PRICE TWO CENTS ONE DOLLAR PER YEAR.

### ECHOES

OF THE EVENTS WHICH CONCERN THE WORKER.

predicament common to all evil-doersevery statement they make kicks some other statement made by them in the stomach. They have now sworn out papers asking the Federal Court to dissolve the Goldfield Miners' Union on the emlimatic of the working class to-day. ground, among others, that the Union is Hela to the torture by chains not of part of the I. W. W. In March of this self-same year, the "Goldfield News," a mine-owners paper, was proclaiming in two-column headlines that the miners had left the I. W. W. in disgust.

In the "Miners' Magazine" of the 15th instant, John M. O'Neill audibly grinds his teeth at the circumstance that Vincent St. John, still suffering from his wound and needing the best of care, went through Salt Lake City to Chicago in a stateroom on the Los Angeles Limited. Editor O'Neill would, like the "Goldfield Gossip" prefer to have beard that St. John passed through Salt Lake City in his coffin. There are many and worse sorrowful disappointments in store for Editor O'Neill.

Mrs. Elinor Glyn, author of "Three Weeks," a book that has greatly shocked Mrs. Grundy, who was invited by the Pilorim Mothers for the express purpose of slighting her, gets back in good style this wise:-"I wish," she says, "I could describe that assembly with accuracy. Three-quarters of the Pilgrim Mothers were over 60. One-quarter was over 50, and there was one sly puss at my table aged 45." Mrs. Glyn is cruelly satirical.

Attorney General Bonaparte admits that "the financial stringency hit his pocketbook a pretty stiff blow." How can that be? The U. S. Treasury did not close its doors. The Attorney General's salary was paid on the nail. How can his pocketbook have been hit with any blow-stiff or medium-unless he is a speculator in stocks? The brazen ness of the admission is a sign that "they all do it."

The Panama Canal is furnishing surprises. Here comes a deputation of merchants with the complaint that they cannot compete with the Government stores. These merchants are now finding out that their mission is gone. They were used by the Roosevelt administra tion to produce a revolution and furnish the Roosevelt Administration with the pretext to take and hold the zone, and the Roosevelt Administration favorites to get offices and pap. These Panama merchants all the while believed the revolution was to furnish pap for themselves. Now they complain.

"It does not smell," observed the wily Roman Emperor to his unsophisticated son, who had objected to a tax upon a in the cases of celebrities and old solcertain malodorous thing. "It does not diers. The law still applies to workingdi Cini and Mrs. Eleanor Magee, the idow of Christopher L. Magee, the Pitteburg traction magnate and politiccian. The wealth of Mrs. Magee, though gathered by the methods of the traction magnate and politician Magee, does "not smell" to Count di Cini; nor does the Count's title, though dripping proletarian blood as all those European titles do, shock the nostrils of the widow. They are to marry.

Lo a miracle! The judge who premided at the trial of the engineer indicted for the frightful wreck at Terra Cotta, near Washington, about a year ago, did not instruct the jury to bring in a verdict of guilty, notwithstanding it was proved that the "wicked" engineer had been long without sleep through overwork. Left to themselves the jury acquitted the "wicked" work-Let none say the age of miracles is over.

Depew and Ambassador Whitelaw Reid had better "compare notes." De pew recently claimed for American Colleges the "rare distinction" of "never having produced a Socialist," in distincthe European Colleges that "breed them in large numbers." And now comes the Amba sador with a claim exactly the opposite. He charges that, contrary to American schools, "the schools turn out orderly boys and girls, respectful to those ab nt to law." Can it be ica, having outstripped Eng-

The Goldfield mine-owners are in the outstripping the old country in the out put of Socialism?

> Thomas Braun, the B. R. T. motorman nearly bleeding to death on his platform from veins ruptured by excessive standing in the service of the company, is iron, but of hunger, it allows itself to be drained of its life and soul for the benefit of an idle, dawdling, worthless class. Ten years is not too short a time to end the horror and free the victimbut the victim himself must rise and do the freeing.

Chili has outstripped her capitalist sisters. In Germany, France, England and even the United States strikers are killed whenever occasion requires. In Chili the killing is done also, but upon a larger scale. No fewer than 210 nitrate strikers were shot down at Iquique on the 26th of this month.

me people wonder how can that chold his own so long in Russia. How comes it that people do not see ugh the Czaristic film-flam of say-"My people want to curtail my rights?-there are two sides to all questions" These wondering people would not wonder if they realized how many people there are who, in this country, can be taken in with the twaddle of the Rev. Dr. H. C. Jennings of Cincinnati: "We are with the workingmen-but there are two sides to all questions" No more than in the Caar's instance, are there "two sides" to the question between the capitalist class and the working class.

As there is no see neither is there reed corace distinction in the capfamily. The United Hebrey Charities, an organization run by Jewish capitalists for the identical purposes that similar organizations are run by Gentile dittos, has "shut down." There being no cash to pay the officers -the real beneficiaries of the concernthe concern's occupation, like Othello's, was gone, and it quit.

Equality before the law? Let us see. Booth Tarkington, the Indiana author, was charged with having committed assault and battery. The complaint was made out, the witnesses in court, everything ready to proceed with the trial. Press dispatches give it that the judge on the bench "frowned" when the clerk called the illustrious defendant to the bar, and it developed that he had been "seen" by friends of the accused and had "continued the case indefinitely," which, in plain English, means that he turned the man loose without trial. The judge, by way of explanation, said that he was accustomed to act in this manner and kick men in the stomach and on

Mrs. Eddy has a \$1,000,000 plan to instruct the indigent in Christian Science It will take a good deal more than \$1. 000,000 to cause hungry men to believe the pangs of hunger that torment them are imaginary; or shelterless men to accept the view that it is merely a notion on their part to say they sleep in the open; or workingmen, who produce bil-lions of wealth and have nothing to show for it, to attribute the appearance of empty hands to a lack of Christian

All is grist that comes to the capitalist mill. Will a war with Japan injure the trade of a number of capitalists? May be. But these will recoup elves, at least somewhat, through the stock they hold in gun and such like factories, while the principal stock- ready in existence. Another excuse holders of such establishments will be getting ready to purchase some expenoble" husband for their daughters. Not less than 2,000 tons of war material, said to be the biggest consignment on record, are about to be shipped to the Philippines. The consignment contains 6,240,000 rounds of cartridges, 7,500 Springfield rifles, submarine mines etc.,

# LOOK AT THE OTHER SIDE

A correspondent fre Eureka, Cal., that he allows his own eyes of guld- | italist political burg; and the equally, takes issue with the Socialist Labor Party position on the immigration question and invites us to "look at the other side." Our correspondent takes a straightforward position, thereby improving the chances for deliberation He does not seek to blur the issue by the injection of the "Yellow Peril" outcry. He frankly opposes all imm!gration-whether from England or Japan He reasons that, if England were to ship to America/her surplus labor, the capitalists would be helped at both ends of the line-the relieving of the Labor Market in England would ease up things there for the capitalists, while the same men, coming to Amer ica, would have their eyes blinded by better wages, and thereby deaden the revolutionary pulse here. Our correspondent sums up his position well with this sentence: "We can hardly invite worse conditions for our own people, on the plea that we want to relieve suffering at other points. That would be humane impulses with eyes of guidance punched out."

The abstract philosophic mold in which our correspondent's argument' is cast is to be applauded. Even reforms, much more so revolutionary Movements, have a tendency, if not to degenerate into, at any rate to attract sentimentalism. It is a serious danger that ever besets the aspiration after Progress. The heart is ant to run away with the head-"the eyes of guidance to be punched out" by the humane impulse, as our correspondent felicitously puts it. Our correspondent is not seized with the ailment. He undepreyands that over la mer, who would save a drowning non-swimmer, would be "punching out his eyes of guidance" were he not to look out for himself while at his humane endeavor-the drowning non-swimmer would otherwise drag him down with him. Upon this principle of conduct our correspondent and the S. L. P. are at oneno real benefit can accrue to our fellow-proletarians abroad, and positive injury would result to us in America f an unguided humane sentiment were o dictate our course. Where our cor respondent errs is in the belief that the S. L. P. position on the question of immigration is the dictation of sentiment Where our correspondent errs is in failing to see that, intent though he be in allowing reason to guide, the fact is

ST. LOUIS AWAKE

ORGANIZER BUSY AND HOLDING

SUCESSFUL MEETINGS.

Spreading Party Literature and Make

ing Plans to Secure New Readers

for Press-Missouri to Be Organized

-Fakirs Lashed in Open Meetings-

Preliminaries to the Opening of the

St. Louis, Mo., December 27,-The

readers of our press will, we think, be

pleased to hear something from Sec-

tion St Louis. When our delegate

from the last National Convention re-

turned and gave his report, a number

of our members handed in their resig-

nation, leaving but a small number

of loyal members in the section, which

worked very hard to get signatures to

get our candidate on the official ballot

It developed that our candidate was

enjoined by the S. P. on account of

an existing law which reads:-That

no party should use the name, or part

of the name of any other party al-

was that about 400 signatures were

thrown out as illegal. The Party being

without the necessary funds could not

do otherwise than accept the condi-

However, our members watched

conditions closely, and kept the ground

prepared for the future agitation. Last

spring a German Branch was organiz-

ed with a membership of about 30. We

also got in closer touch with the Hun-

garian Federation; a city central com-

of carrying on agitation; also for the

tions as they were.

National Campaign

ance to be darkened by appearances.

The principle,- 'Proletarians of all countries unite!"-is not the product of sentiment. It is the product of the numerous solid facts-theoretical and practical-which must be kept in mind

First-The seemingly better wage and better conditions the hamigrant finds in America do retard the progress of the Revolution. It follows that it would be desirable to avoid such retardation. But it does not follow that, because a thing is desirable, therefore it can be done, or that the attempt must be beneficial. The remedy may prove worse than the disease. This consideration leads to the next ones-

Second-Experience teaches that economic error is fortified by false political tactics. It is important to purge the proletariat from the economic errors that capitalism inoculates them with. These economic errors can only be fortified by an anti-immigration agitation. For one thing, such agitation fatedly rivets the proletariat to some party or other of capitalism. The proletarian, who is induced to strain against immigration, is thereby induced to vote for a party of capitalism that promises to restrict immigration. He will support such a party as the only practical thing to do, seeing that such a party has to-day a chance of election, while a party of Socialism has none. By so much a party of Revolution ham-strings its own and only mission-the agitation, education and or ganization for the Revolution, clip and clear, without any of the temporary demands which properly belong to the economic Movement, however revolutionary the same may be,

Third-A further evil result of antimmigration agitation is the fomenting of the sufficiently deep-rooted racial prejudices. For every ounce of benefit that would accrue from a really successful anti-immigration agitation ten pounds, at least, of injury would be

Fourth-As a consequence of the Second consideration, anti-immigration agitation must have for its fatedly fatal effect the prolongation of the deusion that-in a country like America where Capital and Labor face each other without, as in Europe, the lingering remnants of feudalism-there is anything of practical consequence to be squeezed for Labor from the cap-

E. C. and with speakers through

out the country, and finally we secur-

ed Henry Jager of New York for one

month at least and, if possible, for an-

We now have with us Comrade

Jager, who is doing excellent work.

A special meeting was held November

28th, when Jager arrived here, for the

purpose of laying our plans for a suc-

cessful campaign. The first meeting

was held in Dewey Hall .which was

very successful. Jager is an excellent

speaker. When the meeting was closed

many intelligent questions were asked

and a collection was taken up, which

amounted to \$7.90. The meetings dur-

ing the week have not been marked

with a good success, but at every

meeting held on Sunday our halls were

packed. We have now rented light-

stones Hall at 11 and Franklin Ave.,

for the rest of the Sundays which Ja-

ger will remain with us. This is the

center of the city, and the heart of the

working class district. The meeting of

Sunday, December 15th, was especial-

er being: "The Scab," which was

ly successful, the subject of the speak-

handed very skillfully. Maybe the or-

ganized scabbery of the A. F. of L.

didn't get it. The enthusiasm was

shown by the request of the speaker.

that the audience should not take ur

much of his time by applauding. A

good deal of literature was sold and

as we have adopted a new plan for

the getting of new subs to our press,

with a good number of readers for the

oubtedly St. Louis will fall in line

if not even more fatal delusion, that the emancipation of the proletariat can be the work of a political legislative set-a delusion that breeds the female centipede, the pure and simple "physical forcist," or "direct actionist," or "autonomous dynamiter," as he variously styles himself.

Fifth--Anti-immigration agitation rivets proletarian ignorance upon the vital fact that, the wage slave being a merchandise, his price is bound to be regulated by a World's Market-just like leather or wheat.

Sixth-The day of Chinese Walls is gone by. The world is man's. No attempt to raise barriers against the stream can be of real benefit for the Working Class-the make-believe barriers result beneficially only for the Oscar Strauses, who earn distinction by showing how the barrier can be flanked, and for the Sargents, who serve as the Labor-Mask for the Strauses to have a free hand, and who receive little jobs for their work of

Accordingly-without enumerating any more reasons, though many more can be cited-even if the agitation be successful it can be successful only in appearance, while in point of fact the success is purchased at too dear a price. It is like swallowing a cat so that she may swallow the mouse that get into a man's stomach.

The human race is one. This is not sentiment it is a robust fact that none may ignore. In point of biology, environment is the determining factor. Heredity, so-called, is but transmitted environment, that subsequent environment can modify, alter and wipe out. In point of sociology, the best way to help ourselves is to help others, less, happily environed than ourselves, by improving their environment. If we do not, they will drag down ours, whether we keep them at home or not. Enlightened selfishness is humanity with guiding eyes unpunched. Thus the Marxian device-"Preletarians of all countries, unite!"-is planted upon biologic truth, and upon sociologic wisdom.

"Unrestricted immigration," while accompanied with temporary depressing effects, is the only safe principle-it is a necessary beacon for lasting improvement and social emancipation.

Our correspondent's article will be found elsewhere in this issue.

for the Party, all of which is now organs are not being neglected. You progressing. At the same time a fund may also hear in the near future that has been collected for the purpose of a Jewish branch has been launched. maintaining an organizer for St. Louis Those people have been in love with and vicinity. As Section St. Louis political action in the past, but ever was lacking of good speakers, corresince Jager is in the city, a great deal spondence was carried on with the of activity is shown by them.

