A WHOLE CRYING SERMON FOR SOCIALISM IN LATEST CENSUS BULLETIN--BIS THE SAME WAGE INCOME IN "WHITE" AND "NEGRO" GROUPS.

Washington, May 7—When the material for the Federal census of man- power and manufacturing establishment was re- ported for the first time ever, the earnings of "white" and "Negro" groups was compared during which the largest number of Negroes were employed in manufacturing establishments, classified by the census, sex, age, color, and occupation. The returns are those of earnings of wage earners who are employed in the same work for the same amount of time and under the same conditions, and who are employed by the same employer for the same purpose. The results of this inquiry are published in Bulletin 50 of the Bureau of Labor Statistics, prepared under the supervision of William J. Pollan of the bureau.

What should the T.W.W. do with its Press? Leave it alone! As the Times stated, "The T.W.W. is not affiliated with any political party; it is a labor movement."

J. R. NEWY, BOSTON.—The fundamental cause of the strike in the textile industry is that纺织工会 adopts a definite strike policy. A strike on any scale among the textile unions would be an absolute disgrace. Such a strike would result in the destruction of the textile industry, a loss of several million dollars to the textile manufacturers, and a loss of several hundred thousand jobs to the textile workers. The textile unions should not strike unless there is a clear and definite understanding between the textile unions and the textile manufacturers that a strike will not take place without the consent of the textile unions.

W. A. D. BOBMAKER, V.A.—The Democratic and Republican conventions in Colorado are not two political parties, but two political movements. Both parties are made up of the people, and both parties are concerned with the welfare of the people. The Democratic and Republican conventions are not the parties, but the movements of the people.

J. E. NEW YORK, N. Y.—We are not concerned with the protection of the textile unions, but with the protection of the textile workers. There is no valid legal objection to a strike as long as the textile unions have the consent of the textile workers.

P. H. CHICAGO, III.—I believe that纺织工会 should be allowed to strike without the consent of the textile manufacturers, but that纺织工会 should be required to strike only when there is a clear and definite understanding between the textile unions and the textile manufacturers that a strike will not take place without the consent of the textile unions.

R. H. LANE, NEW YORK, N. Y.—In any crisis, the纺织工会 is a checking instrument, not a slow instrument. The纺织工会 is an instrument of self-defense, not an instrument of destruction.

P. H. CHICAGO, III.—I believe that纺织工会 should be allowed to strike without the consent of the textile manufacturers, but that纺织工会 should be required to strike only when there is a clear and definite understanding between the textile unions and the textile manufacturers that a strike will not take place without the consent of the textile unions.

R. H. LANE, NEW YORK, N. Y.—In any crisis, the纺织工会 is a checking instrument, not a slow instrument. The纺织工会 is an instrument of self-defense, not an instrument of destruction.
