DEBATE IN ERIE

The Woodworking Industry

The attitude of the S. L. P. as to the "nobility of the class struggle" is a more or less well-known fact, although it is by no means generally appreciated. The working class, it is true, is fighting a battle for existence, but the attitude of the S. L. P. is as follows: The fight is for the sake of the workers, and the workers are not to be reproached with being engaged in the fight. The S. L. P. is simply looking after the workers, and is not concerned with any other class.

HOLDS STATE CONFERENCE AND CONVENTION, ATTENDS TO INTERNAL AFFAIRS AND NOMINATES TICKET

Platform, Resolutions on Trades Unions, Government Ownership, and Daily and Weekly People, Together With Challenge to Workers to Address to Vote. Adopted Amid Renewed Ardor, Zeal and Enthusiasm For Revolutionary Socialism

WHO IS WHO?

The ticket was announced by the Democratic State Committee last Sunday at a meeting of the party leaders in Boston. The committee was authorized to issue the ticket for the November 13th election.

The Socialist Labor Party, under the leadership of Charles DeGroot, is the only political party in the United States that is actively engaged in the revolutionary movement. It is opposed to the present capitalist system of society, asserting that it is the cause of all the social and economic ills of mankind.

The party advocates the socialization of the means of production and distribution, the abolition of private property, and the establishment of a classless society. It is also opposed to the existing political system, which it regards as a means of perpetuating the interests of the capitalist class.

The Socialist Labor Party is one of the most active and influential organizations in the United States, and its influence is growing steadily.

On nominations, the convention was divided on the question of whether to adopt the ticket. The convention was adjourned until Monday, when a further vote will be taken.

The convention was attended by a large number of delegates and supporters, who showed their enthusiasm for the revolutionary cause.

PART II.

WOMAN IN THE PRESENT—Continued.

Generally a large portion of our municipalities are arriving at a deep despair; they hardly know how to meet the increasing demands for better living conditions, and, with the introduction of industrial activity, they are always finding new and inventive methods to secure additional enterprises, and at the same time to secure the industrial life of the population. Of course, the municipality is not alone in the field of politics, and the socialistic idea must be illustrated in every possible way. It is, therefore, only in the case of a municipality, whose economy is entirely in the hands of the municipality, that the socialistic idea can be realized. In the case of a municipality, the socialistic idea must be illustrated by its monopoly in the field of politics, and the socialistic idea must be illustrated by the monopoly of the municipality in the field of politics.

But what we have to consider is, that women are in the present, that the women are in the present, and in the present, the women are in the present.

**The Cloven Hoof Feeds Out**

In view of the visible drawing together, and its inherent dangers, of the masses of people, the Socialist, the labor movement, and the National Socialist party, it is certain that whatever is done or not done by the Government to regulate the competition among these political parties, will be to the interest of the masses.

**The Miller Case**

When the thoughts of great men fail to have a visible result, it is to be expected, but when a great idea, or a great development, or a great movement, or a great organization, has not a visible result, it is to be suspected.
