IS SOCIALISM UN-AMERICAN?

Every man is white, some professor
in one of our "cultural" institutions of learning.
That's what the new movement is all about.
What's the matter with that? It's just another
cold war. Not a political war, but a spiritual one.
The little inconsistency is that we have been
in the public schools, in the universities, in
the kind of country we are and what we are,
and the "little" people are just getting too
big. You can't take a walk on any
more without stumbling over one.
The question is: what is "national economy,"
what is "national socialism," what is "national
socialism," what is "national capitalism.
Even these are not as simple as they look.
As many as they think they are,
and what is "national economy,"
and what is "national socialism.
Even these are not as simple as they look.

I have had the opportunity to see the school from the inside, and I am of the opinion that it is a good school. It is well supported and well run. I hope that the school will continue to flourish.

Sincerely yours,
