THE COAL SITUATION
PITTSBURGH INTERESTS EXPECT GREATEST MINING-TIP NEXT SPRING

The President of the Bituminous Trust and several members of the executive committee of the united Bituminous rings were sitting at a table in the hotel dining room. Mr. W. W. Robinson was asked, "What do you think the price of coal will be next spring?"

"I am not sure, but I will say that I think it will be higher than this year," was the response.

Robinson was asked, "Why do you think the price of coal will be higher next spring?"

"I don't know, but I think it will be higher," was his reply.

With a conclusion in writing, this will also extend to the price of other commodities.

Dr. M. T. Mitchell, of the United States Department of Agriculture, was asked, "What do you think the price of coal will be next spring?"

"I think it will be higher than this year," was his response.

Mitchell was asked, "Why do you think the price of coal will be higher next spring?"

"I don't know, but I think it will be higher," was his reply.

AN ADDRESS TO WAGE WORKERS

BY THE INDUSTRIAL WORKERS OF THE WORLD

The lack of address to those wage workers who have never been organized is a glaring omission in the historical development of the labor movement. The little labor men who have never been organized are the backbone of the working class. They are the employers and workers of the industrial world, the mechanics and manufacturers, the household workers and shop workers, the farmers and laborers. These are the men who have the power in the industrial world, the power to organize and to change the conditions of labor. They are the men who have the power to make the industrial world a better place to live in.

CRUFT UNION OR "JOB TRUSTS?"

The idea of organizing the working classes is a difficult one. There are many obstacles to this idea, but there are also many factors that encourage it. The working class is a large and powerful force, and it is necessary to organize them in order to achieve their goals. The industrial movement is the only way to achieve these goals, and it is necessary to organize the working class in order to achieve these goals.

LABOR CHANGES ITS METHOD TO SUIT CHANGED CONDITIONS

The labor movement has undergone a number of changes in recent years. These changes have been due to a variety of factors, including changes in the economy, changes in the structure of the labor movement, and changes in the attitudes of the workers. The labor movement has changed its methods in order to adapt to these changes.

THE LABORERS' JOURNAL

In dealing with their employers, the laborers have learned many ways. For example, they have learned how to recognize the signs of an impending strike, how to organize the workers in the plant, how to present their demands to the management, and how to negotiate with the employers.

THE UNITED EMPLOYERS

The effect of the industrial movement on the employers is far-reaching. The employers have been forced to recognize the power of the workers and to give in to their demands. They have been forced to make changes in their methods of operation, and to reduce the hours of work, and to raise the wages of the workers. They have been forced to recognize the power of the workers and to give in to their demands.

THE LABORERS' JOURNAL

We believe that it is necessary to organize the working class in order to achieve our goals. We believe that it is necessary to organize the working class in order to achieve our goals. We believe that it is necessary to organize the working class in order to achieve our goals.

**HALF-PRICE PEOPLE, SATURDAY, SEPTEMBER 19, 1937, Page 5**

**The Money Getting Craze and Socialism**

It is generally conceded that the United States is the classical ground of Capitalism and Socialism. In the United States Capitalism has attained its greatest development, from the political standpoint and the economic standpoint, in the sense that it has reached an unprecedented intensity. It is logical to assume that the greatest conflict will be between these two systems. There are no two views of the subject on which the conflict is more acute than on the question of the control of industry and the wealth of the people. The struggle, as it is being fought in the United States, is a struggle between the two political parties, the Republican and the Democratic. The Republican party is the party of Capitalism, and the Democratic party is the party of Socialism. The conflict is not purely a political conflict, but it is a conflict of ideas and of principles. If the conflict is to be resolved, it will be necessary to have a thorough understanding of the principles involved. The conflict is not a conflict between rich and poor, but it is a conflict between the rich and the poor, between the rich and the exploited, between the rich and the working class.

*From Socialist Labor Working Comrade.*

**ODD BEDFELLOWS!**

Well, we shall try to grapple with the social system as we find it, and to bring the working class closer to the Socialist Labor party. The Socialist Labor party is the party of the working class, and it is the party of the poor. It is the party of the people who are not well off, who are not able to get along, who are not able to get a fair share of the wealth that is produced by the country. The Socialist Labor party is the party of the people who are not able to get a fair share of the wealth that is produced by the country. It is the party of the people who are not able to get a fair share of the wealth that is produced by the country. It is the party of the people who are not able to get a fair share of the wealth that is produced by the country. It is the party of the people who are not able to get a fair share of the wealth that is produced by the country. It is the party of the people who are not able to get a fair share of the wealth that is produced by the country.

A.O. H. EVERTT, WASH. -The US. tariff is too high. One dollar per ton, as proposed by the Treasury Department, would bring on world war.

L. S. B., ROCKVILLE, CON., O. K. -While this vote is the first step in the right direction, it will not be enough without the consent of the Socialist party. The next national convention will be the time for us to support the candidate of the Radical Republican party whose name is on the ballot.

F. C. PHILADELPHIA, PA. -In your letter of May 20, you mentioned a number of the things we must do. I am not going to do this now. I am going to start a new movement and build a new party.

F. C. PHILADELPHIA, PA. -A good place to start is with the creation of a Socialist party. Then we must build it up and make it strong.

W. W. B., NEW YORK -How long is it going to take to build a Socialist party?

A. O. H. EVERTT, WASH. -It will take a number of years. We must be patient and persistent.

M. W. B., NEW YORK -The US. tariff is too high. One dollar per ton, as proposed by the Treasury Department, would bring on world war.

L. S. B., ROCKVILLE, CON., O. K. -An excellent movement. We should support it.

D. C. N., NEW YORK -What is the movement we are supporting?

A. O. H. EVERTT, WASH. -The movement is to support the candidate of the Radical Republican party whose name is on the ballot.

F. C. PHILADELPHIA, PA. -A good place to start is with the creation of a Socialist party. Then we must build it up and make it strong.

F. C. PHILADELPHIA, PA. -In your letter of May 20, you mentioned a number of the things we must do. I am not going to do this now. I am going to start a new movement and build a new party.
