Butte, Mont., Oct. 24 .- What the capstalist papers here describe as "the warmest political meeting of the cammign," and which, indeed, was one of successful meetings in this city, was held in the Auditorium on Thursday, Octoher 20, and was addressed by Charles M. Corregan, Presidential candidate of the sialist Labor Party. At both meetings capitalism and its lieutenants, the bogus Socialists, met a Waterloo by the arguments and facts presented by the "little giant of Syracuse."

B. H. Williams, of Basin, Mont., presided and introduced Corregan. Williams said the Socialist Labor Party had been in existence for 15 years and is exclusively for the laboring or wage carning class. It demands the absolute and untional surrender of the capitalis as and the return of the government to the people. He referred to "the other so-called Socialist party" and said it has one doctrine for one part of the country and another for another section.

Corregan then began a two hours' ad-

Corregan proved by capitalist statistics Bat 32 per cent. of the wealth produced by labor goes to the idle class and the produces, the wage workers, is allowed to retain but 18 per cent. The capitalist a cannot pessibly use or spend the 82 cent, and the workingmon are starv-in the midst of plenty. The speaker lained why the American manufacer can ship goods to Europe' and unmpets with the pauger labor ntries. In the United States ets only 18 cents to produce a dollar realth, while in England it costs 20 s and in France 30 cents. American bor is the scab labor of the world and

in time will even get to the depth of Asiatic labor, if capitalism continues. One of the things that helps the capi-talists to rob labor is the increase in the ductive capacity of labor. To-day one a does the work that required 25 men

# BERRY ARRESTED

Boston Priest Trie i to Revive Inquisition by Throttling Free Speech.

## ial Correspondence.) Boston, Mass. Oct. 27,-Michael T.

Berry, Socialist Labor Party candidate for Governor of Massachusetts, was arrested last night while speaking at an open air rally, Hayes Square, Charlestown. The complainant was Rev. John D. Tierney, pastor of St. Catherine's Roman Catholic Church, newly christened, Rev. Tyr-an-ny.

As in former years, the Socialist Labor Party scheduled a series of meetings to be held in Hayes Square this year. The first of the series was interfered with by the police, whereupon Section Boston arranged the meeting of last evening at which our candidate

for Governor was arrested. The police having stated that they would not allow meetings to be held at Hayes Square, Section Boston saw to it that last night's meeting was thoroughly or ganized. Michael G. Powers, as chairman, called the meeting to order at 8 o'clock. He had been talking but for a noment, when a burly "guardian of capitalist peace" grabbed him by the arm and attempted to drag Powers off, but not before. Powers had succeeded in having Berry introduced as the speaker of the evening, whereupon Berry immediately took the platform and started to address the rapidly forming audience of workingmen. Berry began by stating that evidently the meeting would be interefered with by the poilce, but that he would not stop speaking until arrested. He called the attention of the audience to what was transpiring within the shadows of Bunker Hill, Monument, as an instance of how the capitalist class was attempting to inaugurate a repetition of the Colorado outrages by abridging the right of free speech in Massachusetts. When the police saw that the speak er would not desist, one of them paid a visit to the Parochial residence of Rev. "Tyranny." The officer returned about fifteen minutes later, and placed Berry under arrest, taking him to Station 15, but Berry was immediately balled out. While in the station, the blue-coated

One often hears the question: is the difference between the Socialist Labor Party and the Socialist or Social Democratic Party !" The frequency with which the question occurs is a crack ompliment to the astuteness of the men who attend to the political end of the interests of the class that fleeces the workingmen, women and children in the factories, shops, mines and yards of the

In/1890 the Socialist Labor Party set up its standard in the State of New York. It did as because by that time it had become clear to a sufficient number of citizens that the Republican and the of citizens that the Republican and the Democratic parties were the political right and left arms of the labor-fleecing capitalist class. Whether the govern-ment was Democratic or Republican, its presidents, governors, legislatures, ju-diciaries, down to mayors and aldermen, uniformly threw the weight of their of-flors on the scale of the idle capitalist class, and against the scale of the work-ing class. The "rifle diet," administered through the army, the militia, the police-men's clubs and the judges' "Gatling guns on paper," at the order of Demo-cratic and Republican officials, dyed the country red with the blood of the work-ers, and threw suffering into their homes. The Socialist Labor Party perceived

The coming event cast its shadow before it. During the campaign of 1898 several well known Democratic and Re-publican district leaders, late one night, grew reckless in their talk in one "Humpy" Haanover's saloon in the Six-teenth Assembly District and theming to teenth Assembly District, and turning to some S. L. P. men, known to be work-ing hard for the S. L. P. ticket, said: If your candidate for the Assembly

in this district polls a bigger vote than he did last year, we will next year take up some Socialist with a large following and gather enough signatures to enabl him to run as an opposition to your candidate."

This conversation appeared in print in The People of January, 1899, with no Social Democratic party yet in sight The Socialist Labor Party poll in the Sixteenth Assembly District of New York rose over 400 votes in that year (1808) The rising waters threatened to drown the rats of the capitalist politicians, and they hastened to work to save their necks. The very next year, during the campaign stands sprang up on the cor-ners of the streets in New York City, especially in the Sixteenth Assembly District, from which epeakers, styling them-selves Socialist, called upon the working-

CAPITALIST ATTEMPT TO DISRUPT COX MEETING IN KENTUCKY.

Menacing Attitude Compels Police and Politicians to Keep Hands Off-Excellent Work Done by the Socialist Labor Party's Vice Presidential Candidate in Louisville.

Louisville, Ky., Oct. 27 .- For three successive nights) beginning with Monday, October 24, Section Louisville had the services of our Vice-Presidential candidate, William Wesley Cox, to aid in our local campaign, and it is no exaggeration to say that the visiting comrade did excellent work for us. While all three meetings were held in outside districts of the city, the crowds increased with each meeting, culminating with a banner meeting (a recordbreaker) on Wednesday, October 26, at Seventeenth and Gallagher streets.

At the last named meeting the workmen remained around the S. L. P. plate form in spite of a Democratic opposition meeting, with fireworks, fife and drum corps and the usual capitalist paraphernalia. The Democratic politicians and lackeys will remember for many a day this meeting with the S. L. P., whose mettle they had previously never tested.

Both meetings had been arranged without the knowledge of the other, eo when the S. L. P. men assembled at the meeting place at 7.30 p. m. a goodsized crowd of men and boys had assembled. Hearing that a marching club was due shortly, Comrade Cox advised the members to "lay low" and awalt developments. Immediately after the arrival of the "marchers" Comrage Schmutz opened the S. L. P. meeting, laying special stress on the working class character of our membership. By this time the first speaker started on the Democratic stand, and was rather surprised at the sudden start of the S. L. P. meeting. Comrade Schmutz introduced Comrade Cox. Cox's stentorian voice soon silenced speaker No.

This stand was taken in the State of New York first, in the campaign of 1890. The Socialist Labor Party spread steadily from State to State. The Party's vote increased everywhere. It increased notably in this State. So marked was the current in its favor that since 1807 the election of the S. L. P. candidate from the Sixteenth Assembly District in New York county grew into mere than a threatening possibility. In didate came out second best in the Six-teenth Assembly District. The capitalist politicians no longer smeered at the So-cialist Labor Party; they saw that it meant business. They then put their heads together to smash it. They understood that the smashing had to be done in the State of New York, and that it had to be This stand was taken in the State

The Socialist Labor Party perceived this fact; it also perceived the fact that, with slight reliefs now and then, the tendency was to aggravate the evil-the annual carmings of the workers declined and had to decline; finally, the Socialist Labor Party also perceived and stated. the cause of the evil. It pointed out that the private ownership of the land, needed to work on, and of the machinery, needed to work with, enable the holders of these to live in idle brown, and comneeded to work with, enable the holders of these to live is idle luxury, and com-pelled the workers to yield to the cap-italist the wealth they needed to live in idleness, while the workers themselves had to starve on a pittance. Grounded upon these facts, the Socialist Labor Party called upon the working class and all other decent citizens to join it at the hallot box so as to overthrow the cap-italist politicians, and to set up the So-cialist Republic by the election of men pledged to overthrow the wage system of slavery.

