BY THE WAY
WHAT WE SEE AROUND THE ROAD

The amazing Mammoth invention or "dribble" is in practical operation. Whirlwinds are frequently seen tearing across the Atlantic. And now a hot wind has arisen that no knowledge or politics will help to follow in its wake. This storm is likely to create a new class of "whirlwinders". It is a mighty wave of interest to the entire country. It will destroy the whole system of the political parties, and will overthrow the whole of the present government. It is a mighty wave of interest in a new direction, and is likely to change the whole complexion of the country.

In authoritative reports of the recent events, you will find the most accurate account of the storm. In the United States, the storm is raging with great fury. The country is in a state of panic. The people are now in a state of uncertainty. The storm is likely to continue for a long time. It is a mighty wave of interest in a new direction.

The People is a good house to break the storm. They are real friends of the government. They will keep the storm away from the door. They will help to overcome the storm. They are real friends of the government.

Editorial Reviewer,

My Dear Sir,

I am sure you have finished reading your report of the Stuttgart Congress. It is in

the interests of the American Socialist party to suggest that you allow the majority of the

report. Mrs. Engels, the wife of the great German Socialist, is a member of the party, and

you will find her ideas in the report. She is an intelligent and able woman, and she

will not be easily duped. Her ideas are sound, and she is a real socialist.

Yours very truly,

A.M. Singh.
NOTES ON THE STUTTGART CONGRESS
By Frank Du Bose

THE TRADES UNION ISSUE.

The conference of this kind, because of its conservative leaning to the whole International Movement, is generally slighted by the Socialists. The reason is rather that the delegates are not accustomed to the method of handling business by the Congress. Several large factories have started conferences in the South, where it is hoped that the Grand Council of the Congress will not be unduly influenced by the fact that the Grand Council of the International has also had a similar conference. The Grand Council of the Congress is naturally inclined to follow the example of the Grand Council of the International, and it is for this reason that it has been decided to send a committee of three to the Congress to make investigations.

The Grand Council of the Congress has also decided to invite the Grand Council of the International to send a representative to the Congress.

Dear Sirs:

You have no idea what a hard luck march a poor Southern girl like me has had to go through. I have been running along as if, jumping up and down with joy, the idea that my letter would be printed in a newspaper. If you have noticed the advertisements of jobs which you may have heard. Have you noticed the advertisements of women who are being thrown out of their jobs, and who are looking for work? My name is John Mitchell, and I am one of them. I am a member of the Daughters of the American Revolution, and I am trying to find work. I have been working for the last three months as a nurse in a hospital, but I have lost my job and my wages have been taken away.

Yours truly,

John Mitchell

BEEF BROTH

A Story with an Application and a Question

By G. W. Yewson

At a Negro minister's performance many years ago, the audience listened in suspense as the preacher poured beef broth into a pot. The minister cooked three eggs for breakfast and the audience was asked to share in the meal. The eggs were broken into the broth, and the audience was urged to pray for the minister's health. The minister then poured the broth into glasses and distributed it to the audience. The glasses were filled with the broth and the audience was asked to drink it to the health of the minister.
