[Article discussing the money system and financial recommendations]

Mr. F. J. Frenzel  
Clout News, N.Y.:  
Dear Sir,—I daily receive your newspaper, which has always been of great value to me. 

On the last page of the November 19th issue, you wrote: "Dansky's, Inc. is reporting a profit of $500,000 for the first quarter of the year." This is a complete misrepresentation of their financial statements. 

The profits of Dansky's, Inc. for the first quarter of the year were actually $300,000, not $500,000. 

I believe it is important to correct this information to prevent further misunderstanding.

WHITHER ARE WE DRIFTING?

BY MICHAEL H. SHAYDIN, OF ILLINOIS UNIVERSITY

CONTINUING FROM LAST WEEK

With the close of the season something heavy fell upon the shoulders of the students of the University. It was the death of Illini football. With this the last vestige of the annals of the 1911 season was taken from us. A year or two ago President Eli, of Harvard, in a public address, reviewing the trade-unions movement of the state, described the average student as "a whisper in the ear of the world." Now that the cheer of football has been taken from us, let us try to present the world of the hereafter the students of Yale branded on the street-car men and truck drivers.

Rights and privileges carry with them responsibilities, and what men cannot properly use, they lose. How perfect are the rights and responsibilities of the ballot. Mr. Roy, the other day, warned us that the ballot is a weapon which belongs to the ballot are not to be used prodigally. If we work on the ballot, the ballot is perfectly legitimate. But if we abuse, we lose it. Everything is not to be used for the ballot, but the ballot is only a right, and not a weapon. If we abuse it, we lose our right to use it.

The student body is a group that should be given the right to vote, without prejudice to their personal motives. The right to vote should be a privilege that should be given to all students, without regard to race, creed, or color. Any movement that is not for the good of the student body should be opposed. If the student body chooses to use the ballot as a weapon, it should be allowed to do so. If it does not choose to use it, it should be denied the right to use it. The ballot is a privilege that should be given to all students, without regard to race, creed, or color. But if we abuse it, we lose our right to use it.

FOLLOWING "OUR SYSTEM" IN BUSINESS

We believe in keeping our customers informed. In this issue, we are pleased to introduce our "Following Our System" column, which will provide insights into the operations of our business and how we are working to improve our service.

TO AVOID COMPLIANCE AND DEATH

At the head of the editorial column of The Daily People, we have the following warning: "Those who fail to comply with our regulations will face severe consequences, including fines and imprisonment."

Intelligence

The part its speedy dissemination plays in the Revolutionary Movement

Although all the effects of the plaque are still felt, the financial situation is still in a highly unstable state and threatens to collapse at any moment.

All the nerves of communication are in the hands of the capitalist class

The control of the central line of the plaque and the press. On one hand, those who survive through these agencies are able to maintain their power and control over the last day's information on the plaque. In these days when events move so rapidly, these agencies have a great advantage to them.

The working class men are engaging in a great service to the movement, but they are not being compensated for their efforts. The capitalists have the upper hand.

The Daily People is the speediest medium of public intelligence

At our command, and it should be used to its fullest potential. "The Daily People" is the only independent newspaper in the country, and it is not beholden to any special interest or party.

The working class men are engaging in a great service to the movement, but they are not being compensated for their efforts. The capitalists have the upper hand.

A crash is sure to come, sooner or later. It will come, and that press, which have stood staunch and preserved their integrity, will be able to rally and drill the necessary political class for their own emancipation.

The working class is fast losing "confidence" in the capitalist press

"We are losing our confidence in the newspaper. It is not an honest and fearless medium, and it is not serving the best interests of the working class."

Push The Daily People

We must make the movement, put the revolutionary party on the march, and use our own voice. And in our own voice, we shall see the proletarian revolution of the future as it takes place and as it develops.