THE THIRD EPISODE.

#### TELLURIDE.

Of all the episodes in the class war that has raged for the past twenty months in Colorado, none is of deeper import or of greater interest than that which is associated with the little town in San Miguel County. The peculiar fascination that at-taches to the struggle in "The San Juan" is that it, in a sense, marks a complete chapter. True, the end is not yet. The capitalists of that vicinity, in wrecking the labor organizations, have all but wrecked themselves; and never again will a man who has passed through this period of blood and tears that is written indelibly on the records that bear the history of our class and its struggles toward emancipation, be the dupe of a man who would have him believe that there is no conflict between the exploiter and the exploited. All the sophistries of Ancient Greece; all the casuistries of the craftiest of clericals, could not hide or disguise the fact which the mine owners and the Citizens' Alliance have so conspicuously set before the world. The theory of the defenders of capitalism, that that system is one of free, open competition, in which the fittest may survive, and the best have the chance to assert itself, dies upon hearing the name of Telluride. There, when the exploiters of our class got the upper hand temporarily taken away from them by the workers, theory and platitude were tossed aside and the bold, ultimate fact of the irrepressible conflict, a menacing figure, came into view from behind the empty shell in the shadow of which our enemies are wont to carry out their plans.

Yes, the citizens of Telluride played their part because they knew they could, and capitalists in every part of the country look on with envy and applaud their brothers. Don't think, gentle reader, that you are safe because you are not in these mountain wilds. Telluride may be at your door, with its "complete chapter," ere you know it. Do your thinking in time.

#### ENFORCEMENT OF THE EIGHT-HOUR DAY ATTEMPTED.

The strike in Telluride was declared on September 1, 1903, to enforce an eight-hour day in the mills, the mine managers having declined to treat with the union, even when a proposition had been made that wages might be reduced in proportion to the reduction in working hours.

The strikers immediately opened a supply store, restaurant and lodging houses. I may say, by way of explanation, that, owing to the topography of the country, all the mines are provided with boarding and bunk houses, at which the men are lodged and fed, and, of course, when the strike was declared the union must provide a substitute, which it did. The union leaders compelled saloons and gambling houses to close at midnight and all day Sunday, and the only violence at this time was on the part of deputy sheriffs, who drove miners off the public road and assaulted them in searching for arms.

This state of affairs prevailed for about three months, when the mine managers, exasperated at their failure to operate the mines successfully, enlisted the aid of Governor Peabody, who declared San Miguel County under "qualified martial law." This "qualified martial law" consisted in having the militia, headed by Bulkeley Wells, manager of the Smuggler-Union Mine, pick up, in the streets of Telluride and in some of the houses, men whom the mine managers designated as vagrants. The prisoners were brought, before the police magistrate, dechared guilty, and compelled to work out, on the city streets, a fine of \$25 and costs, or, as an alternative, work two days in the mines. The object of this prostitution of the courts is obvious. managers. That night a squad of militiamen made thirty-one arrests, acting under orders from Major Hill. Eugene Engley, an attorney, was told that if he would leave town quietly he would not be placed under arrest. He replied that he would stand on his rights as an American citizen, and, if taken, it would be by force. He was then placed in jail with the others.

#### MILITARY DEPORTATIONS BEGIN.

Captain Scholtz, with a detail of fourteen men, escorted the thirty-one prisoners to Ridgeway, the nearest place outside the county. On the 4th, the arrests were continued, and the town searched for arms. The scene enacted on the 1st gives one a fair illustration of the methods of the men in power.

"Tears, curses, maledictions and prayers were heard at the depot this morning when the train, having on board six union miners, who were being deported, pulled out. A woman with a small child attempted to fall in line with her husband, but was brutally prevented by the soldiers, who forced her back to the sidewalks. With a face drawn with agony and bitter grief, she endeavored to keep up with the soldiers . . . . At the depot the relatives of the men were allowed to talk to them, and for a minute the air was full of tearful good-byes. Fifteen minutes before the signal was given three women came running down the track. One of them, Mabel Marchinado, a girl of 17, weeping bitterly, rushed over the icy platform to the window in which one of the men was sitting, and exclaimed: 'Oh, papa, what are they going to do with you?' Her father endeavored to comfort her, but the girl continued sobbing pitifully. The sympathy of the entire crowd went out to this girl, and some turned away. Then the soldiers ordered her to move on. The girl suddenly ceased weeping, and, turning to those standing, said, loud enough for the military to hear, 'I think it's a shame for men living in this country to be treated in such a manner." She was not arrested.

"The woman with the small child in the meantime reached the depot, almost exhausted. She purchased a ticket and boarded the train upon which her husband was to be sent into exile. / She cried bitterly, and the baby was blue with cold. 'I am too sick to work and look after our baby alone, and I am going with my husband, if it means to jail!' she moaned. If ever volumes of mute sympathy went out from a crowd, it went out to this woman, whose mental and physical sufferings seemed to grow greater as she bent her head and fondly kissed the lips of her offspring, in a vain endeavor to protect it from the cold." This hereared in America and is a partice.

This happened in America, not in Russia.

At Ridgeway, just outside San Miguel County, the deportees, dumped by the militia, were furnished with transportation supplied by the miners' union.

, On February 24, the eating house maintained by the union was closed by Bulkeley Wells, manager of the Smuggler-Union Mine and commander of the militia, and thus closes the first and least significant chapter of the Telluride strike. The storm was about to break in earnest over the heads of those who still maintained the struggle.

#### BEGINNING OF THE BEIGN OF TERROR.

Thursday afternoon, February 29, thirty-four men were arrested, charged with vagrancy. Of these, seven were released and twenty-seven fined \$25 each. The latter were told that if they left the county, or secured employment, sentence would be suspended. They were given until 2 p. m. the next day to make up their minds. The arrests were made by the civil authorities, a fact that should be borne in mind when we come to a review of the actions of the military as concerns an injunction issued later. To assist the civil authorities bodies of troops started out in different directions from headquarters at 2 o'clock. Followed by deputies, the soldiers visited every portion of the city and placed under arrest the men whose names had been listed as having no visible means of support. Those arrested were taken to the police court.

Assistant District Attorney Howe, who, by the way, is counsel for the mine managers, interrogated the prisoners as follows: "Are you working? Have you tried to obtain work? Are you married? Have you any children? What is your present means of support?" Judge Holmes discharged seven men, and the remaining prisoners were called to the bar. "The evidence in your cases," said "His Honor," "is conclusive. . . . Under the law I am compelled to fine you \$25. Not wishing to be severe or harsh, however, I, shall suspend sentence until 2 o'clock tomorrow afternoon. You have three courses: You must leave town, secure employment or pay your fine. Otherwise you will go to jail." Mr. Howe then explained more fully that if the men secured employment, or made an earnest effort to secure employment, in the meantime, they would not be prosecuted. Thus were the offices of the Justice of the Peace and District Attorney prostituted in an attempt to drive the men back to the mines. I am proud to say that not one of the miners submitted to this humiliation, and next morning they were found on the steps of the City Hall, waiting for the Sheriff to take charge of them.

Not a word from Maki. The others ceased work in astonishment.

"What! you won't work?" said Runnels. "We'll fix you!" and, suiting the action to the word, Runnels led the prisoner to a telegraph pole. His arms were placed around it and the wrists shackled together. "Now, you'll stay there a while," said the deputy, walking away.

