stealing that has gone ou, and shows how deep the em-ployer cuts into the product of the worker.

It is a lesson in high-handed robbery in downright murder. What the Tobacco Trust does all other trusts do also, and all employers of labor do, each accord ing to its ability.

"Organized Labor" of San Francisco, California, adds another count to the in dictment of the Civic Federation, and also of the pure and simple trades union movement. It says that the N. C. F. "settled" the strike of the machinists, heads of the men are yet swimming. They are not sure whether it was an ax or an "amicable arrangement" that laid them low, but laid low they are, and it hurts, "Organized Labor" devotes a whole page to this and calls it the crime of the century. That is wrong; the crime of this century and of last century was the waste of the intelligence and energy of the working class that the trades unions endured, has made possible, and forwarded. "Organized Labor" did and is doing not a little in this respect. The evasion of a child labor law is one of the esasiest and best paying things in the world. England has strict laws relative to the employment of children. but they are overridden as though they never existed. For example; a com-mittee recently reported to the Home Secretary of England their finding for the year 1898. In that year there were in all 350,000 children of school age who were employed for at least 20 hours a week. These same children also went to school, but as the exactions of business are greater than the exactions of a school t is safe to say that the attendance of those children at school was only a sham and a bluff. They were there to prevent their masters from being arrested they were not there to learn. Their pres nce at school was in reality an addition al task, an imposition, on them. Yet the smug and satisfied English factory owner, or shop keeper, in common with his brother in similar branches in other ands, will pat himself contentedly at the thought that the children are get 'education." He makes money ting au out of their "education" the same as he does 'out of everything else.

up in a man's mind with slush, is not MANIFESTATIONS OF PROS-PERITY.

Prosperity is peculiar in its working. It discloses strange and unexpected phenomena. The newspapers and the professors picture a glorious palacecrowded with all manner of precious things towering up and up with the American eagle perched on the top and screaming a triumphant victory to the other smaller birds and beasts on the other smaller towers. But within there is auxicty, and running to and fro, doubts are freely expressed as to the structural stability of the edifice, and now and again the all-present dread voices itself in the openly expressed fear that "the niggers may break the hatches." The professors and the journalists are

not truthful. They lic, some from ignorance, some from malice aforethought, and others, and, these, the majority, because they have to. They have mort-gaged themselves to the devil and they must lie to live, for in the majority of cases they dare not die. So they paint beautiful pictures which they have to admit are potboilers and intended to defraud, they fake statistics which their employers in self defence have after-wards to disown, and they behave so stupidly and shortsightedly that news of each month is contradicted by the facts of the next. Why do they tell the truth? Because to do so would be to throw up the sponge, it would be to admit that the criticisms against which they have hurled all the force of church, state, and a highly paid staff of professors, are in reality true. that the social structure is rotten, that its foundations are sapped and that the only reason for its continued existence is the fact that it is maintained for the

profit of a limited class. Attention has been called in these columns before to the remarkable growth in the number of suicides. The reason of this increase has been pointed out and the truth hammered home. But, as usual, the enemy themselves furnish the best instances, and at the same the best reasons for this state of things. Incidentally one of the most humorous facts of the present system is the everfresh truth that the hard-headed, eager. unimaginative trader and manufacturer nearly always bluntly contradicts the laboriously constructed hypotheses and conclusions of his paid advocates, thus it is a real joy to a Socialist to hear a capitalist begin to reckon with regard to a new venture precisely as Marx says that he does, and to see the form of that much maligned and voluminously combatted surplus value sticking out all

through the computations. So, with the matter of the growth of suicide. The capitalistic concerns themselves furnish t only the best data, but unconsciously the best explanation of the phenomenon. One large insurance company in its annual report indulges in certain animadversions on the subject of suicide, which are in themselves sufficiently entertaining, and which show a futile and absurdly inadequate attempt on the part of these greater capitalists to account for a phenomenon which is to say the very least alarming; for if people are beginning in increasing numbers to find life so intolerable that they hasten to themselves of the burden by rerelie linguishing, what has up to this time

been universally considered as the dearest and the most valuable of all possessions, namely, life itself, the end of a system which renders such a condition of things possible may reasonably be presumed to be closer at hand thau is commonly supposed. The report mentioned says:

"The increase in suicides, as shown by the statistics collected with great care by the 'Chicago Tribune' is simply startling. In 1891 there were 3,531 su cides, and in 1901 7.425, an increase of 105 per cent, while the increase of the population for the last decade has been per cent. only. Of the 7,245 suicides in 1901, only 674 are ascribed to insanity, 618 to ill-health. "I am convinced from my observation

that suicides, although for prudential reasons frequently specified in the proofs of loss as accidental deaths, has increased among insured lives at least 200 per cent, during the last decade. While

of the tritest commouplaces of ordinary respectability should this suicide ten-dency continue to spread. If it proves as a matter of fact that suicide is really the most effective manner of providing for a family, a new ethical standard with reference to suicide must be adopted, and the bridegroom and proud father may be able to comfort himself that he will be considered to have performed his duty should he commit hari-kari for the sake of his family. But in reality the question opens up a

rista of misery that is, beyond description, horrible to contemplate. The men who insure are for the most part, in fact altogether provident and prudent men They place the welfare of their families and nearer relations above and beyond all considerations of their own immedi-ate comfort, for the payment of a premium necessitates a certain amount of self-sacrifice, that self-sacrifice in fact which only a very short time ago was considered to be a virtue of the very highest degree, and in praise of which the inimitable Samuel Smiles wrote a

book which brought him fame and money, which book, with its title of "Thrift," is one of the works most pleasing to the typical bourgeois. The strain which compels such a man to leave his family and to go out alone into the dark void must be greater than the ordinary person can have any comprehension of, it must require the greatest possible assurance of the ethical worth of his act to persuade such a man to take such step, and the fact that it is being taken in ever increasing numbers by men of this type is a fact which contains the strongest indictment ever brought against this state of society.

