Struck off at Random

Some More Flashes from the Philadelphia Strike

Some of the workers who are striking against the Philadelphia Railroads have thrown a picket line across the street in front of the Philadelphia Central Station. The strike is threatened to spread to other parts of the city.

The strikers are demanding an increase of five cents per hour in wages. They have rejected the company's offer of a two-cent increase and are determined to continue the strike until their demands are met.

The company has locked out all the workers involved, and the strikers have vowed to continue the struggle until a settlement is reached.

The strike has caused a great deal of inconvenience to the public, as the trains are not running on time and some are not running at all. The company has promised to pay the workers the amount they are demanding, but the strikers refuse to accept it.

The situation is likely to continue for some time, and the public is advised to plan their travel carefully and be prepared for delays.

HERVE'S ARREST

From His Prison Cell Anti-Militarist Exposes His Burglarous Ego

Gustave Herve, the brilliant French Socialist and anti-militarist who on February 20th sentenced to four years' imprisonment as a menace to the public peace and criminal law and order, is at the moment being made for the disproportion of his sentence.

"Four years in prison for a newspaper article," he said in a recent interview. "But was ever a criminal, a robber or a murderer sentenced to prison for anything but the crimes committed by that sentence?"

"I am being kept in a prison cell, where the door has been opened, and there is no way of escape. But I am free as long as I am alive, and I shall continue to write and to think as long as I live."

Herve's arrest has caused considerable excitement in France. It was announced that the prisoner had been taken to a prison in Paris, but it was later learned that he had been transferred to a prison in a remote part of the country.

Herve is a well-known writer and journalist, and has been active in the Socialist movement for many years. He is the author of several books, including "The War on Capitalism" and "The Socialism of the Future." He is also a founder of the French Socialist Party.

Herve has been a constant critic of the war and the armaments race, and has urged the adoption of peaceful methods of international relations. He has also been a vocal opponent of the war in Vietnam and the Cold War.

GIRL MECHANICS

Exploded in Machine Shop for a Week—"Flange Mismatch" Frequently

Some of the biggest plants in the city of Chicago employ women machinists. However, there are not many of them, and those who are employed are usually young girls. The work is not the most pleasant in the world, but it is interesting and challenging. Many of the girls are married, and they have to work together to support their families.

"One of the girls I know has been working in the machine shop for three years," said a machine shop foreman. "She is a good worker, and she is always willing to help her fellow workers. She is a valuable asset to the shop, and I am glad to have her on my team."

"I have no doubt that she will continue to work in the machine shop for many years to come," said the foreman. "She is one of the best workers I have ever had in my shop."

Herve is a woman of great courage and determination. She is always ready to face any challenge that comes her way, and she is willing to work hard to achieve her goals. She is a fine example of the spirit of the Socialist movement, and she is deserving of our support.

"I am proud to be a member of the Socialist Party," said Herve. "I know that we will continue to work for a world where all people are free and equal, and where justice and peace prevail."

"I will always work for the welfare of my fellow workers, and I will continue to fight for the Socialism of the Future."
A BLOOD-STAINED PAGE
THE PARIS COMMUNE OF 1871

By Miss Bld, Pasadena, Calif.

The Paris Commune was
roused up by the fact that so
many of their friends and
neighbors had been killed. It
was a day of bitterness and
revenge. They could not
understand why they had not
been spared.

The bodies were thrown into
the Seine, and many of them
were restored to life by the
cold water. Unfortunately, it
was too late.

The Commune was proclaimed
on the 18th. Enthusiastic crowds
gathered at the Pere Lachaise,
where the bodies of the fallen
were laid out in rows. A great
mourning process was
organized, and a large crowd
marched through the streets.

The Commune was crushed by
force, and many of its leaders
were executed. The survivors
were scattered, and the
Commune was abolished.

The Commune was a great
step forward in the history of
socialism and democracy. It
showed that the people could
rule themselves if they were
given the opportunity.

The Commune was a failure,
but it was a great step forward.
It paved the way for future
revolutions, and its spirit lives
on in the hearts of the people.

The Paris Commune is
remembered as a great
achievement, and its
principles are still upheld by
the socialist movement.