A chill wind was blowing down the valley, and Maki's wrists were chafed and swollen by the handcuffs. He was released at 12.45 and marched back to jail, where he was kept, without food, until 6 the next day

#### ATTORNEYS OF THE MEN ASSAULTED."

The cases of those convicted of vagrancy were appealed to the county court, E. F. Richardson, of Denver, representing the strikers. There it was shown that the men were residents of the county; that they were peaceful; that they had, prior to the strike, earned their own living; that they had money and were self-supporting at the time of their arrest. Mr. Howe, for the prosecution, declared that these things were of little moment; the fact that they were not at work proved them to be vagrants. The attention of the editors of our dictionaries is respectfully invited to Mr. Howe's new definition of the term "vagrant."

County Judge Wardlaw ordered the prisoners released, to the great rage of their enemies. When the miners had been discharged, Walter Kenley, deputy sheriff and one of the witnesses against them, attacked Attorney Richardson, and when A. H. Floaten, a man wearing glasses, endeavored to make peace, he too, was assaulted. These erimes, one of them a penitentiary offense, cost Kenley just \$25, and how he got even will be related a little later. I would say, at this point, that Kenley and Runnels are two of a number of "bad men" imported by the mine managers to do their dirty work.

On March 11 martial law was declared off, and the militia disbanded. The men deported began to return, and the gamblers, dance-hall men and others of that kidney prepared to do business. The authorities took no action against them, but the union made war upon those who had made the skinning of the unsophisticated miner a business, and this earned them a double measure of the enmity of the "best people" of the town, who, as is generally the case, were financially interested in the corruption of the community.

#### THE INFAMOUS 14TH OF MARCH.

The "Daily Journal," of Telluride, organ of the mine managers and Citizens' Alliance, in its issue of the 14th, contained a number of notices, of which the following is a specimen:

"Matters of vital interest to property owners, business men and all who have the peace and progress of the community at heart will come before the meeting of the Citizens' Alliance tonight."

The militia had departed; the miners, disarmed, were at the mercy of their enemies. What transpired in that infamous meeting may be imagined when we read the appended extract from the official organ of the Citizens' Alliance:

"As the Citizens' Alliance was breaking up, the mob was gathering. . . . Fifteen minutes later, a newspaper correspondent came accidentally upon a group of a dozen men. Each wore a slouch hat, uncouth clothes and a cartridge belt. Each carried a Krag-Jorgensen carbine—military pattern."

I may say, at this point, that the Telluride company of militia, commanded by Bulkeley Wells, manager of the Smuggler-Union Mine, is a cavalry company, and the carbines spoken of had but recently been issued to the soldiers. It is as clear as day that when Governor Peabody declared martial law off he merely transformed a uniformed band of ruffians into an ununiformed band, the power of which for evil had been augmented by the change, as we shall see.

"'You'd better go home,' said one of the group to the newspaper correspondent, who recognized him as a banker. The newspaper man did not go home. He saw the group joined by other men, who also carried oarbines. He saw small bodies of men leave hurriedly in different directions . . . There was a sound of marching men, and from around a corner came a weird procession. Four of the mysterious men led, marching two by two. Following were a dozen slouching, sullen foreigners. Four more armed men brought up the rear. The door to a vacant store was opened . . . Other squads of prisoners were marched up."

"A big, hulking foreigner, who, fortunately for him, was not

to the man who suffers by the comparison. Let us, for a few moments, institute comparisons between the actions of the party of law and order and their victims. First, from the foregoing quotation it will be seen that the conspiracy against the miners of Telluride was hatched at the meeting of the Citizens' Alliance. Now, the Mine Owners' Association, the Citizens' Alliance and the State Administration have strained every resource to the breaking point in an effort to produce evidence of a like conspiracy on the part of the miners. It is my opinion that, if a man could produce evidence convicting the miners' union of conspiracy in even a simple case of assault, he could name his own price, and get it from the men who have not hesitated to hire perjurers, fill the unions with spies, corrupt legislators and give the members of the State Administration unequalled opportunities for graft. The fact that the mine owners and exploiters in general have utterly failed in their attempts upon the miners must be contrasted with the established fact that not one, but an endless array, of conspiracies can be proved against them. Secondly, contrast the tone of the labor press with that owned and controlled by the capitalists of the State. I am speaking now more of the papers that have taken an active part on either side. While the "Miners' Magazine" has not been without blemishes-what editor is infallible ?- it is an unquestionable fact that it is as superior to the press of its enemies as the honest mother of a family is above the prostitute who, for money, sells herself to this or that man. Take the "Denver Republican" for example. In the days of Senator Hill it was, as capitalist papers go, a fairly decent sheet; but now it is yellowest of the yellow, printing anything, true or otherwise, that seems to cast odium upon the miners. As for such publications as "Polly Pry," 'George's Weekly" and the "Daily Journal," of Telluride, it is enough to say that, did the editor of a labor journal adopt the tone habitually indulged in by these organs, he would be a free man twenty-four hours-no longer. When not indulging in the most appalling mud-slinging, they maintain a tone that has found its concomitant in the murders, the assaults, the deportations-the innumerable crimes, in short, perpetrated by the "redeemers of the State." Yes, the press of the capitalists may be characterized in a phrase-murderous and inciting to murder.

I cannot go on with this comparison. Space will not permit it. We must again take up the story of the deportations.

GAMBLING RESUMED WITH THE ADVENT OF "LAW AND ORDER."

March 15 "Sixty-five-men are in Ouray, having during the night been deported from Telluride and San Miguel County by members of the Citizens' Alliance. . . Since the strike was declared last September there has been no open gambling in Telluride. Immediately after the miners walked out some of the officers and leaders of the union swore out warrants against the proprietors of the saloons in which gambling was conducted. The proprietors closed their tables, and they have been idle ever since.

"When martial law was revoked last week the gamblers lost no time in throwing the faro banks and roulette wheels wide open. The union men declared that gambling would not be permitted to be reopened, and there was also a church element bitterly opposed to a resumption. Since last Saturday night, when the games were resumed, union men have been gathering evidence. The crusade against the gamblers was headed by L. C. Kinikin . . . and it is understood that sixty informations were to have been filed against the gamblers to-day.

"The proprietors of the saloons in which gambling is conducted, and a number of the gamblers, are members of the Citizens' Alliance. The mine managers are also said to be in favor of gambling, as it has a tendency to keep the men here. After coming down from the mines on pay day and remaining a day or two the men do not have moncy enough left to get away, and must return to the mines.

"At 10 o'clock all members of the Alliance to take part in the proceeding had assembled in front of the bank building. . . . The body of men moved up the street to the telephone office, following it to the Victoria House, the small buildings along the way being carefully searched.

"In front of the hotel an Alliance member, who is a bartender and holding a commission as a deputy sheriff, suggested that L. C. Kinikin and A. H. Floaten be taken. Mayor R. N. Rogers, who was following, protested against this, but the crowd paid no attention to his remarks, and the Mayor went home."

This impressive piece of evidence is taken from the "Denver Post," which has since been whipped into line by the Citizens' Alliance of Denver, through the agency of certain prominent business men, who told the owners of the "Post" flatly that it would lose their patronage if it continued to give out the facts of the struggle of the classes and to comment upon the extraordinary actions of the capitalists editorially. Since that ukase went forth the "Post" has become as silent as the grave, and, though it carries on its editorial page the motto, "An independent paper," and styles itself "The official paper of the people," its character may be estimated by the fact that it is so lost to decency that it gloats over the additional advertising that has come to it because of its subserviency to those who hold the whip and the sack of candy. The "independent" newspaper is a fraud. Doubly interesting is the evidence presented in regard to the gambling element in Telluride. The good people of the East and elsewhere are accustomed to look upon the miner as a being simply unspeakable, who makes life one long nightmare in his desire to be wild and wooly. To those who wish to get a line on the moral standards of the miners and their calumniators, I would simply point to the evidence here presented. The union did its best to put a most undesirable element out of business; to make it impossible for a lot of "tinhorns" to rob men who, out of their ignorance, cannot see that they are being systematically swindled. The position of the business men of Telluride is easily understood. They would not hesitate to debauch the community which they profess to love in view of the fat profits that lie in the corruption. Comment upon the stand taken by the mine managers is unnecessary, when we have said that the chances are that not a few of them are directly interested in the games, and all of them indirectly.

