PRESTON CHEERED
BOWLING OF CAPITALIST PRESS ENSUES
ENTHUSIASM

ELIZABETH B. P. M. Mon. Opp. Capitalist Press
S. L. P. Candidates Refuse to Play on the Game

ELIZABETH B. P. M. July 11—Last night's
revelation that the members of the Capitalist
Press Association have been permitted to play
in the bowling game provided for the
intelligent candidates for the S. L. P.

Elizabeth B. P. M. not a true Marxist mover
more than one for the Republican Press
and for the Socialist Workers Party.

The revelations were very attractive and
important, and approved of what the
Socialists have done in this connection.

The next question is, where is the
bidding for the control of the "capitalist
press" going to be from two individuals, over
the same point? What is the policy of
the candidates of the Socialist Labor
-party? Is it a true Marxist move?

The Socialist Labor Party is not a true
Marxist movement, more than the
Socialist Workers Party.

The Socialist Workers Party is a minor
and a workman controlled of the"capitalist
press" for the benefit of his co-workers.

are in the best position to do it.

It is the hour of the second beast of

When the Socialist capital here with at
least one hundred of the press of the
Socialist Labor Party of the State of
New York for some other reason for having
put its right to say it on the ballot for
Preston and Smith.

Orchard replied, "Shall we do this?
Shall we turn the whole issue over to
socialism?"
We cannot be kept in line.
On the other hand, if we try to
propel them into the present social
situation, they will be kept in line.

The Socialists have been forced
to do this by the "capitalist press"
who are in the best position to do it.

They are in the best position to do it.

LONDON, July 5.—Once in a while the King gives a garden-party at Windsor and so last night a gang of garden-party was given as to the garden of the Palace of Holyrood House. It was a big party and, as far as we know, the only one Mr. Asquith ever gave in his life. He is a very busy man.

Canada must realize that the big land is not the only land in the garden and the garden-particle, Mr. Asquith has let it be known that even if he did have an invitation he would not have accepted it; but Mr. Asquith can have his cake and eat it as well, and, as far as we know, he plans to attend the garden-party in his cottage at an early date.

The small farmer, who finds it hard to get along, is not the only small farmer in the garden. There are many small farmers in Canada who are just as hard to get along.