> S. P. have boycotted our meetings, so we issued a leastet announcing the subject of the speaker at the next meeting would be:-- Does the S. P. represent the interest of the Working Class? These leaflets were spread broadcast and the capitalist papers gave also a little space, and this brought them to their knees. Their former candidate for Mayor, Wm. Brandt, and another shining light, Hildbrandt, better known as the "Union Label Worshin Builder" with about 15 more members came to our hall undoubtedly for the purpose of downing our speaker. But when they heard some of the evidence from our Party organs which Jager put before them, it proved too much for them. Hildebrandt went to the proprietor of the hall and told him that a speaker like Jager would ruin the reputation of his place and he should take it away from us.

The proprietor came up and listened to the speaker at least twenty minutes and satisfied himself that no such action was necessary. Jager stated that, when he was through speaking, any one could have the floor for the purpose of disproving his statements.

The S. P. members knew quite well that they would be unable to do so. so they resorted to the tactics of interrupting the speaker continuously, through which they expected to throw the meeting into a turmoil, thereby escaping further lashing. Not succeeding in that, they had to wait till the

## HOLDING ITS OWN

GOLDFIELD W. F. M. STILL MASTER OF THE SITUATION.

(Special Correspondence.)

this date the Western Federation of Miners is holding its own in the present struggle and have been able to lay up two or three tricks to their credit.

When the announcement was made that troops were on their way to Goldfield, and up to the time of their actual arrival, nearly everyone outside of the few knowing ones believed it to be simply a canard concocted by the daily press in the cause of sensationalism. When it proved otherwise, their incredulity was changed to surprise, and from that to deep murmurs of indignation.

Gov. Sparks was vigorously condemned for his action in ordering troops when there was no cause for so doing, there being absolutely no trouble or disturbance in the camp.

It is the common talk that at the time the order was issued Sparks was a guest of several prominent mine owners, including Guggenheim's representative, Senator Nixon, George Wingfield, and others. While this dinner was in progress a telegram arived from Washington addressed to Gov. Sparks, the contents of which stated that the administration would sanction the order of troops. At the right psychological moment this telegram was presented to the governor, and it is needless to say the scheme worked beautifully. Gov. Sparks, who, it is alleged, was intoxicated at the time (not only with the honor given him of clinking glasses with such a distinguished coterie of mine barons, but also as a result of a too close inspection of the wine when it possessed the rubicund glew, for both of which he has a fulsome partiality) was easily prevailed upon to issue the nefarious order.

The first evening of the troops' arrival many of the soldiers who were permitted to take in the town fratermzed penerally with the Federation boys. The latter gave them a good time and before the night was over many of the boys in blue were swearing allegiance to the miners' cause.

The first disappointment met by the mine owners was the refusal of Col. Reynolds, in charge of the troops, either to establish a military post (which, as everyone knows can be done only by Congressional action), or declare the camp under martial law.

Failing in this, they sent for their villing and servile tool, Gov. Sparks, thinking that the latter's persuasive. powers would have some effect upon the doughty colonel. In this, however, they reckoned without their host, for it is rumored that at this meeting there was a pronounced clash and even the winefumed brain of the governor was receptive enough to tumble to the fact that there would be no monkeying with Uncle Sam's band wagen while Col, Reynolds held the reins

The next disappointment met by the mine owners was the refusal of Col. Reynolds to furnish guard for the mines.

Only one property has made any pretension of starting work so far, and very few men have reported for duty-two of these, I regret to say, being Federation men. The union had pickets out and the latter succeeded in persuading twelve-If the all married men-to quit work. troops continue to remain neutral, and the mine owners do not resort to their usual cowardly and murderous tactics by blowing up some of the properties with the aid of Pinkerton spies, who are beginning to swarm over the camp like flies around a molasses hogshead, it is quite evident that the mine owners will have a hard time getting men. Ten of the men who went to work were dummies placed there, it is said, by the miners themselves to secure evidence against the mine owners for violating a Nevada statute in discriminating against any labor organization when employing men. Efforts will be made at once, it is stated, to get this law declared unconstitutional by the mine owners.

The pusilanimous whine set up by the mine owners and also the extraordinary tactics followed by Col. Reynolds in re fusing to stultify his sense of justice and manhood by allowing himself and men to be used as cat's paws in enforcing the contemptible scheme outlined by the mine owners (the object being to destroy the W. F. of M.) brought the great (?) and only Funston upon the scene in double-quick time. This pompous individual of Boloman-killing fame proceeded to square himself with the class who pay him to shoot down defenceless men and women, by stating that the "situation looked exceedingly grave," and

issued reports which were contradictory Goldfield, Nev., December 18 .- Up to to those of Col. Reynolds. In a recent interview he spewed out the following threat: "If the troops are called upon to act they will act promptly and summarily, and when they get through, Goldfield will not need troops for anotherfifty years." Just how this theatrical boaster proposes to carry into execution this threat he does not state. Probably, in his omnipotence he may decide with a wave of his mighty arm to send us all "glimmering to the realm of things that

Let us thank heaven, however, that for the present he has removed himself from the camp and retired to his social functions and dress parades. Col. Reynolds is left in charge, and from his actions up to the time of Funston's arrival, he has shown that he possesses more tact and judgment in his little finger than this Philippine upstart does in his whole hide, He has so far, at least, refrained from making any wild statements tending to arouse the passions of either side.

The commission sent by President Roosevelt is at work taking testimony. It is announced the commission is not here to arbitrate but simply to get information and report back to Washing-

There is a growing ueasiness among the employes of the railroads running into Goldfield and it is openly asserted that they will refuse to handle ore mined by non-union labor.

Up to the date of this writing, notwithstanding the factions existing in the Goldfield union, the latter is evincing a strength and solidarity which is sending the cold chills down the spinal column of the Mine Owners' Association. They imagined their well-laid plan was simply invincible and it would be like taking candy from children. But "man proposes and Gododisposes," and they have yet to learn that the members of Goldfield Union No. 220-the majority of whom bathed their breasts in the classconscious fires of Coeur d'Alene, Cripple Creek and other struggles of the W. F. of M. against their arrogant masters, have no trace of puerility in their make up and are very much alive to the situation. Chas. H. Ross.

Goldfield, December 25 .- The Mine Oprators' Association are having a report circulated to the effect that the miners' union is secreting arms and ammunition in the basement of the Miners' Union Hospital. Acting upon this rumor, an investigation has been started, and if the report proves true the arms will be confiscated by the authorities.

The citizens declare that the operators are starting their old schemes again in order to keep the troops; they also doclare that if any arms or ammunition be found it will be such as have been smuggled there by operators' agents themselves,

Goldfield, Nev., December 28 .- The Inbor situation at Goldfield has seen nochange since the word came that troops would be ordered back to San Francisco on December 30. The mine owners apparently have been playing a waiting game. Only one mine, the Combination, has been working, and that with only a half force.

After doing all within their power to bribe and mislead men, in the hope to have them scab in Goldfield, the mine owners, through one of their servants, Secretary Erb, stated to-day that the operators' association had waited as long as it intended to for local men to go to work, intending to give them the 'preference," and would begin immediately to bring in strike breakers from outside camps, where there are thousands of men thrown out of work.

Spokane December 28 .- "The power of the Western Federation of Miners is completely broken at Goldfield, and in that mining camp, at least, the organization will have to go out of business." So boasts Wilson S. Swain, assistant general manager for the Thiele detective agency, who returned from Goldfield a day or two ago.

"Goldfield and vicinity," said Swain, very closely approximate life in the original mining camps. While the miners have kept their shooting irons under cover the lawless element, which has no connection with the strike, is still husy shooting each other up.

(Continued on page 6.)

# DENVER'S GREATEST PRIVATE PENITENTIARY

By L. L., Denver, Colo.

The facts presented herein are an exact copy of the rules and regulations controlling the wage slaves of an institution that calls itself a dry goods store-and a great wonder to the city of Denver.

It proves itself, in its treatment of its employes, to be a great private prison. RULE No. I.

"All employes are requested to carefully register their number on the timeclock and be in their department ready for business by 8 o'clock a. m. sharp, except when it is their early week, when they are required to register and be in their department by 7:45 a. m. sharp.

"One employe registering for another is positively forbidden.

The payroll will be made up absolutely according to the time recorded by the registering clock. For failure to register in the morning or at noon, the employe will be marked absent by the timekeeper.

"Employes who are frequently absent frem duty without proper or reasonexcuse will be liable to discharge When it is necessary to remain away on account of illness, notice must be sent if possible to the head of depart-

Oh but aren't these capitalists a great bunch for law and order, upholders and bénefactors? While laws grace the statute books against working employes over to hours a week, here in "Denver's Greatest" the wage slaves are forced to hustle in before the regular time, and I know of two other large institutions where Denver's "prominent," the owners, make their clerks come in as early as 7 o'clock in the morning, and state that those selling goods at that hour will be given 5 per cent, on sach sales (at law-breaking hours).

Those clerks who do this early hour business, from 7 o'clock in the morning, are all members of Max Morris's retail clerks' union, and the honorable Max Merris, Secretary has his office within a stone's throw of these great institu-

This time clock gets, out of order accidentally on purpose in favor of the "henefactors," with the result that some wage slaves are docked for the "good of the service," although the only thing that was late was the mechanism of this artificial time seeper. And while the welfare of the clerks is filling the "minds" (pockets) of the employer, Mr. and Mrs. and Miss Wage Slave are being docked a half day's salary for forgetting to ring up on the clock, although they are slaving over thirteen hours this same day for the honorable profit

They can't have much left out of their salary, after the owner gets the half day's pay and fines and dues paid to treasureed and trusteed by the company. The Store Association does not allow girls or cash boys to become membut this clause allows "salesmen salesladies" who make salaries of \$4.50 per, to pay dues of 25 cents a with the privilege of not receiving any benefits for sickness or

death after leaving the store's employ. Not one cent can they get for what they sink in ,unless they stay in the store so, long they either get sick or die there.

"Employes who are continually late or tardy, without reasonable excuse, after having been cautioned the second time, will be liable to discharge."

That rule doesn't apply to or affect the slave driver who is busy with society

"Under all circumstances, without exception, the side door must be used as entrance and exit. "Employes an entering and leaving

the building will do so quietly. Do not run, taugh or talk loudly."

There is an instance where the workers prove their "individuality.") with restrictions on their lungs.

RULE No. 4. "Sixty minutes will be allowed for noonday lunch, except on busy days, when employes may be required to take shorter time.

Such rules do not affect the lunch and dinner hours of the boss.

RULE No. 5. "Employes will not visit each other during business hours."

Here is where they are made to stick for hours on one spot, without being barred like prisoners caged; but of course this doesn't prevent the bosses from making the young lady employes to come and visit them during "business"

\* RULE No. 18.

"Saleswomen are expected to dress in black. The exception may be white waists worn with black skirts."

That kind of dress places them in mourning for their sins. RULE No 10

"Assignment of salaries for the purpose of borrowing moey is absolutely forbidden."

How can they assign money out of their great salaries of \$4.50 per, and what kind of conditions are they residing under when they have to go borrowing money, perhaps because they don't happen to be officials of banks or insurance company senators.

#### · HORSES.

"Horses are to be treated humanely, Report sickness or lameness at once. Hitching and blanketing horses will be done by driver. Horses will not be driven out of alley faster than a walk. Upon returning to barn, horses will be allowed to walk at least the last four blocks before reaching barn."

Behold the care taken of the horses. which the bosses consider their property, which they value more than the lives of their wage slaves who risk health and cripple their limbs in the bosses' employ.

This is the condition which the craft unions of the American Federation of Labor call brotherly love.

Let us jump on the field where these labor misleading crooks hold sway today, and flash upon them the light of the truth and education of the Industrial Workers of the World.

Views of a New Englander on The nd Other Things . ....

District a ! \_ -Providence, R. I., December 21 .-Rossevelt's order to withdraw troops seems to me to have a string on it. Dec. 30th is the date the soldiers are | whether Italians, Norwegians, Mexito leave. You need no especial amount of brains to reason that in ten days the mine owners could do much damage to property, the power line for instance, or to a few outbuildings, etc. It is imperative that the men on strike do no overt act, or put themselves in a position to be accused of wrong-doing. Cool, calm, deliberate action on the part of the leaders will prevent trouble, the' I fear the Pinkerton agents. Still the President's desire for a third term may stay even that despicable outfit

Isn't Roosevelt a friend of labor, tho!! A clever actor, he plays to the gallery.

Fall River mills shut down for 16 days, se rumor says.

I attended the Unity Conference held ant Tuesday evening at No. 81 Dyer St. I asked mysbelf after it was all over, "Why is an S. P.?" The arauents put forth by the dissiples of mpty" Hannigen lacked but one tial-common sense. Would I had the pen of "Junius" to excoriat misleaders of the working class! One intelligent(?) exponent of Marx-

ences" had to do with tactics. He stated that in some countries a man might stab you in the back in the heat of passion, so you must use different tactics when approaching one of the Latin race than you would when tackling a Norwegian. Wasn't that deep? As Capitalism uses the same tactics in robbing the worker, with but one re- assist suitable natives. In order to exsuft, his or her enslavement, as I which to educate the workers. It is posed. to impress upon their minds that, cans, Japanese or Americans, they are, when working for wages, wage slaves, and their only "way out" is the grasping of that fact, and the taking over the means of production, distribution and transportation. Now, this will be brought about, in the writer's opinion, if the workers are organized industrially. That is, the electrical workers should be organized as one body from the chief engineer to the ordinary laborer. The clothing workers, likewise. In short, the workers would be as brothers, or comrades instead of being deadly enemies as they are now.

The number of voters means nothing. The number of thinkers means every-

A DROP IN THE HOUSE.

Taken judiciously a one-half gallon jug of good whiskey or brandy will last a month. You can have it sent to any part of the country, packed in a box and shipped at my risk, for \$1.53.

H. J. FRIEDMAN, Liquor Merchant. 874-876 Grand Ave., Chicago, Illa.

How the Island Empire Proposes to Exploit Korea and at the Same Time Find an Outlet for Its Surplus Popula-

From "Taiyo," Tokio, Japan.

There are many tracts of arable land left unused in Korea. It is, however, not to be expected that the existing wild lands there will be fully cultivated if they are left to the natives. Here in Japan the population is yearly increasing and the demand for food is proportionately becoming greater. Not a few enlightened persons in Japan have been thus arguing it most advisable to send a well-qualified and diligent section of the superfluous population to Korea and at the same time induce the Koreans to improve their agricultural methods. A number of prominent members of the two houses and influential business men, coonected with the Oriental Association (Toyo Kyokai), headed by General Marquis Katsura; ex-Premier, now propose the establishment of a big colonization company to be known as Toyo Takushoku Kaisha, or Oriental Colonization Company, the object of which is to engage in enterprises necessary for agricultural and colonization purposes and to provide the requisite funds.

