COLOMBIA CITY AND TOLLAND COUNTY.

The open warfare between Capital and Labor in Colorado, dur- ing the last few years, has culminated in an agitation for a strike among the miners at the gold mines at Tolland County. The workmen had maintained a local union, which was dissolved through the agency of spies, who furnished the mill-owners with a list of the names of the men in the organization. When the Western Fed- eration of Miners succeeded in establishing in the Smill and Tolland- mine districts a strong local body, the men turned out to be a grief to the pay of the mill-owners, and by reason of his position was enabled to furnish his masters with the names of the men involved.

As quickly as convenience would permit, the union men were discharged, for other reasons, it would seem, than their com- petition with the union. It quickly became apparent that, if this were allowed to continue, the local organization would be crippled and that the employer might be able to get the better of the strikers. The men had assembled in a room of the mines to protest against the discharge of the men, and in a大会 from ten to twelve Saturday af- ternoon, March 18, to the mill owner's Sunday maternity, a satisfactory agreement was made, between the representatives of the men and the managers of the Smill and Tolland mills. Mac- nell, President of the Western Federation of Miners, was present, but Mears, Moyer, and Heywood, at the request of the men, were directed to represent the union. Mears was pinked to act, and MacNell suddenly refused to accept of any of the demands of the strikers. The government agreed to withdraw all their men from the mills on the condition that the strikers would remove all on the premises and lay down their arms against the officers of the guard. They also agreed to call out a strike in the Tolland Creek district. He was at this point on the very edge of the sympathy of the men, and if he would only call out a strike in the Cripple Creek district, he might be cut off, as the weapon with the leaders of the public spirited men would force MacNell to ac- cede to their demands.

I AUGUST 5TH, 1902.

WHO then had agreed to Mediocrity.

When it became evident that nothing could be done, MacNell, President of the Western Federation of Miners, and the men of Cripple Creek and through the miners of the Smill and Tolland mills. All agreements were at an end at the effect that the men would continue their strike in the Cripple Creek district, and as a consequence, the men on those properties were called out.

The men of the Smill, Cripple Creek, and Tolland mills were called out, and the men of the Cripple Creek district were informed that the strike was continued.

GOOD-BYE, BRYAN.

His last great hope must have been to see the fall of the Democratic Party. The Solid South was one thing which Mr. Bryan's scheme helped to bring about and although he might have been unable to save it himself, he may well have been able to save it through the hands of others. His influence, whether good or bad, must remain for a long time to come.

AND THEN?

In these days, Minerva will be found in her sanctum. She sits with her head in her hands, and a glass of wine in her hand. She is pondering over the great question of whether the world is coming to an end. And she says, "So say we all—seriously!"

"I believe to-day that all those who have a right to control the government should be united in harness and not divided by internal action, we could sweep the South out of the way."

And the by-law for Jefferson has been adopted. Many a scolding of Jefferson by his patrons was done at the American as his idea. The Jeffersonians are still in the game, but they have failed to make any headway. The party is now going to be divided into two parts, the Free Soil party and the Democratic party. The Free Soil party will be the more powerful of the two.

SMITH WATERMAN.

The Smith Waterman is a small town in the county of Washington, state of Washington. It is located on the eastern side of the county, about ten miles from the county seat, which is called "Holly."