"QUALIFIED MARTIAL LAW" UNQUALIFIED LAWLESSNESS.

A dispatch to the "Denver Republican," December 3, 1903, reads as follows: "Louis Mascani, Tony Mattiri and G. Girardo were lodged in jail for failing to leave town or get work. The nine arrested have been kept busy all day by the street supervisor. They were guarded by a squad of five soldiers. It is the intention to have the men work out their fines for the city. Sheriff Rutan said that he would continue to arrest vagrants, and they could stay in town if they chose to keep on paying fines or working them out on the city streets. The nine vagrants are kept in the city jail, as the county jail is already full."

There you have it, in all its hideous plainness. The strikers were declared vagrants, and put on the chain gang when they could not be forced back to the mines. As to whether these men were vagrants, in the generally accepted meaning of the term, we shall be satisfied later on, also as to the meaning attached to the term by the men who did the dirty work of the mine owners of San Miguel County.

The mine managers scoured the country for strike-breakers, who, generally, upon arrival at Telluride, refused to work, they having been deceived by the men who brought them in. The mine managers realized the failure of their campaign against the unionists, and on January 3 absolute martial law was declared, and a campaign of extermination entered into by the enemies of the miners, backed by the powers of the State. Mark you, the civil powers were still used when favorable to the mine

#### THE CASE OF HARRY MAKI.

Among those convicted was Harry Maki, a young man whose reputation was of the best, and upon his head was heaped such indignity as, fortunately, falls to the lot of but few. To make his case clear we must go back a little.

Some years ago, one W. J. Barney disappeared. It was said that he had been murdered by the union men. As to that we may say that all that lies against the men is the unsupported accusation of their enemies. It came to the ears of the military commander that the body of Barney lay buried in an old cesspool, which, upon being cleared out, showed no human remains. About 11 o'clock Wednesday, five men convicted of vagrancy were taken from the jail, and, escorted by Deputy Sheriff Willard Runnels and a number of Troop A, armed with a carbine, were led down near the Rio Grande Southern freight depot to the place where the soldiers had excavated. They were given shovels and instructed to fill the hole. The ground was soggy and moist, and the piled-up contents of the cesspool emitted a sickening odor. Then came Maki's refusal to work. He simply declined to shovel the stuff.

"Get busy, there !" commanded the guard, threateningly.

wanted by the vigilantes, refused to go home until his curiosity was satisfied. A crack on the head with a revolver sent him home in a hurry.

"Then some one brought word that 'the train was ready.' It was a grimly silent crowd of prisoners that marched, under the muzzles of seventy-five Krags, to the depot and boarded the train. . . . The short train started with 'a jerk—no ringing of bells, no blowing of whistles. The train started in silence but—

"It was a psychological moment. An undesirable element of a wrought-up community was leaving—for good. Some one fired his carbine, and that was the signal. Every man with a gun turned her plumb loose, and the roar of a hundred Krags, the flashes of flame shooting into the air like white-hot needlepoints, the demoniac expression on the faces of the vigilantes and the cowering and dodging of the wretches in the departing coaches, combined to make a scene of melodramatic intensity that burned itself into the brains of the actors—never to be forgotten.

"That was the end-or the beginning, which ?"

#### A HELLISH PICTURE.

What a picture of hell is this! The person who could sit down in cold blood and pen this sketch with the satisfaction that pours from every word has missed his, or her, vocation. He should apply at once to the Czar of Russia or the Sultan of Turkey, by whom his talents would be appreciated. The fact, however, that such a thing may happen in free America, and be applauded by capitalist prostitutes of the press, should convince every man not altogether blind that this country, in common with Russia or Turkey, stands in need of a little civilization. Comparisons, they say, are odious. Yes, in truth, they are—

# CORREGAN IN MONTANA WHAT IS THE DIFFERENCE? MICHIGAN WORKINGMEN

As in former years, the capitalist potical parties are again out to capture r vote. Their battle ory is primary form, municipal ownership of street ilways, cheap car fare, etc., etc. Now t us analyze to what extent these vais issues will affect, if at all, the

#### re-working class.

When a workingman hires out to an mployer, he thereby sells his labor ower, or power to labor, which exists within his person, consequently he bea ware, bought by the day, week year. He remains merchandise as as the system of capitalism lasts, and his price will depend upon the cost I living, that is, enough to keep him in working condition.

Your wages amounted to only 21 per nt: of the factory price of the goods you produced in 1900, while you received 24 per cent. in 1899. But when you purchase retail, as you are forced 60, you can buy back only 11 per ent of the product of your labor. The rage product of every man, woman child in this country in 1900 was, in ad figures, \$2,450; the average wage unted to \$4.40, so that every one ployed had to leave in the hands of capitalist class \$2,010. Workingm, are you satisfied with this arent? If so, then vote the Recan, Democratic or any other capalist party ticket. But the workingwho are conscious of this robbery ind want the whole \$2,450 of their et will vote the straight ticket of Socialist Labor Party. It is the party that can secure it for them. the issues of the Republican and ocratic parties in this campaign affect the workingman's merchandise aracter? Will they, or do they, atpt to wipe it out? No! The nanal policy of the Republican party expansion, a greater army and navy d protection, which are all intended o help the capitalist to sell the goods has robbed from the working class the aid of his private ownership of e reols of production.

The Democratic policy is one of opition to the dominant capitalist ray, the Republican, because .it .is ed to be the expression of middleinterests; its anti-trust cry is ply a plea to give the small capitalance to work themselves up to ere the trust magnates are now. But at about the wage workers? What erence does it make to the workingm whether they are robbed by onrge trust or ten .small capitalists? whatever! The condition of wage slavery remains. No issue except the e abolition of the capitalist sys-

a and the inauguration of the coltive ownership of the tools of proon, can give the workingmen an usl opportunity. Primary election reform is the main

This "reform" is,

against their employers, is now to be come a thing of the past because a convenient excuse to remove it has been worked up by the introduction of the new primary election law: Since Democrats may nominate Republican candidates, they wish to make each man proclaim his political amiliation.

Also, the proposition to reduce the number of candidates means that no other candidates but those put up by the ones who formerly had to bribe the representatives of voters--the delegates -shall be eligible as candidates for office.

But the shout of "primary reform to smother corruption." raised within their own ranks, is in itself an acknowledgment of the absolute unreliability of

the capitalist parties; hence, since they have condemned themselves as corrupt and unreliable, whoever is not aiming at giving this corruption wider sway, will cease to support those "corrupt" parties. Wellington R. Burt, formerly president of the Ann Arbor Rallway, acknowledged that four years ago he bought up Governor Bliss.

He claims that the Ann Arbor Railroad is now back of Warner, the present Republican candidate for Governor. But who has Mr. Weilington R. Burt. the capitalist and buyer of Governors, bought up now? Is he financially interested in Mr. Ferris' boom this time? Surely, to be in demand for the Gubernatorial position by the buyer of Gov-

ernors, throws glaring light on a truth the Socialist Labor Party has constantly pointed out, namely, that the Democratic as well as the Republican candidates for office are the tools of the various capitalist interests strong enough to pay the sum required to control them. A vote for those tickets is a declara-

tion in favor of binding yourself and in favor of enabling the capitalist class to gain complete control, not only over the means of production and 'distribution, but over all of the powers of government. In the future, different from the past, they will not even be forced to take notice of the wage workers whom they will have deprived of a chance to be represented in government.

A vote for the Socialist Labor Party is a rebuke and a condemnation of the capitalist system and all its consequences. And even if the city and ward tickets of the Republican or Democratic parties were not "feeders" for the national and State tickets, you can only lose by voting on those tickets even for the most insignificant job-hunter. All capitalist parties have and will use the police force in the interest of the bosses when workingmen are forced on strike.