A circular issued by the promoters of the above company says that in consequence of the new agreement between Japan and Korea, "Japan's responsibility to guide and develop Korea and bless Korea with benefits of civilization had become decidedly greater." The development of the national resources in Korea will insure the independence of the Kerean Treasury, which is now largely dependent upon Japan for the execution of administrative, judicial and financial improvements, and simultaneously promote the welfare of the Koreans and furnish the Japanese with goods produced by their own countrymen.

The transfer of a portion of the superfluous population of Japan to Korea to engage in agriculture there will be a very quick way of developing Korea's productive industry, increasing her revenue and encouraging the growth of commerce and industry. Japan's population is yearly increasing by 600,000. On the other hand, out of the total area of Korea of 21,413,000 cho\* (roughly 52,477,-000 acres), the land at present cultivated is only 1,800,000 cho (4.441.000 acres). i. e., only 8.5 per cent. Nevertheless the soil in Koreaa is comparatively fertile and great tracts of arable land are unused. The company proposes to improve agricultural methods in Korea and to increase irrigating facilities. Taking 15 per cent, of the total area as arable, it stands at 3,212,000 cho. Deducting therefrom 1,800,000 cho already cultivated, there still remains 1,412,000 cho. If one half thereof is used for rice fields and the others half form farms, there will be crops annually raised amounting in value to over 160,000,000 yen, i. e., at the yield of 15 yen from one tanes of rice fields and 8 yen from one tan of farmland. If further improvements are made, the profits would

probably go beyond this expectation. For the agricultural development of Korea the transfer of organized Japanese immigrants of a higher grade than those already there is thought to be imperative. For this purpose it is advisable a the same time to co-operate with or pedite the carrying out of this scheme understand it, there is but one way in the creation of a colonial bank is pro-

> The details of the above program remain to be settled and the actual commencement of the work outlined will probably take place in a year. It is, however, safe to state that the scheme is unequivocally supported by Resident-General Prince Ito and not a few political leaders in Japan, including Marquis Inouye. The promoters of the company include Baron Hirata, ex-Minister of Agriculture and Commerce, and Viscount Okabe. Ex-Premier Marquis Katsura, who accompanied the Crown Prince of Japan on his tour to Korea, is believed to be the moving spirit in the scheme.

> The Nagamori program mooted years ago, for the cultivation of wild lands in Korea turned out a failure, but the prospect for the realization of the idea initiated by the Oriental Colonization Company is apparently bright. The required tracts of lands will be purchased by the company from the Korean government at a reasonable price and be rented to Japanese settlers in small holdings. The settlers may finally acquire those tructs on the installment plan and become socalled peasant proprietors. The immediate objective of the company is Korea, but it will probably extend its scope beyoud the Yaul in due course.

GENERAL EXECUTIVE BOARD CONCLUDES SESSIONS.

Much Important Work Done-Outlook for Industrial Unionism Very Bright -G. E. B. Members Express Their Views As to the Situation.

For the first time in its history, the General Executive Board of the I. W. W. met in New York. The opening of the session was celebrated with the affair of Sunday last. Yesterday the committe finished the business before it and the members returned to their respective fields of labor.

General Secretary-Treasurer Trautmann issued the following statement as to the work done at this session: A definition was made of the scope of National Industrial Unions, to be organized as sub-divisions of Industrial Departments. Complete agreement was reached on this point, after which plans were formulated for the calling of a convention of textile workers, there being the requisite number of men and women engaged in that trade organized in the I. W. W. to render necessary the formation of a National Industrial Union. A manifesto will be issued to the textile workers and a convention is called for May I, to be held in Paterson, N. I.

It is stated, furthermore, that enough lumbermen are organized to warrant the establishment of a National Industrial Union in that industry. A convention will be held in August for this purpose.

Plans are being made to organize two other important industries. The telegraph and telephone workers are also being brought into the fold. Other matters were discussed among them being the placing of organizers and the constitution. The workers, says Trautmann, are ripe for the I. W. W.

Resolutions were adopted calling upon members of the I. W. W. to abstain from making the meetings of locals the scene of disputes regarding political parties which claim to represent the working class on the political field. These differences are to be settled in the respective political organizations, with the object of having carried into effect the declaration embodied in the Preamble, that the unification of the workers on the political field is to be desired.

G. E. B. member Rudolph Katz states that he spoke in Philadelphia before several unions of textile workers, at present independent. Several opponents of Industrial Unionism were present at these meetings, it being their object to pick a quarrel. When it became evident that the audience, as a whole, was with the L. W. W., the trouble didn't materialize.

B. H. Williams goes directly from New York to Philadelphia and will stay there for some time. It is expected that his work will show results for the I. W W

On the occasion of one of his visits to Scranton, Katz spoke to the coal miners at a meeting arranged by the I. W. W.

local at Old Forge. In that district the outlook is splendid. At one time, the United Mine Workers had a membership estimated at 92,000. This has dwindled to practically nothing and at a mass meeting arranged by the Civic-Federation-John-Mitchell organization, e attendance including

Yates, of New Bedford, reports progress for the propaganda of Industrial Unionism among the shoe workers in New England. Organizer Thompson spoke before several locals in Lynn, Mass., and it is expected that this will lead up to the formation of a National Industrial Union in the near future.

Yates tells an amusing story in connection with the work of Polish Organizer Woebert, who was told by a boss at the question Shaw puts, viz., "What baker who employs three or four men. that he would like to join the I. W. W. Woebert replied that he, the boss-baker, but, seeing that he was friendly to the organization, the I. W. W. would or-

"That will never do!" exclaimed the 'friend" of Industrial Unionism. "If you do that my men will be asking for as Europe is not prepared to take Amhigher wages and shorter hours and I erica in hand, hoping, perhaps, that couldn't stand that."

That Is Keen and Cutting Though Its Author Fears It May Be Taken for a Joke. 1940年

There are people who consider G. Bernard Shaw a prophet; some there be who think him a philosopher; others again dismiss him as a freak. I am not sure but that the distinguished gentleman is a compound of all three-the proportions, though, being unequal. But however it may be as to just what G. Bernard himself is, he must be given credit with getting off a good thing once in a while, and one of his latest good things is to be found in the December issue of Everybody's Magazine.

The good thing referred to is an article portraying the American people as "A Nation of Villagers." In the opening sentences Shaw declares that the Trusts have revealed the political imbecility of the nation and that, despite all our boasting, "neither ordinary security nor liberty are up to the monarchical standard of Central Europe.' Further along Shaw says: "The worst horrors of the child slavery which disgraced Lancashire a hundred years ago are present facts in the Carolina cotton mills and the Pennsylvania collieries although the remedy discovered by England is as well known to civilization as chloroform or limited liability." We would not hold from this that child labor is not to be found in England today, but we must admit that the indictment that he brings against child labor and the seeming "inability" to handle the question is a true one.

Speaking of our municipalities Shaw says: "I have only to point my finger at them and pass on; everybody will know what I mean," and he recalls that some years ago he advocated that "American cities should be managed from Europe by committees of capable Europeans trained in municipal affairs."

Shaw thinks that Americans are densely ignorant of their own countrychildish to the extreme of the simple New England villager-that is, they have been and are ignorant of the tremendous changes that have been going on all around them. "A year or two ago, however, it suddenly occurred to them that the village shopkeeper was in do for you." difficulties." The Trust was to blame put the Trust in the stocks but the Trust is too strong and the stocks too small.

"Like all villagers, the American believes all he sees in the papers, and sums up all social peril under the heads of Anarchism and Free Love. He feels that he must take steps to put down these two heresies. Accordingly, he asks everybody who wants to come to America the two questions: Are you an Anarchist? Are you a polygamist? And the emigrant's reply is, 'Certainly not, sir. I assure you I would not think of such a thing,' whereupon America solemnly says, 'Then you may come in." The effect of this childish precaution, observes Shaw, is "not to exclude Anarchists and Free Lovers, but to make sure that they will be liars as well." The profligate nobleman with his steam yacht carrying its cargo of ladies is not held up, and "you manufacture Free Love/at home on such a scale that I can buy it in any American city as easily as I can buy a typewriter; whilst as for Anarchism, the American Mr. Comstock with a force of police Constitution as interpreted by the Susimply a charter of Anarchism worst form of industrial Laissez Faire, or Let It Rip. If you point out these facts to an American, he first puts you in the stocks for mentioning improper subjects, and then thanks Heaven that America is purified and protected from all such Old World filth by these two straight questions to all comers: Are you an Anarchist? Are you a polygamist?"

We can see the American choler rise are we Europeans to do with such a people? How are we to govern them?" A sort of anti-Monroe doctrine, he decould not become a member of the local, clares ,is necessary to the world's welfare, and by it all the Americans are to be disfranchised and declared incapable, while Europe takes over the task of regulating and governing us.

What follows is "tuffer" yet: Japan will save it the trouble-" This in the face of the fleet that has sailed Comstocks, and are proud of it." on its "peaceful" mission!

Shaw points out that in vain does the small man-hard-working and God-fearing as he may be-in vain does he struggle against the Trust, brigand, tyrant octopus or Bluebeard that it is. And even thus there is no evidence that the not as wicked, relatively to his opportunity, as the Trust brigands. "Your railway bosses may-in fact, they domake railway traveling in America more railways; a wagon once a month to the observed, even by villagers. J. H.

# A FALSE IDEA

The Notion That, Because of His Wealth the Capitalist Is Superior to the Producer.

Three generations ago two men started life under the same conditions. To-day the descendant of one is a millionaire and employs the other man's descendant; therefore, this latter man who wants to be fair holds that the rich man's wealth is a result of superior ability. To this man, the Socialist theories emanate from envy.

Let us probe this alleged superiority. The capitalist is not a direct producer but he increases the social productiveness when he spends his energy in applying capital to its legitimate end, viz., to further present production.

Let us now see if this entitles him to such a large proportion of the collectively produced wealth. We will compare him with his fellow men. Here is the inventor who concentrates his energy on his problems, which, when solved, result in a saving of labor to mankind that is, an increase of the social productiveness: here is the laborer who subor dinates his whole life to his work, sacrifices his sight, hearing, limbs, life itself, to create this social wealth: here is the scientist who devotes his life to furthering man's intelligence, and the educator who develops it. They increase the social productiveness, for intelligence is the element of progress.

Is the capitalist's service to society greater than that of his fellow men? Is not his alleged superiority simply an abuse of power?

His function in the social body requires that the control of capital be vested in him; and as he beholds the vast amount of wealth produced by this means he conceives the superstitious idea that he is the incarnation of capital and what capital (the accumulated stock of the product of former labor) does in furthering present production is HIS work.

It is now up to the collective intelligence to remove that false impression by taking to itself the power to control and dispense that which itself has cre-Marie Miller. ated.

Providence, R. I.

nearest country town is the best he can We have four alternatives, says Shaw

I, Give up railway traveling; 2, if you can afford it, insure against accident and grin and bear it if you can't; 3, impose conditions of public safety; or 4, nationalize the railways as most Euro pean countries do. No. 1 he pronounces ridiculous; 3 requires a stronger government than a lot of villagers who are all anarchists at heart can produce; 4 requires not only a powerful government but highly capable administrative departments of permanent civil servants. No. 2 is what is left and he thinks that with other industries the case is the same, more or less.

America is mastered by its industries, governed by its Trusts. "A million and three quarter American children are being debauched, murdered, sweated as no horse can be sweated in a London street without the arrest of the sweater by the police, but it is a comfort to forget all about it, and to rejoice in asserting the determination of America to keep her family life pure by sending to seize on the usual annual exhibition preme Court and by popular opinion is of ordinary drawings made by students n an art school from statues and undraped models." This should cut deep into the hides of our Philistines-cut deep, because it is true.

"The press is no help, because the villagers are too simple-minded to run a newspaper, and must take those which the Trust provides them." With biting satire Shaw points out that we can ask the "village postmistress" to read all the printed matter that goes through her hands and not deliver anything that is wrong. Of course nothing that is harmful-to the Trusts goes through, for the Trusts appoint the village postmistress.

Show thinks that even Teddy is too much of a dreamer to be a fit president of the U.S. He invites him to cross the Atlantic and enjoy life in some comparatively civilized country, while as his sucessor he names "America's epitome, the Villager of Villagers-Mr. Anthony Comstock." "All Americans who are not criminals or artists are

Shaw confesses that he writes with a sort of desperate levity but it is be cause he feels how useless it is to at tempt to explain the matter in an American magazine. This, as he in a measure explains, is due to the possibility of those who might meet his discussion setting up the utterly irrelevant and trivial question whether or not he was serious. In this article Shaw is serious desperately serious, despite his "desper ate levity." It is sometimes a man't dangerous than war; but the village own fault that he is not always taken shopkeeper cannot provide you with seriously and clownishness is not unSECTION CALENDAR.

### KNOW THYSELF!

WORKINGMEN AND WOMEN, WHEN WILL YOU REALIZE THAT UN-DER CAPITALISM YOU ARE NOT PERSONS, BUT COM-MODITIES?

There is an adage extant which has | to be "at the moment when supply and it that "a man at forty is either a fool or'a physician." Inasmuch as the blemishes and brutalities of capitalism have fixed the workers' average age at about thirty years, and, consequently, cut the vast majority off fully ten years before the period of mature medical wisdom or otherwise, some may imagine the maxim has no concern for the working class. But that is a mistake, principally because of the fact that its grain of truth teaches knoweldge to be late and slowly acquired. It is also advisable to correct any misconceptions that our organ intends to seriously compete with any of the journals or scattered columns that specifically point out a competition amongst the purchasers; tion" as one which is capable of causing to the physical wrecks of capitalism the methods by which they can transform themselves into Hackenschmidts; except in so far as by showing the healthy effects that will follow from the social revolution, the Socialist is truly a "health" journal. Nevertheless, having in view their average age and the hard conditions of their lives, the workers must needs in some measure be physicians long before forty. Hence that precept of the ancients-by no means confined to matters bygienic-"Know

Daring philosophers exist, and have existed, who cheerfully define man as a "rational animal," but observation and experience rather makes us concur with the great Englishman, John Locke, who says that we are not born with innate knowledge, but only with power and faculties, the exercise of which by study, practice, and education, at last entitles us to be called "rational," just as, on the other hand, the neglect of these powers and potentialities leaves us no better than "naturals." Therefore, it is no impertinent assumption of superior wisdom on the part of those who have trained and exercised their understandings in, say, the political and economic spheres, when they take upon themselves the task of instructing their fellows, who, through many reasons, lack the necessary information.

