GOMPERS' ATTACK REVIEWED

WESTERN FEDERATION OF MINEWORKERS' EXECUTIVE BOARD REPUDIATES ACCUSATION OF INFLICTING STRIKE

LETTERS TO THE EDITOR

COPPER MILL STRIKE AND THE LAWS

The battle of our class at all times and under all circumstances, I do not stand with any dog, ring or any one man for the purpose of making the world a more comfortable place for the workingman. I stand with our labor unions, against any and all attempts to impose any interference with their activities. The copper mill strike is an attempt to interfere with the activities of the Western Federation of Mineworkers and to prevent them from carrying on their work of organizing the miners of the country.

The Western Federation of Mineworkers is the only labor organization in the copper industry that represents the miners. It is the only organization that has the authority to negotiate with the companies and to settle disputes. The strike is a strike for higher wages, better working conditions, and recognition of the rights of the miners.

The strike is not only a matter of wages and working conditions, but it is also a matter of principle. The miners are fighting for their right to organize and to bargain collectively. The strike is not only a battle for the miners, but it is also a battle for all workers everywhere.

The strike is not only important to the miners, but it is also important to the country. The strike is a struggle for a better society, for a society that is based on the principles of justice, equality, and freedom. The strike is a struggle for a society in which all workers can organize and bargain collectively, and in which all workers have the right to a decent wage and working conditions.

The Western Federation of Mineworkers is the only organization that can represent the miners and negotiate with the companies. The strike is a struggle for the survival of the Federation, and for the survival of the union movement as a whole. The strike is a struggle for the future of the working class, and for the future of the country.

The strike is not only a struggle for the miners, but it is also a struggle for all workers everywhere. The strike is a struggle for a better society, a society in which all workers can organize and bargain collectively, and in which all workers have the right to a decent wage and working conditions.

The strike is a battle for the miners, but it is also a battle for all workers everywhere. The strike is a battle for a better society, a society in which all workers can organize and bargain collectively, and in which all workers have the right to a decent wage and working conditions.
COLLINS AND THE I. W. W.

The SHARE OF LABOR

We are frequently asked for advice as to books that should be read on certain subjects. This is a request that we appreciate, for our usual answer is that we need it yourself. As a result, we are asked to select a collection of standard works representative of some of the greatest authors, and limited to a few volumes. This is not a task we can undertake. We can supply the books, cloth bound, for 10 cents a volume, which in- clude, of course, all of them. Your order must be accompanied with cash, or your, or your employer, or anyone else, inadvertently giving you a present, tell us the name of the person to whom you wish the books to be sent. Orders must be accompanied with cash, or no orders will be filled.

Are you looking for the work, "The War," by John Reed? This work is entirely written from the point of view of those who sympathetically regarded the Bolshevik Revolution as a great step forward in the history of mankind. It contains the experiences and thoughts of those who worked in the various fronts, and their analysis of the results of the war. It is a classic work, and should be read by anyone interested in the history of the world. It is available from us for 10 cents a volume, or for $3.00 a set. Your order must be accompanied with cash, or no orders will be filled.

Are you looking for the work, "The Bolshevik Revolution," by Leon Trotsky? This work is entirely written from the point of view of those who sympathetically regarded the Bolshevik Revolution as a great step forward in the history of mankind. It contains the experiences and thoughts of those who worked in the various fronts, and their analysis of the results of the war. It is a classic work, and should be read by anyone interested in the history of the world. It is available from us for 10 cents a volume, or for $3.00 a set. Your order must be accompanied with cash, or no orders will be filled.

Are you looking for the work, "The Russian Revolution," by V.I. Lenin? This work is entirely written from the point of view of those who sympathetically regarded the Bolshevik Revolution as a great step forward in the history of mankind. It contains the experiences and thoughts of those who worked in the various fronts, and their analysis of the results of the war. It is a classic work, and should be read by anyone interested in the history of the world. It is available from us for 10 cents a volume, or for $3.00 a set. Your order must be accompanied with cash, or no orders will be filled.