And their judges will be ready with injunctions to restrain these striking workingmen from interfering with the strike-breakers. Cheap street car fares and municipal

ownership of street railways are also advocated by these parties. But what can a workingman gain thereby? Being subject to the law of a merchandise, what he gains in cheap car fare he will eventually lose in wages. With the small capitalist it is different. He lives from profit, and his labor power is not a commoalty. If the cost of the city administration is reduced by an

feebly responded. "Do you hold a party responsible for

the acts of some one man?" asked Neill. "A party is held responsible so long as it harbors a man known to be crooked," replied Corregan, with force.

The speaker continued his arraignment of bogus Socialists and charged Carey, one of the prominent members of the "Socialist" party in the East, with voting an appropriation for an armory.

"That's a lie," some one velled. Neill attempted to interrupt Corregan and declared he would not sit down unless the audience insisted on it.

"I do not propose to let any Montana tough browbeat or buildoze me," exclaimed Corregan with some show of passion, and then Neill took his sent.

Some one then quoted M. G. O'Malley, "Socialist" candidate for governor, as saying that he had a telegram from Corregan declining to go into debate for the reason that there was no real difference between the bogus Socialist and Socialist

Labor parties. Corregan secured some hills and threw them on a table. "There are \$50 for any man who will roduce such a telegram or any telegram from me, and if Mr. O'Malley does not

produce the telegram by to-morrow I will brand him as a liar." Neither Neill nor any other bogus Socialist, would take the speaker up, Corregan asked some one to take Neill

the Auditorium. Corregan dwelt on the principles of the S. L. P., explained the necessity of

the Socialist Trades and Labor Alliance. the economic organization of the S. L. P. and pointed out the one way for the working classes to win in the fightthrough the Socialist Labor Party ballot. His remarks met with both applause and jeers. Corregan attacked trades unionsm as organized in crafts and advocated instead industrialism as exemplified by the Socialist Trades and Labor Alliance.

"Through the ballot box," he said, is he only way you can win, and until the unions get into politics the laboring man hasn't a chance."

"The Butte Miner" of Thursday mornng, October 20, had this say:

PRESIDENTIAL NOMINEE IN BUTTE "Mr. Corregan, of New York, presilential candidate of the Socialist-Labor Party, will speak at the Auditorium on the issues of the day to-night and will again address the citizens of Butte Sun-

day afternoon, October 23. "As Mr. Debs, presidential candidate of the unhyphenated Socialist party, was seconded a respectful hearing by a full souse it is presumed that Mr. Corregan will be treated with like courtesy tonight.

"Interest attaches to Mr. Corregan's candidacy chiefly because he represents a different branch of Socialism than the one with which the people of Butte are familiar-namely, the original political movement of that character known as the Socialist-Labor Party.

"The unhyphenated Socialist party, of which Mr. Debs is the leading representative, was first organized in the city of New York for the purpose of defeating the Democratic vote, in a certain ward, and it has maintained its character as the greatest common divisor-in its own mind-ever established in the income from the municipal street rail- field of political mathematics!

In Haverhill, Mass., James F. At the same election and same place Webster, Mass., election, Martin V. E Back ran simultaneously on the official tickets of both the Social Democratic "Socialist" party, and of the regalias ular Democratic party for assessor. In Peekskill, N. the so-called Socialist ticket. On November 23, the Marion, Ind local of the so-called Socialist party was reorganized by the State Committee with one John W. Kelly, who, elected to the City Council on the "Socialist" ticket, voted franchises to private corporations He "had broken no rules" was the argu-ment for Kelly. This Kelly is a cap-italist. He is a stockholder in the Marion

At the November, 1902. election in Harris County, Texas, E. H. Vasner ran for county judge on the "Socialist" teket and simultaneously on the Republican, Independent Democratic and Populist

At the spring election of 1903 in Schuylkill County, Pa., the so-called "So-cialist," alias Social Democratic party, fused with the Republican party in the Kline township, and with the Democratic party in Rahn township. In April, 1903, W. J. Johnson, can-didate for alderman on the Bogus So-cialist ticket in Chicago, received the endorsement of the Municipal Voters' League, a capitalist organization, and ap-peared among the list of the League's "approved" candidates published in the Chicago Record-Herald, Tribune and Dai-ly News.

17 to 5. Fusion was restored, and the so-called Socialist, alias Social Democratic party has since returned to its corrupt practices with renewed vigor, as follows:

In 1903, C. K. Hershey, a member of the Mansfield, O., so-called Socialist, alias Social Democratic party, is a can-

didate for Representative on the Demo-eratic party ticket, with the knowledge and approval of his so-called Socialist organization, which refused to expel him for accepting the nomination of a cap-italist party. In 1903, at Waltham, Mass., the so-called Socialist, alias Social Democratic

party, nominated a politician, John F. Williams, for Representative. Williams, according to the Waltham "Evening News" of September 24, 1903, "is pop-ular with all classes and is widely known for his interest in the military, being Reutenant of Company F." In 1903, in New York city, the Social

In 1903, in Sheboygan, Wis., the So-cial Democratic Mayor, Charles A. Born, appointed a Republican, the proprietor of a scab paper, and two Democrats, to places that the working class should hold. He has also given away franchise

privileges to corporations. In 1903, in Yonkers, N. Y., "The Labor World," of which Dr. P. Bauberg, the Social Democratic candidate for coroner of Westchester County, is a stock-holder and assistant editor, of which J. S. Garrity and T. Lehmer, both So-cial Democrats, are editor and manager 

Just as the Social Democratic Voiss-zeitung" did. The paper has nothing on Socialism or the Social Democratic party. The press of the so-called Socialist, alias Social Democratic party, is owned by private corporations. The party may by private corporations. The party may expel a member from its own ranks, but it has no power to expel a member from any of the corporations that own its press. The one thing—its press— that the party can place immediately in the hands of its members if it were truly democratic and Socialist, it allows to remain in private hands, like any other capitalist concern. Thus its press runs and absolutely bosses that press funs and absolutely busses that party, not that party its press, which is run for business, the party's vote being used as a tender by which to make boodle from advertisements from capitalist controm advertisements from capitalist con-cerns against whom workingmen are on strike, and incidentally from capitalist candidates for office also. At Chicago, May 5, 1904, in national convention assembled; the so-called So-

cialist party, adopted a platform which declares for "the graduated taxation of incomes, inheritances, franchises and land values," measures that are advocated by the Democratic party and the Single Taxers in the interests of the -capitalists. small

At Chicago, May 5, 1904, it passed a series of resolutions opposing Socialist unionism and endorsing the Gompers' type of unionism, which the "Wall St. Journal" triumphantly greets as "One of the greatest obstacles in this country to Socialism?

At Milwaukee, Wis., during the gubernatorial campaign of 1904, its candidate for Governor, W. A. Arnold, endorsed La Follette, his Republican opponent. This endorsement appeared under big one-inch headlines on the front page of the Milwaukee, Wis., "Journal," and was not repudiated by Arnold or his party.

These are but a few of the undeniable facts in the official and unsavory record of the Social Democratic, alias "Socialist," party on the political side. Its record on the industrial side of the Labor Movement cuts an equally broad swath of treason to the working class.

There is no act of infamy committed by the Labor Lieutenants of the Hannas against the welfare of the working class but the Social Democratic, alias "Social-ist," party either shuts its eyes to or

PLATFORM

Adopted at the Eleventh National Convention of the Socialist Labor Party, July 1904.

The Socialist Labor Party of America, in convention assembled, reasserts the inalienable right of man to life, liberty and the pursuit of happiness.

We hold that the purpose of government is to secure to every citizen the enjoyment of this right; but taught by experience we hold furthermore that such right is illusory to the majority of the people, to wit, the working class, under the present system of economic inequality that is essentially destructive of THEIR life, THEIR liberty and THEIR happiness.