Now, fellow-workers, lest you should be incredously staggered at our oftrepeated assertion that you are not a n or a woman, but a thing, a commodity, an article of merchandise, you have to bear in mind in company with your mistaken conception of "patriotism," that appearances are deceptive. Modern psychologists are agreed on this point as much as ancient Stoics, whose hilosophy was largely based on this fact. Without having the same purpose as this article, one of the illustrated papers once cleverly depicted man's liability to be deceived. It showed a 'limb' of the law" awakening, with the X-rays of his lantern, one who had dined not wisely but too well, and who had sunk to rest upon his own or some one else's doorstep. Hailing the phenon with genuine conviction and delight, the befogged one exclaimed that it was "the mosh magnifishal sunrise I've ever seen."

"But I'm not and never have been drunk," you cry. Well despite that fact, and also that you are a militant member of the anti-alcohol party, we submit that you ARE drunk, in the ganization. You are drunk, i.e., "poisoned" by your capitalist study and education, and the clean, clear-headed "Socialist" is right in assuring you that you are a Thing and not a human being. Nay, your position is worse than that, for you are a living organic, conscious, sensitive Thing, which is infinitely worse than an inorganic, lifeless, dead commodity that it is never conscious of any treatment meted out to it. That which constitutes you a commodity and proves our contention is the fact that the worker's comfort and personality, howsoever magnetic the latter may be, are not of any account when the capitalist can displace his or hers labor-power by machine introduction or cheaper laborpower, native or foreign. But, above all, you will best realize your commodity status and function in society by learning that your labor-power, the piece of merchandise that is so carnestly coveted by the parasite class, has a price and value governed by the same laws which fix the value of inorganic, lifeless commodities. By studying the Marxian pamphlet "Wage Labor and Capi-VALUE of all commodities, including power, is fixed by its cost of produc-The PRICE of a commodity is fixed by the degree of supply and demand for the commodity and the comition between buyers and sellers. Thus value and price are not the same things, except under certain circumstances, which the following citation from "Valse", Price, and Profit" shows

demand equilibrate each other, and therefore cease to act, the market price coincides with its real value, with the standard price round which its market prices oscillate." Thus the value of the commodity labor-power is its cost of production which "amounts to the cost of the laborer's subsistence and propagation." Or, to speak more plainly, that value is what is commonly called "a living wage."

But alas! the worker does not get his value, but only his price." Now price, as was said, is fixed by competition, and First Cause. A logical argument is full by a threefold competition at that! A of casual conjunction, such as "because," competition amongst the sellers of a commodity for the sale and the market: a competition, lastly, between buyers and sellers; and throughout all this competition cheapness figures largely as the grand object of the contest.

Now in such a fight how does the helpless worker fare, when he offers the inevitable result of the fierce competition in the workers' ranks is that the price of his labor-power commodity, i.e., his labor-power. The competition between the capitalist buyers of the commodity labor-power is practically nonthere is always a permanent unemployed army of workers and also that every single advertised vacant situation is applied for by labor-power sellers in numbers that range up to hundreds and even thousands,

So that the last phase of this competition, that between buyers and sellers, conducted under "freedom of contract" rules, it is a mere farce, owing, as above mentioned, to the terrible rivalry in the army of the wealth producers, compelling them to acept wages that mean a sort of living death.

It is patent that our cut-throat warfare among the workers is the cause of their miserable fate, the elimination of that cause by unionism will abolish its effects and benefit the toilers. And this was dimly grasped by the first trade unionists, and led to the formation of Labor's Attack upon Capital. The Intheir unions. But they only dimly saw this fact by a kind of intuition, just as everything had at first a crude existence, like language and reasoning before the sciences of grammar and logic were discovered. Unionism is a necessity for the workers in the light of everyday experience and scientific Socialist economic analysis, but the crude, original, pure and simple trades unionism, often exposed in our columns, is unscientific, out-of-date, and, consequently, corrupt

and ineffective, and therefore must give place to a new form of unionism that is soundly based on scientific Socialist principles; that IS up-to-date; a unionism that will be one universal workers' union, whose members shall be class-conscious Socialists. They must he Socialists because Socialism means the abolition of the political and economic monopoly which drives the laborpower possessors to sell it and themselves, into the wage-slavery imposed opon them by the capitalists. They must be Socialists because although complete or nearly complete elimination of competition would secure the workers the value of their labor-power, they must demand more than their value; they logical to you, because they are calculmust demand all their surplus value.

commodity labor power, he knows that, unlike the commodity pork chop, labor power has the faculty of producing more than its cost of production, i. e., its value. It can produce surplus value, which the helpless state of the worker enables the whole capitalist class to rob. under the names of rent, profit, interest,

This kind of unionism, that will make men and women and not commodities of the workers; that will seize the means of subsistence, the land, factories, etc., and so break and destroy capitalist monopoly on the economic field, is what we of the political Socialist Laber Party are navocating under the name of Industrial Unionism. The task of the S. L. P. is to break and destroy capitalist workers will learn that the dominance in the political sphere. The times are ripe for the economic and polthat species of commodity-called labor- itical revolutionary uprising of the workers to finally emancipate themselves from the commodity status, from wage slavery, and constitute themselves free men and women. Already the semi-conscious, necessity-driven onward movement of the working class is shaking the and irresistible is the force of logical

### "The world is governed by logic," says LOOK AT THE OTHER SIDE!

By Frank Reed, Eureka, Cal.

tion from the pages of The People)

composition and transformation is going that immigration of laborers to any on all around us, but far too slowly. Some opinions, bold and erect as they may still stand, are in reality but empty shells. One shove would be fatal. Why is it not given?" Where Mr. Birrel uses the term "opinions," let the term "institution" be substituted, not a very vital alteration, since an institution is the embodiment of a logical or illogical opinion. The next step is to know the meaning of a logical institution. A study of natural phencmena shows them to be links in a great chain of cause and effect, going right back to the original mysterious great since" "for," etc. Therefore it may be permissible to define a "logical institua desired effect or purpose.

Mr. Augustine Birrel, M.P. in his Obiter Dicta. "Truth as well as Providence is

always on the side of the strongest bat-

talions. An illogical opinion only re-

quires rope enough to hang itself. De-

Now, according to Mr. Birrel, an illogical opinion (institution) cannot stand, and we may rightly convert that into an equivalent phrase by saving that those institutions that are standing are his commodity Mbor-power, for sale to not illogical. Well, there are many inthe capitalist class buyers, to whom he is stitutions on their feet that we of the compelled to go in order that he and S. L. P. attack, such as the pure and his family may live, as the capitalists simple trade unions, the Independent have monopolized the factories, land, Labor Party, Social Democratic Federaand other means of subsistence? Well, tion, the Labor Party, Primrose League, etc., etc., and all these must be logical, and so they are also larger and wealthier than the S. L. P. These institutions, his wages, sinks far below the value of comprising within their ranks men and women ranging from ignorant but wellmeaning, class-unconscious workers, reformers, fakirs, down to thorough re existent, when it is borne in mind that actionaries, are logical in the eyes of their supporters, because they are capable of effecting just what makes us of the S. L. P. unceasingly attack them. We of the S. L. P. hold that, in spite of their erect position, they are but 'empty shells," and that "one shove would be fatal," if the shovers be numer

> "Why is it not given?" asks Mr. Birrel. And we say because of the labor fakirs and various species of capitalist press that alcoholize the workers with intellectual poison.

> Here are a few examples of human protectors of capitalism against the final, fatal shove,

In The Scotsman recently appeared an advertisement of the June Financial Review of Reviews, headed, "Fall in Securities! Capitalists' Fear of Socialism vestor's Defence (repeated four times) against Labor's Attack upon Capital.' Who do you imagine was one of the contributors to this anti-Socialist magazine? Why, no less a person than the no class-war "socialist," J. Keir Hardie, M.P.

Again, a circular has been issued, ad vising the workers of a "national conference on the unemployment of women dependent on their own earnings," under he ausipees of the Women's Industrial Council, the proceedings to be opened by the Lord Mayor of London at Guildhall on Tuesday, October 15th, 1907. Will Crooks and J. Ramsay Macdonald, M.P.'s, will be there, also Miss Macarthur (Women's Trade Union League), and hosts of other fakirs of the industrial world. Of the revolutionary questions that will be discussed, to save space, one only shall be mentioned, viz., "Lodgings for Women in Search of Work," by Mrs. workers' worst enemies and capitalism's

Fellow workers, if, speaking econom ically and politically, you DO NOT "know yourselves," these individuals and the institutions they represent will seem ated to effect the aim you desire, or When the capitalist buys the worker's think you desire. We say "think you desire," because if the men and women and their organizations are unmasked, you are bound to oppose them, as the S. L. P. and Industrial Unionists do But, on the contrary, if you know yourselves to be commodities with all the added disadvantage of being, different from boot-blacking, sensitive to pain and slavery; if you wish a complete elimination of cut-throat competition, such as is found between the pure and simple trade unions; if you desire all the wealth you produce in a Socialist Republic, wherein neither capitalist monopolists, class-wars, nor wage slavery shall exist; if in a word, you yearn to be free, fullydeveloped men and women, instead of animated pieces of merchandise, then there are two organizations that will alone seem logical to you. These two revolutionary organizations are the Industrial Union and the political Socialist Labor Party, because, in the light of your scientific knowledge, only these can effect the end you will long for-the complete emancipation of the working class .- "Edinburgh Socialist."

### The fact was brought out at the Stuttgart Congress (I get my informa-

country would have a tendency to intensify the sufferings of the laboring Fraught with Significance. class of that country. No one rose to dispute this declaration, so far as my memory serves me, and even though some delegate may have done so, he could not have succeeded in making it plain that laboring men coming from other countries to this, at this time, do not make it harder for those already here. in Tokyo is as follows: If other countries can ship all laborers not needed in their own countries over to us, how long will it take those countries to see the necessity of establishing the co-operative commonwealth? John Burns, in the House of Commons, a year or so back, declared that forty Second-The Japanese and English thousand pounds expended in sending

wage slaves out of the country was more effective than three times the amount expended in any other manner. But John Burns was by this action seek ing to ship a problem to other countries, for these countries to solve, that should have been solved in England. From the capitalists' point of view, John Burns was offering a very easy way out of a difficulty, but from the Socialists point of view it could hardly appear in the light of a good remedy, since the same men left at home might have become agitators and workers for the overthrow of a system that makes help-

less wage slaves out of them. In the countries to which they are sent, better wages may blind their eyes to actual conditions, while at the same time this stream of immigration into these other countries must tend to force down the standard of living, and thus add to the sufferings of those already in such country, besides making it harder to estab lish the co-operative commonwealth. We can hardly invite worse conditions

want to relieve suffering at other points, That would be humane impulses with the eyes of guidance punched out. We can hardly suppose that the immigrants coming to our country are all Socialists, or even any very large percentage of them. If they are Socialists, then they are needed more at home than here. I not Socialists, and few of them are, they are more likely to be against us for the first few years after coming here, than for us. One does not need to be a prophet to see that great trouble must come between capital and labor soon in this country, and who knows but what we are inviting men here from other countries to a bloody slaughter n which they are likely to get the worst of it? Look at Rocksprings, Wyoming, and to Vancouver, as well as to marry other slaughters and riots. It appears to me that each nation has a problem of its own on its hands, without John Burns' shipments of more and worse problems. Should this country seek a foreign market for its laborers, those who 'cry out against Haywood would be the very first men to protest with those other countries to which these wageslaves were being sent. More capital than truth may grow out of a contention, but the truth is the best in the

This article is answered editorially in this issue, under the same title.-Ed. The People.]

### WHY THE PANIC?

Banker Clews and Prof. Clark Blame It on Pretty Nearly Everything-Clark Nearer Than Clews to Mark

A large audience which had assembled in Cooper Union Thursday night to hear Henry Clews and J. B. Clark of Columbia, descant on the Causes of the Panic rose on its feet and greeted with a perfect howl of derision the statement of Clews, in answer to a question that "the financiers of Wall Street were the equal of any one in

For the rest Clews' long discourse putting the blame for the panic on everything from the Boer War to the Frisco earthquake, was productive of more restlessness than interest among the audience. His chief aim seemed to be to cleanse Roosevelt's skirts of whatever blame for the crisis might hang on them, and to declare that if he put the motto back on the coins he would be returned for a third term. "Most of those who criticise Roose velt," said Clews, "are either law breakers or incapables. Hughes, by his insurance investigations is as much to blame for the loss of confidence as Roosevelt. Why is the latter blamed and the former praised?" His speech as a whole fell flat.

Clark's address got down to the point in good time. He declared that the slump was due to inflated valuations and was only the natural process of squeezing out the water. As a preventive of future repetitions, he proposed a government not afraid to do the cobwebs from the minds of the its duty, and a set of financiers too

# INDUSTRY

Another Anglo - Japanese Alliance

According to a statement made by K. Inouve, the contract the Hokkaido Colliery and Steamship Company has concluded with the representatives of the Armstrong and Vickers Companies

First-The Armstrong and Vickers Companies, in co-operation with the Hokkaido Colliery and Steamship Company, will establish a steel foundry in Japan, with a capital of ten million

companies to subscribe half the capital each, and to have four directors each. Third-the Hokkaido Colliery to sup-

ply coal and the Amstrong and Vickers to supply fron material and engineers, Fourth-Neither party to establish a imilar foundry in the Far East.

were concluded:

First-The new concern to engage in the manufacture of ammunition, and the construction of merchantmen and warships in addition to the making

Second-For the purpose Armstrong and Vicker will issue debentures to the extent of ten million ven.

Third-Armstrong and Vickers will abolish their sale agents in the Far East and transfer the sale business to the steel foundry, paying to it a commission of 2.5 per cent,

Fourth-The Japanese Steel Foundry will give preference to the above English Companies in case the foundry is for our own people, on the plea that we about to purchase goods by tender and prices offered are equal.

> Fifth-Mr. Kakugoro Inouve is to be president and Mr. Sukemune Kondo a director, in addition to eight directors mentioned above.

> Sixth-Armstrong and Vickers to assign gratis their technical privileges, secretageter, sto the steel founday, and the Hokkaldo Colliery and Steamship Company to cede to the concern the building lot at Murorau, at cost price -

NEW YORF LABOR NEWS

# ETTOR TO SPARKS

I. W. W. ORGANIZER SPEAKS HIS MIND.

To John Sparks, Governor of Nevada.