The insurance company dubs suicide under these conditions as "the cowardly device of the degenerate or criminal. This is the purest sort of nonsense and as a matter of fact does not come within a thousand miles of accounting for the thing. In the first place such suicide cannot by any stretch of the imagination be called cowardly. Were it intend-ed to escape the evils which threatened ones own person or peace of mind the expression might conceivably be defended. But in this case the suicide contem plates the well-being of others and dies to accomplish that well-being. In war they call that heroism, and frequently

decorate the corpse in token of their appreciation. One of the Hearst papers, which are nothing if not "moral." had this to say the other day upon this matter:

"Every man who commits suicide con-fesses a lack of courage, confesses failure, he confesses that he is too much of a coward to continue the struggle which is the foundation of existence on earth.

But suppose that the man is not a coward but that he knows that he beaten, that the forces against which he has to contend are too much for him and that the only chance which he can find for his family is the chance that he can give them by his own death and ssession of the insurance mouey. the This balderdash of the yellow papers in simply the old ethical view of the matter, it does not in the least help us solve a problem such as is presented in the report of the insurance company. The insurance company is still further afield when it applies the general term "degenerates" and "criminals those who commit suicide after insuring themselves. The insurance people themselves take care that they are not degenerates for they subject all applicants to a strict physical examination before admitting them as policy holders, are particular to enquire into their actual habits, false information concerning which is sufficient to void the policy. concerning And the charge of criminality is banal to the last degree, for most assuredly no insurance company will, except after very close examination of the circum stances, even venture to admit as a policy holder anyone against whom the least accusation of criminality in the proper significance of the term could

exist for five minutes. There does not in any way appear an escape from the conclusion that the suicides which the company complains of are well-meaning and discreet heads of families who have paid their insurance money in good faith and intended provide for the unexpected contingencies of life in the ordinary man. ner. But the economic conditions have crushed them and they commit suicide as the best solution of the question of

immediate subsistence

Uncle Sam and Brother Jonathan

BROTHER JONATHAN .-- I believe n a unification of reform forces. UNCLE SAM .- So do I; but 'hat can't

be until and unless they are agreed upon a common cause.

B. J.-But they are now. U. S .- Not much!

B. J .- Would not the Socialist like to see the banker abolished?

U. S .-- Yes.

B.J.-Very well. And does not Bryansm want to down the banker? U. S.-Guess it does,

B. J .- We don't need to go any fur-Here you have two reform forces ther. agreed upon downing one and the same thing or person. Why not join forces? thing or person. Why not join forces? U. S.-Capt. Kidd was a big pirate, wasn't he?

J .- And no mistake.

U. S.-He used to capture merchant ressels and smaller piratical concerns than himself, didn't he? B. J.-Yes. U. S.-I remember one of your fishing

smacks was one day captured by a little pirate called Holmes.

B. J.-But the scoundrel did not keep it long: it was next day taken away from him by Capt. Kidd. U. S .- Just so. Now, suppose Capt.

Holmes, the little coasting pirate, had thereupon come to you and spoken as follows: "Mr. Brother Jonathan, that big filibuster, Kidd, has robbed you many a time; he has robbed me, too; you and I have common cause; you want to abolish piracy; Kidd is a pirate; I, too, want to abolish Kidd, only I don't want

to ge quite as far as you; you are too radical; you see, we have a common cause and a common enemy; we are re-formers; let us join forces." What would you have done? B. J.-I would have kicked him within

an inch of his life, and would have handed him over to be tried and hanged. U. S .- You would not have taken any stock in his claims that he, too, was reformer because he was down on Kidd? B. J.-Certainly not!

U. S .- And you would have seen clear through his sophristry about you and he standing on substantially the same ground?

B. J.-Most assuredly.

U. S .- Now, old boy, the banker is Cap: Kidd; the small farmer who employs farm hands or the small middleploys farm hands of the small middle-man who hires workers, each of them is a Capt. Holmes. They are robbed, no doubt, by the modern Capt, Kidd, but each is robbed mainly of what, like Capt. Holmes, he robs his workers of. This middle class is best typified by the Raleigh Progressive Farmer, which says common laborers are to be procured as one procures pork and beef; or by Senator Peffer, who declares the boycott to be an illegal interference with the rights of a firm, and that the employer may employ and dismiss at will.

These are the genuine Bryanites. If you add to them the silver mine barons, who work their miners for less than \$1 a duy, the case is still clearer. Socialists, the working size here bar the working class, have no more in common with such gentry than you have with Capt. Holmes. Neither will they fall into a blunder that you would have steered clear of.

A California woman, writing in the current "Independent" puts the attitude of many advocates of Chinese immigra

pety-bumpety-bumps!

