BULWARK OF CAPITALISM
OR FRAMEWORK OF SOCIALISM?
AN HISTORICAL GLIMPSE

BY EDWARD R. Y. N. CITY.

(Concluded from last week.)

THE NATIONAL CIVIC FEDERATION

Here is another phase of the Federation that it is at variance with the sectional interests of the American Federation of Labor. It is for the Federation to recognize this as a phase of its development. Reference is here made to the Federation's alliance with the United States for the purpose of promoting social justice.

The National Civic Federation was organized in 1879. It is composed of citizens of the United States who have united to promote the welfare of the state and for the purpose of forming a system of government under which the American people shall have the right to participate in the management of their affairs.

In order to further this end, the National Civic Federation was formed to aid in the working out of that system of government under which the American people shall have the right to participate in the management of their affairs.

The existing condition of the nation is such that the success of our social program requires the cooperation of all who are interested in it.

The Socialists and Labor Alliance

The Socialists and Labor Alliance is the direct antithesis of the National Civic Federation. It has its roots in the economic and social conditions of the time, and it is based on the principle of collective action.

The Manifesto of the Socialists and Labor Alliance declares that the working class is the natural and proper leader of all the people and that it is the duty of all workers to form a working class organization to promote the common welfare of all workers.

The Socialists and Labor Alliance considers that the working class is the natural and proper leader of all the people and that it is the duty of all workers to form a working class organization to promote the common welfare of all workers.

The principle of collective action is based on the idea that the working class is the natural and proper leader of all the people and that it is the duty of all workers to form a working class organization to promote the common welfare of all workers.
THE BABBLING BROOK

“Who Lady Warwick Is, Lastest B. S. P. Apparitions”

London, Feb. 9. This is a tale that is winning high praise in Britain, especially among the women of the upper classes. It is the story of how one of London’s most prominent women, Lady Warwick, has been the subject of a new and exciting trend in social life. Lady Warwick is known for her elegance, her beauty, and her status as a member of the British aristocracy. Her name has become synonymous with sophistication and refinement. She is often seen attending social events, such as balls and parties, and her every move is scrutinized by the press and the public. This trend is expected to continue, with many other ladies following in her footsteps. The story of Lady Warwick has become a social phenomenon, with people around the world watching to see what she will do next. It is a story of success, power, and influence, and it is sure to capture the imagination of all who read it.

OFFICIALS

N. E. C. SUB-COMMITTEE

Regular meeting held February 17, with George A. Rice in the chair. The committee consisted of the following members: James M. Leach, Joseph A. Rice, John B. Rice, and George A. Rice. The meeting was called to order at 10:30 A.M. in the office of the committee, and the minutes of the previous meeting were read and approved. The secretary reported that the committee had met twice since the last meeting. The report was read and approved. The secretary then presented the following items for action:

1. A resolution for the purchase of $1,000 worth of stock in the National Electric Corporation, to be held in the name of the committee.

2. A report on the progress of the committee's work since the last meeting.

The committee then adjourned.