We, a body of wage workers of Salt Lake, Utah, address to you this letter of protest because of your recent acts against the interest of the workers of Goldfield. We find the following facts upon which to base our protest:

1st. United States troops sent in to Goldfield, being requested by the Mine Owners' Association through you, and ordered to Goldfield by President Roosevelt at your request.

2nd. We find that the State law of Nevada, relating to currency, calls for United States money in all financial transactions, unless freely agreed to

3rd The miners of Goldfield when offered "scrip" of the mine owners in payment for work performed, refuse to accept such "scrip," unless guaranteed by the output of ore.

4th. The sheriff of Goldfield admits Mr. Inouye went to London and the that no act of violence had been perpet-following supplementary contracts, rated by the miners before the arrival of, or caling for, the troops, or even since.

> 5th. We find that although the mine masters claim they have not the currency for .work dene, nevertheless since the strike has been declared, and the troops are filling the atmosphere with "law and order" music, the mine owners are offering to pay all wages in gold provided that a twenty per cent. reduction is accepted; which would meaan a reduction of \$1 per day.

You claim that you are actuated by the desire to preserve law and order, on account of the oath you took when you were seated as Governor of Nevada. You further state in your request for soldiers that property must be protected. Information is at hand that you are particularly interested in keeping your oath of office. Now let us see what are the facts. The faw provides for United States currency; you swore to uphold the law. You are the president of the Nevada Goldfield Mining, Milling Company, which company is a part of the Mine Owners' Association.

The mine owners have decided to viplate the law and order which you talk so much about

Now it would be interesting to us to know why you did not invoke the aid of the Federal troops to punish the real violators of the law-your partners, the mine owners. You say that the troops are to favor neither the workers nor the property owners. Well, sir, that talk has come to us before, but at all times we find the soldiery used for the sole interest of those who own the workshops of the nation.

It may be well for you and your class, from the small "wildcat" speculator to the man in the White House, to attempt to throw sand in the eyes of the workers who do not understand their position in society, but we assure you that we are wise to the game that is being played in Goldfield. Your real purpose, as a member of the capitalist class, is to reduce wages in order to increase profits. You The increase is remarkable, compared | have not asked for troops as governor.

> mittee of the capitalist class," and your | would be no petty squabbles between the action goes to prove the truth of the unions of the different crafts and trades our fellow workers, Joseph Smith and H. R. Preston, are in jail and their only offense is that of protecting themselves against their attempted murder on the part of one Silva, a member of your class? Did you call the militia when those men were convicted on the perjured testimouy of a hired stool pigeon. one Claiborn, a Pinkerton spy? Did you call out the militia when Mullanev shot. without cause innocent men in the street and our brave leader, Vincent St. John was one of the victims? Did you think of law and order when such a murderer as Mullaney was allowed his liberty on \$2,000 bail? No, your notion of law and order is the same as the rest of your

Law and order means the law and order of the gun, the bayonet and the poiceman's club always directed against the working class; law and order means that workers are to be put in the "bull pen" and workers' wives and sisters in the "cow pen" for daring to stand for their interests. We know that if you can reduce the

wages of the revolutionary miners of Goldfield, your class all over the country will take courage and reduce wages like wise, and thereby be able to have a few more costly monkey and poodle dog dinners, and more of their daughters may go to Europe and purchase some ratten blue blood prince, duke or other worthless adornments of that nature.

You and your class talk to us about "financial panie" etc., but we understand what it means. It simply means we have produced so much for you and your class that now the warehouses are full and we must wait until you start a war or create new markets before we will enjoy some more "prosperity." Those who are addressing this letter are workers who are conscious of their mission. By using the bayonet and sword against us you may defeat us this time, but we will gather strength and then woe be to those who stand in the way. You may be asking, "What have your men in Utah to do with the workers in Nevada?"; and we reply that we are members of one class, the working class, and we are organized and inspired by the same spirit that inspires the capitalists of this country in passing an eulogy over you-"An injury to one is an injury to all."

This, in short, is our reason for protest and we demand the immediate withdrawal of the troops from Goldfield. You may smile and laugh at this demand, but we will say that whatever your or your class may do, the workers are organizing industrially in the Industrial Workers of the World. By your action you are speeding the day when, in their organized strength and knowledge, they will "take and hold that which they produce by their labor," then your class will not pass any bogus money on us, but will be made to work for their living.

Sincerely yours, Joseph J. Ettor, National Organizer, Industrial Workers of the World.

Adopted unanimously at workers' mass meeting held December 15, 1907, in the Federation of Labor Hall.

Wm. Knight, Chairman.

The "Salt Lake Republican," a leading capitalist organ took notice of our meeting in the following style:

[Enclosure.]

I. W. W. CONDEMNS GOVERNOR th Mars of SPARKS.

The mass meeting at the Federation of Labor Hall called last night by the I W. W. agitators, now in the city, adopted a letter to be sent to Governor Sparks of Nevada in which he was condemned in the most drastic terms for big action in calling on the United States

The first words of the message are: "We, the wage carners of Salt Lake," and coming from them the governor was informed that he was "the legal tool of the capitalists" and that his real purpose in calling the troops was "to reduce wages in Goldfield and eventualy in the entire State ".

He was also informed that in their opinion the fact that he was a large owner in several mining properties had much to do with his action

The adoption of this letter was preecded by William J. Knight and August Gillhaus and followed by a long talk by Joseph J. Ettor of San Francisco. Ettor went deeply into the causes that have made the I. W. W. necessary and the results that it hoped to accomplish. He explained by its means the working class of the world would be united into one statement. You talk of "law and order; | that had been used by the money class well, let us ask, How is it that two of to so great advantage. He also called President Roosevelt the "master capitalist" and arraigned him bitterly for the "rifle dict" that he had furnished.

> At the conclusion of the meeting several applications were received by those wishing to join the union, and it was announced that the total was 108 ...

namic conditions of the Proideal of capitalism; and the standard them and it. of morality, sincerely clung to by such a Prohibitionist, neatly adjusts itself to the reflex cast by his economic necessities. He looks upon himself as a bene factor of humanity in that he "gives work to wage earners," and he will not deprive himself of the opportunity to "benevolent" by abolishing the class that needs his "benevolence."

The economic conditions of the church member, whose revenue is mainly from stock in the Liquor Trust or in breweries, reflect the ideal of "No sumptuary legislation!": and the standard of morality. ber or members neatly adjusts itself to the reflex east by his or their eco. 50 cents from you, you have 50 cents nomic necessities. He looks upon him- left. The principle is correct in maself as an apostle of human freedom, thematics, it is incorrect in economics. bence as a betterer of humanity.

The economic conditions of the W. C. T. U. (Women's Christian Temperance | the mathematics of our Single Tax Union) member, whose husband or father is a coal mine owner, reflect the ideal that, if you abolish the tiger, there of "Child labor builds up the man!"; and the standard of morality, sincerely clung to by such a W. C. T. U. wife or daughter, neatly adjusts itself to the thematics. If the tiger is abolished, the reflex cast by her economic necessities.

in the way of the "unnerving Socialist theory," which opposes child labor.

The economic conditions of the Y. M. C. A. (Young Men's Christian Association) member, who holds stock in railroads reflect the ideal of "Discrimination in rates": and the standard of morality. sincerely clung to by him, neatly adjusts itself to the reflex cast by his economic necessities. He raves with righteour indignation against those Prohibitionists. W. C. T. U.'s, Y. M. C. A.'s and church members, who, having opposite interests "object," and he proves to his own utmost satisfaction that, unless his ideal prevails, "the country will fall into Anarchy," etc., etc.

Unite in one political party, Socialists Prohibitionists, W. C. T. U.'s, Y. M. C. A.'s and church members generally upon the abstract principle of "human betterment," and the result will be that Prohibitionists, W. C. T. U.'s, Y. M. C. A's and the aforenamed church mem bers will be in one another's hair; and all of them in the hair of the Socialists: and the Socialists in the hair-and just ly so-of all their "political allies."

There is nothing to suppose in the case. Politcial unity depends upon oneness of interests.-That is the rock on which to build, not sentiment.

#### FANATICISM!

A new cry is springing upon the breezes raised by the Labor Movement-"Fanaticism!"

Does a politician, sailing under the colors of Socialism, dicker and deal with capitalist politicians, whom he denounces on the stump as the political agents of the labor-skinning capitalists, and does the Socialist Labor Party thereupon ask, What is the difference between you and the capitalist political opponent of the politician with whom you dicker and deal?—"Fanaticism!" is the answer howled back.

Does a "labor paper" go divvy with a Union officer who embezzles Union funds, and does the S. L. P. denounce the act as criminal !- "Fanaticism!" is the all-sufficient answer given.

Does a labor paper take lying advertisements from capitalist concerns, and in return for such kindness hush up the malfeasances of such concern, and does for the next Presidential election. The the S. L. P. point the finger of scorn at such a practice?—"Fanaticism!" is an-following passage:

More strength to the Fanatics! Let the stream of Fanaticism broaden and hibitionist, who has factories, reflect the deepen! The country will soon need

### MATHEMATICS IN ECONOMICS.

A correspondent/ of the Single Tax persuasion presents an ingenious argument in favor of Socialists standing by the Single Tax. He says: "Socialists surely admit that private ownership of land values is the cause of part of the present poverty of the people; and, if abolished, that part of the present poverty would be abolished."

Our correspondent's argument is based on the following mathematical propsincerely clung to by such church mem. esition: If you have 100 cents in your pocket and a pickpocket filches

If a tiger and a lion are in the habit of devouring a lamb every morning, friend would lead to the conclusion would be one half of the lamb left over. This is correct arithmetical mathematics, but absurd economic maresult would be that the lion would the abolition of the tiger, tiger and lion shared the lamb between them. After the abolition of the tiger, the lion no longer needs sharing, he can grow doubly fat, having the tiger's old share, besides his own, to feast

It would be thus the moment the landlord tiger were abolished, if the capitalist lion is left unabolished. Today the present poverty is due to the joint exploitation of capitalist and landlord. The wealth (lamb) produced by labor is shared by the tiger landlord and the lion capitalist. Abolish the tiger, and the result will be not that the lion capitalist will respect the share of the defunct tiger landlord and say: "I shall none of that!" but that my lord lion capitalist will have twice as much. To-day he can only take that portion of Labor's fleece which is left after the landlord has taken his slice. Abolish the landlord, and the only result worth mentioning would be that the capitalist would have and take, and hold and gobble up the whole of Labor's fleece. Things would be just as before-in so far as Labor is affected. The only difference would be that the capitalist lion would have had his condition improved.

Much lies in the clear understanding of this matter. It implies the difference between being duped by Reform or reserving one's energies for effective work. The false Single Tax economic mathematics, exposed above, runs through the whole gamut of free trade. prohibition, cheap gas, cheap rides, etc. etc., moves. The cheapening of goods, through free trade or any such other scheme, that leaves the capitalist on his feet only removes one of the hyenas, with the result that the remaining ones have just so much more of the plunder from Labor to feast

#### RIGHT ABOUT, FACE !

The Memphis Savings Bank, one of the oldest institutions of Memphis, Tenn., closed its doors without warning on the day before Christmas. Late on the night of the 23d the officers of the bank appeared before Chancellor Heikell, applied for and obtained the appointment of a receiver, with the result that the next morning the depositors found the doors of the bank shut in their faces, with their savings safely out of their reach. It is a favorite claim, on the part of

deniers of facts, that the large deposits in the savings banks are evidence of the affluence of the wage earners. The argument runs this wise Savings Banks are "poor men's banks" these "poor men's banks" contain millions of deposits; therefore the wage earners are the depositors and the deposits are theirs, and they are prosperous Both these allegations of facts and the conclusions drawn from them have been again and again ground to dust in these columns. It has been again and again proved that, whatever Savings Banks were originally, they are no longer "poor men's banks" that the depositors are mainly middle class people, and often speculators in stocks, who deposit their gambling funds in Savings Banks whenever there is a lull in the "market." Nevertheless. the light of Truth is slow to reach all corners of the land. Unquestionably, to-day, most people really believe the Talsehood that the wage earners are the owners of the millions of deposits in Savings Banks. Even among wage consequently, with nothing to deposit, the falsehood is extensively believed. They know THEY have no such deposits, but other wage earners unknown "surely have," think they. Before these deluded men, the allegers of the theory, that the deposits in Savings Banks belong to wage earners, have hard row to hoe, one would think, in sight of the Memphis Bank catastrophe, The deluded wage earners will surely say: "We produce untold wealth; we get only a pittance; nevertheless, out of that pittance we have saved millions; and now the bank officials, who fleeced us of the lion's share of our product in the shop, now plunder us even of our savings!"

One would say that such an assault ipon the floaters of false theories, concerning who are the depositors in Savings Banks, would serve the gentlemen right. Of course they are guittless of the charge of having robbed the wage carners of their savings. The wage carners having no savings, there are none for them to be robbed of. The fleaters of the false theory would how ever, suffer only from a just retribution. The lie would have come home to roost on their own heads-as all lies regularly do. It so happens that, if there be any such wicked people, who would delight in seeing the floaters of the false theory hoisted by their own petard, these people will be grievousty disappointed.

Liars are expert tight-rope dancers, The Memphis Savings Bank catastrophe She has no doubt but that she is a rock have the lamb all to himself. Before will not disconcert the floaters of the patrol the streets.

false theory concerning the owners of A JOB FOR THE HIGH-PRIESTS Savings Bank deposits. They will now he seen acting obedient to the order-"Right about face!" issued silently by the Genius of their tribe, and, twirling on another leg, now strike another of their favorite poises-that of the Indian Fakir, and declaim:

"Behold our abnegation. Not only do we capitalists set up factories and shops and mills, and start railroads for the express purpose of affording a living to the working class, but we sacrifice even our savings to their interests. We place our savings in Savings Banks, and when the visitation of a panic comes upon us-see. WE suffer from all sides-we must stop buying automobiles: we must nawn our fewelry with the jewelers from whom bought them; and last, not least, our savings are swept away by the torrent of the panic."

