**A Grand Work**

A grand display of energy has been shown by the readers of The Weekly People, in getting Parliamentaria for The Monthly People, the new publication of the Socialists Labor of the United States. All agree that it is easy to get readers at the low price of Two Cents per year.

Several readers of The Weekly People, who live in isolated places, have written, that The Monthly People will fill a long-time need, as they hope through its pages to number of Socialists in their localities.

One man writes that the party in his town is being clouded down, he found it difficult to get readers for The Weekly People. It is a good plan to start as many readers as possible with the first number. We will print several thousand additional copies of the October issue, so that in sending in later, on October 15, you can count on readers getting the first number.

Those who haven't sent in a list should start out at once to gather names. Those who have already sent will not be sure for more. An intelligent intelligent journal is growing up, and a mass social change with us. To the work, everybody!