It is undeniable that such a thing is possible as the uprising of a labor organization, prompted originally by clearly felt class antagonisms, being led into the camp of the very class it meant to hit, and thus being cantured by the very foe it meant to combat. It is furthermore undeniable that hardly a stirring, that periodically manifests itself in the

ranks of the rank and file proletariat, but falls within the category of a classprompting: at the same time undeniable is the fact that all these promptiugs, without exception; are led into the ground, are betrayed to the enemy, by the "conservative leaders" of pure and simpledom. The question, accordingly, resolves itself into this: How to open

the eyes of the rank and file of the Working Class so as to enable them to see the "conservative leaders" in their true light, to know them for what they are, to treat them as the traitors they

be? This question the Kangaroo Social Democratic "Advance" answers with: "Some more, some longer, some intenser "boring from within."" In other words. the eyes of the rank and file are to be spened, their confidence is to be broken in their "conservative leaders" Br. what?--by an intenser application of the Kangaroo plan, the key to which is

the declaration of their own National Convention that the enormities into which these identical "conservative leaders" lead the rank and file into are "a

suicides from insanity and ill-health should not void claims, and never do in any well-managed company, public morality and the uplift of humanity, common honesty and equity demand that wilful or intentional suicides should render claims void: but as these are not always easy to distinguish from unin-tentional suicides, it is necessary for a life company to have a clause by which a suicide is a risk not assumed the first "The records of several companies

show that the admitted suicides, and those covered by some other alleged cause, during the first two policy years are as great in number as they are in the next ten years. THIS IN ITSELF DEMONSTRATES THAT SUICIDE IS FREQUENTLY CONTEMPLAT-ED AT THE TIME INSURANCE IS APPLIED FOR. It is the cowardly device of the degenerate or criminal to make provision for those whom he has wronged or neglected.

The caps are mine, but they contain the gist of the report. The insurance company as a result of its investigations into the circumstances surrounding the death of suicides who have insured themselves has arrived at the conclusion that such suicides have in an increasing number of instances taken up their policies with the reserved intention of committing suicide. Such a conclusion is to say the very least staggering, for it points to a sort of commerce in life and investment

in securities the value of which cannot be realized except by the death of the nvestor. Here is a new and hitherto very un-

common method of providing for a fam-ily and a method which by its growth appears to be reckoned as of at least some efficacy. "Greater love bath no some efficacy. "Greater love bath no man than this, that he lay down his life

for his friend," declares the old Chris-tain teacher, an ideal of devotion which tion be sent by the secretary to 'The Observer,' 'The Worker,' and the 'Volkswill become so common on the part of Observer fathers of families as to render it one zeitung."

hose ne

and dear to them. And in spite of the much vaunted prosperity the number of those so com-mitting suicide is continually on the nerense. AUSTIN LEWIS. San Francisco, Cál.

Political and Economic.

The "Washington Post" sums up Southern patriotism as follows:

"Brownlow," said , Representative Slayden of Texas to his Tennessee col-league, "I have a little bill here for which I want your help." "All right," said Brownlow, prompt-

ly, "you shall have it." "But let me tell you what the bill is

for." said Slayden. "That's not necessary,' replied Brown low. "It asks for an appropriation?"

And the money goes South?" "Yes." "Then I'm for it."

That would be just as true if a man from the North, East, or West, were substituted for the Southerner.

The S. D. Official Organ.

The members of Branch 2, Socialist Party of Hoboken, adopted the following resolutions at their meeting on Tues. day last:

"Whereas, The Socialist Party is in thorough accord with and endorses the rganization of labor into trade unions; "Resolved, That we, the Socialists of

Branch 2, Hoboken, insist upon having the union label upon all goods turned out by union organizations and purchased by us. "Resolved, further, That this resolu-

up the fact that American capitalists have gotten their hands firmly on Cuba, and are ready for any "relief" measnres that will give them an extra per cent. of dividend.

tion in a nutshell when she says: "We need the Chinese here as a check upon our other working people, other reason, but we have also a strong partiality for the quality of the work of which they are capable." That is a plain statement, and the first part of needs no comment. In relation to the "partiality" it may be said that it is based, according to the same article, on the fact that the Chinese are docile, that they will work long hours, that they are clever to a high degree, and that they are polite. Politeness is a thing that varies with time and place; it does not of necessity mean the fine manners of a stage hero, or the oozing galantry of " a gentleman of the old school;" it may mean, and usually in connection with the working class it does mean, downright servility. One advantage the Chinese servinty. One advantage the Chinese have is that the master and the mistress do not know when they "talk back." What they do not know in this respect does not burt them. On the other hand the English speaking servant may be impartiment and then they is nothing to impertinent and then there is nothing to be done excepting discharge him. The confession of the "Independent" writer is valuable as giving a statement of those who favor the Chinese, and the exceedingly humane reasons for favoring them.

The beet sugar interests have met with defeat in Congress, but they will prob-ably get back at those who defeated them when the canal measure comes up for final settlement. The cry of "relief for Cuba" was as much of a swindle as the plea for protection and assistance for the poor, struggling beet sugar man. Beet sugar is not worth the money that has so far been expended on it. On the other side the assertion that relief was wanted for Cuba only served to cover

have been advanced to show why

First-What should be the attiude of the S. L. P. on the subject of the economic organization of Labor? Should it hold such organizations to be needed, or to be

wholly needless? Second-What is the present attitude of the S. L. P. towards the pure and simple trades organ-

fration? Third-What should be the attitude of the S. L. P. towards pure

aud simple organizations? Fourth-Does the S. L. P. need the S. T. & L. A. to expose and overthrow the pure and simple or-

ganizations? Fifth-Does the connection of the S. L. P. with the S. T. & L. A. strengthen or weaken the So-

cialist Movement, and in what * way?

[The Roman figure over each letter indicates the numerical order in which the letter was received since the debate started under the Curran system. :Th Curran letter inaugurating that system is numbered Letter I.]

