Cleveland, July 26—Three of the most prominent labor leaders of the city, Edward G. Dolan, W. J. King, and James A. Brown, have been arrested on a charge of assault with intent to murder. They were charged with an attack on a number of union organizers and workers who have been engaged in the strike against the leaders of the United States Steel Corporation, which culminated in the recent violence at the Homestead Plant.

The arrests were made by a special police force, which has been appointed for the purpose of enforcing the law in this city. The leaders of the strike have been charged with a number of crimes, including the murder of a police officer and the attempted murder of several others.

The leaders of the strike have denied the charges and have appealed to the courts for a fair trial. They have been held in prison until the trial can be held.

Industrial Unionism: America Leads

(From the July Edinburgh, Socialist, "Socialist.")

While the idea of the "Socialist" is one that is often associated with the American Federation of Labor, it is an institution that has its roots in the early 20th century and is one of the most influential organizations in the history of labor in the United States. It has been at the forefront of the fight for workers' rights and has been instrumental in the development of industrial unionism.

The Socialists, led by Robert La Follette, fought for the rights of workers and were instrumental in the creation of the American Federation of Labor. They were active in the labor movement and were instrumental in the creation of the International Labor Organization. They were also active in the political arena, and their influence can be seen in the development of the Industrial Workers of the World.

TO BE WILLS OF POWER OR RESTRAIN THEM?

By E. W. G. B. (Special to the TWP)

The question of whether to grant Wills of Power to members of the Wills Association was raised at the recent meeting of the Association. The motion was carried by a large majority, with only a few abstentions.

Mr. J. H. Wills, the President, stated that the purpose of granting Wills of Power was to give the members of the Association greater flexibility in their operations and to enable them to carry out their work more effectively.

Mr. Wills also stressed the importance of maintaining close ties with the government and other organizations in order to ensure the success of the Association. He urged the members to work together to achieve this goal.

The meeting was adjourned after a brief discussion on other matters.

Mrs. Mary Wills, Secretary of the Wills Association, expressed her gratitude for the support received from the members and announced that the next meeting would be held on the first Tuesday of the following month.

The Wills Association is a non-profit organization that aims to promote the welfare of the community by providing assistance to those in need. The organization has been active in providing aid to families, individuals, and communities for several years.

The meeting was well attended and the atmosphere was positive and constructive.

**No Questions Will Be Considered That Come in Anonymous. Each Letter Must Be Signed.**

J. D. SPRINGFIELD, Ill.—The answer to your letter should be No, as the Working Class should have no governments of its own, but should have direct control over all workers and employers. There are no restrictions in this argument, in any sense. I am a member of the Socialist Workers Party and do not identify myself with any "Socialist" party. As far as I am aware, no one on this side of the border has ever made such an argument. The Socialist Workers Party is opposed to any form of organization that seeks to control the working class. We believe that the working class must be organized to control the means of production and distribution, and that this can only be done through direct action and the workers' own organizations.

**LEON TROTSKY**

No, this is a question of how to organize the workers. I agree that the working class must be organized, but this cannot be done through any form of political party. The workers must organize themselves through their own organizations, and these organizations must be controlled by the workers themselves. Only in this way can the working class gain control of the means of production and distribution.
