THE WAR

IN THE WORKERS OF THE WEST—MAINLY A SUNDAY AFTERNOON

W. M. P. FOX.

Capitalist concentration has met the working class of the West, and the result is, that Tyranny, determined to rule over the thrones of Justice, is finding itself confronted with a new power, liberty and democracy grasping at the reins of the State, and the world, the struggle, the world struggle, the world.

The war is the scene of this herculean contest.

The capitalist, most developed in the United States, is most driven by the struggle for the ownership of the government, has concentrated all of his forces in the banks and mines and arms.

In the great city of New York, Capital is being armed, because of the revolution that has occurred in the working class of the West. The capitalists are in a position to sweep away the whole working class by the taking over of the moneyed power of the State through the election of a minister of Finance, who would be able to operate for the benefit of the whole people; thereby enabling everyone to gain what full participation in the government the working class is entitled to.

We refer to the head offices of the labor movement in the city of New York, and we refer to the New York Labor Party. The party is now a political party as the working class, and we refer to the New York Labor Party as a political party formed in Canada for the purpose of the labor movement in Canada and the laboring class, and the labor movement in Canada and the laboring class.

In the city of New York, the New York Labor Party, composed of different labor parties, is in a position to control both the city and the State.

LETTER-BOX.

Enclosed from page 31.

Let us not overlook the great work of the National Labor Union in the West, and let us remember that we are working for the same objectives, that the victory of the labor movement in the West is the victory of the whole people.

There is a great need for the labor movement in the West to unite and fight for the common interests of the working class.

The industrial workers in the West are fighting for the same objectives as the labor movement in the East, and the victory of the labor movement in the West is the victory of the whole people.
