STUTTGART CONGRESS

SEVEN DAYS' WORK REFLECTS INTERNATIONAL SOCIALIST PROGRESS

The largest Congress on Record-Adopted Policy-Women's Suffrage and Unions-Defends What France Demands

As the closing day of the International Socialist Congress at Stuttgart drew near, the delegates were busily occupied in preparing the resolutions which they would adopt. The Congress had been attended by a large number of delegates from all parts of the world, and the discussions had been animated and lively. The resolutions adopted by the Congress reflect the views of the international socialist movement and the demands of the working class.

At the close of the Congress, the delegates adopted a policy which includes the following:

1. Women's Suffrage
2. Unions
3. Defense of France's Demands

The adoption of these resolutions is a significant step forward in the international socialist movement. The Congress has shown that the international socialist movement is united in its demands for the advancement of the working class.

PRICE TWO CENTS...
BLOODY ALIKHANOFF
MONSTROUS RECORD OF RUSSIA’S SAVAGE, THE Czar’s ARBITRARY BUTCHER

General Alikhanoff, who was killed by a bomb in Alexandria, Russia, recently, was probably the most cruel and bloodthirsty butcher in the history of Russia. The official column of his crimes, which is so long and bloody, is so vast that it is impossible to estimate the number of innocent lives that he has taken. Alikhanoff was employed wherever there was revolution, and wherever there were revolutions, there was terror. He was with me in Tientsin in 1905 and in the South of Russia in 1907, and I was told by his comrades that his methods were brutal and ruthless. He threatened to crush everything in his path, and his methods were so cruel and inhuman that even his own comrades were afraid of him. The Russian people and the world at large were terrorized by his presence, and even the most courageous were afraid to stand up to him. Alikhanoff was a monster, and his death was a blow to the cause of justice and freedom in Russia.

Robert’s Rules of Order

For the governing of the board by the officers, and for the regulation of the business of the company, this rule shall be observed. All questions shall be decided by a majority vote, and no question shall be decided unless a majority of those present vote for it. The vote shall be taken by the teller, and recorded in the minutes. Any member may object to the question being put, and the chairman shall then give the|
CHILDMEN'S HOUR

DEAR LITTLE FRIENDS:

A little girl rang my door the other day and asked me if I had any little girls. They were selling tickets for the kindness of the living room of the 'Merry Little Workers' Club' of New York at 38 West 42nd Street.

This was not the first time either. Besides this kind of work they have a store which they peddle to the neighbors, but they are always selling the same old tickets for the same old rummage sale. The profits go towards the support of the club.

They are working hard to keep alive a little girl's world of fantasy and innocence. And so help them to carry on their work.

And so, dear child, if you have money to spare, give the 'Merry Little Workers' Club a hand.

Good evening, dear child.

THANK YOU!

TO THE AMERICAN GIRLS

My Dearest Girls;

I wonder, if any American girls, especially in the public schools, would like to tell us what they are doing to "living in a country which is the youngest in the world"? As an American girl I am interested to know it. I have noticed that the girls in schools are doing a great variety of work. They are sending tickets to the Armistice Day army fund. They are buying stamps for the Red Cross. They are giving away money to the church.

If you are interested in these things, I would like to know what you are doing to help the country. I think it would be interesting to know what the girls in other countries are doing. I am sure that you are all doing something to help.

Sincerely,

(End of letter)

STUTTGART CONGRESS

(Continued from page 11)

The declaration of principles of the work- men's congress aims at the recognition of the right of workers to form trade unions without discrimination, and to the formation of organizations complementary to the labor movement. It was adopted by the congress and is considered to be a great step forward in the development of organized labor in the United States.

A similar congress was held in London last September, and this congress, it is believed, will be even more successful. The congress will be held in Stuttgart in April, and it is expected that it will be attended by delegates from all parts of the world.

Miss FLYNN's PHILADELPHIA MEETING

MEETING, GREAT SUCCESS.

Big crowds turned out to hear Brillian Young, "the girl with the girl's voice," yesterday in the large hall of the Pennsylvania Hotel.

Miss FLYNN is touring the United States and Canada, and is expected to make a great success.

REDUCED TO 75 CENTS.

The story tells us to base the law on a...
TARY AT LOUISVILLE.
In his attempt to connect the South with the Negro question, for which he has, of late, been beaten up, he did not win a sale but a specie, and that there was one thing certain, the Negro was not going to be swept to the South of the Ohio. Little would he think that the triumphs of the whites would be left bare.

The Times reports that the Middleboroughs themselves are at the head of a large movement to keep the Negroes "in their place." So that the real meaning of the Middleboroughs is that the Negroes are to be kept in their place and not allowed to come up in the world.

BLOOD-LETTER CONLOGUES.

Last night, the Times reports, the Middleboroughs launched a new and more aggressive campaign against the Negroes. They have formed a League of Blood-letters, which they are to carry on their campaign.

The League is composed of a number of Middleboroughs, who have been active in the cause of the Middleboroughs. The League has as its objects the：</t>

History of Civilization

By Julian Laughlin

This book is a concise presentation of the development of mankind, tracing the evolution of ideas, social conditions and the like. The author endeavors to make the book as attractive as possible, and to make it understandable to all readers. The book is divided into five sections, each dealing with a different part of human history.

The first section covers the development of the early civilizations, from the earliest times to the fall of the Roman Empire. This section is followed by a section on the Middle Ages, from the fall of Rome to the Renaissance. The third section deals with the Age of Discovery and the Age of Enlightenment, from the Renaissance to the Industrial Revolution. The fourth section covers the development of modern civilization, from the Industrial Revolution to the present day. The fifth and final section is a comprehensive survey of the world today, including an examination of the current state of the world's major religions, political systems, and economic systems.

The book is well-organized and easy to read. Each section is divided into chapters, and each chapter is further divided into sections and subsections. The author uses a variety of methods to present the information, including charts, graphs, and maps. The book is also well-illustrated, with numerous black-and-white and color photographs throughout.

The book is an excellent resource for anyone interested in the history of civilization. It is written in a clear and concise style, and is suitable for both general readers and students of history.