It is no accident that the labor lieutenants of the capitalist class are as wriggly a snakes. They have the capitalist class for model

#### EDUCATION! EDUCATION!!

Often have the readers of The People been furnished evidence of the sad lack of coherent information that prevails among our European comrades concerning the Movement in America. In its issue of this December 5th, the Budapest, Hungary, "Central Organ of the Iron and Metal Workers" furnishes the latest gem in an article entitled "The Hungarians in America." The article is intended to enlighten the workingmen of Hungary. The following passage in the article may convey some idea of the kind of information that is imparted: "At the Stuttgart International Socialist Congress we had an opportunity to hear the representatives of the two largest divisions present their views. The delegate of the Socialist Labor Party declared himself a disciple of Marx and took the same credit for his party, while the delegate of the Industrial Workers of the World endeavored to prove that they were shamelessly compromising with Capital and had more than once, over the heads of the workers, made common cause with the big capitalists. He showed a photograph of the functionaries of the labor organization sitting at Lucullean feasts with the money princes. On the other hand, the delegate of the S. L. P. tried to prove that the organization which the delegate of the I. W. W. represented was anarchistic and

The fact is that Heslewood, the delegate of the L. W. W. spoke in refutation and confutation of Simons of the Socialist party. Delegate Simons had boosted the A. F. of L., holding language exactly the opposite to that which shortly before he held in the official organ of the I. W. W., and at Stuttgart he quite pointedly referred to the L. W. W. as anarchistic. It was the S. P., and not the S. L. P. that slandered the L. W. W., and it was to the S. P., not to the S. L. P., that Heslewood referred when he brought the proofs of dickers and deals with capitalists, and when he held banqueting with the capitalist nabobs. It is a recorded fact that the amendment in favor of revolutionary unionism was signed by the delegates of the S. L. P. and the L. W. W. jointly. The Huncarian namer's information is muddled. Nor is that all. The article contains the heretic, advice that the Hungarians in America should "forbid political discussion" in their Unions, and yet it immediately proceeds to say: "Another, qualification ber should be an adherent of a bourgeois political party,"-how the thing is to be done, abstain from political discussion and vet exclude adherents of bourgeois political parties, our Hungarian comrade wisely leaves unexplained.

It can be no purpose with The People simply to exhibit the negligence of our European comrades to furnish themselves with sound information. The purpose of the exhibition is to point out to the Hungarian comrades in America the necessity of effucating their European would-be educators, to the end that when their Hungarian fellow workingmen they may not find this a country with the roots of the trees growing up in the air

### RUSSIA

The authorities decided to try the Socialist ex-deputies in camera, the presiding judge refusing the application o counsel to have the proceedings in pubic. On the acused demanding to be taken back to prison and asking the dence was proceeded with in the absence has issued a manifesto disclaiming all part in the alleged military plot and declaring that the Government resorted to this pretext in order to justify the coup d'etat of June 16. Seventy-five thousand workmen struck on Thursday week (the day of commencing the trial) in sympathy with the accused, and Cossacks were sent by the Government to

A. W. McLimont, electrical engineer and witness for the Public Service Commission, should be hanged, drawn and quartered as an enemy of the capitalist goddesses, Rights of Property and Scat tered Responsibility. The goddesses to whom McLimont has

dared offer his sacrilege are not waning deities, towards whom some laxity of worship might be pardoned. On the contrary. The goddess Scattered Responsibility but lately received a new patch of gilt paint from Justice Kellog, who instructed the jury on the Woodlawn disaster to acquit Vice-President and General Manager Smith, of the New York Central, because the responsibility for running the trains was shared by so many persons that none of it should be fastened upon him. The Goddess Rights of Property was more recently re-furbished and furnished with a new halo by Judge Hough of the U. S. Circuit Court, who declared the 80-cent gas law unconstitutional on the ground that it was confiscatory and in violation of the rights of property.

In the face, then, of these two still puissant and adored goddesses has engineer McLimont dared to fly with his report to the Public Service Commission on the condition of the rolling stock of the New York City surface lines. In his report McLiment gives details of the hameful and dangerous condition of the street cars as follows:

At the 146th street car barns Car 1,096, the first car inspected, was found in the following condition: The truck frame was cracked and sagging, the coat guard rail was broken, the curtain cords were broken, two ventilator glasses had been broken, the running board was weak, some of the grab handles were loose, the glass in the headlight was broken, one lamp guard was missing and the others bent, the truck rattled, the rain gutters were bent, and some of the stanchions were broken.

At the same car barn closed car 1842 was found to have no vestibule front. the circuit breaker box was broken, the gear case was worn through, the axle bearing was shifted, one hand hole cover was gone, the empty switch cover was gone, the lamp circuit switch cover was gone, the brake handles rattled, the journal box was broken, and the truck frame was broken.

And summing up, he says:

The responsibility for the present obectionable operating conditions, also for he present deteriorated state of the installation, must be traced to the higher responsible heads rather than to incapable employes.

In the latter statement the daring engineer does nothing less than offer a hideous act of irreverence to Scattered Responsibility. In the whole purpose of adequate repairs to be made, he equally in violation of property rights"? The should straightway get hot the iron pincers, grind the knife, and erect the gibbet for McLimont. He is a dangerous

#### MINE OWNERS FILE SUIT AGAINST UNION.

Nev., December 26.-Goldfield Mine Owners' Association The suit is against the Goldfield min- prefix 'un' dropped.

ers, the Western Federation of Miners, Charles A. MacKinnon, president of the in regard to you-That, while as local union, and nineteen other officers of the labor body.

The complaint sets forth the vast'extent and richness of the mining interests involved; alleges that the Goldfield miners' union and the Western Federation of Miners are voluntarily incorporated leave their country, and land in America, and that it is part of another larger organization known as the Industrial Workers of the World, also unincorporated and which has the same principles and seeks to acomplish its results by the same "unlawful" methods. It alleges that the Western Federation of Miners is organized for the destruction of property and creating "endless strife, disorder, bloodshed and rioting." Finally it is petitioned that the injunc-

tion be made permanent and that the lawyers to withdraw, the taking of evi- Goldfield miners' union be abated and forever "dissolved as a nuisance and of both accused and coursel. B. J .- Well, that's reasonable enough. U. S.-Will you, then, vote the ticket straight?

B. J. (emphatically) - You bet! I now see the cat.

### PHOENIX PROTEST.

Phoenix, Ariz., December 22 .- The I. W. W., S. P. and S. L. P. of Phoenix held a joint protest meeting in the streets of Phoenix on Saturday evening, December 21.

The object of the meeting was to protest against the Federal troops being used by she mine owners of Goldfield. Nev., for the purpose of crushing organized labor in that district. This is an agricultural district, and

organized labor does not expect to get a good hearing, but, to our surprise, when the meeting was called about 500 men and women assembled around the speaker's stand, and, regardless of the chilly night air, remained until the end. The speakers were D. Haberbosch, F.

Velarde and J. A. Leach. D. Haberbosch.

[Correspondents who prefer to appear in print under an assumed name will attach such name to their communications, besides their own signature and address. None other will be recognized.1

#### CONDITIONS IN GOLDFIELD.

To the Daily and Weekly People:-Everything is quiet in Goldfield at present. Funston is still here and proposes to remain for some time. The Commissioners are also on the ground and will give us a piece of their mind, which we know without having it pub-

Funston takes the San Francisco attitude, but "the mob" has not been whipped yet and never will he whip the Goldfield mob. He may overpower and scatter it for the time, but the members of it will be there at the fin-

William Jurgens, Goldfield, Nev., December 21.

#### THE MULTIPLIED COAL MINE HORRORS.

To the Daily and Weekly People:-A third disaster in the coal mines within a few weeks! Our class is being slaughtered by the hundreds! Shall we allow our class to gaze at these horrors m a mute stupor? Rouse the slaves, ye dalwarts! Gather them by the thousands in mass meetings and street parades with the symbol of mourning at the head. Let the fire of indignation be kindled in the breasts of the working class of the land. The horror in the wines of France a couple of years ago was the signal of the awakening of the entire working class of France. Rouse the slaves of America, comrades, lest, stupified by the horror of disasters, our class will be past awakening.

To work! It must be done! L. Katz.

Philadelphia, Pa., Dec. 20,

#### PARTY WORKERS WANTED IN CHICAGO.

To the Daily and Weekly People: While Section Chicago is busy with its ball, the West Side Branch, while not neglecting the ball, is struggling hard to make its Friday night meetings at Kulvinsky's Hall, 12th and Waller streets, successful.

These meetings are mostly in Jewish, and as we have not enough Jewish speakers, we are somewhat up against it. We had Wm. E. Trautmann speak at above hall a week ago but unforunately the audience did not understand him. Still, with as few speakers as we have, these meetings could be made more successful, if the Party members would only hustle a tittle more to advertize them.

This Branch is the only one holding lectures, and the membership should see to making the attendance larger. Let your Jewish friends know of these meetings. If you want advertising matter for them, see or write to J. Billow, 730 W. 13th St.

Chicago, Ill., November 30.

### SANTA FE CUTTING WAGES.

To the Dally and Weekly People:sent out broadcast by the Santa Fe Railway and one wonders how the man whose wages are reduced from the splendid sum of \$1.50 a day to \$1.25 is going to live in a manner befitting a human being.

" Santa Fe, December 20.

[Enclosure]

Cleburne, Tex., Dec. 17, 1907.

Laborer, Cleburne Round House, The stringency in money matters the Company have materially decreased, makes it necessary to reduce expenses and you are notified that your rate of pay will be reduced from one dollar and a half (\$1,50) per day to one dollar and twenty-five, \$1.25) per day, effective Wednesday, December

Yours truly,

J. E. Symons, Div. Master Mechanic.

#### A CORRECTION GLADLY INSERTED ANENT JUDGE HILTON.

To the Daily and Weekly People:-I noticed the editorial in the issue of The People of recent date that does a grave injustice to O. N. Hilton.

Knowing that you do not wish to wilfully do any injustice, I drop you these

Hilton had no connection whatever with the Smith-Preston case, but he

P., and never has been, being a life-long Republican, and so far as I know, he has up to the present time been always honorable in his dealings with me. In any attitude that he may take relative to the Goldfield situation, he is no doubt following the instructions of the present administration of the Western Federation of Miners.

Vincent St. John. Chicago, Ill., Dec. 24.

#### PIERSON AND PROSPERITY IN WINONA.

To the Daily and Weekly People: With the able assistance of the members of Section Winons I succeeded in getting 7 Subs to the Arbeiter Zeitung, 1 to the Arbeiter, 2 to the Daily and 27 to the Weekly People.

The Winona Wagon Works, one of the largest concerns in the city, closed down last Saturday throwing some 300 slaves out of work. Other plants have laid off as many more, and they are already beginning to feel the pinch of hunger. The saw mills which once employed hundreds of slaves have long since been deserted.

The capitalists of Winona can boast of one of the many servile and faithful slaves of long service scattered throughout the country.

The fellow in question has been employed for the past 47 years by one of the local lumber companies as a slave and a slave driver. He finally reached the age where he was of no more value to his masters and they let him go. Such is the reward of the faithful.

As this ends my work for the time being, I sincerely trust that the efforts put forth by the St. Paul, Minneapolis and Winona members and myself will be the means of encouraging the members of the S. L. P. elsewhere to put forth their best efforts in getting a larger circulation for our Party organs,

Chas. Pierson. Winons, Minn., December 21,

ELIZABETH FLYNN IN MINN. To the Daily and Weekly People: Not having seen anything in The People relative to the tour of Miss Elizabeth

would not be out of order. That she is doing great work for Industrial Unionism in Minnesota may be imagined from the fact that the S. P. and the A. F. of L. men are most anxious

Flynn, I thought that a few remarks

to get her out of the state. The S. P. is sore because they had to cancel the dates of their cyclone, Prof. Fitzpatrick, on the iron range, at the time when Miss Flynn was holding successful meetings.

The candidate for Mayor of that party is reported to have told the young woman how very foolish it is for her to be wasting her efforts on the foreigners of the range. Alas, for him and for his party, what is back of the argument is a trifle too obvious, and Miss Flynn is not to be taken out of the work by any talk which he may put up. It happens, however, that all the members of the S. P. are not as Mr. Kaplan. Some of them are imbued with revolutionary instincts and are lending a hand in the fighet for Industrial Unionism.

Duluth, Minn., December 16

#### BAN FRANCISCO TELLS THE SAME STORY. To the Daily and Weekly People:

Just a word from San Francisco. Here in the shaken city, just a few days ago, one of the largest banks went out of commission after having its doors closed since the beginning of the panic. A number of proletarians lost their little savings which they accumulated, after being robbed for years. In the "Eventhroughout the country at the present ing Bulletin" of December to appears time and the fact that earnings of an article on what to do with the boxcar tourist, that is, vagrant or proletarian who may be found on the street corners out of employment. At present there are thousands of men walking the streets and looking for a master to slave where employment is not to be had. Most of the large buildings and smaller shops have shut down or laid off quite a few of the slaves.

Bull pens are not a new thing in the Western country. Still the more bull pens they build, the sooner the day will come when proletarians of the world will unite for the emancipation of the working class, and so establish the workingmen's republic in which bull pens will be abolished.

On to the emancipation of the working class.

San Francisco, Cal., Dec. 12.

AGITATION IN PHILADELPHIA 

course of lectures was held under storm and stress. When we got to the hall the door was locked and no one in sight. We had arranged for the hall for every Sunday evening, but some mysterious force had got to work, and we found ourselves up against a lockout. The crowd kept gathering in increasing numbers and began to ask us questions that could not be answered. Something had to be done, and quickly, and Bonderaunt of the Sheet Metal Workers started out and procured a hall at oth and Spring Garden streets.

We invited our friends to the other hall, and the majority followed us. By the time that the chairman, Thomas Flynn, called the meeting to order, it was nine o'clock. The speaker of the evening, Campbell, handled his subject, "The Yellow Peril," with consummate skill. He spoke for about an hour, and showed the economic bearing of the entire Far Eastern question.

The lecture was followed by an in teresting discussion, which was participated in by Edward Stern, Frost and Bonderaunt of the I. W. W., McLure, Anton and several others. I was es pecially impressed with the economi knowledge of Foster, who, although a new man, and one who has probably never read the works of Karl Marx yet he took absolutely correct ground even in a technical sense, in replying to Edward Stern, evidently taking his course from his own hard commo sense.

Bonderaunt, in replying to Stern, who took his stand on "Justice," said, dis-playing an Industrial Union Bulletin, This paper presents the justice that we want. 'Labor is entitled to all it pro

Only the lateness of the hour stopped the meeting. L. Katz will speak next Sunday night.

Secretary Agitation Committee. Philadelphia, Dec. 23.

### WANTS JOB AS A CHRISTMAS PRES-

To the Daily and Weekly People:-Enclosed clipping from the "Pittsburg Dispatch" is a true picture of the condition of the working class in and around Pittsburg.

Pittsburg, Pa., Dec. 25. (Enclosure.)

K. KRINGLE MAY DROP POSI-TION INTO TURKEYLESS MAN'S SOCKS.

What is more appropriate for the ur employed than a Christmas present in the shape of work? The following unique advertisement will probably drop a position into some poor mortal's stocking.