We hold that the true theory of politics is that the machinery of government must be controlled by the whole people; but again taught by experience we hold furthermore that the true theory of economics is that the means of production must likewise be owned, operated and controlled by the people in common. Man cannot exercise his right of life, liberty and the pursuit of happiness without the ownership of the land on and the tool with which to work. Deprived of these, his life, his liberty and his fate fall into the hands of the class that owns those essentials for work and production.

We hold that the existing contradiction between the theory of democratic government and the fact of a despotic economic system-the private ownership of the natural and social opportunities-divides the people into two classes : the Capitalist Class and the Working Class; throws society into the convulsions of the Class Struggle; and perverts government to the exclusive benefit of the Capitalist Class.

Thus labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessaries of life.

Against such a system the Socialist Labor Party raises the banner of revolt, and demands the unconditional surrender of the Capitalist Class.

The time is fast coming when in the natural course of social evolution.this system.through the destructive action of its failures and crises, on the one hand, and the constructive tendencies of its trusts and other capitalist combinations, on the other hand, will have worked out its own downfall.

We, therefore, call upon the wage workers of America to organize under the banner of the Socialist Labor Party into a class conscious body, aware of its rights and determined to conquer them.

And we also call upon all other intelligent citizens to place themselves squarely upon the ground of Working Class interests, and join us in this mighty and noble work of human emancipation, so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body, and substituting the Co-operative Commonwealth for the present state of planless production industrial war and social disorder-a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

#### THE SUBWAY.

The opening of the Subway to-day offers an appropriate occasion for some observations of value to the working class. An engineering work of great magnitude, cost and importance, the Subway was built at the expense, and under direction of the city of New York. The Subway is, consequently, hailed far and wide as an example of "Municipal Socialism." Nothing could be more unfortunate and further from the truth.

Socialism means the ownership and operation of capital by, for and of the workers, that is, the mental and manual laborers of all degrees, who constitute the major portion of society, and operate the means of production and distribution on which it depends for the neces saries and luxuries of life. The Subway means the ownership and control of capital, by, for and of the capitalist class. the minor, unnecessary and parasitic por-tion of society, who fieece and exploit it through their ownership at the means of production and distribution operated by the great working class. In order that this statement may no he condemned as a mere antithesis, let s few facts be recalled. Every member the Rapid Fransit Commission, under whose direction the Subway was built is an ultra-capitalist. Theirs was the onerous task of approving the reports and plans of hired experts, and taking part in numerous inspection tours, on which they were all duly and he-oically photographed. The company that advanced the finances, at good rates of interest (to itself), is composed of ultra-capitalists, headed by the Belmonts and the Rothschilds. So is the company that built the Subway at a great profit, despite numerous strikes against galling labor conditions. The company that will operate the Subway is likewise so made up. It will pay Subway instormen less wages than "L" motormen, and work them longer hours at that. In brief, the Subway is run by, for and of the capitalist class exclusively. The workers -have been and will be exploited in the Subway, for the benefit of the capitalist class, as they have been and will be exploited in the factories, mills, mines and railroads owned and controlled by the capitalist class and operated by the working class. The facts regarding the Subway present a situation that proves our statement regarding its anti-Social-1st character. Workingmen should not be deceived by appearances. The substance is what counts. The Subway is substantially capitalistic, abundantly so.

NO COMPROMISE! William Lloyd Garrison, in a recent statement on the cause of the failure of tariff reform in this country, makes this fine historical comparison:

Daniel De Leon and Charles Hunter Corregan. The capitalist will then understand hat the workingman is not to be duped by specious argument, and that whoever leads or concurs in any proceeding detri-mental to labor is treated as its fce, no matter what his name or his party. two ahead perfectly satisfactory, nobody except the assaulters can be expected to tremble. Lawson, in thus making clear that Roosevelt is no less a trust candidate than Parker, is doing his friend an injurious turn. It stands to reason that Morgan would not give the aid of Wall street to Roosevelt, were there not a was raised, for a dangerous enemy had community of interests" between them. Since such is a reasonable inference backed up by everyday political and movement ending in negro emancipation economic knowledge, what becomes of Lawson's fine picture of Roosevelt, the President of such sterling personal independence as "to knock" Standard Oil frequently and severely from a pure ense of duty, regardless of all other considerations and influences? Seen car as the GOMPERS' PERPETUAL JOB.

The annual cry comes from Washing ton, D. C., that Gompers is going to get put out of office. This cry is always raised before the A. F. of L. convention, and never after. Nobody seems to think it necessary to talk that way until Sammy gets ready to do his annual "Socialist" killing "stunt," in the interests of capitalism-then rumors about "turning the rascals out" fly thick and fast. They only serve to beguile the innocent, and help give Sammy a more conspicuous setting for his efforts in the interests of the capitalists whose faithful

"labor lientenant" he is. This year, it is claimed, Sammy is going to lose his place on account of the trade 2 automony - industrialism issue. Fudge! None of the fakirs believe in industrialism. It's too much like solidarity, and neither they nor the capitalists want that. How can either defeat strikes enforce "compulsory" arbitration, and make scabby trade and political deals,

DISTRIBUTION OF WEALTH. A correspondent of the "Evening Post" is indignant because the present distribution of wealth is questioned. He declares wealth to be a God-given thing, that we all can get if we only try. Then e continues:

"The trouble with most of us is that we don't try. We loaf; we patronize football; we go to races; we spend our evenings in the saloons or at the vaudeville shows; we wait for the wealth that we see around us to be 'distributed,' and when that is not done promptly

we grumble and complain \* \* The author of these words should be advised to take a dip into the census reports. He would there find three salient facts, viz., (1) from 1890 to 1900 the value of manufactures increased 10 per cent.; (2) despite this increase in values, wages declined 2 per cent.; (3) the death rate increased from 13.8 to 15.0 per cent. in all occupations. In other words, he would find that the more the wage earners-not the loafers-of the country apply themselves to land and machinery, i. e., try to get wealth, the

produced. A HIGHER MORTALITY IS THEIR ONLY REWARD. In view of these facts, so indicative of the decreased wages and excessive toil of the workers, it will not do to attribute the present unequal distribution of wealth to loafing. The present unequal distribution of wealth is due to the system of capitalism. By means of this system, a few men, called capitalists, are enabled to own and control the land and machinery, or capital, necessary to wealth production, thus compelling the many, known as the working class, to permit these, few to exploit them of all the wealth produced in excess of their wages, while operating the land and machinery.

A corporation, composed of a comparatively few capitalists, and employing from 1,000 to 10,000 men, from each of whom is extracted, in the form of profit, an amount of wealth averaging \$6 a day, is bound, under this system, to be come enormously wealthy, while its overworked and underpaid wage earners barely subsist, and fill untimely graves in increasing numbers. Therein lies the secret of the unequal

distribution of wealth. The cessation of loafing will not stop it. Nothing but the overthrow of capitalism and the inaugu ration of Socialism will suffice for that.

#### BANK DEPOSITS-FROM WHOM DO THEY COME?

John C. Havemeyer (of the Sugar Trust family bearing that name) is not a modest man. In a little campaign pamphlet just issued by himself he says he feels "prompted to discuss the present political situation \* \* \* with the purpose of reaching conclusions that our future experience as a nation will justify." It is axiomatic that a prophet is never recognized in his own country. Mr. Havemeyer, evidently, is taking the necessary precautions to prevent such a catastrophe in his own case.

However, though John C. is not modest man, he is at least a useful man. He helps substantiate Socialist contentions. Referring to the claim that bank deposits are increasing-put forth as a proof of unbounding prosperity-John C. says, in the aforementioned pamphlet: "They tell us also of increase of de-

This may seem an insult; it may seem derogatory to Vandervelde's unquestionable intellectual parts; it may seem a disparagement of his undeniable services, rendered to the cause of Socialism. It may seem all that. Yet it is not. None can take really offence but blind admirers. As to these-so much the worse for them. less they receive of the greater wealth

with the result that the power and existence of Capitalism are strengthened and prolonged, while true Socialism is weakened and retarded." To paraphrase the closing sentence of Garrison: Only with the advent of uncompromising Socialists will history be able to record the beginning of an effective movement for working class emancipation. Happily, the uncompromising Socialists are

here. They are enrolled in the Socialist Labor Party. History has already begun her record. PARKER AND THE EIGHT-HOUR LAW.

