NEW YORK LABOR NEWS

The movement.

The Electrical Worker disputes this. "We are not being picked except as others are. We have been picketing for a few weeks. The difficulties within the American Electrical Workers Union have been nothing. The strike has been going on for weeks."

The course of this strike is considered by the Electrical Workers' Union to be a continuation of the strike by the Central Labor Unions in other industries, as the Central Labor Unions are engaged in a lockout of the Electrical Workers' Union. Although the strike has been going on for weeks, there are no reports of any significant developments.

The difficulties within the American Electrical Workers Union have been mentioned in the strike at the American Fifteen Glass Workers Union. The strike has been going on for weeks, and there are no reports of any significant developments.

THE WAGES OF INDOLENTNESS
WHAT OUR CAPTAINS OF INDUSTRY RECEIVE FOR DOING NOTHING
Tell a capitalist that Labor produces all wealth, and it will insist that nothing has ever been easier. Think of this: in the country, the wages of the workers account for no less than 60% of the total value of production. The capitalistic class receives the same amount, 60% of the total value. The reason is, the capitalists own no wealth. Their relative power is, therefore, 100%.

The only thing a capitalist does, is to hold on to wealth which continually flows into his hands when things are prosperous. He must be liked, or, as the capitalist classlikemindedly persists in saying, the "wages of indolence." These "wages of indolence" are paid under the supervision of bookkeeping, audits, and other securities, by virtue of which the system is preserved. The system is preserved by the fallacy of the labor of the falling-wage workers, the real profit of which is not in doubt. The wages of indolence, which comprises about a third of the total value, are very much as unproductive as any of the other three third of the total value.

DELIBERATE DISGUISE FOR DECAY

To the Daily and Weekly People—

This is a matter of concern to all classes considers its instruments for more worth of preservation than the three members of the Social Labor Party. It is contained in a report I heard a man make the other day in a very serious way that the Social Labor Party is no longer a factor in our political life. That is a serious charge, and one that is hard to understand. The issue of this newspaper has always been that the Social Labor Party is a force for good in our political life. That is the issue that we have always stood for, and that we have always fought for. That is the issue that we have always believed in, and that we have always worked for.

We have been fighting for the Social Labor Party for many years, and we have always believed in it. We have always believed that the Social Labor Party is a force for good in our political life. That is the issue that we have always stood for, and that we have always fought for. That is the issue that we have always believed in, and that we have always worked for.
