IN BOISE, IDAHO

WADE R. PARKS FIRST LETTER ON CONDITIONS SURROUNDING TRIAL OF WM. D. HAYWOOD

Attorneys for Defense Are Speaking Indefinitely in the Interest of Their Clients—Claiming the Party Involved Duly, They Each Pardon Their Antagonists, With or Without a Pair of Tights—With Each Other Being One-Fronted—Prisoners Well Treated.

(From Correspondence to the Daily People and Industrial Bulletin)

The trial of WM. D. Haywood, of the Western Federation of Miners, opened yesterday in the court house in Butte, Montana, with a great deal of publicity and excitement. There is a great deal of interest in the case, both on the part of the public and the miners, and the trial is expected to be a most important one.

The defendants are charged with the murder of a Mr. J. B. Smith, who was shot in the crowd at the Butte Labor Day celebration. The case has been under investigation for some time, and the trial was expected to begin earlier, but the matter was held up by the necessity for the attorneys to go to Butte.

The defense attorneys are represented by a large number of local lawyers, and the prosecution is represented by the state's attorneys. The case is expected to be a long one, and it is anticipated that it will be a most interesting and important one.

The defense attorneys are expected to argue that the shooting was done in self-defense, and that the defendants had no other choice but to do as they did. The prosecution is expected to argue that the shooting was a premeditated murder, and that the defendants had no right to use force.

The trial is expected to be a long one, and it is anticipated that it will be a most interesting and important one. The case is expected to be a long one, and it is anticipated that it will be a most interesting and important one.

The Concentration of Wealth

By HENRY LAURENCE CALL

Read before the American Association for the Advancement of Science at the meeting held in Minneapolis, Minnesota, April 27, 1897.

In this noted contribution to economic science, Mr. Call has shown not only the startling degree and growth of wealth concentration in the United States, but also the necessity by which this wealth concentration would be hastened if the nation persisted in its present course of development. He has furthermore demonstrated the justice as well as the necessity of social reorganization. He showed that it would be impossible to escape from, or as the essence of the concentration of wealth.

The text suggests that the concentration of wealth is a problem that affects society and economy, and that the development of the nation is tied to this concentration.

THE SOUTH AND PRESENT

An article entitled "The South," in the "New York Times," says that the South is now in a state of revolt against the government. The South is now in a state of revolt against the government. The South is now in a state of revolt against the government.

THE PAPER AS AN AID TO SUICIDE

A correspondent to the "Times" says: "The Press as an aid to suicide is a very serious and dangerous evil. It is the opinion of suicide experts that suicide is the result of reading the Press. They say that the Press is filled with the tragic tales of the lives of those who have committed suicide, and that the Press is the only medium of communication that suicide experts can use to reach the minds of those who are contemplating suicide. They say that the Press is a source of information that suicide experts cannot use to reach the minds of those who are contemplating suicide. They say that the Press is a source of information that suicide experts cannot use to reach the minds of those who are contemplating suicide.

**BY S. W. W.**

Building Trades Council, 1232 South State St., Chicago, Ill., Chicago Labor News, July 13, 1897.

To the Editor of the "Labor News":

I have been a labor union member for over thirty years, and have always been a strong advocate of the principle that, in order to secure fair treatment for the working man, it is necessary to organize the working men of the world into similar unions. This principle has been one of the main reasons for my support of the labor movement, and I have always been active in promoting its interests. I have been a member of the Building Trades Council for many years, and have always worked for the advancement of the union, both in my own capacity and as a supporter of the general principles of labor. I am therefore writing to express my strong support of the union, and to urge all other members of the union to support it as well. I believe that the union is one of the most important institutions in the world, and I am confident that it will continue to grow and expand in the future.

Sincerely yours,

Sectional Rump Syndrome in Morning Papers As First Move—Famous War Correspondents Present At Trial To Aid—Hodgson Judge

After New Panel—Letters of Encouragement Pour In to Attempts for Adjustment

BRAIN, May 10—A sensational report was sprung in the morning papers today, drawn from the files of the New York Evening Post. The Post, with a circulation of 500,000, is under the control of the Post Publishing Company, and is owned by the late newspaper magnate, Joseph Pulitzer.

The report states that a secret meeting of the Post's editorial board was held last night, during which it was decided to publish a sensational story which would cause a great commotion throughout the country. The story, it is said, will be based on information obtained from a source within the Post's own ranks.

The meeting was attended by all the editors and reporters of the Post, including the总经理, who is known to be a strong supporter of the newspaper's policy.

The story, it is said, will be published in the morning edition of the Post, and will cause a sensation throughout the country. The newspaper's competitors are expected to follow suit, and the news will undoubtedly create a stir in the political and social world.

The Post's decision to publish the story is said to have been made after long and careful consideration. The newspaper's editors are convinced that the story contains important information that the public should be made aware of.

The news has created a great stir in the city, and people are eagerly anticipating the publication of the story in the morning edition of the Post.