. XVIII. arguments for dropping the Alliance I virtually reply to all the arguments ad-What should be the attitude of the S. L. P. on the subject of the economic organizations of labor? Should it hold such organizations to be needed, or to be wholly needless? Answer:

In the affirmative, decidedly, for two reasons (1) under capitalism, as at present constituted, an economic organization of the working class is a necessity to combat capitalism until the working class can develop themselves politically; (2), it is the only economic organiza-tion of the working class, all other organizations being capitalist organizations. 2.-What is the present attitude of the S. L. P. towards the pure and simtrades organizations? Antagonistic. --What should be the attitude of the ple trades organizations? S. L. P. towards pure and simple organ-

The same as the S. L. P. towards capitalism. The S. L. P. must look upon all pure and simple organizations as capitalist organizations, therefore, they must be met by the uncompromising inctics of the working class (organized or unorganized) but preferable through an economic organization on class lines. 4.-Does the S. L. P. need the S. T.

to expose and overthrow the pure and simple organization? The capitalist class in its development

will do, that, in fact, has done so in a Targe measure, and in a few years will complete that which it has so success-fully begun. Viewed from this stand-point it will be seen that the birth of the S. T. & L. A. was no accident nor was it premature as many are prone to think. If an economic organization of the work-ing class is useless, and the capitalist class had no fear of such an organiza-tion, why would they. (the capitalist class) spend so much energy, time, and money gobbing up the pure and simplers? Those who are opposed to the S. T. & L. A. had better think this over.

-Does the connection of the S. L. P. In order that "the vast majority of vot with the S. T. & L. A. strengthen ers (working men) may understand MUCH and care MORE about these sken the Socialist movement and in what way?

It strengthens the Socialist moven At strengthens the Socialist movement by adding one more function to its or-ganism, in other words, gives us two garms instead of one if I may compare it to a human organism. Looked at from the surface it would seem that it had sapped some strength from the S. L. P. but when we recognize there are I. P. but when we recognize there are ons of the same organization,

two functions of the same organization, it is pure fallacy. I would say, in conclusion, let us not be pessimistic of the outcome, but rather stick to the uncompromising facts of the present elass-struggle and say with the present class strugger and say that Thomas H. Huxley, when he spoke to the students of Aberdeen, (Scotlaud): "my life may be called a procession of defects, but if my defeats are the step-ular stones to future victories I ask no

commonwealth? "What is needed is not a lot of senti-ment, etc." Exactly. And no advo-cate of the Party's Alliance policy has ever claimed that it is. On the con-trary, the Alliance builds on the solid ioundation of the class struggle moored thereto by the recognition of the MA-TERIAL CLASS INTERESTS of the WORKING CLASS. The Alliance points out the folly of relying on hasty or ill-considered strikes or ethical considerations or weak and passing sentimentalism. It points the wage-slave unerringly to his material class interests and the way to win them. How many have AS YET actually entered the S. L. P. by way of the S. T. & L. A. is really not material or pertinent to the issue. However I know of some who have been moved through consider-ation of the Party's Alliance policy to give the Party their adhesion and support.

Comrade Caulfield says, "Urge upon the wage-workers the necessity of educa-tion on Socialist lines, and the vital nec-essity of voting for it." Amend to read, "Urge upon the wage-workers the neces-sity of education" AND ORGANIZA-TION "along Sosialist" AND WORK-ING CLASS "lines and the vital neces-sity of voting for it" AND STANDING BEHIND THAT VOTE AS WAGE-WORKERS CONSCIOUS OF MUTTIN Again Comrade Caulfield observes: "In view of recent decisions by the Courts, etc., what folly to spend time in organizing something which the Courts can render impotent whenever the capitalist class so pleases." **WORKERS CONSCIOUS OF THEIR** Here is a parallel: In view of the

recent outrages committed upon some of our comrades by capitalist Courts; as in the cases of Frank D. Lyon .n ance as the economic ally of the Party is peculiarly fitted to aid in achieving. Texas and Karl Pinson in South Caro-lina and numerous others for endeavoring Comrade Caulfield says he cannot make out how the S. T. & L. A. can overthrow to exercise their POLITICAL RIGHTS as citizens, what folly to waste time and the pure and simple organizations, and asks, "What organizations has it overchergy in trying to build up a POLITI. ORGANIZATION which the capitalist Courts can render impotent whenthe overthrow ever their capitalist masters order them to by imprisoning our agitators and make out how the S. L. P. can do this. speakers! Why not drop both the Party and the

Where is the capitalist political party it Alliance and try to organize something that the capitalist Courts will not wish Again Comrade Caulfield says, "If we compare the progress of the pure and or need to disturb?

If we wish to have an organization with that of the S. T. & L. A. in the last few years I think no one will deny that while the old organi-gation has been defeated many times, it economic or political or both that shall have easy sailing, that will never come into collision with capitalist Courts we has still held its own as well, if not better than the S. T. & L. A." To which I might as well join Mark Hanna's Civic Federation as an economic, or the Popuanswer: If we compare the progress of lists or Kangaroos as a political organi-ration. A bona fide Socialist organiza-tion MUST COLLIDE with capitalist the Democratic party with that of the S. L. P. in the last few years I think no one will deny that while the old Democratic party has been defeated many times, it has sfill held its own as Courts. When a Socialist organization reaches the stage of peace and good will with capitalist Courts it ceases to be vell, if not better than the S. L. P. Comrade Caulfield asks, "What is the bona fide Socialist.

War, Comrade Caulfield, uncompromisof wasting valuable. time reciting. ing war, is the word on BOTH the economic and political field against the enpitalist class and ALL its defenders intil that class shall be overthrown by the advancing hosts of militant, conscious proletarians and on the ruins of fallen capitalism the Socialist Repub working class traitors AND PROPS AND SUPPORTERS of the capitalist lic is erected. JAMES H. ARNOLD.

