The present situation over the sale of spilled eggs introduces a subject which should not be neglected. Large quantities of stale and "spoiled" eggs are sold daily in most of the market places. The fact is that in order to supply the meat trades with the desirable class of eggs for further sale, the eggs must be purchased at the wholesale price and not at the retail price. The eggs are not "spilt" because of their being of any better quality or are more desirable to eat. The fact is that the eggs are "spilt" because of their being of a different grade of quality or are more desirable to eat. EVIDENCE OF CONSPIRACY BARRED
JUDGE WOOD SHUTS OUT MUCH OF MOWER'S TESTIMONY ON THE KID NAPPING

Despite the Court's rulings, the defense of the prisoners being taken to Idaho is being investigated.

Boise, Idaho, July 12—Moyer testified that on the evening of February 17, 1907, he was at the Burley railroad station when he was called by Myron DeJong, a deputy sheriff. When Moyer arrived, he was taken to the DeJong residence where Mr. DeJong and the two other prisoners were sitting. According to Moyer, the prisoners were accused of conspiracy in the kidnaping of a woman. Moyer also testified that he was told that the prisoners were using their influence to have the case dropped.

LINCUM'S PROPHECY

Lincoln's prophecy of the future of the country included the words, "The money power of the country is in the hands of a few, and cannot be easily redistributed..." This prophecy has been realized in the last century, as the money power is now held by a few large banking institutions.

The Lincoln book is being advertised in newspapers and bookstores across the country.

Roberts Rules of Order

Feeling the need in the party of an authoritative treatise on parliamentary law, the National Congress of the Great American Union of Labor (GAL) adopted a resolution in 1902 by which it was expressed that "The Roberts Rules of Order" was the official order of the day. The Roberts Rules of Order are a set of rules for conducting meetings and discussions in a democratic manner.

OPEN LETTER

W. W. Adress, Governor of Minn.

TO THE STATE DEPARTMENT,

Of the State Department of Minn.,

Dear Sir:

After due consideration of conditions obtaining on the Isthmus of Tehuantepec, we find it necessary to demand their withdrawal.

To John A. Johnson,

Governor of Minn.,

Mr. Johnson,

You are hereby requested to evacuate the Isthmus of Tehuantepec, as the United States government is not willing to extend the protectorate to that point. The Isthmus of Tehuantepec has been occupied by our government, and it is our intention to maintain our sovereignty over it.

Very truly yours,

[Signature]

UNCLE SAM AND BROTHER THOMAS

UNCLE SAM,—From what you say about the Isthmus of Tehuantepec, I will not vote for either.

[Signature]

THOMAS.—Then you will vote for the Socialist Labor Party?

[Signature]

THOMAS.—Why not?

[Signature]

UNCLE SAM.—I have no idea of a simple Socialist or Republican politician who would be elected to the working class.

THOMAS.—You don't know of a single Democratic or Republican politician who would be elected to the working class, do you?

[Signature]

UNCLE SAM.—Yes. Only such one as would be elected to the working class would be worth considering.

THOMAS.—I don't know either of any that would be elected to the working class.

[Signature]

THOMAS.—That is the only point to be considered. They may be helped along by the working class, but another, they never sell out to the working class in a subordinate capacity.

[Signature]

THOMAS.—I think that's all.

[Signature]

THOMAS.—Certainly. The constitution of the Socialist Labor Party is not so different.

[Signature]

THOMAS.—I believe he is not so different.

[Signature]

UNCLE SAM.—Well, that is another point. If he is not so different, I don't think his conduct is not approved by the working class.

THOMAS.—I think that he would be very welcome.

[Signature]

THOMAS.—That the working class would have a very good benefit.

[Signature]

UNCLE SAM.—That the working class would have a very good benefit.

THOMAS.—Then I would say that the working class would have a very good benefit.

THOMAS.—Then I would say that the working class would have a very good benefit.

THOMAS.—I think that he would be very welcome.
