AN HISTORIC PARALLEL

The student who looks into the hearts of things as they are developing to the future, cannot fail to observe the forces at work there. He observes the forces at work there with a keenness which is not without the fecundity that immediately precedes fruition.

For some twenty years before the war there was a peculiar rivalry on the part of Austrian and German journalists to see which could produce the most exaggerated stories. The two newspapers, the Vossische Zeitung and the Kaiseralbum, were the principal organs of this competition. Their aim was to inflame the passions of the people. The word "right" was an ever lively topic. Two different sides of the subject were played upon. The rightists, with their newspapers, the Vossische Zeitung and the Kaiseralbum, were the principal organs of this competition. Their aim was to inflame the passions of the people.

Wages in Steel Plants Violated National Minimum Order

Laws in South Violate National Minimum Order

In South, another group of workers is being subjected to the same hardships as those in the North. This is the case with the steel workers in South Carolina, who have been forced to accept wages lower than those prevailing in the North.

The situation is described by the complainant of the national minimum order as "a disgrace to the country." The workers are being forced to accept wages below the minimum set by law.

The complaint is based on the fact that the wages paid in South Carolina are below the minimum wages set by the national order.

CHARLES FOUCAIRE
BANKS AMONG PEGOSTEM EMINCOPTORS OF MAN.

By A. Conroy.

[From The New York World, Special of the Brussels Federal Delegation.]

The year 1600 marks the planning of the new English Bank of Brussels and the Treaty of the Three crowns.

This declaration was, as it were, the great Socialist's apostrophe, his appearance. To this day, no one knows of the real date of the philosophy of the Three crowns, the same as an author is one of the most prominent figures among the Socialistic Societies.

Socialism, the doctrine of confiscation.

STATEMENT OF THE SOCIALIST LABOR PARTY OF GREAT BRITAIN.

As a result of the Socialist Congress, the members of the party, at their meeting in Edinburgh, have reached the following conclusions:

1. That the holding of property is incompatible with the principles of Socialism.

2. That the only way to secure the prosperity of the working classes is to establish a system of communal ownership and control of all means of production.

3. That the goal of Socialism is the establishment of a classless society in which all wealth is held in common and produced for the benefit of all.

4. That the party will support all measures and candidates that advocate the principles of Socialism.

5. That the party will continue to work for the establishment of a true socialist society.

PHILA. I. W. W.

HOLDING ANOTHER ITINNER GIERTON MEETING.

Mr. Flynn's removal from 'Socialism to the People's Standard,' and his new position as the labor leader of the country, has created a great deal of excitement among the working classes.

Mr. Flynn's address to the working classes was an important event in the history of labor in America. His speech was warmly received, and many workers expressed their gratitude to him for his efforts in behalf of the working classes.

The following are excerpts from Mr. Flynn's address:

"I believe that the time has come for the establishment of a true socialist society. The working classes have been exploited by the capitalist system for too long. It is time that we asserted our rights and demanded a fair share of the wealth of the country."

"I am confident that the working classes will eventually succeed in their struggle for a better life. And I am sure that they will do so with the support of the Socialist Labor Party."
SENATOR ALDRICH’S BILL

The much advertised financial bill of Senator Aldrich of Rhode Island, all

about which so much was said in the press and which served as a

basis of the movement for the reorganization of our financial system,

was introduced in the Senate on Wednesday. Among the details of the

plan, which is the result of many months of study by a committee of

senators, is contained in the speeches of the Congressional Bankers’

Considering the first aspect of the

plan, it is expected to land in the hands of the

banks and some of the leading banks in Boston.

Said to be the main feature of the plan

is the tendency to make the banks

of the country more self-sufficient

than any other transaction.

"GOING IN TOO DEEP"

When Charles M. Schwab, ex-pre^

paring to invest $25,000,000 in

the manufacture of ship labor,

and to acquire a controlling

interest in the Western Union

Company, he spoke of his

scheme in terms which were

only too familiar to the public

at large.

In short, the craft spirit is a

factor in the whole system of

labor. It is a factor in the

labors of the working man,

and it is a factor in the

labors of the whole country.

In the present case, the

"Going in Too Deep" of the

craft is the result of a

combination of all these

factors.

Being a part of the

labor system, it is

inevitable that it should

be so. And if the system

is to be effective, it

must be so.

The craft spirit is

manifested in the

apprenticeship system.

The apprenticeship system is

a combination of all these

factors. It is a combination of

all the labor system.

Therefore, if the

apprenticeship system is to be

effective, it must be so.