Louisville, Ky.

roused righteous indignation may knock these props from under. This time is NOT "wasted." It has been said, "No XX. Question I.-Conflict is the price of rogress: While it is true that the concentration of capital is rapidly going on, trustification has not as yet reached that stage wherein the trust predomin ood general or veteran in the ranks of ates. The law of capitalism being the the S. L. P. ever leaves a camp or fort progressive concentration of capital of capitalism mauned by labor-fakirs in the one hand, and the law of wages, being governed by competition between the workers on the other hand, and as son for dropping the S. T. & L. A. that "the old idea is still too strongly en-trenched in the minds of the average the condition of the working class be comes more and more unbearable, the working class are bound to resist upon the economic field whether they are or-

ou

nd jest

will certainly rebel against the tyranny of the capitalist class, even though they are doomed to defeat. It will then be an intelligent revolt or a blind revolt. It all necessarily depends upon the education and development of the proletariat That the To desert the ecconomic field at this stage of development, and leave the workers in the slimy hands of the labor lieutenants of the capitalist class, would not only be rank treason, it would be moral cowardice. In order to educate the working class it is absolutely neces sary to have an economic organization will work in harmony that with the S. L. P. and which carrying on the educational work of the S. L. P. prepares the minds of the workers for the Socialist Revolution.

It is very evident that the capitalist class do not as yet hold that it is utterly useless for the working class to engage in battle with them upon the economic field (notwithstanding all that Comrede Caulfield may say to the contrary). The capitalists (as manifested in their recent conference, held in New York where the National Civic Federation was launched), are going to pay very particular attention to the economic field, in the future. They are going to try and hold the working clas s in subjection, and they will have aiding them the so-called economic or canizations of the working class, the purand simple unious, which are controlled by such "labor fakirs" as Gompers Tobin, Eaton, Mitchell, Perkins, Lynch, et al.

The Boot and Shoe Workers' Unior has shown by its acts, by its trenchery to the working class, and by its desire to give aid to the capitalist class in their endeavor to browbeat the workers, that much can be done through an economic organization which will prove of invaluable aid, either to the working class, or to their oppressors, the capitalist class. Tobin and Eaton, as crafty and cunning a pair of "labor skates" as ever came down the pike, are demonstrating to the capitalist class what a great help to the capitalists it would be if they took hold of all economic organizations through the "labor fakirs," and, by controlling them with an iron haud, keep them in total durkness and ignorance of the class struggle. They hope by doing so to side-track the Socialist Trade & Labor Alliance whose purpose it is to point out to the workers that they must become class-conscious and throw over board all the Judases and Careys who are finding the economic movement such

rich field for grafters. Can any one deny the fact that our political couditions are nothing more or less than a reflex of our economic con ditions, and that the political parties are corrupt and instruments of capitalism simply because the economic organiza tions are also corrupt and instruments of capitalism? And until we clarify and rid the economic movement of the "labor fakirs" and make the workers class-con cious upon the economic field, we can never hope to have a clear and class conscious political movement. It would impossible to have it otherwise. Our efforts on the political field would be null and void if we allowed the "labor lieutenants" of the capitalist class to array he workers against us, and make of

them a hostile army. John F. Tobin, President of the Boo and Shoe Workers' Union, recently said that all unions (read pure and simple), in the near future would adopt the princi ples and tactics of the B. & S. W. D is a notorious fact that the principles and tactics of Tobin's union consist in naking contracts between the fakirs and capitalists, forbidding the dupes of the organization from going out on strike, no matter what the cause may be (and the friends of the "fakirs" the Social Democrats have the impudence to say that such acts are "a noble waging of the class struggle!) The workers may have their already scanty wages reduced below the living point; they may receive all the blows, endure all the indignities, that their heartless capitalist masters may wish to heap upon them; and they are obliged to endure it all without so much as a murmur in protest-such are the principles of the Tobin unions. Owing to being misled for so many years by the "fakirs" of "organized stabbery," shoeworkers have had all fight the knocked out of them (all the revolutionary feeling if you please), so that to-day you find them a very docile and submissive lot of dispirited wage-slaves. And now they are in such a low condi-

position to them. We propose to replace the corrupt and decaying pure and simple union by putting the Socialist Trade & Labor Alliance in the field and clarify the atmosphere of pure and simpledom, that the working class may have made plain to them what was heretofore impossible to realize, that they must study the social question if they wish or hope to emancipate themselves from wage slavery. And the S. T. & L. A., true to its mission is imparting this education to the working class. Until we have gradicated the fakirs from the economic field. ve cannot make any great impression upon the working class. The whole of this labor movement and not a part of t must come under the direct control of the Socialist Labor Party, if we mean to bring together the whole working class into that army of emancipation which we need to accomplish our pur-pose. If by some great strike taking and the workers turned in the alace lirection of the ballot box, if the S. T. SPONTANEOUS, HONEST, WELL-NTENDED MOVEMENT.

Question II.-It is a well known fact that the attitude of the S. L. P. towards the pure and simple union, so far as it oes, is one of bitter hostility.

Question III.-The attitude of the S. L. P. towards the pure and simple unions should continue to be one of bitter hostility. Not only should we forbid our membership from becoming officers of a pure and simple union, but we should forbid them to even become members of such an organization. By retaining membership in a pure and simple union light that I read in last Saturday's s equivelent to continuing under the thumb of the labor licutenants of capital sm.

Question IV .- Certainly the S. L. P. needs the S: T. & L. A. to expose and overthrow the pure and simple union. We must have some place for them to go to when we have succeeded in wresting them out of the hands of the "fakirs. We cannot take them into the S. L. P. until they have mastered the fundamen-tal doctions of the Party. The only place that they can go to and where we will not lose sight of them is to the S. T. & L. A.

Like Comrade Caulfield I have met clerks who belong to pure and simple unions who know nothing at all about their organization. I would say that if the clerks or any other body of working-men knew what kind of an organization their pure and simple union was, they would not tolerate it one moment.

