A SOCIALIST INVENTOR.

E. L. P. MEMBER EXPRESSES HIS INTENTIONS TO REVOLUTONIZE PRINTING.

The building a machine that will revolutionize the letterpress industry is a bold departure from the usual field of endeavor of an E. L. P. member. Mr. Howard, of Kansas City, Mo., is now in the process of constructing such a machine.

Mr. Howard says he has spent several years in the study of typography, and has been working on the problem of inventing a machine that will revolutionize the printing industry.

The machine Mr. Howard is working on is a printing press that will print on both sides of the paper at the same time. This will be a great improvement over the present method of printing, which involves a great deal of manual labor.

Mr. Howard hopes to have the machine completed within the next few months, and to go into business with it as soon as possible.

SWEDEN'S GENERAL STRIKE

Leaders Apologize for Bad Results - Capitalizes Profit There

Special to The Daily People

The leaders of the workers in Sweden have apologized for the bad results of the general strike there, which started on January 31. The strike was called in an attempt to force the government to grant more wages and better working conditions to the workers. However, the strike failed to achieve its objectives.

Despite the failure of the strike, the leaders of the workers have apologized for the bad results. They admitted that the strike was not well planned and that it was not supported by the workers. They also apologized for the violence that occurred during the strike.

The leaders of the workers have stated that they will continue to fight for the rights of the workers, but they have acknowledged that the strike was a failure. They have also stated that they will work with the government to improve the working conditions of the workers.

The strike has been a setback for the workers in Sweden, but they have not given up. They will continue to fight for their rights and will not let the failure of the strike discourage them.
CAPITALISM AND SOCIALISM IN CANADA

In order to deal with this subject in as straightforward a manner as possible, we shall confine ourselves to a few general remarks. The purpose of this discussion is to show that the system of capitalism is not based on a superior economic system, but rather on a superior political system. The system of socialism is based on a superior social system, which is superior to the political system of capitalism.

CAPITALIST EPOCH

Where it Differs from the Historical Periods Which Preceded It.

When we speak of the epoch of capitalism, we mean that period of history when the system of capitalism was dominant over all other systems. This period began around 1750 and lasted until 1870. During this period, the system of capitalism was dominant over all other systems.