A writer in "The New York Times" says it is a mistake to charge Judge Parker with declaring the eight-hour law unconstitutional. Then he proceeds to make the following statement:

"A contractor on public work in Orange County violated the so-called eighthour section of the Penal Code, and, action being brought against him, the court of first instance upheld, the defendant (the contractor), on the ground of the unconstitutionality of the law. without trade autonomy ? Sammy will be ppeal the Appe versed this decision and upheld the law. "The case was then carried to the Court of Appeals, the highest court in the State, of which Alton B. Parker was Chief Justice. "Judge Egdar M. Cullen, a Democrat candidate for re-election this year on both the Democratic and Republican tickets, wrote the decision, which was oncurred in by Chief Judge Alton B. Parker and two other Democrats and five Republicans, including Judge William E. erner, who is now seeking the votes of workingmen on both old party tickets. "Any one wishing further information r verification is referred to the files of The New York Times' (April: 29, 1903, page 2. column 5, and April 30, page S, olumns 2 and 3.)"

If this arugument means anything, it neans that Parker is not to be blamed for a decision written by Cullen, and concurred in by Parker, two Democrats and five Republicans. The People has all along made the same contention. What is more, it proved it, too, by citing capitalist authorities on the subject. Of these, John C. Havemeyer is the latest: Which causes us to observe that, though he is not a modest man, he is a useful one.

The New York Central's electric locomotive was successfully tested at Schenectady, N. Y., on the 27th inst. This wonderful bit of mechanism will displace some of the aristocratic members of the Brotherhood of Locomotive Engineers, and give them time to reflect on and sympathize with their less fortunate fellow-railroaders. Among other things it is claimed that "the design and method of control are such that two or more locomotives can be coupled together and operated by a single engineer from the leading cab, the size of train under control of one engineer being practically unlimited so far as the question of motive power is concerned." The electrical invasion of the steam

railroad is growing in proportions.

THE COTTON PICKING MACHINE.

To the Daily and Weekly People :--Enclosed you will find a clipping from the Times-Herald of this city, which may prove interesting to the readers of The People.

In the cotton season the question of securing labor to move the crop becomes a rather serious one. The "nigger" and "po" " white, who have been dieting themselves on chile, chillins and co'n bread since last season, become important personages in the eyes of the farmer and the merchant who owns the former's crop before it leaves the field.

Being unaccustomed to anything like prosperity, this short era of "good times" causes the "nigger" and the "po" " white to become an uncertain quantity and a "large load" of uncasiness to the employer. So it is the hope and desire of the southern cotton raiser to dispense with the service of "Mr. Nigger" as a cotton picker. It has been the constant effort of invention to perfect a machine of this character, for the successful man will reap a rich reward.

#### COTTON PICKING MACHINE.

Claimed That Successful One Has Been Invented at Last.

Special to The Times Herald.

Waco, Tex., Oct. 18 .- It is understood from practical cotten men that a successful cotton picker has been invented at last, and that it will probably be put on the market next season, though the matter has been worked quietly as no stock was sold, a Pittsburg company having taken hold of the matter. Mr. Campbell, who financed a proposition of this sort here in Waco once, is said to be the inventor, and he is interested with the company in the matter. The new machine has two cylinders for gathering the cotton, and these revolve around the plant, pulled by a gasoline engine. There also a cleaner attachment for taking trash and motes from the cotton. One machine will pick ten acres of cotton a day. It is claimed that highly successful private tests have been made and that the machine will be put on the market next year. Government cotton experts who have heard about the matter are much interested and will watch the outcome with eagerness. If the machines are put on the market Texas will be one of the first points invaded, and in case it is half as successful as claimed there will not be much more need of negroes for cotton picking.

To the Daily and Weekly. People :--Comrade Santee, of New York City, who is touring this State for the S. L. P., spoke in this city (Roanoke) Monday noon, October 24, to 100 wage slaves at the gates of the Norfolk & Western shops. He was well received.

CAPITALIST "BROTHERHOOD." To The Daily and Weekly People :-There is a great deal said about "the brotherhood of man," by the capitalist class. This phrase, when understood, means the human family. Yet we see wars carried on among nations, who send, thousands of men to the battlefields, with the latest improved guns and ammunition, to kill each other with-men with loving wives, children and friends-men who have never seen, nor even had an angry word, with one another. These men give up their lives to satisfy the greed and avidity of the capialists, who have the brazen shamelessness to talk about "the brotherhood of man;" capitalists who, even in peace, for competition's sake, hire spies to watch and blow up new oil wells. How often one can read of such things. In any line of business, where there is a prospect of gain or profit, the capitalists will not fail to do dirty work. When there is a strike the capitalists hire men to do some damage so that they may be able to call out the militia to shoot down the workersthe men who support them. They set all

law at defiance. Should a law be passed favoring the workingmen, the judges representing capitalism, will not hesitate one moment in pronouncing that law unconstitutional. Such "brotherhood of man" may you expect when you strike for better conditions, against the capitalists, whose dogs live better, more comfortable than you, or your wife and children.

Long enough have you-workingmen -supported and upheld the capitalist Republican and Democratic parties, with the above as your reward. They have not and never will improve your conditions. It is time you woke up to your own interests. Men, have you never stopped to think what the words "free country" mean, a government for, by and of the people? Under such government no judge will dare to call unconstitutional a law passed for your benefit. The reason you suffer is because you allow the capitalists and their parties to dupe you. Listen to them no longer, nor to their Decoy Duck party-with Debs as its candidate, for President-which puts Republicans and Democrats on its Socialist" ticket to get more votes. To talk Socialism and be a Socialist

are two different things. A Socialist dare not compromise with any other party in the least. He must stand for the working class only. To vote for Socialism, vote under the Arm and Hammer, for the only Socialist candidate for President, Charles Hunter Corregan, of the

Socialist Labor Party. R. W. S. Indian Orchead, Mass., Oct. 25.

We are making a thorough house-tocontingent that betrays the working class under the pretence that it is trying to emancipate it. The Rev. Woodby (would be Socialist) was the speaker. Mr. Woodby is a Baptist preacher. He believes in emersion when it comes to religion, but when it comes to Socialism, he evidently has on Comrades! only had a sprinkle. He does not understand organization. The most important thing to understand. Organization is the all important feature now and hence forward. When the Reverend had shot his bazoo until he thought it was time to quit (quite a number of people had already gone home) he asked for questions. I immediately got up and challenged him to debate the question "That the Socialist Labor Party is the only political party worthy of the s pport of the workng class." He took back water. He said that he would not fight Socialists. I told him No wonder they did not like it, after that I was out to fight capitalism, and as his party was a betrayer of the working class. I considered him a good mark. At the close of the meeting I gave out bundle of "The Difference," that the California S. E. C. sent me to distribute. The leaflets went like ice water in July. Men crowded up in all directions o get them.

#### "A DISGRACEFUL DISTURBANCE" FOR FAIR.

To The Daily and Weekly People:----The tirade against the S. L. P., in the Milwaukee Social Democratic Herald of October 22, throws a ray of light on the "truthfulness" and "moral standing of the personnel of the Herald staff. Said article incidentally shows how the Social Democrats are wrought up over the fact that the ever "dwindling" S. L. P. is able to set up a rival meeting to the "ever-growing" S. D. P. so successfully that-to state the facts and tell the truth-they, the "great and mighty" had to betake themselves to their heels. Of course, it creates a very bad im-

pression to hold a street meeting as the Social Democrats did, and then see the S. L. P. put up their platform-Ergo-to see the crowd leaving them for, owing to them, the speaker can and flocking around the S. L. P. stand. This the Herald calls a "disgraceful disturbance."