Comrade Bresnahan of Boston, Dro fesses to believe that it is useless for us to attack the "labor fakirs," and that we should leave them alone. He also boasted in a pure and simple fashion of the large numbers of dupes and the large amount of money that the fakirs had. These "fakirs" will look after the treas tries, so we need not fret over that. If the fakirs of other unions do the same as Maguire of the Carpenters and Joiners of America, of which organization Comrado Bresnahan is a member, there will not be much money in the treasuries of the pure and simple unions. I can-not see how a man can be a pure and simpler and be a thorough Socialist.

Question V.-Comrade Caulfield wishes to know if the connection of the S. L. P. with the S. T. & L. A. strengthens the Socialist Movement in this country. He wishes to be given facts and not predic Can anyone with common sense tions. deny the fact that the S. T. & L. A. policy of the S. L. P. has been instrumental in clarifying the Socialist Move ment? It seems to me that Comrade Caulfield measures the growth of the Sociaalist Movement by the vote it may receive upon election day. It it not brute force that is going to make our movement strong and effective. It is in the soundness of our principles where our strength will always be. Look back to the years previous to the

advent of the S. T. & L. А. Contrast the movement as it existed then and as it exists to-day. Which is the clearer? Why, thanks to the S. T. & L. A. we have a clearer anad sounder movement than we have ever had before. S. T. & L. A. has been instrumental in ridding the Socialist Movement of undesirable grafters, such as the Kangaroos "lab

scientific organization in the field in op- day) nearly an entire week will be given er to celebrating the appointment. On Saturday night a monster parade will take place of all the various military and civic organizations, which will meet the Secretary, who by the way, says, or is credited with saying that he can "hardly tell the bow from the stern of

a man-of-war." On Wednesday evening there will be a reception to the to-be Secretary. To-night's "Gazette" prints the list of names as arranged at a meeting held last night in City Hall. Among the list, which is the reception committee, for Wednesday evening are the following "Noble

wagers of the class struggle": James F. Carey, of armory-building notoriety : Parkman B. Flanders, the last "Kaugaroo" candidate for Mayor of Haverhill who ran as "socialist," Louis M. Scates, who was once Carey's colleague in the legislature. 'How many of the lesser lights are on the committee God alone knows, I don't. But here are three of the leaders of the Kangaroo Social right, THEY WOULD NATURALLY the appointment of Moody the Republi-ELECT THE "LABOR FAKIRS" TO can appointee of the Republican "Spiked-OFFICE WHO HAPPENED TO BE Club" Roosevelt. Who can say now in MISLEADING THEM, AND BY SO the face of this, and the other indesput-THE PURPOSE OF THEIR OWN tion of crooked crooks are not "Nobly waging the class struggle?" I send the "Gazette," containing the re-Haverhill port, with this letter, so it any "doubt-ing Thomases," or angry Kangs deny the statement herein made, the proof is on file of one more of the celebrated "DAILY PEOPLE Lies."

MICHAEL T. BERRY. Haverhill, Mass., March 15.

As to Agitation.

To the DAILY and WEEKLY PEOPLE .- Comrades: It was with de-DAILY PEOPLE Comrade Arnold's appeal in behalf of the WEEKLY PEO-PLE. It is to be hoped that by this

time more than this one comrade of all the members of the Party have taken into consideration the canvassing for our WEEKLY. I beg to differ with Comrade Arnold

as to the plan to be pursued. No doubt, his plan would be valuable in getting readers; but it would not be the most valuable. He says that since December 22nd he has obtained 24 readers. I, on the plan published some time in January, in six week's time, got 95. Some of these dropped off, but at the end of the six weeks I was ordering 75 copies, the number increasing from week to week. His plan limits the number of readers to be obtained and served by any one comrade. The plan I follow does not limit the number to be obtained, and leaves the distribution in the hands of several comrades, who can relieve each other or take one another's place in case of sickness, etc. His plan also has other defects. I think, enough has been pointed out to show the superiority of my plan over the other.

Comrades, if you have the good of the Party at heart, you will not fail to consider both plans and choose the one you think best. Below you will find my address. Should any comrade wish to ask questions regarding the plan I pur-sued, I shall be glad to answer them. I hope the comrades will arouse themselves to the importance of thi work. F. KOCHENDORFER. this 33 So. Pearl st., Albany, N. Y.

C. Z., PEEKSKILL, N. Y.-Don't forget to send a picture of that Kangaroo Social Democratic wall. Papers came in due time.

H. S. A., LINCOLN, NEB.—1st:-Such an article in the Philadelphia "North American" is easily accounted for. Such papers regularly get up such articles. They Send on the matter.

are used as bait. 2nd: Send on the matter. "SUBSCRIBER," UTICA, N. Y.—To an-swer the question, whether compulsory arbi-tration is feasible as a means to settle in-dustrial disputes in the United States, you should go back to first principles. What is the source of industrial dis-putes? This: Competition among the capitalists (and there is competition even after the Trust stage is reached) compels them to try and undersell each other. In order to aid them in underselling they must produce more cheaply. To produce more cheaply they must reduce their pay-roll. Improved machinery does that: fewer men are needed and they can pro-duce so much more. The displacement of Labor increases the supply of Labor in the Labor market. That reduces the price of Labor. There you have your dispute: The capitalist wants cheaper, the worker denter labor. There is nothing to arbi-trate. A decision in favor of the workers is out of question, and if rendered it coold not be enforced: the capitalists own the government. To enforce such a decision the workers would have to own the Gov-ernment. Do you imagine if they did they would be satisfied with the pairy demand that was arbitrated in their favor? Surely not. They would make and enforce a more sweeping demand: they would ablish cap-italism. Arbitration, on that line, would be stily. Now take the other line. Say the arbi-

be silly. Now take the other line. Say the arbi-tral decision is in favor of the capitalists. It certainly could be enforced. If they have not not now, they can easily get up new laws that will bring within the crimi-nal code whatever worker refuses to sub-mit. The so-called Trainp laws are steps in that direction. But to call TflAT arbi-tration is like calling the killing of a "heathen" by a "Christian" soldier a "con-version."

version." Now, what say you, is "compulsory arbi-tration" feasible as a means of settling industrial disputes"?

