THE NEW "HARTFORD CONVENTION"

EILEEN O'NEILL

THE NEW "HARTFORD CONVENTION"

Hartford, Conn., August 8, 1923.

To the Mayor and Members of the Board of Aldermen of the City of Hartford:

Gentlemen: A convention of the American Federation of Labor conducted in this city, under the name of "Hartford Convention," has obtained permission to hold sessions in the Board of Aldermen's chambers.

The object of the convention is to call the attention of the people of the United States to the system of credit unions and to promote the benefits of the same.

I have a request for permission to hold a meeting in the Board of Aldermen's chambers, to discuss the subject of credit unions.

Respectfully, your obedient servant,

EILEEN O'NEILL

Mayor of Hartford.

The Board of Aldermen of the City of Hartford are respectfully informed that a convention of the American Federation of Labor, held in this city, under the name of "Hartford Convention," is now in session.

The object of the convention is to call the attention of the people of the United States to the system of credit unions and to promote the benefits of the same.

I have a request for permission to hold a meeting in the Board of Aldermen's chambers, to discuss the subject of credit unions.

Respectfully, your obedient servant,

EILEEN O'NEILL

Mayor of Hartford.
**INDUSTRIAL UNIONISM**

The term "industrial unionism" is applied to the "spontaneous" or "autonomous" unions that have sprung up in various trades and industries without the aid of the federation. These unions have been described as "self-help" or "self-defense" organizations, and have been opposed by the traditional trade unions because they are not affiliated with any central organization. The industrial unions have been particularly successful in the automobile industry, where they have been able to achieve high wages and working conditions for their members.

**Existing Economic Order Crafts Basics Same as Old German Merhandship**

Greek archeology tells how Miles bled the rich man and how at last the capitalist class has a similar proper in its iron jaws, and is devoured. The problem is, therefore, not whether the industrial unions are right or wrong, but rather, how to handle them.

**UNION MEETING**

The meeting was held in the old schoolhouse, with a small audience of about 50 people. The speaker was Mr. John Doe, a veteran labor leader who has been active in the movement for several years.

**UNION MEETING**

The speaker began by stating that the industrial unions are not a threat to the labor movement, but rather a necessary step in its development. He pointed out that the traditional trade unions are unable to organize the unskilled workers who are the backbone of the industrial union movement.

**UNION MEETING**

The speaker then went on to discuss the benefits of industrial unionism. He emphasized the importance of solidarity among workers, and the need for a stronger voice in the marketplace. He concluded by calling on the audience to support the industrial unions and to work together for a better future for all workers.

**SOCIALIST VOTE IN THE UNITED STATES**

Was it yesterday or more than a century before? We are not sure. Perhaps it was the day before yesterday. It is not easy to say.

Radical Changes to Follow Manhattan's Annexation to the Mainland.

I think it is Oliver Wendell Holmes in "The Author of the Breakfast Table" who said that "the greatest single source of happiness is the conviction that a certain course of conduct is right and that it is the only course for the wise man to follow." I was impressed by this statement, and have attempted to carry it out in the production of my latest book, "The Art of Writing," which has received almost universal acclaim. My hope is that it will continue to be read and enjoyed by many years to come.

The tariff, I suppose, is the most important of the necessities of life and is not likely to reduce the cost of living. The main reason for the rise in prices is the increased cost of living, which is the result of the gold and the changing value of the production. Wages, on the other hand, have not kept pace with the increase of prices.

The current economic situation is very complex. The trade union movement has been growing in strength, but it is still facing many challenges. The costs of living are rising, and the working class is struggling to maintain their standards of living. I believe that the only way to solve this problem is through a comprehensive reform of the tariff system.

The financial system is in a state of turmoil. The stock market has been volatile, and the banks are struggling to maintain their liquidity. The situation is exacerbated by the ongoing trade disputes and the uncertainty surrounding the future of the eurozone. It is clear that we need a comprehensive solution to this crisis.

DISTANCE MINNESOTA in Two-State Cross-Route Propaganda Campaign

Connecticut left minnesota in the rear in the recent contest between the two states in the Socialist Party's drive for votes. Now the Socialist Party is holding a cross-country campaign to make up for this shortcoming. In Minnesota, the Socialist Party has been active for some time, and the cross-country campaign is designed to strengthen the movement in that state.

The general propaganda campaign will continue in the near future, and some of the most active workers will be assigned to this work.

WISCONSIN

Fourteen miners are dead, and the other one is a cripple.

Two of the men who died were burned to death in the earlier explosion. The other twelve were killed by the eruption of the mine after the explosion. The dead men were the following:

- John A. Anderson
- Jacob B. Anderson
- William B. Anderson
- John W. Anderson
- John W. Anderson
- John W. Anderson
- John W. Anderson
