METAMORPHOSIS OF THE BRICKBAT

SPREADING THE LIGHT IN PHILADELPHIA
Second Coastline of Socialist Labor Party Literature Forwarded to Birke Zone

The General Committee of Section New York County, Socialist Labor Party, at its meeting on February 28, directed the Executive Committee to send out the following printed material: First, a booklet of 12 pages "Constitution of 1st Section, S. L. P. of the United States," containing a detailed statement of the organization and constitution of the party as laid down in the Constitution of the United States. This booklet is intended to be distributed among the Socialist workers in order to make them acquainted with the principles and history of the party. Second, an enlarged edition of the "Socialist Labor Party Literature" forwarded to Birke Zone.

In answer to the call, Section Phila. reports that the committed party has received the following literature: A copy of the "Socialist Labor Party Literature" forwarded to Birke Zone, as well as a copy of the "Constitution of 1st Section, S. L. P. of the United States." These materials will be distributed among the Socialist workers in the Birke Zone.

San Francisco Trades Council Recommends Admission of Chinese and Japanese to Union, Although "Gold Dust" Laws May Impede

The membership of the Washington State Federation of Labor is now one of the most important factors in determining the outcome of any meeting or discussion. The members of the Federation are drawn from a wide range of occupations and social classes, and their support is crucial to any proposal or resolution that is put forth. The Federation is deeply involved in the struggle for labor rights and social justice, and its members are committed to fighting for a better future for all workers.

San Francisco, Calif., February 18--The members of the San Francisco Trades Council have recommended admission of Chinese and Japanese workers to union membership. This is a significant development, as the "Gold Dust" laws have historically been used to exclude non-white workers from union membership. The council's recommendation is a step towards greater inclusion and equality in the labor movement.

Philadelphia's monster president
Philadelphia has recently elected a new mayor, who is currently running for re-election. The mayor is facing a challenge from several candidates, including a former city council member. The election is expected to be competitive, and the outcome will have significant implications for the city's future.

PUBLIC-DUTY RESUMED
Washington, March 7--The Supreme Court today dismissed the appeal of the city of Washington in the case of the U.S. Postmaster General versus Citizens of the District of Columbia. The appeal had been filed by the Postmaster General in an attempt to prevent the granting of a public-duties exemption to the city, which would allow the city to operate its own postal service.

The Working Woman's Wage

INSUFFICIENT TO KEEP BODY AND MIND NOURISHED, YET SHE MUST DRAWS ALONG ON IT.

In his remarks to the Detroit Women's Industrial Club, Mabel Loomis, daughter of the late Sarah Loomis, spoke on the subject of "The Working Woman's Wage." She pointed out that, while the wage of the working woman is insufficient to keep body and mind nourished, she must draw along on it.

"In the days of old," said Miss Loomis, "the working woman was looked upon as a necessity. But in the present day, she is considered as a luxury. The price of her work is not only insufficient, but it is often paid with a smile at her face. The working woman is the most neglected of all classes."
Two Pages From Roman History

Two Lectures by Daniel De Leon, Editor of The Daily People.

If you want to know why the Socialist Labor Party has often been called "socialist"—why its leaders have been so successful and why it has been given a name by those who have been opposed to it—read these two lectures. They are printed in a splendid little book which contains a complete history of the Socialist Labor Party from its earliest days to the present time. This book is the result of a long and careful study of the subject, and is based upon the work of the leading historians of the world. It is a must for all students of history, and a wonderful gift for the man who loves his country and his fellow men.

CORRESPONDENCE

[Continued from page 1.]

Dear Comrade,—This letter is to verify your information that we have been expelled from the Socialist party. I have become friends with the New York Socialists and have organized a straight Socialist party in the city. We have been expelled from the party, but we are firm in our principles and are continuing to work for the overthrow of the capitalist system.

Dear Sir,

I have been informed by the American Socialists that we have been expelled from the party. I have read the party's rules and regulations and I find that they are not consistent with the principles of socialism. I am determined to continue to work for the overthrow of the capitalist system.

Yours truly,

Comrade