THE COMMITTEE ON CONCILIATION.

Senator Hanna Names the Men Who Will "Settle" Labor Disputes. Ralph M. Easley, secretary of the Na-tional Civic Federation, to-day an-nounced that Senator Hanna had aprointed the committee on conciliation for the settlement of labor controversies. This committee will serve as an arbitration committee of the industrial bureau of the Civic Federation, organized recently through the efforts of Senator Hanna. represents the larger committee of thirty-six men, made up of twelve repre sentatives of labor, twelve of capital and

twelve independent men. The men who are to serve on this committee, are Senator Hanna, Archbishop Ireland, Bishop Potter, Samuel Gom-pers, Oscar S. Straus, Charles A. Moore, Ralph M. Ensley, Franklin MacVeagh, John Mitchell, Frank P. Sargeaut, James Duncan, J. Kruttschnitt, Marcus M. Marks and William Pfahler. The committee, under the by-laws of the organization, was to consist of the executive committee and nine others. Senator Hanna will be chairman and Mr. Easley will be the secretary. The committee succeeded last week in bringing the Boston strike, which threatened to tie up many of the cities in the New England states, to a speedy termination by causing the men to lose and the com-

panies to win. MORE WORKERS, LESS WAGES.

Establishments Decreased, Profits Increased in Shoe Trade, Washington, March 21 .- The Census

Bureau has made public a preliminary report regarding the manufacture of boots and shoes, factory product, in the United States, according to the official returns of the 12th Census:

There were 1,600 establishments with au invested capital of \$101,795,233 in operation in 1990, as compared with 2.082 establishments with a capital of \$95.282.311, a decrease in the number of establishments of 482, or 23.2 per cent, but an increase in invested capital, how ever, of \$6,512,922, or 6.8 per cent. The average number of wage-earners employed in the indlustry in 1900 was 144, 922, as compared with 133,690 in 1890, an increase of 6.9 per cent, while the total wages paid decreased from \$60,-667, 145 in 1890, to \$59,175.888 in 1900,

other reward." ARCHIE SCOTT.

Malden, Mass.

XIX. the DAILY and WEEKLY To To To the DAILY and WEEKLY PEOPLE -- I am convaritively a new member both of the Party and the Alli-anceance, having cut loose from the Kan-geroe-Secial Democratic aggregation a little more than one year ago. However, hoping what I have to say

may interest some of the older party members and contribute somewhat to illuminate the subject I offer the follow-

1st .- The economic organization of the where working class during the growth, development and transition of the capitailist system IS necessary. Why? (1.) That the wage-working class with such weapons as it is armed with may event the most effective resistance in their power against their power against their exploiters on effective resistance or successful against their exploiters will be making

as much greater than the sporadic strugof individuals as the combined powe are of individuals as the combined power of the collective body exceeds that of the isolated and nuorganized individuals. And, though in these collisions on the economic field between the wage-slaves, on the one side, and their capitalist mas-ters, on the other, the wage slaves may ge down in defeat, the weight of the blow can better be borne when distrib-

over the entire membership than when it falls on the individual alone. (2.) These economic struggles of the workers in mill, mire, shop, field and

for the improvement of their or against the further degradation of it awaken and clarify in the minds of the workers the sense of solid-arity more quickly and effectively than

ere political agitation can do. To advance the Socialist Move-

the exploited class from whose he recruits are to be gained must be by this form of organization." The Party de to SEE AND FEEL the antagon- has gained a clearer understanding of

L. P. as a political organiza-tion, the fact that, "the idea is still too tal with capital, but do not lose sight of the fact that a Socialist cannot live any longer upon his class consciousness than strongly entrenched in the minds of the average working man, . that all he do a pure and simpler can upon his empty sires can be secured through one or the other of the old political parties "to treasury. If the working class are properly or-

ganized upon the economic field, organ-ized upon the sound principles of the have it knocked out except by bitter ex-But the comrade has told us in his Socialist Trade and Labor Alliance, I firmly believe that the workers can win No. 3 that "we are prone to exaggerate their (the unions') influence. Many of

in a struggle with the trust, for the foltheir members simply pay due and seldom attend meetings." dnes owing reasons: The workers have been successful in strikes in the past owing to the keen

Then "many of their members" are not "average unionists" and the S. T. & I. A. might reach THEM without waitcompetition between the cock-roach conerns of the middle class, who, could ing for "bitter experience to knock any old ideas out of their heads." pot afford to have a strike take place against them, as they would have the factories closed down, and their competi-

5.—The connection of the S. L. P. with the S. T. & L. A. strengthens the Sotors would reap the harvest by taking their trade from them. But competition cialist movement: (1) By clearing the movement of ethibetween the middle class has passed and

ompetition between the powerful trusts cal myths and sentimental fogs that tended so much in past years to obscure the real issue.

is beginning to take its place. News has been received from Canada to the effect that capitalists of that coun-(2) By drawing sharp and clear the try are organizing a steel trust to com-pete against the American Steel Trust. Now does that mean something or does lines of economic and political cleavage between the exploiters and the exploited, between the fleecers and the fleeced, between the robbers and the robbed. (3) By placing TWO weapons in the mean nothing? Indeed it means much. It means that the capitalists of Canada see a good chance to get at the American Steel Trust. The American concern is shipping all its product to foreign counhands of militant Socialists with which to fight their daily and annual battles instead of only ONE, that is the economic and the political, each to reinforce and support the other. ries and cannot supply the home market with the result that foreign concerns

