AN APPEAL

From the National Executive Committee of the D. L. P., Canada.

To the readers of the DAILY PEOPLE.

We submit the following for your serious consideration.

During the past few months, as the needs of the people in Ontario have become more acute, everyone has had to face up to the task of finding ways and means to provide for their own survival. The workers in the factories and mills, the farmers in the fields, the fishermen in their boats, all have had to struggle to make ends meet.

The situation is critical, and it is not too late to take action to help those in need. The D. L. P. is committed to working towards a better future for all Ontarians, and we urge you to support our efforts.

Sincerely,

THE MINERS’ STRIKE.

A Raid Capitalist Class Domination in This Class Struggle.

The strike has commenced — a comprehensive class war at Battleford indicated a great crisis in the class struggle. It is a strike for wages in favor of workers, as a natural consequence of the capitalist system. The strike is a blow at the capitalist system, and a period is likely to be speedy in the development of the class war.

The workers are determined to win, and their determination is based on the fact that the capitalist system is fundamentally unsound. The workers are determined to break away from the capitalist system and to build a society based on cooperation and solidarity.

The strike is a call to the workers of the world to unite and build a new society. The workers are determined to win, and their determination is based on the fact that the capitalist system is fundamentally unsound.
