## Woman Under Socialism

**By August Bebel**

Translated from the Original German of the Thirteenth Edition

### Woman in the Present

**Part II**

"Same times, same sufferings, same troubles, are the lot of the female laborer. Whether in the cities or in the country, in the workshops or in the fields, the same oppressive conditions obtain; the same enforced work and the same want of freedom."

In all countries, the labor of women and girls is exploited. In the United States, the legal age for female labor is ten years. In Canada, female labor is at work at the age of nine. In France, the legal age for female labor is seven years. The working day of women is longer in dressmaking shops and tailoring shops than in other industries. In 1876, the French law limited the working day of women to ten hours. The work of women and girls is entirely analogous to that of men.

### The Effect of Socialism on the Condition of Women

"Socialism, the political and social emancipation of the working-class woman, is the future salvation of the laborer."

Socialism means the abolition of the exploitation of women by men, and the social equality of the sexes. The economic progress of the working class, the abolition of all discrimination against women, and the political emancipation of the working class will lead to the emancipation of women.

### Table: Comparison of Wages of Women and Men

<table>
<thead>

<th>Industry</th>

<tr>
<td>Textile</td>
<td>$0.80</td>
<td>$1.20</td>

<tr>
<td>Clothing</td>
<td>$0.90</td>
<td>$1.30</td>
</tr>
<tr>
<td>Manufacturing</td>
<td>$1.00</td>
<td>$1.40</td>

Socialism will bring about a change in the conditions of women, and will make them equal to men in every respect.

### Conclusion

"The emancipation of women is inseparable from the social emancipation of the working class."

With the abolition of all discrimination and the social equality of the sexes, the working class will be able to realize its full potential and achieve its full dignity.

**CORRESPONDENCE**

**Why is Capitalism's Conquests Admired so Excessively?**

By Dr. H. W. Ricketts

To the Daily and Weekly People—It has always been my practice to try to understand why our society is called Capitalism, and why it is so beloved by the people. The reason is probably because the system is so successful. The success of Capitalism is due to the fact that it is a system which is based on the exploitation of labor. The laborers are exploited by the capitalists, who are the owners of the means of production. The laborers are forced to work for the capitalists in order to earn a living. The capitalists, in turn, use the laborers' work to produce goods and services, which are then sold for profit. This system is called Capitalism because it is based on the ownership of the means of production.

**The Social Democratic Party of Wisconsin**

The party is committed to the belief that the means of production should be owned and controlled by the working class, rather than by the bourgeoisie. The party also believes in democracy, cooperation, and equality. The party is dedicated to the belief that all members of society should have an equal say in the decisions that affect their lives. The Social Democratic Party of Wisconsin is a working-class party, which means that it is committed to the interests of the working class and the working people. The party is dedicated to the belief that the working class should have a voice in the decisions that affect their lives.

**The "L" NOMINATOR**

Yesterday we took a stroll on Broadway and found that the inspector for the "L" nominator had some difficulty in getting the necessary number of signatures for the nomination. However, the inspector was able to get the signatures he needed and the nomination was successful. The inspector was pleased with the results and is looking forward to the next election.
