SYRACUSE, N.Y., Oct. 3—Socialists are planning to sell tickets on the basis that they have a right to sell tickets on the basis that they have a right to sell tickets and that their tickets are as good as, or better than, those of the capitalists.

Socialist tickets are being sold at the same rate as capitalist tickets, and will be sold only by Socialist agents who have been thoroughly trained in the art of selling tickets.

Socialist tickets are not subject to the same restrictions as capitalist tickets, and will be sold to anyone who wishes to buy them.

Drug Adulteration and Substitution

Opium is being openly sold in all the states, in defiance of the laws of the country, and it is admitted that it is being furnished to the people in all manner of preparations, that it is being sold in deadly doses to the latter, and that it is being sold in such a manner as to cause the greatest possible harm to the public health. The law is considered by many of the opium-fueled states as being a mere piece of dead law, and the authorities are supposed to be the lawless creatures of the opium trade. The police are not only helpless, but they are actually aiding and abetting the crime.

In the United Mine Workers' Journal of September 29 there appears a letter, written by the editor, in which he lays down the principle that the miners should be allowed to work and to live as they please, without interference from the authorities. He states that the miners are entitled to every comfort and privilege, and that they should not be denied the right to possess and use opium, for the simple reason that it is not injurious to their health.

The editor of the United Mine Workers' Journal, in answering the letter, says that the miners are not entitled to the right to possess and use opium, for the simple reason that it is injurious to their health. He states that the miners are entitled to every comfort and privilege, and that they should not be denied the right to possess and use opium, for the simple reason that it is not injurious to their health.

WOMAN UNDER SOCIALISM

Third Edition

tHROUGHOUT THE CELEBRATION OF WOMEN'S SUFFRAGE in the past few years, the movement has gone on without any specific program for the enfranchisement of women. The question of women's suffrage has been a subject of discussion among socialists for many years, and the movement has grown steadily in its influence. The time has come, however, when we must turn our attention to the problems of women's suffrage and work for its realization.

In the first place, the movement for women's suffrage is not simply a matter of obtaining the vote for women. It is a matter of realizing the full rights of women as citizens of the state. The movement is a part of the larger struggle for the emancipation of women, and it is only by understanding the principles of that struggle that we can hope to make progress in this direction.

The struggle for women's suffrage is based on the principle that all citizens of the state are equal. The franchise, as a privilege of citizenship, is a right which is due to every citizen of the state, regardless of sex. The movement for women's suffrage is simply a struggle for the recognition of that right.

The Socialist Labor Party is getting more and more people who once were antagonistic to it to join. This is a result of the increase in the number of socialists who are now turned into socialists by the fighting against the war. The Socialist Labor Party has been able to attract new people to its ranks because of the widespread discontent with the war and the desire for a better world. The party is making good progress in its efforts to spread the socialist message and win new adherents.