The writer of the advertisement is the same who, a few days ago, suggested that the Pittsburg Chamber of Commerce act as a clearing house between employers of labor and the unemployed. He says he has spent nearly fifty dollars in seeking work and as a last resort appeals to the "Dispatch" to assist him. His advertisement follows:

APPLICATION FOR POSITION.

Immediate Engagement Position desired-Confidential clerk, pr vate secretary or any position of trust and responsibility with firm, where honest and conscientious service is appreciated.

Qualifications-Age 32, single, naturalized American. Education-Advanced high school and

academic course.

training; five years officer in army, United States and State service one year general clerk, bill clerk and assistant bookkeeper with large manufacturing company; two years manager, branch office, life insurance company; six years cashier, charge of rental and advertising department, in large real estate and fire insurance office.

References-At. Quotations from one or two:

"He proved himself to be honest and most methodically careful in all his duties, and I can thoroughly recommend him " "I know you thoroughly, and regret

that there is not some good place in this office for you." Salary expected - Reasonable, with

chance for advancement. Address H. F. E., P. O. Box 430. Pittsburg.

#### THE EFFECT OF THE "SOCIALIST" PARTY PRESS ON THE RANK AND FILE.

To the Daily and Weekly People:-While in a mining town a few miles south of La Salle. I met an old man holding "Wilshire's" and the "Chicago Socialist.' I engaged him in conversation and to show how ignorant the rank and file of the S. P. are kept on the question of the I. W. W., and how the misleaders of the party of many names are working their dupes, I will cite a if the Milwaukee-ites were fearing comfew words of our conversation.

First of all, that old man told me that the I. W. W. was organized by the mina

owners and National Manufacturers' Association and that Haggerty, Debs, Haywood. Mover and Simons were of the were in the I. W. W. a short time and upper hand through the Manufacturers' association, these martyrs of the working class movement left the I. W. W., and now the I. W. W. has come out openly against the whole organized working class.

Such is the logic and such are the lies the misguided workingclass are taught through the "Appeal to Reason," "Wilshire's," and the "Chicago Daily Beggar."

After I asked him to produce facts about De Leon and the I. W. W. as regards the assertions made, he said he could not. And when I asked him to get his leaders to produce facts, he admitted that he did not think such facts were obtainable.

When I asked him to subscribe to the Weekly People he said he would gladly do so if he was not out of work. So pay for a 3 months' trial subscription. I think that man is perfectly honest but has been misled. He promised to try to get subs to the Weekly People when he becomes familiar with it. He will in duce his sons, who are also members of the S. P. to become interested.

Fellow workinmen, all we need to i to get our press and literature before the honest rank and file and it will not be very long before we will drive the scamps out of their holes and put them in the light where every honest workingman can get a good look at them, and then form his own opinions as to who works in the interest of the master class.

At present, when the Gompers-Berger and Paddy Mullaney organization is working hand in hand with the mine to suppose that he altered his mind be- matter. The S. L. P. has solved the owners of Goldfield, Nevada, to defeat the revolutionary organization affiliated with the I. W. W. we should work hardr than ever to spread the truth.

Yours for Industrial and revolutionary D. Rudnick. Socialism.

### SOCIAL DEMOCRATIC HERALD AGAIN.

La Sale. Ill., December 19.

To the Daily and Weekly People:-The Social Democratic Herald in its issue of December to again shows its hatred for those two working class organizations, the Socialist Labor Party and the Industrial Workers of the World. Mr. Hodge-a member of the British Parliament and fraternal delegate to the convention of the A. F. of L. at Norfolk, who spoke here under the uspices of the Federated Trades Council, and whose speech was listened to by quite a number of friends and members of the S. L. P .- had in the course of his address made certain statements in regard to Socialism and the Trade Union movement, with which no true Socialist and no thinking and earnest industrial unionist could agree. As soon as Mr. Hodge got through with his speech, a young Party member, A. Schabel, asked permission to question the speaker. A few questions were asked and answered, but as soon as Schabel began stepping on the cords of the pure and simplers of economic and political shade then the chairman of the meeting a Mr. Meems, thundered in a voice of rage and anger: "You are impossiblists !"

Yes, it is much easier for the practical politician, the Social Democratic alderman, to make a speech at the occasion of the celebration of a newly paved street or to play a game of ball with CONDITIONS ON THE PACIFIC COAST. answer questions pertaining to the true labor movement

The Social Democratic Herald in its cident:

"At the close of his address Bro. Hodge answered questions, but a regretable feature of this portion of the evening was the offensive and discourteous work of four De Leonites and I. W. W.'s, who planted themselves in different parts of the audience and read prepared questions of a wrangling nature, Bless their charitable souls! with no relevance to the lecture. It is

for its effect in the coming campaign, to let some of its many camps continue by corporation interests." Besides our own men there were several others, wholly unknown to me, who likewise pointed out the wrong stand sign? (Sounds a little like De Leon's taken by the speaker on not having the workers unite industrially but in keep- Did they sign? Well, I think so, altho ing them divided and split up in frac- I was unable to press my way through tions and factions. But of course, every the crowd at the company's office to one who does not approve the methods actually witness their signatures. of the Milwaukee school is a De Leonite and, incidentally, disfigure the page or a Trautmannite, or combination of with my own scrawl. I certainly lost both. Besides, it is an extremely droll statement to declare that Section Mil- foot-ball training in my youth. waukee S. L. P. is being financed for the spread of revolutionary Socialism by the corporations. It almost looks as

petition in their own line.

AS TO FATHER MCGRADY.

To the Daily and Weekly People As most of our readers are aware, Father first to help organize, and that after they McGrady is dead, and there seems to be a disposition in some quarters to eulogize found out that De Leon was getting the the man and to rate his achievements in the fight for labor's emancipation very highly indeed.

As I believe in telling the truth of a man, be he alive or dead, let me give briefly the history of Father McGrady, so far as the Socialist Movement is concerned. I won't begin with his birth. and follow up his life to his ordination and demise, as all that is superfluous.

Father McGrady never left the church or was forced out of it because of his activity in the Socialist movement, as some claim for him. What I am about to say he publicly told an audience at the Auditorioum here in Cinnicinnati.

It seems that it is the custom, in the diocese over which Bishop Maes rules, his seat being Covington, Ky., for the priests of the diocese to meet once a year at the episcopal residence, where a dinner is served. This is called the diocesan dinner and every priest is expected to attend and pay \$5.00 for the privilege of sitting at the table in the episcopal presence. Father McGrady did not care for this honor, or was too stingy to pay for it. At any rate, he did not attend these dinners, and when he was informed by the vicar general that he had to pay the \$5.00 whether he ate at the he died in full communion with the Roman Catholie Church, receiving the eucharist and extreme unction, leads one hand upon him.

fee was the bone of contention

backwoods burgs, I think it was down in preciated. Indiana some over-zealous members of the S. P. longed for the presence of Mcamong them, they thought the hoosiers out of place. But, if such a man is would fall all over themselves, in an honest in his belief, he should not revine said he would go, if Local Cincin- silde into dishonorable practices. Innati, S. P., would go security for the istic harangues. Local Cincinnati agreed dering. to do so and McGrady went. The affair proved a frost, the Cincinnati S. P.-ites were slow in paying this honest debt; the comrades in the back woods burg, could not do so, so McGrady demanded it from Local Cincinnati, and when they article, has ceased to be would not be showed a reluctance to part with the coin, why, ex-Father McGrady threatened legal proceedings.

That such a scandal should not desecrate the fair name of the S. P. the money was paid. What made the S. P. men in Cincinnati guash their teeth in rage, was the fact that McGrady was at the time a comparatively wealthy man, owning considerable real estate in Kentucky; and then, when they think of the fact that he died in full communion with the church, what must be their feelings!

My impression is that Father McGrady exploited the movement while alive and I see no reason why we should slobber over him now that he is dead.

B. S. Frayne. Cincinnati, Ohio, December 23.

To the Daily and Weekly People:tives in the common council, than to Section Hoquiam held a meeting yesterday at which four new members were taken in, and the application of another received. They are clear men, report of the meeting, says of this in- all but one having been regular subscribers to The People.

W. T. S., BRIDGEPORT, CONN .-There is just one term with which to designate the reasoning that "The People has so many enemies that it should dishand" Such reasoning is FAN-TASTIC. The People has before now quoted the following story: One oav. when Andrew Jackson was President. and he was standing warming himself with his back to the fireplace in the Tennessee acquaintance of his rushed in excitedly. "What brings you to Washington?" Jackson asked. "General!" exclaimed the excited visitor, "do you know what's going on down in Tennessee?" "No." answered Jackson expectant of something awful: "what is it?" "Why, General," replied the Tennessean furiously, "they are saying down there that I am a horse-thief!" "But can they prove it?" inquired Jackson. "Why, General, that's just the worst of it," screamed the Tennessean enraged, "THEY HAVE PROVED IT!"-The People has many TONIO TEX.-Matter received.

horse-thief. Their enmity for The People comes from The People's having proved its charges against them. Shall The People disband for such folks? Not on your tin-type!

F. R., EUREKA, CAL.-You are answered editorially in this issue under the head "Look at the Other Side."

H. C. A., POLLATCH, IDA,-Money, as the thing is understood to-day, is a necessary make-shift in capitalist production. Where production is individualistic, money, metallic money or its token, is absolutely necessary. Such money ceases to be necessary, in fact, becomes useless, under co-operative production. It follows that when the integrally organized industrial forces of the working class shall be ready to enforce the flat of their ballot by "taking and holding" the plants of production, the capitalists may keep the money-all of it, for all we care. They could not buy a loaf of bread with a \$1,000 gold certificate. The loaf of bread could be had from the cooperative store only in exchange for a voucher representing the equivalent in labor performed. And that voucher could not be had but as an evidence of the equivalent labor actually performed. The citizen could get no more out of the common store than his voucher shows he put into the common stere. How will the S. L. P. manage it with the money that the capitalist will have when the S. L. P. are in force? The S. L. P. will manage, it. with regard to money, like republicans do when they have abolished the crown -nut part of it in a museum for exhibition, and the rest, as it shall be found lying around, turned into articles

F. A. B., SAN DIEGO, CAL.-Send the articles. Cannot judge until we

J. J. D., GREENVILLE, R. L. The article on how to avoid the Pinkerton Labor Spy is unacceptable. What is sound in it The People has constantly preached and practiced-full and free discussion within the bounds of civilized methods. That which The People has neither preached nor practiced. and is practiced in your article, is unsound-the insinuation of vast and undefined (because undefinable?) accusations. Such methods breed confusion and mistrust. In such troubled waters the Pinkerton Labor Spy finds his element. Deeds not words. The N. E. C. is about to meet. Your article will be submitted to them. There is an N. E. C. man from your own State

H L DENVER COLO,-The example of water being monopolized, made in the introduction to the new edition of Value Price and Profit may be an "exaggeration"-but it is no more an "exaggeration" than the microscope exaggerates. Such exaggera. tions are useful to help make a point clear. The exaggeration of a truth often is necessary to render visible important parts of the truth, which would otherwise escape notice.

J. T. G., ST. JEAN, MANITOBA-The Business Manager informs this office that the Sunday People could not be sent to St. Jean for less than \$1.50

prosperity a la McKinley-Roosevelt-Gen. Funston & Co., Pacific.

"the order," that is, the agreement, Eoquiam, Wash, December 16.

National Secretary, W. D. Forbes, 412 Wellington Road, London, Ont. (The Party's literary agency.) as City Hall Place, N. Y. City. Notice-For technical reasons no party encements can go in that are not in this office by Tuesday, 10 p. 14.

N. E. C. SUB-COMMITTEE.

Regular meeting was held December 22, at 28 City Hall Place. Present: Malmberg, Seidel, Orange, Romary, Weisberger, Teichlauf, Walters, Katz, Woodhouse. Absent: Mueller, Fergusen. Wilton, McCormick. Excused, Vaughan, Chalrman, Orange.

Minutes of previous meeting were read and after corrections, adopted, Corrections: First-Resolutions of Walters should have read "several hours per week" instead of "several hours per day." Second-The motion to publish Eck's letter and Bohn's answer was ordered stricken out, because lost. In this point discussio followed, Seidel claiming action had been correctly reported; Malmberg, Walters, Weisberger, and Teichlauf ning action wrongly reported. Weisberger offered motion to correct rutes by striking out matter. Walters raised point that, in correcting nutes, no motion is necessary, that chair simply instruct secretary to make correction. Ruled well taken. Seidel appealed, stating where opinion is divided as to correctness of minutes, a motion to make correction is remired. Vote to sustain chair: Yes, Orange, Romary, Teichlauf, Walters, uhaus, Woodhouse: No. Malmberg. Seidel. Not voting, Weisberger, Chair stained. Weisberger and Teichlauf sked to have their vote on roll call of December 8, corrected from "yes" to "no" So ordered

A motion by Walters, seconded by Neuhaus, "That the report of the tional Secretary as submitted by in in regards to his expenditures and ceipts while on tour be printed in full in minutes of the Sub-Committee.' in favor: Romary, Weisberger, Teichauf, Walters, Neuhaus. Opposed: erg, Seidel, Orange, Carried. Bohn informed meeting that a committee, Frank Young, Phila., and Miss McDonald, an earnest sympathizer, desired privilege of the floor.

Young spoke on plan of agitation and cavassing for literature and party s. Plan was that he and Campell, Phila., would work as a team, going to cities where conditions were good for propaganda; stay till ground was fully covered. Would pay their expense from sale of literature and sub-cards. Wished to have credentials to represent the S. L. P. Miss Mchald, who wished to see party press in the hands of every workingman, ould pay initial expense, and help to sults proved method successful, deh success of plan. When reults proved methods successful desired that literature fund be started nations to which, books, pamphlets and sub-cards should be purd, and from sales and profits of hese, the committee would pay their se. Moved by Seidel, seconded Malmberg, "That credentials as ntary organizers and as calvassers of the Socialist Labor Party and its Jos. P. Campbell, and their plan of propaganda endorsed." Carried. Chairman expressed to Miss McDonald the Sub-Committee's appreciation of her interest and support in the work. Vote of N. E. C. on motion, "That

fixty days be given the Party members a discussion in the Party organs on all matters that call for a Party te; twenty days after the sixty days e vote shall close." In favor: Jenning, Ill.; Reimer, Mass.; Kircher, O.; owler, Texi; Jacobsen, N. Y.; midt, Va.; Brearcliff, Wash.; Gilchrist, Pa.; Richter, Mich.; Johnson, Cal.: Wilke, Wis.: Marck, Conn. None opposed. Carried. Vote of the N E C on "Shall the

d draft of letter in answer to Greulich be forwarded to the Interonal Bureau, to Greulich and to the uarters of the Swiss Party?" In Dowler, Tex.; Matz, Ind.; Rei-

fass.; Kircher, O.; Arnold, Ken.; k, Conn.; Wilke, Wis.; Richter, h.; Glichrist, Pa.; Schmidt, Va.; hason, Cal.: Jenning, II.: Jacobsen, Y. None against. Carried.

ote of N. E. C. on Marek's motion sholish office of assistant to Nation-Secretary. In favor: Arnold, Ken.; chter. Mich.; Marek, Conn.; Schmidt a.; Eck, N. J.; Wilke, Wis.; Johnson, Cal.; Dowler, Tex.; Matz, Ind.; Jacobsen, N. Y.; Kircher, O. Carried. Gilhrist, Pa., vote "Yes", "provided chars made in Eck circular are true."

