LATTER PROVES ITS INTERNAL INTEGRITY BY ORGANIZING

The Seattle Japanese Evening News' paper, The Comrade, clearly states the principle that it will not accept its business from the Japanese government, and that it will not ask for its assistance. The paper is published in English and is available for purchase at stores throughout the United States.

THOMAS TAPPAN

Challenged to Debate by the Cleveland Industrial Council.

Cleveland, O., May 10--The Cleveland Industrial Council of the United States has challenged Thomas Tappan, the famous American labor lawyer, to a debate on the subject of the organization of workers in the United States. Mr. Tappan has accepted the challenge and will answer the Cleveland Industrial Council's arguments at a future date.

America's Labor Struggle.

CAPITAL AND LABOR ON TRIAL

At the beginning of 1925, capital and labor were at odds over the issue of child labor. The National Labor Relations Board was established to resolve these disputes and to ensure the fair treatment of workers. The board's decision to ban the use of child labor was a major victory for labor and a significant step in the fight for workers' rights.

Through the efforts of the National Labor Relations Board, the use of child labor was gradually phased out over the next few decades. Today, the fight for workers' rights continues, with labor unions and other organizations working to ensure that workers are treated fairly and paid a living wage.

LIGHT.

To the Daily People:

I have received seventy-three of the Western Federation of Miners' illustrated handbills, and I am wondering why the name of the Worker's Club is not mentioned as one of the branches of the organization. I have distributed them in all the barber shops, newsstands, and drugstores, and as far as I can tell, they have not been noticed. I don't care what the name of the organization is; I just want to know if the Worker's Club is a branch of the organization.

With victory for the miners.
