Who Shall Have Control Over Industry? CAPITALISTS OR WORKERS?

FELLOW WAGE-WORKER,

We believe that you are in the same position as the working class all over the world. The world is divided into two classes: the workers whose condition is known as wage labor, and the capitalists who live by the sweat and toil of the workers. The workers are the greatest productive force of the world and their condition determines the nature of human civilization.

Fellow workers, we can and must unite to win our rights. The question is: shall we depend on the capitalists, their promises and demands, to improve our condition? Shall we allow the capitalists to rule the working class? Shall we remain in a condition of constant struggle, poverty, and want?

The American Federation of Labor, the International Workingmen’s Association, and the American Socialist Party believe that the working class should be in control of industry. The working class should own and operate the factories, mines, and farms. This is the only way to end the constant struggle and poverty of the working class. The working class must control industry to end the exploitation of the worker.

The International Workingmen’s Association believes that the working class must control industry. The working class must be in control of all industry, not just some, to end the constant struggle and poverty of the working class. The working class must control industry to end the exploitation of the worker.

The American Socialist Party believes that the working class must control industry. The working class must be in control of all industry, not just some, to end the constant struggle and poverty of the working class. The working class must control industry to end the exploitation of the worker.

We are all workers, and we must unite to win our rights. We must control industry to end the exploitation of the worker.

Let us unite and control industry. Let us control all industry, not just some, to end the constant struggle and poverty of the working class. Let us control industry to end the exploitation of the worker.

The International Workingmen’s Association believes that the working class must control industry. The working class must be in control of all industry, not just some, to end the constant struggle and poverty of the working class. I W W ORGANIZATION

SITUATION UP STATE

AN OPEN LETTER TO A CHUM

ON THE CONSERVATISM OF THE "BROTHEHOOD OF ENGINEERS," AND WHAT IT SIGNIFIES AT THE PRESENT TIME.

HEART AND GOMPERS WILL WIPER OUT SOCIAL DEMOCRACY.

The Labor Are Being Deserted for the "Brotherhood of Engineers," in Your last year's report, Mr. Witherspoon and Mr. Haefliger made the following diagnosis: "Neither of these associations is sufficiently liberal to warrant marching in an armory list, and if we have an opportunity, we shall try to retire the lodge of 0,000 members, which we have formed in our state." Mr. Witherspoon and Mr. Haefliger must be congratulated on their success in this respect, for their organization is developing rapidly. They have doubled their membership within a year, and are now a powerful force in the state. Their success is due to the fact that they have abandoned the false doctrine of "social democracy," and have substituted for it a policy of direct action. The "Brotherhood of Engineers" is the logical outgrowth of this policy, and it is to be expected that it will continue to grow and flourish. In the meantime, we shall continue to fight for the destruction of this organization, and to encourage the growth of socialism and trade unionism.

In the meantime, we shall continue to fight for the destruction of this organization, and to encourage the growth of socialism and trade unionism. 

THE STORY OF A STRIKE

(Continued from last week.)

Among our members, we have ex-presidents of the state branch, ex-presidents of local lodges, and members of the executive board who have organized local lodges in every central city we can name. The result is that the executive board of the "Brotherhood of Engineers," which is the most active and energetic of the various organizations, has more members than the combined membership of all the other organizations in the state. They are all active members of the executive board, and they have brought to bear the full weight of their influence on the work of the board. They have succeeded in having the strike settled by the order of the executive board, and they are now working to implement the terms of the settlement. We shall continue to fight for the destruction of the "Brotherhood of Engineers," and to encourage the growth of socialism and trade unionism. 

Trade unionism is recognized by the act of Congress, and is the law of the land. The "Brotherhood of Engineers" is the logical outgrowth of this policy, and it is to be expected that it will continue to grow and flourish. In the meantime, we shall continue to fight for the destruction of this organization, and to encourage the growth of socialism and trade unionism.

MORALITY AND INTEREST.

Two conflicting interests, the commodity producer and the consumer, are always setting up conflicting price levels.

The desires of the one person cannot be satisfied without the sacrifice of the other person.

The conflict of interest is not always in a conflict of interests.

When the interests of one person are in conflict with the interests of another person, the conflict of interest is not always in a conflict of interests.

When the interests of one person are in conflict with the interests of another person, the conflict of interest is not always in a conflict of interests.

THE BEST WAY.
To the Daily and Weekly People.
We believe the best way to help Mary, Joseph, and all the other people in the arrears of the L. R. W. L. to get the right ideas, is to let the mechanics of the world, the workers themselves, have a chance to talk it over with the people who are trying to help them. We do not want to put ourselves in the wrong by speaking the wrong things. Let us make it clear that we are not trying to turn the workers into a band of revolutionists, but that we are trying to help them to understand the value of the work that they are doing.

LETTER BOX.
OFF-SHORE ANSWERS TO CORRESPONDENTS.

NO QUESTIONS WILL BE CONSIDERED THAT COME IN ANONYMOUSLY.
ALL LETTERS MUST CARRY A BOX NUMBER ON THEIR ENVELOPES.

J. J. JERSEY CITY, N. J. — What is the difference between the interest of 6 per cent and 6.5 per cent? Both are $(0.06x100) = 6$ per cent, but the difference between the two is 0.5 per cent.

J. J. CHICAGO, III. — It is not a question of your method of calculation, but of the basis on which the interest is calculated. The interest on the $500 at 6 per cent is $30 per annum, and the interest on the $500 at 6.5 per cent is $32.25 per annum. The difference in interest is due to the difference in the rate of interest.

J. J. C. MONTREAL, CAN. — You are correct. The interest on the $500 at 6 per cent is $30 per annum, and the interest on the $500 at 6.5 per cent is $32.25 per annum. The difference in interest is due to the difference in the rate of interest.

LEONARD BOLAND.
Troy, Aug. 13 — [Comment on the political campaign in New York.]
Mr. Smith occurred at his home in Troy, where he had been staying for the last few days. He announced that he would be a candidate for the governorship of New York, and that he would make his campaign in opposition to the Republican Party and its candidates.

B. J. D., CHICAGO, III. — It is not a question of your method of calculation, but of the basis on which the interest is calculated. The interest on the $500 at 6 per cent is $30 per annum, and the interest on the $500 at 6.5 per cent is $32.25 per annum. The difference in interest is due to the difference in the rate of interest.

B. J. C. MONTREAL, CAN. — You are correct. The interest on the $500 at 6 per cent is $30 per annum, and the interest on the $500 at 6.5 per cent is $32.25 per annum. The difference in interest is due to the difference in the rate of interest.