Johnson, Cal.; Meier, Mo.

Sections Westchester Co., Frank Bohn, National Secretary, 28 Hudson and Passale Co. sent list of graft against our National Secretary, to candidates for Sub-Committee.

Neuhaus, "That the National Secretary

meeting." Carried.

The matter of Hossack's instructions as to action in re Vaughan's demand for monies due him was referred to Press Committee.

Committee on reply to Seidel appeal read its answer. Moved by Neuhaus, seconded by Woodhouse, "That the answer of the special committee to the Seidel appeal be the answer of the Sub-Committee, and enough copies be given to the N. E. C. and Sub-Committee." In favor, Romary, Weisberger, Teichlauf, Walters, Neuhaus. Woodhouse. Against, Malmberg. Not voting, Seidel, Orange. Carried.

Moved that we sequest M. Rosen-berg, E. Moonelis, and H. Traurig to serve on a committee to audit financial reports of the National Secretary and of the Treasurer. Motion made by Weisberger, seconded by Walters. Car-

Bills from N. Y. Labor News, \$2.50, ordered paid.

Moved by Walters, seconded by Weisberger, "That we elect a committee of three to draw up a report of the Sub-Committee to the N. E. C. Carried. Committee, Walters, Teich-

lauf, Weisberger.

Bohn read his resignation as National Secretary, and reported having sent same to the N. E. C. Moved by Walters, seconded by Romary, "That communication of Bohn resigning as National Secretary be received and published in full in printed minutes of the Sub-Committee, and that we refer it to N. E. C. session in January. In favor, Malmberg, Seidel, Romary, Weisberger, Teichlauf, Walters, Neuhaus,

F. P. Weible, Mt. Vernon, O., sent notice of expulsion of Phillip Befnot, Joseph Jacquet, Jules Gerrin, and Ulysse Dessent, for conduct unbecoming S. L. P. men, they having gone to work in Windsor Glass Co. which employs scabs. Filed.

Woodhouse. Against, Orange, Carried.

Moved by Weisberger, seconded by Walters, "To hold a special meeting Sunday, December 29, to dispose of all matters not taken up at this meeting." Carried.

Meeting then adjourned. Edmund Seidel, Rec. Sec'y.

S. E. C. OF PENNSYLVANIA.

The S. E. C. of Pennsylvania met or Sunday, December 22nd, 1907, at 2109 Sarah street, with F. Herrington in the chair. Present: Clever, Weber, Kephart Herrington, Clark, Thomas and McConnell. Absent: Rupp, Gray, Male, Layton, Drugmand and Markley. Minutes

of previous meeting read and approved. Correspondence: From Section Philadelphia, order for 20 due stamps; A Funka, of Manifold, Pa., applying for membership-at-large; Section Erie, enclosing \$5.60 for 16 I. S. C. assessment stamps; Mrs. V. W. Otis, matter relative to Haywood incident; E. R. Teichert, order for four due stamps; S Hinkel, on party affairs; F. Bohn, enclosing semi-annual report blanks, due stamps ordered, and matter pertaining to I. S. C. assessment stamps; J. A. McConnell, an appeal from the decision of Section Allegheny County in the matter of his expulsion. From Section Allegheny County the following recommendations: that our National Committeeman be instructed to vote on the following propositions as follows: That the price of the pamphlet entitled "The dation of the Labor Movement," by Wendell Phillips, be \$3.50 in lots of 100; in the matter of the National Sec-

retary's resignation to vote not to ac-

cept the resignation, and to vote affirma-

tively on his request to absent himself

from the duties of his office for 12 hours

for the following: Dowler, Tex.: party in the capacity of secretary without cost to the party.

In the matter of the Eck charges of ask the secretary to lay the printed lampoon signed by Eck before the Januforming of new pamphlet, Wendell ary meeting of the N. E. C., and ask that body to determine whether the Eck the National Secretary should be held to a strict account for his detestable action. If false, Eck should not be allowed to sit as a member of the N. E. C. during its January meeting, and the N. E. C. should immediately request he would have Sub-Committee take the State of New Jersey to declare the office vacant, and take steps to nominate and elect a clean man as its representative on the N. E. C.

The above mentioned recommendations, also a communication from the S. E. C. of California pertaining to party affairs, and a statement of loans to the party which must be satisfied not later than January 1st, 1908, were received from our N. E. C. member for instruc-

On motion, the correspondence was received, acted upon and filed. On motion, the secretary was instructed to write to the applicant, A. Funka, and ascertain whether he is acting in the Party be referred to next N. E. C. capacity of a checkweighman or not, and if the mine where he is employed is organized.

On motion, the appeal of J. A. McConnell from the decision of Section Allegheny County in the matter of his expulsion was sustained owing to unconstitutional irregularities.

On motion, the S. E. C. decided not to send an N. E. C. representative to the January meeting of the N. E. C.

On motion that, not having the expense of sending an N. E. C. member to the N. E. C. meeting, literature to the amount of \$25 was purchased.

On motion, the former action of the S. E. C. in the matter of National Committeeman was rescinded, and D. E. Gilchrist was instructed to hold office until his successor has qualified.

On motion, the recommendations of Section Allegheny County was concurred in, and our N. E. C. member was instructed to act accordingly.

On motion, a warrant was drawn for \$59.64 to cover the expense of October, 1907.

D. T. Lentz, Secretary.

Organizer.

PATERSON, ATTENTION

ST. LOUIS AWAKE,

· (Continued from page 1.)

floor was open for questions when William Brandt delivered a speech of about fifteen minutes, asserting that the speaker gave only the half of the truth which is often worse than the whole lie. The rest of the speech was merely an appeal to the bunch of S. P. men which he brought along for the purpose of disturbing the meeting. The old saying again proved true:-If you give the calf long enough rope it will hand itself.

The following Sunday we held another successful meeting at Lightstones Hall, the subject being:-"What Is the difference between the S. P. and S. L. P.?" The S. P. was invited by sending them a registered letter four days ahead, but when the meeting opened and the question asked if the S. P. had a representative present no reply came from the audience, which amounted to over 400 people.

I may state that it is our intention to send Jager through the State of Missouri for the purpose of extending our organization. This is absolutely necessary. Besides, if we want to have candidates in the field for our next national campaign, we must have a better organization throughout the state than we have at present, and we hope that Kansas City will give us a helping hand in this work.

Press Committee.

STAY AWAY FROM GOLDFIELD.

The mine owners have reduced wages \$1.00 per day. The card system is to be put into effect, Union men will not be permitted to work. Troops have been brought in to compel men to work for

Should any person offer you work in Goldfield it will be for the purpose of making you a SCAB.

Don't come here with that old plea that you are ignorant of conditions. We are out to maintain a living wage and will remain cut until assured that the union wage scale will continue. Official notice of settlement will be given by the union.

I. W. W. IN MASS.

Mingle Business with Pleasure in New Bedford.

(Special Correspondence.)

New Bedford, Mass., December 27. That the I. W. W. is very much alive in Daily People, a total of 174. New England may be estimated from the enclosed clipping from the "Standard" of New Bedford, Mass. The social life of the movement is not being neglected, and that the real work of the I. W. W. is being kept firmly in mind is to be seen from the sentiments with which the hall was decorated.

F. W. B.

(Enclosure.)

A portrait of Karl Marx looked down from the wall in Odd Fellows' Hall Saturday evening while several hundred young people listened to the concert program and followed it up with dancing, the event being the second annual tea party, concert and ball of the local

branch No. 157, Industrial Workers of the World. The affair was a success both financially and socially, even more so than the first event a year ago. In addition to the large number present the occasion was made memorable by the presence of the national organizer from Chicago, James Thompson, a sturdy exponent of the economic ideas promulgated by the Industrial Workers. Thompson made a speech, but he was forced to leave early in the evening to go to New York.

Thompson was accompanied from the hall by William Yates, secretary of the local branch, the two taking the 9:42 train for Boston on their way to New York to attend a meeting of the national executive board of the Industrial Workers of the World, to be held to-day,

Following the concert program the gathering became a dancing party, and the several hundred dancers enjoyed a ration save for three placards and the portrait of Karl Marx. Under the portrait was this placard, "Workers of all Countries, Unite." At the left was this: right, "Labor Is Entitled to All It Pro- the end of the present year, 1907. duces." Among those present during the evening were several officers of the Fall River branch, and there were also representatives from the Polish, Portuguese and French branches of this city.

HOLDING ITS OWN. (Continued from page 1.)

Carson, Nev., December 29 .- Gov. Sparks has not yet decided what to do in view of the ultimatum of Roosevelt ordering him to call a special session of the State Legislature in five days, or else have the Federal troops returned to post at San Francisco, but his friends say he will have to call an extra session as his interests will not allow him to let

troops be withdrawn from Goldfield.

The United States Court has deferred decision until next Friday on the injunction suit of the Goldfield Mine Owners' Association against the miners' union to restrain picketing and to dissolve the

Washington, December 29 .- Roosevelt yesterday delivered another sharp re-Gov. Sparks of Nevada. Roosevelt told Knowledge. the Governor again that it was his duty to call the Legislature in extra session to deal with the miners' strike situation. At the same time he has postponed the withdrawal of Federal troops, but only for a brief period.

The order directing Gen. Funston to allow the troops in Goldfield. Nev. to remain there until further orders from Washington was sent from the War Department to-day.

# CHILDREN'S HOUR

Dear little Comrades:-

We are always glad to get to the end of a chapter. We like to start in anew. Time sounds so "forever' like, that it thoroughly good time until midnight, seems very good to get to a station once town, to form a club as a branch of the The walls of the hall were bare of deco- in a while. We look over our baggage, national organization. throw away any unnecessary things, or add more if needed.

But a few more hours and we arrive "Labor Produces All Wealth," and on the at another jumping off station of time,

Let us look at our bundles and see what we can throw away.

There is a very huge one, made up of so many little ones we can hardly tell yhere to begin. It is human misery. The largest of these is labeled Greed. Oh, we're not greedy, so we'll throw that

overboard right away. Oh! It is tangled up with the others, Vanity, Hate, Jealousy, Stubborness, tied by, oh! such stout cords of Ignorance and Falsehood. It is all wrapped in one paper called "Self-preservation"looking out for one's self.

But our guide, Progress, says we can not possibly continue safely on our journey with that burden upon us. What shall we do?

As we throw away one of the packages it seems as if another took its place. But we must journey onward. We have but a few moments. We are told that the only thing left for us is Resolution.

That is easy. We immediately resolve to place as counterbalance for each package, its opposite-Modesty for Vanity, Love of Humanity for Hate, Co-operation for Jealosy; Stubborness melts away as soon as the cords of Ignorance and | Ere life begins to bloom. proof, accompanied by an ultimatum, to Falsehood are replaced by Truth and A few there are (too much by far),

> power. The more you get, the more you Yes, few there are who know no care, wish for, and the more you can get of In blithesome summer dwell, them

With these in our grasp we learn that Greed, the greatest cause of our misery, can only be got rid of by changing our environment, our material conditions. Of course, each person can do for himself very much. But as a whole we can only resolve together to do away with it through Knowledge and Truth.

We, therefore, resolve each one to be gin first with ourselves and then with others to get these two most valuable We resolve to read and study the best

books we can get; to observe everywhere all about our fellow creatures; to feed on the best of thoughts and always to love our fellow beings; and, best of all. to be ready to show our earnestness by actions.

We get busy right away making presents for the March Festival. We make up our minds to attend regularly the Young Socialist Club and take an interest in its work, or, if we live out of We resolve, too, to do all we can in

kind of reading for the Working Class -The People, Arbeiter, etc. But the horns and bells are making such a racket that I must hasten to

helping to sell our literature, the truest

bid you and all the Working Class a Happy New Year, a useful New Year. Hopefully,

AUNT ANNETTA.

NEW YEAR'S BELL.

Ring out, wild bell! The story tell, Another year gone by. When love and praise, these bygone days, With sympathy did die,

Ring out, wild bell! One more to tell Of misery passed on. When childish voice did not rejoice, Nor dwelt sweet words upon.

Ring out, wild bell! Of horrors tell That Greed to child has done. Mangled fingers, pain that lingers, So wealth and power be won.

May tramp on human hearts, The' childhood's blood, in torrents flood, Vain glory to impart. Oh, hunger, cold, youth's turning old

So wealth and power, unholy hour!

Know naught of toil or gloom. Who happy, gav, do pass the day,

Nor need their lives to sell, Ring out, wild bell! What's this you tell?

Another year's begun! Sweet childhood's song shall not be wronged Ere many years will run.

A sturdy band, in every land, Is marching on towards Light. The noble seed in word and deed Is ending Mammon's fight.

So ring, wild bell! Thy sounds do swell Dear mothers' hearts to cheer.

Thy message bold shall soon be told, At dawn of our New Year.

POOR STEVE ADAMS.

Twice Freed in Idaho, Hawked Over to Colorado on New Charge.

Boise, Idaho, December 29 .- The Pettibone trial yesterday was again devoted to the reading of depositions of San Francisco witnesses on the explosion in claimed resulted from a bomb placed by disagreed. him on the doorstep and which the defence, has repeatedly shown was due to a leakage of gas. The depositions were Monday testimony for the deferge will second, the day, third, the year,

Steve Adams was brought to Boise

from Rathdrum, Idaho, on his way to Telluride, Col., where he will be tried for the murder of Arthur Collins during the miners' strike of 1904. Adams, who is alleged by Orchard to

have been his partner in crime, was twice tried at Rathdrum for the murder the Bradley residence, which Orchard of Fred Tyler, and each time the jury