The Herald ought to be a little more careful in its choice of words. It will have all its energy exhausted when the "dwindling" S. L. P. is still dealing blows. Remember that the S. L. P. has more surprises in stock for you. Thus, don't get so excited whenever we tickle you a little bit.

Santee, in opening, invited the old party politicians and their lieutenants, the bogus Socialists, to refute any statement he would make. He then took up the development of capitalism during the last forty years, showing the evolution from hand power to the labor-dis-placing machine. The speaker explained how the wage workers were being exploited for profits by the capitalist class, who own this machine. Santee captured his audience and held it for one hour and a half. Thirteen pamphlets were sold. Santee invited questions, but he discovered that in this section of the mtry it is difficult to get any one to ask one.

#### COLD NO BAR TO ATTENTION.

To the Daily and Weekly People:-Our usual open-air meeting was held at corner of Queen and Dovercourt Road last Saturday evening, and despite the coldness of the night a very attentive audience remained from start to finish. The writer acted as chairman, and, after stating the object of the meeting, introduced Comrade Martin, who gave a straight S. L. P. talk and dealt with some of the Laurier and Borden humbug, with which the workers are being fed in the present Dominion election. He showed conclusively that neither of these narties stand for the workers' interest, but only by fraudulently obtaining their votes were they able to obtain power, and that the S. L. P. is the only party in the civilized world that is for, by and of the working class. One old chap tried to show how smart

he was by asking a foolish question, and before the speaker could show the audience how foolish the smart guy was, the crowd did it effectively for him. Comrade Kemp followed and demons

In Colorado, Callfornia, Connecticut; Illinois, Indiana, Kentucky, Massachusetts, Michigan, nesota, Missouri, Montana, New ey, New York, Ohlo, Pennsylvania, Rhode Island, Texas, Virginia, Washinston and Wisconsin will the classous workingmen rally around the andard of Social Revolution, uninted by capitalist fusion and unmight by capitalist gold, there to again bring the Arm and Hammer fown upon the head of capitalism with a resounding whack!

With a platform demanding the UN-CONDITIONAL SURRENDER OF CAPITALISM, with a campaign vigorously and rigorously conducted in ac-cordance with this revolutionary principle, amid increased working class sympathy and understanding, the Soclalist Labor Party in these twenty tes looks forward to November with confidence and hope. Unlike the "Socialist," alias Social Democratic, party, which, with single tax and pubic ownership platforms, and campaigns ucted with Republican aid, is enavoring to capture the middle class disaffected "radical" Democratic ote, the Socialist Labor Party in these twenty States looks forward to an increase of genuinely class-conscious orkmen's votes!

Of all the battles fought by the S. L. P. phalanx in these twenty States the most interesting one, as usual, is taking place in New York. Here the enemies of uncompromising Socialism are straining every nerve to "wipe the S. L. P. out of existence," to quote their own language. Plans to this end, covring future as well as present conditions, have been laid. The Socialists of New York are actively at work defeating these plans, and they will so continue as long as circumstances require it.

In all these twenty States it behoover the S. L. As the navel string, designed to supocrats could stand. They attempted to ply nourishment to the foetus, at times threatens its life, and, if left slone, actually throttles the child, so the bulk of party, when they were shown by the what is called the Trades Union Movepaper itself that its publisher was an ment of America-typified by Samuel electoral candidate on their Minnesota Gompers, his lieutenants on the manna-Cleveland Civic Federation; and their American Federation of Labor in general -surely originating in a natural' navel string intended to nourish, promote and accomplish the emancipation of the working class, now threatens to throttle he is frequently introduced as "the man the Labor Movement, and as such has become what the capitalist "Wall Street here is another man they wish thrown Journal" triumphantly greeted it with-"One of the strongest obstacles in this country to Socialism."

The Trades Union is a breath of the class struggle, and as such its mission is to resist the encroachments of the capitalist class, drill the working class in the theoretic understanding of its class interests, solidify it for the accomplishment of its emancipation, and prepare the organized form of the Socialist Republic. The said Gompers-type of Unionism brings about exactly the reverse of each of these requirements.

So far from drilling the working class in the theoretic understanding of its interests, Gompers Unionism befogs the workingman's intellect with capitalist economics, and it hounds Socialist or working class economics out of its camp under the false pretence that such economic teachings are "politics", and that they "divide the working class."

So far from solidifying the working class Gompers Unionism keeps the workers hopelessly divided. By means of a perverse system of Chinese Walls of high initiation fees, high dues, restriction of apprentices and other guild devices intended to keep out members, and keep the jobs to itself. Gompers Unionism splits the working class into two camps that rend each other for jobs. And, with the effrontery and arrogance of the old guilds, Gompers Unionism claims "sacredness" for itself while it adds insult to injury by denouncing its com-

pulsory adversaries as "scabs." So far from resisting the encroachments of the capitalist class, Gompera Unionism acts as a "parachute" to the downward course of Labor's conditions, rendering the decline insensible and even seeking to conceal it. Even the doctored Census records a decline in earnings; the statistics of labor's "accidents" and mortality, imperfect though they are. read like the reports of murderous battles; and proverb wisdom, ever the reflex of wide observation, discloses the general condition of our working class in the him; he is too wo.m.out to be of service, and too poor to take care of himself."

So far, accordingly, from preparing the organized form of the Socialist Republic, Gompers Unionism is a prop of capitalist ociety; it is a wheel in the machinery of capitalism; it is essentially the reof capitalist infancy; it is a job-Trust-

and as such, is no part of the Labor Movement.

True to its guild character and capitalist spirit, Gompers Unionism is seen to foment racial animosities; it is seen resoluting in favor of the wars in which the nation's ruling class sacrifices the working class in pursuit of the giddy interests of the onpitalist class; it turns itself into advertising agencies for competing employers; it is seen a plastic tool in the hands of stock-jobbers, ready to help "bull" or "bear" the stock of a corporation by the stoppage or the initiation of a strike, as the case may be; -and so to the end of its guild-capitalist

track. In Europe, such organizations exist in Bussia, brought together by the industry of the Russian Police, or in England, where, as in America, the union nave string of the Labor Movement preceded the advent of Socialism. They are virtually unknown, or are known only as "confingrations under control" in France or in Germany, where the Socialist Movement had the lead, and where, as happened in Germany, the higher tone of Socialism broke up the abortion, at times with cudgels, when it put in its appearance in the shape of the Hirsch-Dunker unions. Accordingly, to claim for such organizations that they come under the category. of the bodies that the Internationi Socialist Congresses of Brussels, Zurich and London pronounced "a necessity in the struggle that makes for the emancipation of the working class", is an act of mixed knavery and stupidity that does credit to the beneficiaries of Gompers Unionism who dominate the so-called Socialist, alias Social Democratic party; and the act is exclusively one of knavery, when, again quoting those Congresses, the aforesaid beneficiaries declare it to be "the duty of all wage earners to join the unions of their trade"-unions, that,

as stated above, the bulk of the wage earners cannot join without they were to break through the doors with axes, and over the prostrate bodies of those selfsame Socialist, alias Social Democratic Gompers unionists. By the light of these facts we renew

the Party's declarations, made in 1896 and 1900, in congratulation of the birth of the Socialist Trade and Labor Alliance. And we urgently impress upon the members of the Socialist Labor Party and all sympathizers the necessity of ceaseless propaganda in the interest of that body; and we expect of them that they will join the Local Mixed or Trade Alliances which may now exist in their several localities, and do all that lies in their power to organize such Alliances where none now exist, to the end that the working class of the land may be correctly organized on the economic field, and the structure of the Socialist Republic may rise unhampered by the crumbling influences of the Gompers form of unionism, thus ending once and for all time such disgraceful happenings as have taken place on the field of Labor in this country under the guidance ghastly maxim: "Il a workingman has of the Gompers form of unionism-hapreached 40 years, take him out and shoot | penings which are calculated to strengthen the arm of the capitalist class in its work of Coolieizing the working class
