FORESEES DISASTER

YERKS SAYS TRUSTS ARE WORKING FOR NATIONAL CALAMITY.

However, President Yerks decries the trend of the system for the benefit of the few, stating that the trusts and monopolies are working for national calamity. He advocates the breakup of these trusts and the promotion of small independent businesses that can compete fairly with the large corporations.

The article concludes with a call to action, urging readers to support the movement against monopolies and trusts, emphasizing the need for a greater degree of competition in the marketplace to ensure the well-being of the nation as a whole.
The Difference

Six weeks for the destruction of the trade union with a vote similar to that which it attack; on; no such need was there, even if the movement were to go into the economic field to form a united stand and work upon the existing evils.

We rejoice in the fact that we are not a separate organization, but a part of the Central Labor Union. It is written in our constitution, and this is the principle which guides us.

SOCIALISM AND CAPITALISM IN CANADA REVIEWED

The Socialist Labor Party's Places in Dominion History Reflected in Chap- tures and Biographies of Its Leaders and Capita/ Considered by the light of the Past.

Usually, at each period as the end of one is reached, the fingers have transmuted the past event into a Garden of Eden, where the leaves are all turned to gold, and where the flowers bring forth a golden seed. In such a Garden of Eden, everything is perfect, and the past event is nothing but a beautiful picture. To recall the events that may be recalled, it is well to remind ourselves that the Socialists have made a great movement in Canada. But, before doing so, it would be well to be informed as to what is the Socialists' fundamental principle, and whether it is a principle that is to be considered as a basis for society or not.

In the case of the Socialists, the basic principle is the belief that the earth and all its riches belong to the people, and that the people have the right to use them for their own benefit. This principle is based on the idea that the rich and powerful should not have the right to control the government, and that the people should be the rulers of society. The Socialists also believe in the principle of free trade, and that the people should have the right to buy and sell goods without restriction. This principle is based on the idea that the people should have the right to control the means of production, and that the government should not interfere with the free market. The Socialists believe that the government should not interfere with the freedom of the people, and that the people should be free to do as they please. This principle is based on the idea that the people should have the right to control the government, and that the people should be the rulers of society.

The Socialists, therefore, believe in the principle that the earth and all its riches belong to the people, and that the people have the right to use them for their own benefit.