(4) By the fearless and unfinching atare importing steel into the United States. The Canadian capitalists reatitude of the Party in never withholding lize that in order to be successful they must have an equally strong if not a blow at error lest it make an enemy or compromising the truth to gain a friend as is illustrated in its alliance stronger trust than the American capipolicy has won for the S. L. P. the re talists have if they are to combat and fight for the markets of the world. Compolicy has won for the S. L. P. the re-spect of its enemies, the love of its members, and must yet win the adhesion and support of those whose adhesion and support are worth having. Again the comrade demands to know "where the Party has gained anything works form of comparations" The Party petition will not become a thing of the past so long as the capitalist system lasts, but will continue to be more and

more bitter between the powerful trusts as the field of operation will be so much extended

Photo State and the second state of the second

tion that they allow themselves to be shackled by such a crook as Tobin, who appoints some sucker, some tool of his, to collect the dues of his dupes, and receives five per cent. on all the dues he succeeds in wringing from the shoeworkers.

No, indeed, we cannot consistently dis regard the economic field, and allow the Tobins, Gompers's, Mitchells, Perkins's, et al to continue to live upon the dues hey have wrung from the working class by their infamous check-off system, and other schemes that the ingenious labor lakirs may propose to put into operation that they may not lose their hold upon the wage workers. And the only pos way that we can put the pure and simple union out of business is by organizing a bona fide trade union, the Socialist Trade & Labor Alliance, and give battle to the labor fakirs and dispute their possession of the economic field, wrest from their control the rank and file of thos unions, and organizing them upon the

principles of the S. T. & L. A., teach them that their only salvation is through the ballot box, which must be by loyally supporting the party of their class, the Socialist Labor Party. As the S. T. & L. A. is to take the place of the agencies of capitalism upon

the economic field (the pure and simple unions), so likewise is the S. L. P. going to supplant the agencies of capitalism upon the political field, the Republican

and Democratic parties. The S. L. P. will never be able to control the economic movement unless it does so through the medium of the S. T. & L. A. We will otherwise never succeed in getting a majority of the working class into the

S. L. P. simply because they will not otherwise be able to grasp the full mean ing of the word Socialism.

We Socialists are not Anarchists. We Socialists are not destructionists. We Socialists do not propose to tear down have a better one a structure unless we have a better one to replace it with. We do not propose to destroy the pure and simple union and

As I said before, the working class not replace it with a sounder and more

I repeat that our strength will ever be

in' the soundness of our principles and not in mere numbers. By all means, Comrade Caulfield, let us have facts, and plenty of them, and not predictions. FRANCIS A. WALSH.

Lynn, Mass., March 13.

[Appendage to Letter XII.] In the issue of the WEEKLY PEO-PLE of March 8th, there occurs an error on Page 5, where as one of the De-baters on the S. T. & L. A. question, I am made to use the word member twice, in the last sentence of Debate XII. Upon examination of the article in question, it will be seen that the word I use twice, is NUMBERS, not members.

LOUIS RALLHAUS, 38 Farley avenue, Toronio, Canada, March 10.

[Appendage to Letter XVI.] Complying with your request, we here-with submit the names of members of Section Salem, S. L. P. whose sentiment on the Alliance debate appeared in DAILY PEOPLE of 10th instant:

Peter H. Grady, James E. Hayes, Joseph Morin, Norman A. Torey, John J. Eustace, Thomas F. Brenan, John F. Box. Thomas H. Condon, John White. None against.

The-local capitalists are falling all over themselves to, honor the successor of Long when he returns home. Beginning with to-night (SaturBleeding the Workers.

St. Paul, March 20.-An important date in the history of St. Paul will be Thursday, May 29, 1902. On that date one of the schemes of the Collseum Committee for increasing the Collseum fund will be put to a practical test, and if it works, as it no doubt will, the fund will be enriched by thousands of dollars. On that date every union laboring man in St. Paul will give the price of his day's labor to the Coliseun fund.

Some weeks ago committees of the Trades and Labor Assembly of the city met the general committee of the Coliseum enterprise and discussed plans whereby the workingmen of the city could advance the interests of the project. From the begin-ning of the Coliseum agitation the labor fakirs have been seeking notoriety in con-nection with it, and it is now apparent that they are going to work the rank and file in aid of a project of no benefit to them. It is not a wild guess to say that if citizens of the city who are not members of the labor unions should do as much, there would be no need for the Coliseum Committees to pay any more attention to the insucial end of the business. They would only need to let the contracts for the building and write checks in payment for the work as it was finished.

RESULT OF THE GENERAL VOTE

e

On the Question of Abolishing the Board of Trustee Form of Organization for the Administration of the Party Press and Placing the Control of the same directly under the National Executive Committee.

										1 9			<u></u>						ary agency.) Notice.—For technical reasons, no Party nouncements can go in that are not in	rade Green chairman. Communications—The following letter	would appeal. Action-On motion the whole matter

GENERAL EXECUTIVE BOARD, S. T. & L. A.

The regular meeting of the General Executive Board was held on February 13th with the following members present: Frizzelle, Green, Crimmins and Brower. Com-rade Green chairman.

L. A. 345 in expelling him for joining the Socialist Party. One, from John Sandgren, secretary of L. A. 345, stating that said local had ex-pelled J. H. Bearns for treasonable con-duct to the S. T. & L. A.; also enclosing copy of the charges, report of the Griev-ance Committee and a summary of the argument of the prosecution, as the defend-ant had given notice to the local that he would appeal. Action-On motion the whole matter
